

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

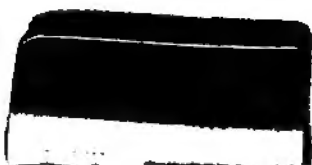

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

The Terms in the Graduate Courses of the Department of Philosophy and the Arts, in the Sheffield Scientific School, and in the School of the Fine Arts, coincide with the Academical Terms.

FACULTY AND INSTRUCTORS.

Rev. NOAH PORTER, D.D., LL.D.

*PRESIDENT, and Clark Professor of Moral Philosophy
and Metaphysics.*

(7 TR.) 31 Hillhouse av.

Kent Professor of Law.

Rev. LEONARD BACON, D.D., LL.D.

*Lecturer on Church Polity and American Church
History.*

(1 E. D. H.) 247 Church st.

Chittenden Professor of Divinity and College Pastor.

ELIAS LOOMIS, LL.D.,

*Munson Professor of Natural Philosophy and
Astronomy.*

(236 D.) 141 Church st.

WILLIAM A. NORTON, M.A.

Professor of Civil Engineering.

(34 N. S. H.) 72 Prospect st.

JAMES D. DANA, PH.D., LL.D.

Silliman Professor of Geology and Mineralogy.

24 Hillhouse av.

Rev. GEORGE E. DAY, D.D.

*Holmes Professor of the Hebrew Language and Literature
and Biblical Theology.*

(5 E. D. H.) 125 College st.

Rev. SAMUEL HARRIS, D.D., LL.D.

Dwight Professor of Systematic Theology.

(3 E. D. H.) 144 College st.

THOMAS A. THACHER, LL.D.

Professor of the Latin Language and Literature.

155 Crown st.

BENJAMIN SILLIMAN, M.D.

Professor of Chemistry.

34 Hillhouse av.

Rev. CHESTER S. LYMAN, M.A.

Sheffield Professor of Astronomy and Physics. (39 N. S. H.) 88 Trumbull st.

Rev. JAMES M. HOPPIN, D.D.

Professor of Homiletics and the Pastoral Charge. (7 E.D.H.) 79 Sachem st.

STEPHEN G. HUBBARD, M.D.

*Professor of Obstetrics and the Diseases of Women and
Children.*

23 College st.

WILLIAM D. WHITNEY, PH.D., LL.D.

*Professor of Sanskrit and Comparative Philology, and
Instructor in Modern Languages.*

(205 D.) 246 Church st.

MOSES C. WHITE, M.D.

Professor of Histology, Pathology, and Microscopy.

104 York st.

HON. FRANCIS WAYLAND, M.A.

*Professor of Mercantile Law and
Evidence.*

(17 Court House.) 91 Whitney av.

REV. GEORGE P. FISHER, D.D.

Professor of Ecclesiastical History.

(9 E. D. H.) 27 Hillhouse av.

WILLIAM P. TROWBRIDGE, M.A.

Higgin Professor of Dynamical Engineering. (45 N. S. H.) 82 Prospect st.

REV. TIMOTHY DWIGHT, D.D.

Buckingham Professor of Sacred Literature. (72 W. D. H.) 126 College st.

CHARLES A. LINDSLEY, M.D.

Professor of Materia Medica and Therapeutics.

132 Olive st.

HUBERT A. NEWTON, LL.D.

Professor of Mathematics.

(183 L.) 135 Elm st.

DAVID P. SMITH, M.D.

Professor of the Theory and Practice of Medicine.

Springfield, Mass.

GEORGE J. BRUSH, M.A.

Professor of Mineralogy.

(3 S. H.) 14 Trumbull st.

SAMUEL W. JOHNSON, M.A.

*Professor of Theoretical and Agricultural
Chemistry.*

(12 S. H.) 54 Trumbull st.

WILLIAM H. BREWER, M.A.

Norton Professor of Agriculture.

(4 S. H.) 246 Orange st.

FRANCIS BACON, M.D.

Professor of the Principles and Practice of Surgery.

32 High st.

LEONARD J. SANFORD, M.D.

Professor of Anatomy and Physiology.

126 Crown st.

HON. WILLIAM C. ROBINSON, M.A.

*Professor of Elementary and Criminal Law and the
Law of Real Property.*

(16 Exchange Building.) 76 Olive st.

LEWIS R. PACKARD, PH.D.

*Hillhouse Professor of the Greek Language and
Literature.*

(121 N.) 233 Church st.

JOHN F. WEIR, N.A., M.A.

Professor of Painting and Design.

(9 Art School.) 130 Bradley st.

JOHN E. CLARK, M.A.

Professor of Mathematics.

(6 S. H.) 8 Trumbull st.

CYRUS NORTHROP, LL.B.

Professor of Rhetoric and English Literature.

(137 F.) 607 Chapel st.

DANIEL C. EATON, M.A.

Professor of Botany.

70 Sachem st.

ARTHUR M. WHEELER, B.A.

Professor of History.

207 D.

ADDISON VANNAME, M.A.

Librarian.

(LIBRARY.) 121 High st.

J. WILLARD GIBBS, PH.D.

Professor of Mathematical Physics.

121 High st.

ARTHUR W. WRIGHT, PH.D.

Professor of Chemistry and Molecular Physics. (Lab'y.) 34 Hillhouse av.

THOMAS R. LOUNSBURY, B.A.

*Professor of English, and Librarian of the
Sheffield Scientific School.*

(6 S. H.) 22 Lincoln st.

OTHNIEL C. MARSH, M.A.

*Professor of Palæontology, and Curator of the
Geological Cabinet.*

(4 TR.) 9 College st.

D. CADY EATON, M.A.

Professor of the History of Art.

84 Prospect st.

EUGENE L. RICHARDS, B.A.

Assistant Professor of Mathematics.

(86 N. M.) 196 York st.

FRANCIS A. WALKER, PH.D.

Professor of Political Economy and History. (40 N. S. H.) 30 Trumbull st.

JOHN H. NIEMEYER, M.A.

Professor of Drawing.

8 Art School.

FRANKLIN B. DEXTER, M.A.

Assistant Librarian, and Registrar.

(LIBRARY.) 136 F.

SIMEON E. BALDWIN, M.A.

*Professor of Constitutional Law and the Law of
Contracts and Wills.*

(25 White's Building.) 44 Wall st.

OSCAR D. ALLEN, PH.D.

Professor of Analytical Chemistry and Metallurgy. (13 S.H.) 189 Temple st.

EDWARD B. COE, B.A.

Street Professor of Modern Languages.

(240 D.) 83 Wall st.

ADDISON E. VERRILL, M.A.

*Professor of Zoology and Curator of the Zoological
Cabinet.*

(42 N. S. H.) 148 College st.

FRANKLIN CARTER, M.A.

Professor of the German Language and Literature. (120 N.) 2 York sq.

WILLIAM G. SUMNER, B.A.

Professor of Political and Social Science.

(155 F.) 140 Edwards st.

JOHNSON T. PLATT, M.A.

*Professor of Pleading and Equity
Jurisprudence.*

(18 Exchange Building.) 128 Bradley st.

- EDWIN H. WILSON, M.A.
Tutor in Latin. 170 F.
- SIDNEY I. SMITH, PH.B.
Professor of Comparative Anatomy. (42 N. S. H.) 148 College st.
- WILLIAM G. MIXTER, PH.B.
Professor of Chemistry. (8 S. H.) 201 Orange st.
- HENRY P. WRIGHT, M.A..
*Assistant Professor of the Latin Language and Literature,
on the Dunham Foundation.* (89 N. M.) 34 Temple st.
- ISBON T. BECKWITH, PH.D.
Tutor in Greek. 70 N. M.
- JAMES K. THACHER, B.A.
Tutor in Physics. 58 White's Building.
- HENRY A. BEERS, B.A.
Assistant Professor of English Literature. (183 L.) 7 University pl.
- M. STUART PHELPS, PH.D.
Tutor in Logic. 21 S.
- RUFUS B. RICHARDSON, B.A.
Tutor in Greek. 5 S.
- SAMUEL R. MORROW, M.A.
Tutor in Greek. 153 F.
- EDWARD S. DANA, M.A.
Tutor in Mathematics, and Curator of the Mineralogical Cabinet. 102 N.
- JOSEPH A. GRAVES, B.A.
Tutor in Latin. 58 S. M.
- BENJAMIN HOPPIN, B.A.
Tutor in Mathematics. 41 S. M.
- HERBERT M. DENSLOW, B.A.
Tutor in Mathematics. 102 N.

- Rev. THEODORE D. WOOLSEY, D.D., LL.D.
Lecturer on International Law. 250 Church st.
- Hon. ORIGEN S. SEYMOUR, LL.D.
Lecturer on Judicial Procedure and Practice. Litchfield.
- Hon. LAFAYETTE S. FOSTER, LL.D.
Lecturer on Parliamentary Law and the Science of Legislation. Norwich.
- Rev. WILLIAM M. TAYLOR, D.D.
Lyman Beecher Lecturer on Preaching. New York City.
- J. HAMMOND TRUMBULL, LL.D.
Lecturer on the Indian Languages of North America. Hartford

MARK BAILEY, M.A..

Instructor in Elocution.

(150 F.) 185 Temple st.

ALBERT S. WHEELER, M.A.

Instructor in German.

710 Chapel st.

JOHN A. ROBINSON, LL.B.

Librarian of the Law School.

(19 Court House.) 68 East Pearl st.

WILLIAM L. BRADLEY, M.D.

Demonstrator in Anatomy.

22 College st.

GUSTAVE J. STOECKEL, Mus.D.

Instructor in Vocal Music.

137 York st.

FREDERIC H. BETTS, M.A.

Lecturer on Patent Law.

New York City.

FREDERIC R. HONEY,

Instructor in Instrumental Drawing.

(53 N. S. H.) 28 Clark st.

ABRAM M. SHEW, M.D., Sup't of General Hospital for Insane.

Lecturer on Insanity.

Middletown.

OSCAR HARGER, M.A.

Assistant in Palæontology.

(4 TR.) 14 University pl.

GEORGE B. FARNAM, M.D.

Lecturer on Medical Jurisprudence.

37 Hillhouse av.

JOSEPH J. SKINNER, C.E.

Instructor in Mathematics.

710 Chapel st.

MANSFIELD MERRIMAN, C.E.

Assistant in Civil Engineering.

(46 N. S. H.) 8 Audubon st.

AUGUST H. EDGREN, PH.D.

Instructor in French.

189 George st.

HENRY A. HAZEN, M.A.

Assistant in Drawing.

(52 N. S. H.) 55 N. S. H.

GEORGE W. HAWES, PH.B.

Assistant in Mineralogy.

(18 S. H.) 14 S. H.

ALLEN B. HOWE, PH.B.

Assistant in Analytical Chemistry.

14 S. H.

SAMUEL F. CLARK.

Assistant in Zoology.

58 N. S. H.

RUSSELL H. CHITTENDEN, PH.B.

Assistant in Physiological Chemistry.

(13 S. H.) 23 Humphrey st.

CHARLES HILDEBRAND, PH.B.

Assistant in Mechanical Drawing.

16 Chestnut st.

JULIAN KENNEDY, PH.B.

Instructor in Physics.

30 Bristol st.

THEOLOGICAL DEPARTMENT.

FACULTY.

REV. NOAH PORTER, D.D., LL.D., PRESIDENT.

REV. LEONARD BACON, D.D., LL.D.

REV. GEORGE E. DAY, D.D.

REV. SAMUEL HARRIS, D.D., LL.D.

REV. JAMES M. HOPPIN, D.D.

REV. GEORGE P. FISHER, D.D.

REV. TIMOTHY DWIGHT, D.D.

SPECIAL LECTURERS.

Rev. WILLIAM M. TAYLOR, D.D., *on Preaching.*

Rev. MARK HOPKINS, D.D., LL.D., *on the Scriptural Idea of God.*

Rev. JOHN HALL, D.D., *on the Relation of the Pastor to Sabbath School Instruction.*

Prof. LEONARD J. SANFORD, M.D., *on the Preservation of Health.*

GENERAL STATEMENT.

The departments of instruction in YALE COLLEGE are comprehended under four divisions, as follows:

The Faculty of THEOLOGY,
of LAW,
of MEDICINE,
of PHILOSOPHY AND THE ARTS.

Under the last-named Faculty are included, the COURSES FOR GRADUATE INSTRUCTION, the UNDERGRADUATE ACADEMICAL DEPARTMENT, the UNDERGRADUATE SECTION OF THE SHEFFIELD SCIENTIFIC SCHOOL, and the SCHOOL OF THE FINE ARTS—each having a distinct organization.

In the particular statements which follow, the Department of Philosophy and the Arts is first given, with its subdivisions in the order named; and afterwards the three Professional Departments.

The legal designation of the Corporation is "THE PRESIDENT AND FELLOWS OF YALE COLLEGE IN NEW HAVEN."

DEPARTMENT OF PHILOSOPHY AND THE ARTS.

Instruction for Graduates and Special Students.

Graduates of this and other Colleges, and other persons of liberal education (not less than eighteen years old), are received as students for longer or shorter periods, with or without reference to the attainment of a degree.

An Executive Committee, designated by the Faculty, has a general oversight of the students in this department. The Committee this year is composed of Professors Whitney, Newton, Brush, and Wheeler. They will receive and record the names of applicants for instruction, and judge and approve the courses of study proposed; and information may be obtained from them as to conditions, terms, etc. Students may also make special arrangements with any instructor according to their mutual convenience.

Instruction is given partly by lectures, partly by recitations and by oral and written discussions, partly by directing courses of reading, and partly by work in the laboratories and with instruments.

The terms and vacations correspond with those in the Undergraduate Departments. (See Calendar, p. 4.)

The fee for instruction in the Scientific School is \$150 a year; in the other sections of the Department generally \$100, or more or less, according to the course pursued and the amount of instruction received.

The degree of DOCTOR OF PHILOSOPHY is conferred upon those who, having already taken a Bachelor's degree, implying a course of undergraduate study equivalent to that pursued in the Academical Department, engage as students in this Department for not less than two years in assiduous and successful study. It is not given, upon examination, to those whose studies are pursued elsewhere. The requirements for it will in some cases exact of the student more than two years

of labor; so, especially, wherever the course of undergraduate study has been of less than four years. The candidate must pass a satisfactory final examination, and present a thesis giving evidence of high attainment in the branches of knowledge to which he has attended. A good knowledge of Latin, German, and French will be required in all cases, unless, for some exceptional reason, the candidate be excused by the Faculty. The graduating fee is ten dollars.

The courses of instruction given in the department may be grouped as follows:—

I. Political Science, History, Philosophy, and English Literature.

President PORTER will instruct in psychology and philosophy, in the history of philosophy, and in ethics.

Ex-President WOOLSEY will lecture on the principles of international law.

Professor BREWER will instruct in the relations of physical geography to political history.

Professor WHEELER will instruct in English history, from the beginning to the accession of Henry VII; also, from the revolution of 1688 to the accession of Victoria.

Professor WALKER will instruct in public finance and the statistics of industry.

Professor SUMNER will instruct in Constitutional Law, with lectures on the History of Politics and Finance in the United States; also, in Sociology.

Professor BEERS will instruct in the history of English literature.

Philology.

Professor THACHER will give instruction in such Latin authors as may be agreed upon.

Mr. J. H. TRUMBULL will instruct in the American Indian languages, especially the dialects of the Algonkin family.

Professor WHITNEY will instruct in the first year in the general principles of linguistic science, and in the second year in the comparative philology of the Indo-European languages. He will also teach the Sanskrit language, in a course of study extending through both years.

Professor PACKARD will instruct in special Greek authors and in the history of Greek literature.

Mr. VAN NAME will teach the elements of the Chinese and Japanese languages.

Professor LOUNSBURY will give instruction in the Anglo-Saxon language, and in the early forms and literature of English.

Professor COE will give instruction in Old French and Provençal.

Professor CARTER will instruct in the older Germanic languages and literature, including Gothic.

The Hebrew and other Semitic languages may be pursued under Professor DAY of the Theological Department, either in connection with his regular classes or otherwise.

III. *Mathematical and Physical Science.*

For the instruction given to graduate and special students in the Sheffield Scientific School, see pages 62, 63. The courses there specified may be variously combined with those here announced, or the student may occupy himself in either section exclusively, according to his circumstances and plans.

Professor LOOMIS will teach meteorology, with especial reference to the making and reducing of meteorological observations.

Professor DANA will instruct in geology.

Professor NEWTON will instruct in the calculus, in analytical statics, and in the dynamics of a particle, in the lunar and planetary theories, and in the higher geometry.

Professor GIBBS will instruct in the laws of vibratory and undulatory motion, with especial reference to light and sound ; in the combination of observations by the method of least squares ; in the potential function, with its application to the theories of electricity and magnetism ; and in capillarity.

Professor A. W. WRIGHT will give instruction in physical manipulation, in the departments of heat, light, and electricity, with practical directions as to the management of apparatus.

Mr. E. S. DANA will give instruction in optical mineralogy and crystallography.

IV. *Fine Arts.*

For the instruction given to graduate and special students in the School of the Fine Arts, see pages 71-74.

UNDERGRADUATE ACADEMICAL DEPARTMENT.

CANDIDATES FOR ADMISSION to the Freshman Class are examined in the following books and subjects :—

Latin Grammar—including Prosody.

Sallust—Jugurthine War ; or four books of Cæsar.

Cicero—seven Orations.

Virgil—Bucolics, Georgics, and first six books of the *Æneid*.

Arnold's Latin Prose Composition, to the Passive voice (first twelve chapters.) [It is suggested to teachers, in addition to the use of the work named, to connect simple exercises in making Latin, either oral or written, with all the Latin studies of their pupils throughout the preparatory course.]

Greek Grammar—including Prosody.

Xenophon—Anabasis, four books.

Homer—Iliad, three books.

Greek History.

The rules for pronunciation given in Hadley's Grammar are recommended as a guide.

Higher Arithmetic—including the metric system of weights and measures.

Algebra—so much as is included in Loomis's Treatise, up to the chapter on Logarithms.

Euclid—first two books. [The first, third, and fourth books of Davies's Legendre's Elements of Geometry, or of Loomis's Elements of Geometry, may be offered instead of Euclid.]

English Grammar and Geography ; a thorough knowledge of which is required.

Each student is required to pass an examination in the elements of either the French or the German language, before entering (in the Junior year) on the advanced study of the one of those languages which he shall elect to pursue. An opportunity is given for passing this examination, at the same time with the other examinations for admission ; other opportunities will be given at the beginning of the Sophomore and Junior years.

In French, the requirements are, the rules and forms of Part I of Otto's Grammar (omitting the exercises), and two chapters of Fénelon's *Télémaque*.

In German, the requirements are, the paradigms and large type in Whitney's Grammar, and twenty-five pages of Whitney's Reader.

Equivalent amounts of French or German reading from other authors may be offered.

THE REGULAR EXAMINATION FOR ADMISSION is held at Graduates' Hall on the Friday, Saturday, and Monday following Commencement (June 30, July 1, 3, 1876): *attendance is required at the beginning of the examination, at 9 A. M. on Friday*; those candidates will be detained until Monday, whose examination cannot, for any reason, be finished on Saturday. The examination is partly oral and partly written; copies of papers recently given (covering the written portion of the examination) will be sent on application.

A second Examination (for those who cannot attend the first) is held at the beginning of the College year, on Tuesday and Wednesday (Sept. 12, 13, 1876): candidates for this examination must attend at Graduates' Hall at 9 A. M. on Tuesday.

Persons applying to be examined at other times must first obtain special permission from the Faculty, and pay to the Treasurer a fee of ten dollars. In general, no examinations for admission to the Freshman Class can be held in advance of the time above specified.

ADVANCED STANDING.—All candidates for advanced standing, *whether from other Colleges or not*, are examined, in addition to the preparatory studies, in those already pursued (see next page) by the Class which they purpose to enter. In the several languages, for the particular books studied by the Class, equivalent amounts may be offered from other books in the same language.

Bachelors of Arts or of Philosophy of any institution may join the Senior Class without examination, as candidates for the degree of Doctor of Philosophy; which degree will be conferred on such persons after three years' study.

No one can be admitted to the Senior Class after the beginning of the second term.

AGE.—No one can be admitted to the Freshman Class till he has completed his fifteenth year, nor to an advanced standing without a corresponding increase of age.

TESTIMONIALS.—Satisfactory testimonials of good moral character are in all cases required; and students from other Colleges must present certificates of dismissal in good standing.

BOND.—Every person must give to the Treasurer, on being admitted, a bond, executed by his parent or guardian, for five hundred dollars, as security for the payment of all charges arising under the laws of the College.

Course of Instruction.

THE COURSE OF INSTRUCTION occupies four years. In each year there are three terms or sessions.

The following is a scheme of the studies, or, more correctly, of equivalents which will be accepted from candidates for advanced standing:—

FRESHMAN YEAR.

FIRST TERM.—*Greek*—Homer's *Odyssey*, begun. *Latin*—Livy, begun. *Mathematics*—Todhunter's *Euclid*; Loomis's *Algebra*.

SECOND TERM.—*Greek*—Homer's *Odyssey*, continued through four books; Herodotus, begun; Arnold's *Greek Composition*. *Latin*—Livy, continued through a hundred pages; Arnold's *Latin Composition*. *Mathematics*—Chauvenet's *Geometry*. *History*—Liddell's *Rome*.

THIRD TERM.—*Greek*—Herodotus, continued through half of the first book; Arnold's *Greek Composition*. *Latin*—Odes of Horace, three books; Arnold's *Latin Composition* (to page 150). *Mathematics*—Chauvenet's *Geometry*; Loomis's *Trigonometry*. *Rhetoric*—Recitations and Lectures. Compositions.

SOPHOMORE YEAR.

FIRST TERM.—*Greek*—Six Orations of Demosthenes. *Latin*—Satires and Epistles of Horace. *Mathematics*—Loomis's *Trigonometry*; Loomis's *Analytical Geometry*; Loomis's *Conic Sections*. *Rhetoric*—Lectures on Elocution, with practice. Declamations. Lectures on Composition. Compositions. Criticism.

SECOND TERM.—*Greek*—Prometheus of Æschylus; Xenophon's *Memorabilia*, one book. *Latin*—Cicero *de senectute* and *de officiis*; *Captivi* of Plautus. *Mathematics*—Loomis's *Trigonometry*. *Rhetoric*—Declamations. Compositions.

THIRD TERM.—*Greek*—Antigone of Sophocles; Plato's *Apology* of Socrates and *Crito*. *Latin*—Satires of Juvenal. *Mathematics*—Peck's *Mechanics*. *Rhetoric*—Declamations. Compositions.

JUNIOR YEAR.

FIRST TERM.—*Greek*—Plato's *Gorgias*, or two books of Arrian's *Anabasis*. *Mathematics*—(See *Elective Studies*, page 55). *Physics*—Ganot's *Physics*; *Mechanics*. *Rhetoric*—Morris and Skeat's *Specimens of Early English*. Craik's *History of English Literature*. Forensic Disputations. Lectures. *Logic*—Jevons's *Logic*.

SECOND TERM.—*Latin*—The *Adelphi* of Terence, the *Agricola* of Tacitus, and the *Octavius* of Suetonius. *French* or *German*. *Mathematics*—(See *Elective Studies*, page 55). *Natural Philosophy*—Ganot's *Physics*. Lectures. *Rhetoric*—Forensic Disputations.

THIRD TERM.—*Astronomy*—Loomis's *Astronomy*, to Chapter xii. *Physics*—Recitations and Lectures. *Greek*—Demosthenes on the Crown, or half a book of Thucydides. Lectures. *French* or *German*.

SENIOR YEAR.

FIRST TERM.—*Mental Philosophy*—Porter's Human Intellect. Lectures. *Political and Social Science*—Fawcett's Political Economy. Lectures. *Astronomy*—Loomis's Astronomy, finished. *Rhetoric*—Compositions. Criticism. *History*—Guizot's History of Civilization. *Chemistry*—Lectures and Recitations.

SECOND TERM.—*Natural Theology and Evidences of Christianity*—Lectures. *Moral Philosophy*—Recitations and Lectures. *Geology*—Dana's Geology. *Rhetoric*—Compositions. *History*—Hallam's Constitutional History. Lectures on English History in xvi. and xvii. centuries. *Political and Social Science*—Lieber's Civil Liberty. Lectures. *Anatomy and Physiology*—Lectures.

THIRD TERM.—*History of Philosophy*—Schwegler's History. *Political and Social Science*—Woolsey's International Law. *Constitutional History*—De Tocqueville's Democracy in America. Lectures. *Constitution of the United States*—Lectures. *Languages and the Study of Language*—Lectures.

LECTURES.

FIRST TERM.

SENIOR CLASS.—*Intellectual Philosophy*—THE PRESIDENT. *Chemistry*—PROFESSOR WRIGHT. *Political Economy*—PROFESSOR SUMNER.

JUNIOR CLASS.—*History of Greek Literature*—PROFESSOR PACKARD. *History of English Literature*—PROFESSOR BEERS.

SOPHOMORE CLASS.—*Rhetoric*—PROFESSOR NORTHROP.

FRESHMAN CLASS.—*Hygiene*—PROFESSOR SANFORD.

SECOND TERM.

SENIOR CLASS.—*Natural Theology and Evidences of Christianity*—THE PRESIDENT. *Moral Philosophy*—THE PRESIDENT. *Anatomy and Physiology*—PROFESSOR SANFORD. *History*—PROFESSOR WHEELER. *Political Philosophy*—PROFESSOR SUMNER.

JUNIOR CLASS.—*Natural Philosophy*—PROFESSOR LOOMIS.

THIRD TERM.

SENIOR CLASS.—*Language and the Study of Language*—PROFESSOR WHITNEY. *History*—PROFESSOR WHEELER. *Elements of Jurisprudence, and American Constitutional Law*—PROFESSOR BALDWIN.

JUNIOR CLASS.—*Physics*—PROFESSOR WRIGHT.

EXERCISES IN DECLAMATION AND COMPOSITION.—The Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have regular exercises in elocution; and once a week, during a part of the year, have an exercise in declamation before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.—Those students who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose the Differential and Integral Calculus, during the first two terms of Junior year, in place of the Greek or the Latin studies of those terms.

PUBLIC EXAMINATIONS are held at the close of the first and second terms, on the studies of the term; and, at the close of the year, on all the studies of the year. The annual examinations are conducted wholly in writing, and continue for about two weeks.

VOCAL MUSIC.—Gratuitous instruction in Vocal Music is given during a part of the year (the exercises being open to members of all the Departments of the College), subject, however, to a small charge for fire and lights.

Terms and Vacations.

THE PUBLIC COMMENCEMENT is held on the Thursday after the last Wednesday in June.

The first term for the year 1875-76 begins eleven weeks from Commencement-day and continues fourteen weeks; the second begins on the first Thursday in January and continues thirteen weeks; the third begins ten weeks before Commencement-day. The intervening periods, of eleven, two, and two weeks, are assigned for vacations. (See Calendar, p. 4.) The exercises of each term begin with prayers in the Chapel on Thursday morning.

LEAVE OF ABSENCE.—No student is allowed to be absent without special leave, except in the vacations.

Public Worship.

PRAYERS are attended in the Chapel every morning, with reading of the Scriptures and singing, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on Sunday, at which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only on presenting to the President a written request therefor from the parent or guardian.

Gymnasium.

The Gymnasium is designed to provide all the students with opportunities for exercise. Those who use the bath-rooms pay a small fee for tickets.

Expenses.

THE TREASURER'S BILLS are made out three times a year, and are delivered before the close of each term to the students, who are required to present them to their parents or guardians. The bills are payable at the close of the term; if not paid within two weeks after the beginning of the succeeding term, the student is liable to be prohibited from reciting.

The annual charge for tuition and incidentals is \$140.

For the rent and care of a half-room in the College buildings, the average charge is \$35 per year.

OTHER CHARGES.—There are additional charges at graduation, amounting to \$18. If a student occupies a room alone, the charge for rent and care is ordinarily double that stated above.

ABSENCE ON LEAVE.—A student who is absent from College on account of sickness, or for any other cause, and still retains his place in his class, pays full tuition during such absence.

BOARD.—Board is obtained at prices varying from \$4 to \$8 a week. The average price for the summer of 1875 was about \$6. Board may be obtained in clubs, at a lower rate than is common in boarding houses.

ROOMS.—There are at present in the College buildings about 220 rooms occupied by students, at prices varying (according to location) from \$25 to \$140 per year, not including vacations. Students living out of College are not allowed to room in any building in which a family does not reside, except by special permission of the Faculty.

FURNITURE, BOOKS, ETC.—Students provide for themselves furniture, fuel, lights, and text-books; if books and furniture are sold when the student has no further necessity for them, the expenses incurred by their use will not be great.

NECESSARY EXPENSES.—The following may be considered a near estimate of the *necessary* annual expenses, for a student occupying a half-room in College, without including apparel, traveling, and board in vacations:—

Treasurer's bill (according to location of room), from \$160 to \$220		
Board, 37 weeks, - - - - -	"	150 to 300
Fuel, lights, and washing, - - - - -	"	35 to 65
Use of text-books and furniture, - - - - -	"	30 to 65
Total, - - - - -		<hr/> \$375 \$650 <hr/>

COLLEGE GUARDIAN.—As a precaution against extravagance, parents at a distance sometimes deposit funds with one of the Faculty; who, in that case, attends to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of expenditures, for which services he charges a commission.

Beneficiary Funds.

The sum of \$8,000 and upwards, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially of those preparing for the Christian ministry. About eighty thus have their tuition either wholly or in part remitted. Students needing such aid should inform the Senior officer of the Class to which they belong, soon after entering College. Assistance will be withdrawn from students who incur serious College censure, or who fail to maintain a reputable scholarship.

THE HARMER FOUNDATION OF SCHOLARSHIPS comprises six scholarships, each yielding one hundred dollars a year, to be given to deserving students of small means.

There are also eighteen other Scholarships, most of them yielding sixty dollars a year, which may be given to such students as shall be selected by the founders or the Faculty.

Students who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with many of the text-books used in the College course.

Fellowships and Scholarships.

THE DOUGLAS FELLOWSHIP, with an income of at least six hundred dollars a year, was founded in 1873 by Mrs. Samuel Miller, of New Haven, and named in memory of her brothers, Rev. Sutherland Douglas (Y. C. 1822) and George H. Douglas (Y. C. 1828). The incumbent, who must be a recent graduate

of the Academical Department, pursuing non-professional studies in New Haven, is elected annually, but may not hold the Fellowship for more than three years.

THE SOLDIERS' MEMORIAL FELLOWSHIP, with an annual income of six hundred dollars, was founded in 1875 by Mrs. Theodosia D. Wheeler, of New Haven, in honor of the alumni who fell in battle as Union soldiers, in the war of 1861-1865, and in especial remembrance of William Wheeler, of the Class of 1855. The incumbent must be at the time of his election a graduate of the Academical Department of not more than three years' standing. He shall reside in New Haven, pursuing non-professional studies, and may hold the Fellowship for a period not exceeding five years.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior Class who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals), and Horace; provided he remain in New Haven as a graduate, one, two, or three years.

THE CLARK SCHOLARSHIP, yielding one hundred and twenty dollars a year, is awarded to the student in each Senior Class who passes the best examination in the studies of the College course; provided he remain in New Haven one or two years immediately succeeding his graduation, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding over one hundred dollars a year, is awarded, whenever there is a vacancy, to the student in the Sophomore or Junior Class who passes the best examination in the Greek and Latin classics and mathematics. The successful candidate receives the annuity (forfeiting one-third in case of non-residence) until he would regularly take his second degree.

THE WOOLSEY SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate receives the annuity, under certain conditions, during the four years of his College course. The student who stands second at this examination receives for one year the income of the

•

HURLBUT SCHOLARSHIP; and the student who stands third, the income for one year of the **THIRD FRESHMAN SCHOLARSHIP**. The income of each of these Scholarships is \$60.

Premiums.

THE DEFOREST PRIZE MEDAL, of the value of \$100, is awarded "to that scholar of the Senior Class who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

THE SENIOR MATHEMATICAL PRIZES (the first consisting of a gold medal of the value of ten dollars and of ten dollars in money, the second of ten dollars in money) are offered to the Senior Class for the best solutions of problems in both abstract and concrete mathematics.

CLARK PREMIUMS are offered to the Senior Class, for the solution of problems in Practical Astronomy.

THE WINTHROP PRIZES (one of two hundred dollars and one of one hundred dollars) are offered to the Junior Class "for the most thorough acquaintance with the Greek and Latin poets," as shown at an examination during the third term.

THE SCOTT PRIZES for excellence in the Modern Languages are offered to the Junior Class; these prizes are two in number, of the value of thirty dollars each, and are given in books.

COLLEGE PREMIUMS are given in the Sophomore Class for English composition, and for declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

BERKELEY PREMIUMS for Latin Composition are offered to the Freshman Class near the beginning of the third term.

THE JOHN A. PORTER PRIZE, of two hundred and fifty dollars, is given at each Commencement for the best English Essay. Any person who has been studying for a degree in any department of the University during the entire College year may compete for this prize.

Degrees.

The degree of **BACHELOR OF ARTS** is conferred by the Corporation on those persons who have completed the course of

academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates are required to pay their dues to the Treasurer as early as the Monday before Commencement.

The degree of MASTER OF ARTS is conferred on Bachelors of Arts of this College, of two years' standing or upwards, who have given to the Academical Faculty evidence of having made satisfactory progress in liberal studies after receiving their first degree.

Such evidence may be furnished, first, by one year's systematic study (not professional) in New Haven, under the direction and instruction of the Academical Faculty, followed by an examination. Bachelors of Arts of other Colleges are admitted without examination to any of the courses of graduate instruction; and after a course of resident study, may, on a satisfactory examination, be recommended for the Master's degree.

In the second place, such Bachelors of Arts of this College as may not choose to reside at the College for the prosecution of study, may, at any time not less than three years after graduation, show to the Academical Faculty, by their printed writings, or by submitting to special examinations, or by any other satisfactory evidence of a year's liberal study, that they are worthy of recommendation for this degree.

A suitable fee will be charged for examinations.

Candidates for this degree must give notice to the Secretary before the first of April.

SHEFFIELD SCIENTIFIC SCHOOL.

THE SHEFFIELD SCIENTIFIC SCHOOL is devoted to instruction and researches in the mathematical, physical, and natural sciences, with reference to the promotion and diffusion of science, and also to the preparation of young men for such pursuits as require especial proficiency in these departments of learning.

The School, begun in 1847, and reorganized upon a more extensive scale in 1860, received in 1864, by the act of the Connecticut Legislature, the national grant for the promotion of scientific education under the Congressional enactment of July, 1862. It thus became in consequence the "College of Agriculture and the Mechanic Arts" for Connecticut.

OFFICERS AND INSTRUCTORS.—In addition to the Governing Board (mentioned on p. 37), on whom devolves the internal management of the School, the following additional instructors are employed during the current year:—

ALBERT S. WHEELER, M.A., German; FREDERICK R. HONEY, Drawing; JOSEPH J. SKINNER, C. E., Mathematics; AUGUST H. EDGREN, Ph.D., French; GEORGE W. HAWES, Ph.B., Mineralogy; MANSFIELD MERRIMAN, C.E., Civil Engineering; HENRY A. HAZEN, M.A., Drawing; RUSSELL H. CHITTENDEN, Ph.B., Physiological Chemistry; SAMUEL F. CLARK, Zoology; ALLEN B. HOWE, Ph.B., Analytical Chemistry; SAMUEL F. CLARK, Zoology; CHARLES HILDEBRAND, Ph.B., Mechanical Drawing; JULIAN KENNEDY, Ph.B., Physics.

Instruction is given in Elementary and Free-hand Drawing by Professor NIEMEYER, of the Yale School of the Fine Arts; in Elocution by MARK BAILEY, M.A.

The Board of State Visitors consists of the Governor, Lieutenant-Governor, three senior Senators, and the Secretary of the Board of Education.

The Board of Councilors, invited by the Corporation to advise and assist in the progress of the School, are as follows:—Hon. J. E. ENGLISH, of New Haven; Hon. M. JEWELL, of Hartford; Hon. J. R. HAWLEY, of Hartford; Hon. O. F. WINCHESTER, of New Haven; JOSEPH E. SHEFFIELD, Esq., of New Haven;

Professor J. D. DANA, of New Haven; HENRY FARNAM, Esq., of New Haven; M. DWIGHT COLLIER, M.A., of St. Louis; Hon. WILLIAM E. DODGE, of New York City.

The instruction is intended for two classes of students:—

I.—Graduates of this or of other Colleges, and other persons qualified for advanced or special scientific study.

II.—Undergraduates who desire a training, chiefly mathematical and scientific, in part linguistic and literary, for higher scientific studies, or for other occupations to which such training is suited.

Instruction for Graduate and Special Students.

Persons who have gone through undergraduate courses of study, here or elsewhere, may avail themselves of the facilities of the School for more special professional training in the physical sciences and their applications, gaining in one, two, or three years the degree of BACHELOR OF PHILOSOPHY, or, in two additional years of Engineering study, that of CIVIL ENGINEER or DYNAMIC ENGINEER.

Or, engaging in studies of a less exclusively practical character, they may become candidates for the degree of DOCTOR OF PHILOSOPHY, under the conditions already stated (see p. 48). The instruction in such cases will be adapted to the particular needs and capacities of each student, and may be combined with that given by the graduate instructors in other departments (see pp. 49, 50). Subjects likely to receive special attention are suggested as follows:—

Professor NORTON will instruct in applied mechanics and in spherical astronomy.

Professor LYMAN, in the use of meridional and other astronomical instruments, and in astronomical spectroscopy.

Professor TROWBRIDGE, in the principles of thermodynamics, and the artificial generation, transfer, and utilization of heat as a source of power.

Professor BRUSH, in the analysis and determination of mineral species, and in descriptive mineralogy.

Professor JOHNSON, in theoretical, analytical, and agricultural chemistry.

Professor BREWER, in agriculture and forest culture, in the use of the microscope, and in physical geography.

Professor CLARK, in definite integrals, differential equations, analytical mechanics, the theory of numerical approximations, and the method of least squares.

Professor EATON, in structural and systematic botany, including the North American flora and the description of genera and species.

Professor MARSH, in palæontology and comparative osteology.

Professor WALKER, in public finance and in the statistics of industry.

Professor ALLEN, in analytical chemistry, and in metallurgy.

Professor VERRILL and Professor SMITH, in zoology and geology.

The same courses of study are open, for a longer or shorter time, to graduate students who do not desire to become candidates for a degree.

The degrees of CIVIL and DYNAMIC ENGINEER are conferred on Bachelors who have taken the first degree in engineering study, and who pursue a higher course for at least two years, sustaining a final examination, and giving evidence of their ability to design important constructions and to make the requisite drawings and calculations.

SPECIAL STUDENTS.—For the benefit of those who, being fully qualified, desire to pursue particular studies without reference to the obtaining of a degree, special or irregular students are received in most of the departments of the School; not, however, in the Select Course, nor in the Freshman Class.

It should be distinctly understood that these opportunities are not offered to persons who are incompetent to go on with regular courses, but are designed to aid those who have received a sufficient preliminary education elsewhere to increase their proficiency in special branches.

Instruction for Undergraduate Students.

TERMS OF ADMISSION.—Candidates must be not less than sixteen years of age, and must bring satisfactory testimonials of moral character from their former instructors or other responsible persons.

For admission to the Freshman Class the student must pass a thorough examination in the following subjects:—

English Grammar—including spelling and composition.

History of the United States.

Geography.

Latin—Six books of Cæsar's Commentaries, or their equivalent, and simple exercises in prose composition.

Arithmetic—including the Metric System.

Algebra—Davies' Bourdon, or Loomis's Treatise, as far as the general theory of equations ; or an equivalent.

Geometry—Chauvenet's Geometry ; or an equivalent.

Trigonometry—an equivalent to Loomis's Plane Trigonometry, or to the Plane and Analytical Trigonometry of Davies' Legendre. (In the examinations of 1877, Snowball and Lund's Course of Elementary Natural Philosophy will be required.)

The examinations for admission take place at North Sheffield Hall, on Friday and Saturday, June 30, July 1 ; and on Tuesday and Wednesday, September 12, 13, 1876. Opportunity for private examination may, in exceptional cases, be given at other times.

Candidates for advanced standing in the undergraduate classes are examined, in addition to the preparatory studies, in those already pursued by the class they purpose to enter. No one can be admitted as a candidate for a degree later than at the beginning of the Senior year.

COURSES OF INSTRUCTION, occupying three years, are arranged to suit the requirements of various classes of students. The first year's work is the same for all ; during the last two years the instruction is chiefly arranged in special courses.

The special courses most distinctly marked out are the following :—

- (a.) In Chemistry ;
- (b.) In Civil Engineering ;
- (c.) In Dynamic (or Mechanical) Engineering ;
- (d.) In Agriculture ;
- (e.) In Natural History ;
- (f.) In studies preparatory to Medical Studies ;
- (g.) In studies preparatory to Mining and Metallurgy ;
- (h.) In Select studies preparatory to other higher studies.

The arrangement of the studies is indicated in the annexed scheme.

FRESHMAN YEAR.—INTRODUCTORY TO ALL THE COURSES.

FIRST TERM.—*German*,—Whitney's Grammar and Reader. *English*,—Hadley's Brief History of the English Language ; Exercises in Composition. *Mathematics*,—Plane Analytical Geometry. *Physics*,—Atkinson's Ganot, with

experimental lectures. *Chemistry*,—Eliot and Storer's Manual: Laboratory practice. *Elementary Drawing*,—Practical Lessons in the Art School.

SECOND TERM.—*Language, Physics, Chemistry, and Drawing*,—As stated above. *Mathematics*,—Elements of the Theory of Numerical Approximations; Solution of Higher Numerical Equations; Methods of Interpolation. *Physical Geography*,—Lectures.

THIRD TERM.—*German and Physics*,—As stated above. *Mathematics*,—Analytical Geometry in Space; Spherical Trigonometry. *Botany*,—Gray's Lessons. *Polit. Economy*,—Elementary Lectures. *Drawing*,—Orthographic Projection.

For the Junior and Senior years the students select for themselves one of the following courses:—

(a.) IN CHEMISTRY.

JUNIOR YEAR.

FIRST TERM.—*Theoretical and Organic Chemistry*,—Lectures. *Qualitative Analysis*,—Fresenius. *Laboratory Practice*. *Blowpipe Analysis*. *German*. *French*.

SECOND TERM.—*Laboratory Practice*,—Qualitative Analysis, continued. Quantitative Analysis, begun. *Mineralogy*,—Blowpipe Analysis and Determination of Species. *Zoology*,—Lectures. *German*. *French*.

THIRD TERM.—*Laboratory Practice*,—Quantitative Analysis, continued. *Mineralogy*,—Lectures. *Zoology*,—Lectures and Excursions. *German*. *French*.

SENIOR YEAR.

FIRST TERM.—*Laboratory Practice*,—Volumetric and Organic Analysis. *Geology*,—Dana's. *Zoology*,—Lectures. Excursions. *French*.

SECOND TERM.—*Laboratory Practice*,—Mineral Analysis and Assaying. *Agricultural Chemistry*,—Recitations and Lectures (optional). *Geology*,—Dana's. *Metallurgy* (optional). *French*. *Zoology*,—Lectures.

THIRD TERM.—*Laboratory Practice*. Preparation of Thesis. *Agricultural Chemistry*,—Lectures (optional). *Geology*,—Dana's. *Metallurgy* (optional). *Mineralogy* (optional). *French*. *Zoology*,—Lectures.

(b.) IN CIVIL ENGINEERING.

JUNIOR YEAR.

FIRST TERM.—*Mathematics*,—Differential and Integral Calculus. Descriptive Geometry. *Surveying*,—Field Operations. *Drawing*,—Binns' Orthographic Projections. *German*. *French*.

SECOND TERM.—*Mathematics*,—Integral Calculus. Rational Mechanics. *Drawing*,—Projection of Shadows and Perspective. *German*. *French*.

THIRD TERM.—*Mathematics*. Rational Mechanics. Descriptive Geometry. Warped Surfaces. *Surveying*,—Topographical. *Drawing*,—Topographical. *German*. *French*.

SENIOR YEAR.

FIRST TERM.—*Field Engineering*,—Laying out Curves. Location of line of Railroad, with calculations of Excavation and Embankment. Hencks' Field Book for Railroad Engineers. *Civil Engineering*,—Mahan's. *Stone Cutting*,—with graphical problems. *Geology*,—Dana's. *Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *Drawing*,—Architectural and Structural. *French*.

SECOND TERM.—*Civil Engineering*,—Resistance of Materials. Bridges and Roofs. Building Materials. *Astronomy*,—Loomis's Astronomy, with practical problems. *Mineralogy*,—continued. *Geology*,—Dynamic. *French*.

THIRD TERM.—*Civil Engineering*,—Bridges and Roofs. Stability of Arches and Walls. *Dynamics*,—Principles of Mechanism. Steam Engine. *Hydraulics*,—Hydraulics and Hydraulic Motors.

(c.) IN DYNAMICAL ENGINEERING.

JUNIOR YEAR.

FIRST TERM.—Analytical Geometry of three Dimensions. Differential Calculus. Descriptive Geometry. Instrumental Drawing. *German*. *French*.

SECOND TERM.—Differential and Integral Calculus. Instrumental Drawing. *German*. *French*.

THIRD TERM.—*Mechanics*. Binns' Second Course of Drawing, including drawing of gearing, perspective, shades and shadows, tinting, construction of warped surfaces, and isometric drawing. *German*. *French*.

SENIOR YEAR.

FIRST TERM.—*Drawing*,—Construction of Machines from actual measurements in the shops. *General Theory of Motion*,—Applications of this theory to the motions of bodies, and to the motions of parts of machines. *General Theory of Gearing*,—Cams, connections by bands, links, cords, and hydraulic connections. General principles of trains of mechanism. Mechanical powers. Aggregate combinations in mechanism (Rankine). *Theory of Valve Motions* (Zeuner). *Applied Mechanics*,—Machinery and mill work. Dynamics of Machinery (Rankine), begun. *French*. *Geology*.

SECOND TERM.—*Applied Mechanics*,—continued. *Dynamics of Machinery*.—Theory of Machines.—Special applications of the Theory of Machines to problems involving the efficiency of machines and to special machines. *Materials used in construction*, their composition and qualities, iron, steel alloys, wood, animal substances. Drawing (construction of machines), continued. *Theory of Elasticity*,—Principles of construction of roof-trusses, beams, girders, and bridges. Principles relating to resistance to torsion of shafts, to shearing, and to stiffness and stability of structures. (Rankine.) *Heat*,—General principles. Application of principle of specific heat. Action of bodies under the influence of heat. Change of states of aggregation. Expansion. Applications of law of Mariotte and Gay Lussac. Gases. Vapors. Laws of expansion. Densities. Elastic force of gases and vapors. Quanti-

ties of heat. Latent heats of fusion and evaporation. *Combustion*,—Quantities of air required, nature of products, heat evolved. *Fuel*,—Kinds and quantities, Transfer of heat. *Description of Steam Generators*,—Principles of construction of steam generators. *Geology. French.*

THIRD TERM.—*Prime Movers in General*,—Animal mechanics, water powers, heat engines, regulators, dynamometers, valves, brakes, fly-wheels, governors, measurement of friction, &c. *Water Power Engines*,—Sources of water power, measurement of supply. Construction of conduits. Measurements of flow. Hydraulic press. Water pressure engines. *Water Wheels*,—Overshot, undershot, and breast wheels. Reaction wheels. Turbine wheels. Wind power. *Heat Engines*,—Principles of thermodynamics. Air engines. Steam engines. Efficiency of steam and air engines. Mechanism of steam and air engines. Drawing of structures. *Metallurgy.*

(d.) IN AGRICULTURE.

JUNIOR YEAR.

FIRST TERM.—*Theoretical and Organic Chemistry*,—Lectures. *Experimental and Analytical Chemistry*,—in their Agricultural applications. Laboratory Practice. *Physical Geography. Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *English. German. French.*

SECOND TERM.—*Agricultural Chemistry*,—Recitations. *Experimental Chemistry*,—Laboratory Practice. *Physical Geography. Mineralogy. Lectures. English. German. French.*

THIRD TERM.—*Agricultural Chemistry*,—Lectures. *Horticulture and Kitchen Gardening*,—Lectures. *Experimental Chemistry*,—Laboratory Practice. *Botany and Zoology*,—with Excursions. *Mineralogy*,—continued. *English. German. French.*

SENIOR YEAR.

FIRST TERM.—*Agriculture*,—Cultivation of the Staple Crops of the Northern States. *Agricultural Zoology*,—Origin and Natural History of Domestic Animals. Insects useful and injurious to Vegetation. *Geology*,—Dana's. *English. French. Excursions*,—Agricultural, Botanical, etc.

SECOND TERM.—*Agriculture*,—Stock raising and principles of Breeding. *Geology*,—Dana's. *Human Anatomy and Physiology*,—Lectures. *English. French.*

THIRD TERM.—*Rural Economy*,—History of Agriculture and Sketches of Husbandry in Foreign Countries. Systems of Husbandry. *Geology*,—Dana's. *English.*

(e.) IN NATURAL HISTORY.

(Either Geology, Mineralogy, Zoology, or Botany may be made the principal study, some attention in each case being directed to the other three branches of Natural History.)

JUNIOR YEAR.

FIRST TERM.—*Chemistry*,—Qualitative Analysis. Laboratory Practice. Recitations. *Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *Botany*,—Gray's Text-book ; Use of the Microscope. *German*. *French*.

SECOND TERM.—*Zoology*,—Laboratory Practice. *Physiology*,—Huxley's. *Botany*,—Laboratory Practice ; Gray's Text-Book. *Mineralogy*,—Lectures. *Physical Geography*. *German*. *French*.

THIRD TERM.—*Zoology*,—Laboratory Practice. Lectures, Excursions (land and marine). *Botany*,—Practical Exercises, Excursions. *Mineralogy*,—continued. *German*. *French*.

SENIOR YEAR.

FIRST TERM.—*Geology*, Dana's. Excursions. *Anatomy of Vertebrates*,—Huxley's. *Zoology*,—Laboratory Practice. Lectures. Excursions. *Botany*,—Herbarium Studies. Excursions. *Linguistics*,—Whitney's Language and the Study of Language. *French*.

SECOND TERM.—*Geology*,—Dana's. *Zoology*,—Laboratory Practice. Excursions. *Botany*,—Herbarium Studies. Botanical Literature. Essays in Descriptive Botany. *Linguistics*,—Whitney's Language and the Study of Language. *French*.

THIRD TERM.—*Geology*, *Zoology*, and *Botany*,—continued, with Excursions. *Meteorology*. *French*.

Besides the regular courses of recitation and lectures on structural and systematic Zoology and Botany, and on special subjects, students are taught to prepare, arrange, and identify collections, to make dissections, to pursue original investigations, and to describe genera and species in the language of science. For these purposes, large collections in Zoology and Palæontology belonging to the College are available, as are also the private botanical collections of Professor Eaton.

(f.) IN PREPARATION FOR MEDICAL STUDIES.

During the Junior year, the work of this course will be chiefly under the direction of the instructors in Chemistry. Especial attention will be given to qualitative and quantitative analysis, in their physiological and medical bearings ; and to the preparation and study of the organic proximate elements. In the Senior year, the work will be chiefly under the direction of the Professors of Zoology and Botany. Attention will be paid in Zoology to comparative anatomy, embryology, the laws of hereditary descent, and human parasites ; and in Botany to a general knowledge of structural and physiological Botany, and to medicinal, food-producing, and poisonous plants. The order of studies is as follows :

JUNIOR YEAR.

FIRST TERM.—*Chemistry*,—Qualitative Analysis, Fresenius'. Laboratory Practice. Recitations. *Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *German*. *French*.

SECOND TERM.—*Physiological Chemistry*,—Klein's Handbook. Laboratory Practice. Recitations. *Physiology*,—Huxley's. *Mineralogy*,—continued. *German. French.*

THIRD TERM.—*Physiological Chemistry*,—Klein's. Laboratory Practice. Recitations. *Zoology*,—Lectures and Excursions. *Botany*,—Lectures, Practical Exercises and Excursions. *Mineralogy*,—continued. *German. French.*

SENIOR YEAR.

FIRST TERM.—*Comparative Anatomy and Physiology*,—Laboratory Practice. *Anatomy of Vertebrates*,—Huxley's. *Botany*,—Practical Exercises, Lectures, and Excursions. *Geology*,—Dana's. *Zoology*,—Lectures and Excursions. *French.*

SECOND TERM.—*Comparative Anatomy and Systematic Zoology*,—Lectures. Laboratory Practice. *Botany*,—Lectures. Laboratory Practice. *Geology*,—Dana's. *French.*

THIRD TERM.—*Comparative Anatomy and Physiology*,—Laboratory Practice. *Zoology, Botany, and Geology*,—continued, with Excursions.

(g.) IN STUDIES PREPARATORY TO MINING AND METALLURGY.

Young men desiring to become Mining Engineers, can pursue the regular course in Civil or Mechanical Engineering, and at its close can spend a fourth year in the study of metallurgical chemistry, mineralogy, etc.

(h.) IN THE SELECT STUDIES PREPARATORY TO OTHER HIGHER STUDIES.

JUNIOR YEAR.

FIRST TERM.—*Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *Astronomy. Physical Geography. English*,—Early English. *History*,—Freeman's Outlines. *French. German.*

SECOND TERM.—*Mineralogy*,—Lectures. *Astronomy. Physical Geography. English*,—Chaucer, Shakespeare. *History*,—Freeman's Outlines, with Lectures. *German. French.*

THIRD TERM.—*Botany and Zoology*,—Lectures and Excursions and Laboratory Practice. *English*,—Shakespeare. *Political Economy*,—Walker's Science of Wealth. *German. French.*

SENIOR YEAR.

FIRST TERM.—*Geology*,—Recitations and Excursions. *Botany*,—Lectures, Excursions and Laboratory Practice. *Zoology*,—Lectures and Excursions. *Linguistics*,—Whitney's Language and the Study of Language. *English*,—Shakespeare. *History*,—Constitutional History of the United States. Lectures. *Political Economy*,—Lectures. *French.*

SECOND TERM.—*Geology and Zoology*,—continued. *Linguistics*,—Whitney's Language and the Study of Language. *Political Economy*,—Lectures. *English*,—Shakespeare and Milton. *History*,—Political History of the United States. Lectures. *French.*

THIRD TERM.—*Geology*,—Recitations and Excursions. *Zoology*,—Lectures. *Meteorology*. *English*,—Dryden and Pope. *History*,—Lectures. History of Europe since 1848. *Political Economy*,—Lectures.

Exercises in English Composition are required during the entire course from all the students. The preparation of graduating theses is among the duties of the Senior year.

Lectures on Military Science and Tactics are annually given.

TERMS AND VACATIONS.—The terms and vacations correspond with those of the Academical Department. (See Calendar, p. 4.)

EXPENSES.—The charge for tuition is \$150 per year, payable \$55 at the beginning of the first and of the second terms, and \$40 at the beginning of the third term. The special student of Chemistry has an additional charge of \$70 per annum for chemicals, and use of apparatus. He also supplies himself at his own expense with gas, flasks, crucibles, etc., the cost of which should not exceed \$10 per term. An additional charge of \$5 is annually made to each student for the use of the College Reading Room and Gymnasium.

FEES.—For graduation as BACHELOR OF PHILOSOPHY, \$10; unless the person taking the degree is also an academical graduate, when the fee is but \$5. For CIVIL or DYNAMIC ENGINEER, \$5. For DOCTOR OF PHILOSOPHY, \$10.

Degrees.

BACHELOR OF PHILOSOPHY.—The degree of Bachelor of Philosophy is conferred on those who have completed one of the three-year courses in the SHEFFIELD SCIENTIFIC SCHOOL, and have passed the examination at its close.

CIVIL AND DYNAMIC ENGINEER.—See page 63.

DOCTOR OF PHILOSOPHY.—See page 48.

SCHOOL OF THE FINE ARTS.

THE COUNCIL of this Department consists of the following *ex-officio* members:—the President of the College, the President of the National Academy of Design, the President of the New York Museum of Art, and the Director of the School, who is also the Secretary; together with four regularly appointed Councillors, Mr. HENRY FARNAM, Mr. DONALD G. MITCHELL, Mr. EDWARD E. SALISBURY, and Mr. JOHN D. WHEELER.

THE FACULTY, on whom devolves the internal management of the School, consists of the President of the College, and the Professors, whose names and departments of instruction are as follows:—JOHN F. WEIR, Professor of Painting, and Director of the School; D. CADY EATON, Professor of the History of Art; JOHN H. NIEMEYER, Professor of Drawing. (The chairs of Sculpture, Architecture, and Anatomy are unfilled.) FREDERICK R. HONEY, Instructor in Geometry and Perspective.

The School has for its end the cultivation and promotion of the Arts of Design, viz: PAINTING, SCULPTURE, and ARCHITECTURE, both in their artistic and æsthetic aims, through practice and criticism. The aim is—

1st. To provide thorough technical instruction in the Arts of Painting, Sculpture, and Architecture.

2d. To furnish an acquaintance with all branches of learning relating to the History, Theory, and Practice of Art.

The Courses of Instruction provided under these heads—of Practice and Criticism—may be regarded as distinct, and adapted to the special aims of either professional students or amateurs; or correlative, embracing that practical and theoretical knowledge of art which is no less desirable for the critic than for the artist.

The course of technical instruction, covering three years, is arranged as follows:*

First Year.

DRAWING—from the flat: from the antique: from the living model.

PERSPECTIVE—descriptive geometry: shadows and linear perspective: applications and examples.

LECTURES—the elements of form: principles of proportion.

* No provision has yet been made for instruction in the departments of Sculpture and Architecture, but it is hoped that before long this will be provided

Second Year.

DRAWING—technical discipline: studies from the living model.

ANATOMY—the bones and articulations of the skeleton: the muscles and movements of the body: the anatomy of external forms.

PAINTING—technical discipline: studies from casts and still-life.

Third Year.

PAINTING—technical practice: studies from the living model.

COMPOSITION—studies in color and chiaroscuro: design.

LECTURES—on the history, theory, and practice of art.

In the departments of Drawing and Painting the practice of the studio is based upon the study of the human form.

In **DRAWING**, the manipulation of the stump and crayon is first acquired by drawing from the Flat. The student then enters upon the study of form by drawing from the Round. After the practice of drawing from the antique, the student, if qualified, enters the Life class, and continues the study of the living model until admitted to the class in painting. The practice in drawing is supplemented with lectures on Form and Proportion.

In **PAINTING**, the student first acquires the use of the brush and pigment by simple studies from casts. The consideration of form and modeling remains prominent. Painting from casts merely substitutes the brush for the stump, with right methods of acquiring the use of pigment, which advances gradually to the complexities of color by those methodical steps which constitute the grammar of art. After this discipline the remainder of the course is devoted to studies from the Life. The practice in painting is supplemented by lectures on Color, Chiaroscuro, and Composition.

Drawing is continued, without interruption, through the first half of the course, or until the student evinces that proficiency which will warrant advancement. Painting is continued through the remainder of the course. Students will be encouraged to remain in the school and pursue advanced studies after the three years' course is completed.

In **PERSPECTIVE**, instruction is given in the form of lectures; but students will be required to work out the examples, or problems, and submit them for examination at the next meeting of the class. The subject has three divisions: the first is devoted to descriptive geometry and its application to projection drawing; the second to shadows and linear perspective;

and the third to applications and problems. At the close of the course an examination is held, and the standing of the student determined.

In ANATOMY, instruction is likewise given in the form of lectures. This subject has also three divisions: the first is devoted to the bones and articulations of the skeleton; the second to the muscles and movements of the body; and the third to the anatomy of external forms. Students are required to draw, in detail, the parts under discussion by the lecturer, and submit the same, for examination, at the next meeting of the class. At the close of the course the relative standing of the pupils is determined by examination.

COURSES OF LECTURES are provided in each department of instruction in addition to the technical discipline. A course of public evening lectures is also given, during the winter. These lectures, on the History and Philosophy of Art, are illustrated with photographic examples of painting, sculpture, and architecture, thrown upon a screen by the calcium light. The attendance of the students, on all the lectures, is obligatory.

PRIZES may be competed for, both in Drawing and Painting, at the close of the courses provided in these respective departments; but the necessary qualification includes, in drawing, an approved knowledge of perspective; and in painting, a requisite acquaintance with anatomy—as provided for by the instruction given in these branches.

DIPLOMAS are only accorded to those who remain through the full course, or pass the requisite examinations. If qualified, the student may enter advanced classes at once.

The CHARGE FOR TUITION is \$36 a quarter, *in advance*; and no student will be admitted for less than three months. Art-students are admitted *free* to all the lectures delivered in the school, whether public lectures or those in regular course; to the collections at all times; and are entitled to such privileges, under the usual restrictions, as are granted to students in all other departments of the College.

The School is open to both sexes, but no student will be admitted under fifteen years of age.

The ART LIBRARY will be open at specified hours for the use of students.

The COLLECTIONS embrace the "Jarves Gallery of Italian Art," numbering one hundred and twenty paintings, dating

from the 11th to the 17th centuries; the "Trumbull Gallery" of original portraits and other works, by John Trumbull, numbering fifty-four pictures; a collection of portraits and works of contemporaneous art, numbering about seventy-five pictures; together with about one hundred and fifty casts and marbles, the former from many of the best productions of ancient art. In addition to the collections belonging to the School, a Loan Exhibition is organized annually, previous to the College Commencement, and continues open for six months. These loan exhibitions have, through their general excellence, contributed materially to the objects of the School by affording opportunity for studying the representative works of contemporaneous art. The Collections are open daily for the use of students, and to the public, during the winter, from 1 to 4 P. M.; and during the summer, when a special loan exhibition is organized, from 9 A. M. to 6 P. M. The proceeds of the exhibitions are applied to the purchase of material adapted to instruction, and to the incidental expenses of the School.

"Students' Season Tickets," at \$2 each, admitting the holders to the Exhibitions throughout the year, are furnished to students of all other departments of the College.

The Art School occupies a large and beautiful building, erected for this object by the late Augustus Russell Street, of New Haven, containing commodious galleries well adapted to the purpose of an Art Museum, and for lectures; drawing, painting, and modeling rooms, designed for the instruction of classes; also library rooms and studios.

This department of the college is open to all who desire to avail themselves of its instructions, without restriction, save as to age and general good character. It aims to embrace a wide field of usefulness in connection with the knowledge and promotion of art, and to offer every facility to the student both in the way of criticism and technical discipline.

The course of study, as at present constituted, embraces only that instruction which the school is now adequately prepared to furnish practically and efficiently: this is subject to expansion with the growth of the means at the disposal of the Faculty.

All applications for admission to the school should be made through the Director. It is particularly desirable that these applications be made before October 1st.

THEOLOGICAL DEPARTMENT.

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Lecturer on Church Polity and American Church History, a Professor of Systematic Theology, a Professor of Hebrew Literature and Biblical Theology, a Professor of Homiletics and the Pastoral Charge, a Professor of Ecclesiastical History, and a Professor of Sacred Literature.

CONDITIONS OF ADMISSION.—The conditions of entrance are membership in some evangelical church, or other satisfactory evidence of Christian character, and a liberal education at some College, or such other literary acquisitions as may be considered an equivalent preparation for theological studies. Students of every Christian denomination, in case they are possessed of these qualifications, are admitted.

It is expected that every student will be promptly on the ground at the beginning of the session. Rooms are assigned in the order of application, but no room will be reserved for any applicant who neglects to appear, beyond one week after the opening of the term.

COURSE OF INSTRUCTION.—The regular course occupies three years, and is arranged in the following order :—

JUNIOR YEAR.

Professor DAY will lecture on the Encyclopedia and Literature of Theology, and give instruction in Hebrew Grammar and Philology. Portions of the historical books of the Old Testament in the original will be carefully read and analyzed, and critical and exegetical dissertations presented by the class on points of special difficulty or importance.

Professor DWIGHT will give instruction in the exegetical study of the Greek New Testament. The course includes, in addition to the regular exegetical exercises, the critical investigation of the Greek text and the study of the subjects connected with the Introduction to the New Testament. Dissertations of a critical and exegetical character will, also, be prepared by the students and discussed in the presence of the class.

Professor HARRIS will lecture on Mental Philosophy with special reference to the study of Theology ; also on Natural Theology, the Evidences of Christianity, and the Inspiration of the Scriptures ; also, as incidental to these topics, on the various forms of Skepticism.

MIDDLE YEAR.

Professor HARRIS will lecture on Systematic Theology. This course will include a full and systematic investigation of the doctrines of Christianity, and of existing questions and controversies in respect to them. The lectures are accompanied by examinations and free discussions.

Professor FISHER will lecture on General Church History, including the following topics; an historical survey of the Old or Preparatory dispensation in its relation to Christianity; the establishment and spread of Christianity (including Missions and Persecutions); Ecclesiastical Polity (including the rise and rule of the Papacy, and the Reformation); and the history of Christian Life and Worship.

Professor DAY will give instruction in Biblical Theology, with special reference to the progressive stages of Divine revelation, and the doctrinal results of the modern critical study of the Bible. He will also lecture on portions of the Hebrew Scriptures, especially the poetical and prophetical books.

Professor DWIGHT will continue to give instruction by lectures and recitations, in the exegetical study of the New Testament, especially the Pauline Epistles.

Dr. BACON will lecture on American Church History.

SENIOR YEAR.

Professor HOPPIN will lecture on Sacred Rhetoric and Homiletics, and also on Pastoral Theology, including the office, qualifications, pastoral duties, and special work of the ministry; he will also take charge of the practical exercises in Preaching, and in the criticism of the style and delivery of Sermons.

Professor FISHER will lecture on the history of Christian Doctrine and on Symbolical Theology, and students will be aided in pursuing historical investigations for themselves.

Dr. BACON will give a series of lectures on Church polity, with special reference to the polity and discipline of the Congregational Churches.

Professor DWIGHT will lecture on some topics of special interest connected with the different books of the New Testament.

Professor DAY will read, with those who wish to prosecute the study of Syriac, the Peshito version of the New Testament.

Optional Studies in either Year.

Professor DAY will read, free of charge, with those students who desire to become familiar with the theological literature of Germany and have made some progress in the language, some standard work in German on Christian doctrine, with critical remarks, and references to the ablest works on special topics. The grammatical study of the language may be pursued with the classes in the Sheffield Scientific School.

Professor WHITNEY will give instruction to those who desire it in Sanskrit.

Instruction in vocal music is given gratuitously to students who desire it. (See p. 55.)

The following courses of lectures in the Academical Department may be attended, free of charge, provided that they do not interfere with the regular

studies of the Seminary: on *Intellectual and Moral Philosophy*, by President PORTER; on *Natural Philosophy*, by Professor LOOMIS; on *History*, by Professor WHEELER; on *Political and Social Science*, by Professor SUMNER; on *Anatomy and Physiology*, by Professor SANFORD. Students may also be admitted to the various courses of lectures in the Sheffield Scientific School. Those who intend to become Foreign Missionaries have the privilege of attending gratuitously the lectures in the Medical Department.

EXERCISES IN PUBLIC SPEAKING.—There will be an exercise for all the classes, in the presence of the Faculty, once in two weeks, in the reading of the Scriptures and hymns, and in the delivery of sermons, or parts of sermons, or addresses. Every alternate week there will be a conference, designed to cultivate the power of *extemporaneous speaking*, in which the students will be called on to present their views on some subject selected by the Faculty. Weekly debates are also held by the students, in societies of their own.

Instruction in Elocution will be given by Mr. BAILEY, the Instructor in the Academical Department.

LICENSE TO PREACH.—The regular time for applying for a license is at the close of the second year's study, before which time members of the Department are not allowed to preach.

PUBLIC WORSHIP.—Prayers are attended every morning in the MARQUAND Chapel, with reading of the Scriptures and singing. It is optional with the student whether to connect himself with the College Church, or with one of the City churches; but whatever may be his decision, it is hoped that he will actively engage, so far as may not be inconsistent with the prosecution of his studies, in some form of City Mission, Sabbath School, or other benevolent labor, for which constant opportunities are offered.

LIBRARIES.—The Reference Library of the School, containing nearly two thousand volumes in various languages, and established through the liberality of Mr. Henry Trowbridge, of New Haven, is placed in the East Divinity Hall. It is designed to furnish the students with the standard and most recent books in every branch of theological literature and those most frequently called for in the pursuit of their studies. It is open daily for consultation, and thus takes the place for each student of a well selected and extensive private library.

The valuable Library of Church Music, belonging to the late Dr. Lowell Mason, has been recently given to the Department by his family. This Library, which is placed in the West Divinity Hall, and is one of the largest of the kind in the country, will be open for the use of students.

The College Library, to which the students have access without charge, contains over 75,000 volumes, and is open five hours on every secular day for consultation and for the drawing of books.

The library of the College literary Societies, containing about 19,000 volumes in general literature, is accessible to theological students.

PHYSICAL EXERCISE.—The College Gymnasium is open to the students of this Department at a small charge. The harbor of New Haven affords excellent facilities for boating, to those inclined to this mode of exercise.

ROOMS.—The rooms in the two DIVINITY HALLS are provided with carpets, beds, bedding, and every necessary article of furniture. They will be assigned to new students in the order of application. A few rooms have two bedrooms attached to them, but, in general, provision is made for each student to room alone. The buildings are warmed throughout by steam, and lighted by gas. Bath-rooms and other conveniences are placed on every floor. The buildings are thoroughly ventilated on an approved system.

EXPENSES AND PECUNIARY AID.—Students have only to make pecuniary provision for about eight months of study annually. In the remaining four months of vacation, from May to September, they have the opportunity of engaging in Home Missionary or other labor, with remuneration for their services.

The expenses for the annual session are \$4 to \$5 a week for board; \$15 to \$28 for fuel and lights; and \$10 a year for care of room and other incidental expenses. There is no charge for instruction, room rent, or use of Libraries.

Students whose circumstances require it, will receive \$100 a year from the income of Scholarships and other funds belonging to the Department. Additional aid to the amount of \$100 annually is afforded by the American Education Society to its beneficiaries. In special cases additional aid towards the expense of board will be given. These means of assistance fully cover all the expenses mentioned above.

The Scholarships belonging to the Department bear respectively the names of James Hillhouse, William Leffingwell, George E. Dunham, Normand Smith, E. E. Salisbury, Thomas R. Trowbridge, Charles Atwater, Richard Borden, Samuel

Holmes, Charles Nichols, Roland Mather, Noah Porter, John DeForest, J. R. Beadle, David Root, Mary Goodman, Orin Fowler, and Edward Bull.

After the close of the second year in May, students have frequent opportunities to receive remuneration for preaching in the neighboring churches.

In general it may be said, that sufficient aid will be provided for every young man who gives promise of usefulness in the ministry, to enable him, in connection with his own efforts, to complete a course of theological study.

COMMENCEMENT OF THE TERM, VACATION, ETC.—The session for 1875-76 began on Thursday, Sept. 16, and will continue till the third Thursday in May, when the public Anniversary is held. The annual examination of the classes, and the meeting of the Alumni, are held in the same week. The next annual term will begin on Thursday, September 14, 1876.

By thus throwing all the vacations into one, the most favorable season of the year is secured for study, while the opportunity is given, in the four months' vacation, to engage in some form of benevolent labor, in connection with the mission efforts of the churches, or in the service of one of the benevolent societies, by which the practical experience required of the pastor, as well as pecuniary compensation, may be obtained. Should any students prefer to spend the vacation in theological reading, the Professors will counsel them in the choice of books.

DEGREE.—The degree of Bachelor of Divinity is conferred on all members of the Department who at the end of the Senior year pass the prescribed examination, and present an approved thesis on some topic in theology.

MEDICAL DEPARTMENT.

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Chemistry and Toxicology, a Professor of Obstetrics and the Diseases of Women and Children, a Professor of Materia Medica and Therapeutics, a Professor of Histology, Pathology, and Microscopy, a Professor of the Theory and Practice of Medicine, a Professor of Surgery, a Professor of General and Special Anatomy and Physiology, and a Lecturer on Insanity.

The course of study is divided into two Terms in each year, a Spring Term and a Winter Term.

In the Spring Term, instruction is given by recitations and lectures. In this Term the students are classified, so that those who are just entering on the study are taught during their *first* year only the more elementary branches; while the studies of the *second* year include the more practical branches. Provision is made for students attending a *third* year, to review the studies of the entire course, with the addition of such collateral branches and advanced courses of reading as the necessities or attainments of individual pupils may require. Two or more recitations are held daily.

The instruction in the Winter Term is conducted by means of Public Lectures, with daily examinations, illustrated by Hospital Instruction, Medical and Surgical Clinics, with abundant facilities for Anatomical Dissections.

While the studies of each of these terms are independent and so far complete in their parts that they may be pursued separately with profit, yet they are designed to be so related to each other, that together they make a full and rounded curriculum of proportional study. In no way can the student more easily and naturally acquire a clear and comprehensive knowledge of the medical sciences in their present advanced position, than by taking these courses in connection, and pursuing his studies at the College for the entire period of three years.

The Spring Term will begin March 2, 1876, and continue to the Annual Commencement, June 29. The Winter Term for 1876, being *the Sixty-fourth Annual Course of Lectures*, will begin October 19, and close February 15, 1877.

A SURGICAL CLINIC is held at the College at 12 M., every Wednesday in the year, and a Medical Clinic at 3 P. M., every Friday. Clinics are also given at the State Hospital, weekly. The recently completed Hospital buildings have largely increased the facilities for Clinical instruction.

THE COLLEGE BUILDING is new and commodious, provided with every convenience, and within a short distance of the State Hospital.

DISSECTING ROOMS.—The spacious and well-appointed Dissecting Rooms are amply supplied with anatomical material at a reasonable charge, under the personal direction of the Demonstrator.

MICROSCOPY, HISTOLOGY, AND PATHOLOGY are illustrated by a sufficient number of compound microscopes and a large collection of the best preparations. It is believed that no institution in this country furnishes the student greater facilities for acquiring exact knowledge in this department.

CHEMISTRY.—The chemical instruction in each term is intended to supplement that given in the other. In the Winter Term, lectures, fully illustrated by experiments are given upon General Chemistry during the first half of the term; and upon Organic and Physiological Chemistry (including the Chemistry of the urine) and Toxicology during the second half. In the Spring Term, Theoretical Chemistry is taught by recitation, and Practical Chemistry by Laboratory work. The Junior Class work in Elementary Qualitative Analysis; the Middle Class students in advanced Analysis, including the examination of drugs, the urine, calculi, etc. These exercises consist of two hours' daily work. The Senior Class are taught to make original researches in Physiological Chemistry.

THE MUSEUM contains a large collection of natural and morbid specimens, as well as of casts, models and plates, and is, together with the collections in Natural History, the Mineralogical Cabinet, Cabinet of Materia Medica and Libraries of the University, and the Library of the Medical College, open for the use of students.

PREPARATORY EDUCATION.—The Legislature of Connecticut, recognizing the principle that a regular collegiate education forms the proper basis for the study of medicine, has provided, in the Charter of the College, that a difference of one year in

the period of study required for a degree, shall be allowed in favor of those who are graduates of Colleges, over those who begin their professional studies without the advantages of a thorough course of preparatory study and mental discipline.

REQUIREMENTS FOR GRADUATION.—The candidate for a degree must deposit with the Dean, two weeks before the examination, a Thesis, written by himself, upon some medical subject. He must present satisfactory certificates that he is twenty-one years of age, and possesses a good moral character; and a further certificate from a respectable and regular practitioner of medicine that he has studied under his direction for two years, if he is a graduate of a College, and three years if he is not. He must also have attended two full courses of public lectures, at least one of which must have been in this Institution. The time thus spent in attendance on the public lectures is counted as part of the time of study required before graduation.* The Committee of Examination consists of the Faculty, and an equal number of the members of the Connecticut Medical Society, appointed by the President and Fellows of the same; and the President of the Society is *ex-officio* President of the Committee.

Two Examinations for Degrees are held annually; one at the close of the Winter Term, and the other on the Tuesday before Commencement, at the close of the Spring Term.

TUITION FEES, ALWAYS REQUIRED IN ADVANCE.

Matriculation Fee, paid annually, - - - - -	\$5.00
Winter Term, Lecture Fees, - - - - -	105.00
For the Spring Term, - - - - -	60.00
Contingent Expenses of Laboratory, Spring Term, - - -	10.00
Demonstrator's Ticket, paid once a year by those who dissect, -	5.00
Graduation Fee, - - - - -	25.00

In the Winter Term students may take the whole or any part of the Lectures at their option; in the latter case the fees are \$15 for each ticket.

Those who have attended two full courses of Lectures in this Institution, or have attended one full course in this Institution, and a full course in a similar Medical College, are entitled to admission to the Lectures of any future Winter Term on the payment of \$5 for incidental expenses. Those who have attended two full courses in any other accredited College, may receive all the tickets for the Winter Term, including Matriculation, for \$50.

* The Spring Term is also counted as a part of the time required for Medical Study; but it does not count as one of the courses of Public Lectures required for Graduation.

LAW DEPARTMENT.

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Mercantile Law and Evidence, a Professor of Elementary and Criminal Law and the Law of Real Property, a Professor of Constitutional Law, Contracts, and Wills, and a Professor of Pleading and Equity Jurisprudence. Lectures are also delivered by Hon. CHARLES J. McCURDY, LL.D., on Life Insurance, Rev. THEODORE D. WOOLSEY, D.D., LL.D., on International Law, Rev. LEONARD BACON, D.D., LL.D., on Ecclesiastical Law, Hon. ORIGEN S. SEYMOUR, LL.D., on Judicial Procedure and Practice, Hon. LAFAYETTE S. FOSTER, LL.D., on Parliamentary Law, and the Science of Legislation, Professor HOPPIN on Forensic Composition, Professor WAYLAND on English Constitutional Law and History, GEORGE B. FARNAM, M.D., on Medical Jurisprudence, MARK BAILEY, M.A., on Forensic Elocution, Professor BALDWIN on Roman Law and Comparative Jurisprudence, Professor PLATT on General Jurisprudence, and FREDERIC H. BETTS, M.A., on Patent Law.

TERMS AND VACATIONS.—There are two Terms in each year: the Fall Term, beginning on the same day with the first Academical Term (Sept. 16, 1875) and closing on the day before Christmas (Dec. 24, 1875); and the Spring Term, beginning on the second Wednesday of February (Febr. 9, 1876), and closing at Commencement (June 29, 1876), with a recess of one week, beginning Thursday, April 13.

COURSE OF INSTRUCTION.—The students are divided into two Classes, Senior and Junior, for each of which a special course of study is provided. The daily exercises consist of lectures and recitations from standard text books, the latter being accompanied by oral explanations. The students are frequently referred to the leading cases on the subject under consideration, and required to be prepared for questions upon them at the next exercise of the class: they are also encouraged to put questions freely to the instructor at all recitations. On every Wednesday a moot court is held, at which one of the professors acts as judge. The students acting as counsel, in the argument of cases, are required to draw the necessary pleadings in the common law form.

Members of either Class can attend the lectures of Professors in other Departments of the College, whenever it is compatible with their other engagements; and, with a few exceptions only, without charge. They can also attend one or more of the special courses of graduate instruction on payment of a moderate fee. (See page 49.)

The regular curriculum of study is as follows:

JUNIOR YEAR.

FALL TERM.—Recitations: Elementary Law, Prof. Robinson; Torts, Prof. Platt. Lectures: Nature and History of American Law, Prof. Baldwin; General Jurisprudence, Prof. Platt; Forensic Elocution, Mr. Bailey; Methods of Study, President Porter.

SPRING TERM.—Recitations: Contracts, Prof. Baldwin; Mercantile Law, and Evidence, Prof. Wayland; Pleading, Prof. Platt. Lectures: Life Insurance, Judge McCurdy; Forensic Composition, Prof. Hoppin; Wills, Prof. Baldwin; English Constitutional Law, Prof. Wayland; Medical Jurisprudence, Dr. Farnam.

SENIOR YEAR.

FALL TERM.—Recitations: Equity, Prof. Platt; Contracts, Prof. Baldwin; Mercantile Law, Prof. Wayland. Lectures: International Law, President Woolsey; Parliamentary Law and the Science of Legislation, Judge Foster; Comparative Jurisprudence, and Roman Law, Prof. Baldwin.

SPRING TERM.—Recitations: Contracts, Prof. Baldwin; Mercantile Law, Prof. Wayland; Real Property, Prof. Robinson. Lectures: Judicial Procedure and Practice, Judge Seymour; American Constitutional Law, Prof. Baldwin; Ecclesiastical Law, Dr. Bacon; Political Economy, Prof. Wayland; Patent Law, Mr. Betts; Criminal Law, Prof. Robinson.

A course of study is also provided for those who do not intend to engage in the practice of the Law, but wish to obtain a knowledge of its principles to complete their education, or with reference to mercantile pursuits.

The principal text-books used are, in Junior year, Blackstone's Commentaries, Robinson's Notes on Elementary Law, Addison on Torts (abridged), Parsons on Contracts, Gould on Pleading, and Greenleaf on Evidence, vol. I.; in Senior year, Parsons on Contracts, Smith's Manual of Equity Jurisprudence, and Williams on Real Property.

Students are also recommended to read during their course the following works in connection with their regular exercises: Smith's Mercantile Law, Smith's Leading Cases, Washburn on Real Property, Kent's Commentaries, Maine's Ancient Law, Hadley's Roman Law, Stephen on Pleading, Dicey on Parties, and Cooley on Constitutional Limitations.

At the close of the Spring Term, each Class is subjected to a written examination on the studies of the preceding year.

Since the re-organization of the School in 1870, it has been the aim of the Faculty to make the course of legal education complete and thorough; not

confining it to such instruction as may suffice to qualify the students to become successful practising lawyers, but making it cover whatever contributes to make Law a science, and a liberal and liberalizing profession, worthy the pursuit of an educated man.

The study of public law, comparative jurisprudence, and legislation, style in composition, constitutional history, and political science, is therefore made more prominent than it has ever been before at an American Law School, or than it can be at any school where the term of study is less extended, or where—from its want of connection with a University—the staff of instructors must be less numerous.

TERMS OF ADMISSION.—Applicants for admission to the Junior Class must be at least eighteen years of age, and all who have not taken a degree from some collegiate institution (excepting only attorneys at law), must pass a satisfactory examination in English Grammar (including Composition and Orthography), the History of England and of the United States, and the text of the Constitution of the United States.

To entitle a person to admission to advanced standing as a member of the Senior Class, he must be at least nineteen years of age; must have studied law under a competent instructor elsewhere for at least a year; and, if not an attorney at law, must pass such an examination as is required for those entering the Senior Class in the regular course, and also (college graduates and attorneys at law excepted) such an examination as is required in the case of applicants for admission to the Junior Class.

Applicants for admission to advanced standing who have received a collegiate degree, or have passed the preliminary examination in English studies specified above, may either attend the regular annual Junior examination, during the week preceding Commencement; or pass a special examination beginning upon the first Saturday after the opening of the Fall Term, at which it will be sufficient if they are prepared to be questioned upon Kent's Commentaries, lectures first to nine inclusive, fourteen to eighteen inclusive, and sixty, sixty-two, and sixty-eight; Parsons on Contracts, subjects of bailments, life insurance, agents, gifts, capacity to contract, consideration and assent, sales, warranty, hiring, infancy, married women, interest, marriage, construction, defences, estoppels, statute of limitations, damages and liens; Blackstone's Commentaries, first three books; Gould on Pleading; and Greenleaf on Evidence, vol. I.

Attorneys at law are admitted to either class without any examination; and special students, not candidates for a degree, will be admitted to any of the exercises of the School without examination.

LIBRARIES.—The special Library of the Department, which has a permanent endowment for its support (the English Fund),* contains between seven and eight thousand volumes, comprising a complete collection of the English, American, and Irish Reports of judicial decisions, and an extensive collection of text-books, and works on jurisprudence and political history and philosophy. The consulting room is also kept supplied with the leading legal periodicals. It is open daily, during term-time, from 8 A.M. to 12.45 P.M., and from 2 to 5.45 P.M. (with the exception of Saturday afternoon): during vacations it is not opened until 9 A.M.

The students can also draw books from the general University libraries, without charge.

PRIZES.—The **TOWNSEND Prize**,† of one hundred dollars, will be annually awarded to that member of the Senior Class who shall write and pronounce the best oration or thesis at his graduation, at the public anniversary exercises of the Department, which take place on the day before Commencement.

The **JEWELL Prizes**,‡ each of fifty dollars, will be annually awarded as follows: one prize to that member of the Senior Class who receives the highest mark at the final examination of his class at their graduation; one prize to that member of the Senior Class who shall write the best dissertation on a given legal topic; and one to that member of the Junior Class who shall write the best dissertation on a given legal topic.

The **BETTS Prize**,§ of fifty dollars, will be awarded to that member of the Junior Class who receives the highest mark at his annual examination.

The **CIVIL LAW Prize**, of thirty dollars, will be awarded for the best dissertation on a given topic connected with the Roman Law.

FACILITIES FOR OBSERVING PRACTICE.—The apartments of the Law School occupy the third floor of the Court House building, where the Supreme Court of Errors of Connecticut

* Established by Hon. James E. English, M.A., in 1873.

† Established by Hon. James M. Townsend, in 1874.

‡ Established by Hon. Marshall Jewell, M.A., in 1871.

§ Established by Frederic H. Betts, Esq., M.A., in 1875.

holds two Terms annually, and the Superior Court and the Court of Common Pleas (the principal *nisi prius* Courts of the State) are in session during the greater part of the year. A City Court of both civil and criminal jurisdiction sits daily in the next building. One Term of the U. S. Circuit Court, and two of the U. S. District Court, are also held annually in New Haven.

The apartments comprise a lecture-room, accommodating two hundred students, a large room for moot courts, a smaller one for the use of law clubs, a library hall, an office for the Dean of the Faculty, and other conveniences.

DEGREE.—The degree of Bachelor of Laws will be conferred (upon examination, as above mentioned, and upon the presentation of a satisfactory thesis,) as follows:—

1st. Upon Attorneys at Law, who have been members of this Department for not less than one year after their admission to the Bar.

2d. Upon students who have been members of this Department for not less than four terms.

3d. Upon those who have received the degree of Bachelor or Doctor in any of the Arts or Sciences from any incorporated College or University, and have subsequently been members of this Department for not less than eighteen months, or three terms.

4th. Upon students who may have been admitted to advanced standing as members of the Senior Class, and have remained in that Class for not less than one year or two terms.

Six months' study in the Law School of any other College or University, in the case of College graduates, or one year's study at such a Law School in other cases, will be deemed equivalent to attendance during the same time in this Department.

Graduates of the Department receiving this degree are admitted to the Connecticut Bar without further examination.

By the rules adopted by the Court of Appeals of New York, a year's attendance at the Yale Law School is counted the same as a similar period spent in the office of an attorney of that Court in New York.

It is proposed to open at the commencement of the next college year (beginning Sept. 9, 1876), to those who have taken the Bachelor's degree, a further course of study, occu-

pying a third, and for those who desire it, a fourth year, in which, besides further instruction in General Jurisprudence, Comparative Jurisprudence, Conflict of Laws, Roman Law, Judicial Procedure and Practice, Forensic Oratory, Parliamentary Law, and Medical Jurisprudence, will be comprehended the subjects of Political Science, History, and Economy, Logic, Ethics and Moral Philosophy, and the Administration of Estates; appropriate degrees, in the Faculty of Law, being conferred upon examination and the presentation of a satisfactory thesis, at the conclusion of each year of the course.

EXPENSES.—The fees for tuition and use of library are \$45 for the Fall Term, and \$55 for the Spring Term, or \$90 for the entire annual session; to be paid to the Treasurer of the College in advance, or secured by a bond satisfactory to him: where payment is not made in advance, interest will be added. The diploma fee is \$5, and the Court fees for admission to the Bar are \$8. A further Court fee is chargeable for admission to practice in the U. S. Courts for the District of Connecticut, if this is also desired.

Board and lodging can be obtained in New Haven at prices ranging from \$6 a week upwards.

LIBRARY AND CABINET.

THE COLLEGE LIBRARY numbers about 75,000 volumes, besides many thousand unbound pamphlets. It is designed for the use of the College officers, resident graduates, and the students of the various Departments. Other persons may have the privilege of consulting the Library and drawing books, by permission of the Library Committee. The Library is open daily in term-time from 10 A. M. to 1 P. M., and from 3 to 5 P. M.; or, during the winter months, from 10 A. M. to 1 P. M., and from 2½ to 4½ P. M.

In the same building is the LINONIAN AND BROTHERS LIBRARY, designed primarily for the use of the undergraduate students, and containing about 19,000 volumes. This library is open daily, from 1½ to 3 P. M.

The Theological, Law, Medical, and Scientific Schools have each a special Library, accessible to the students of those schools.

The Library of the AMERICAN ORIENTAL SOCIETY, numbering about 2,500 printed books and manuscripts, is kept in the College Library building.

SUMMARY.

College Library (exclusive of pamphlets) about	-	75,000 vols.
Linonian and Brothers Library, about	- - -	19,000 "
Libraries of the Professional Schools, about	- -	17,000 "
Total,	- - - - -	<u>111,000</u>

THE COLLEGE CABINET embraces an extensive and valuable collection of minerals, systematically arranged; a collection of fossils, arranged according to their geological succession, besides large collections not arranged for exhibition; and a valuable Zoological collection, of which only a small part can at present be exhibited, for lack of room.

The exhibition hall is free to students and the public. The key is at the Treasurer's Office, 5 Treasury Building.

APPOINTMENTS FOR COMMENCEMENT, JULY 1, 1875.

 Edwin B. Goodell,
 Frank A. Mitchell,
 William H. Upton.

Class of 1877—2d Term.

1st Prizes.

Charles F. Chapin,
 Edwin R. Dillingham,
 Edwin B. Gager,
 Joseph G. Pyle.

2d Prizes.

Edwin B. Goodell,
 Anthony Gould,
 Arthur R. Kimball,
 Webster Merrifield.

3d Prizes.

Russell Frost,
 Thomas D. Goodell,
 George H. Thomas,
 William H. Upton.

FOR POEM.—Class of 1877.—Luther D. Bradley.

JUNIOR EXHIBITION PREMIUMS.—CLASS OF 1876.

1st Prize, Edwin D. Worcester ; 2d Prizes, Otto T. Bannard, Elisha S. Bottom, George E. Bushnell, Arthur T. Hadley, Elmer P. Howe, William W. Hyde, George W. Rollins, Philip G. Russell, Charles H. Willcox.

PREMIUMS FOR DECLAMATION.—CLASS OF 1877.

1st Prize, Joseph H. Chandler ; 2d Prize, Orville Reed and John S. Thacher ; 3d Prize, John M. Whitehead.

PREMIUMS FOR SOLUTION OF MATHEMATICAL PROBLEMS.

Class of 1877.—1st Prize, Orray T. Sherman ; 2d Prize, Henry M. Rood ; 3d Prize, Charles C. Camp.

Class of 1878.—1st Prizes, John I. McDonald, William H. Taft ; 2d Prizes, Edward L. Morse, Reynold W. Wilcox ; 3d Prize, Clarence H. Kelsey.

BERKELEY PRIZES FOR EXCELLENCE IN LATIN COMPOSITION.

Class of 1878.—1st Prizes, Oliver W. Brown, Roger S. B. Foster, Henry M. Hoyt, Clarence H. Kelsey, Alfred L. Ripley, Lawrence H. Schwab, Edward B. Whitney; 2d Prizes, Frank A. Beckwith, Harry C. Coe, Stanley W. Dexter, Philip W. Moen, George S. Palmer, Frederick S. Smith, William L. R. Wurts.

Prizes for excellence in Latin Composition, at the Scholarship Examination.—Class of 1878.—Harry C. Coe, Stanley W. Dexter.

SHEFFIELD SCIENTIFIC SCHOOL.

CLASS OF 1875.

FOR EXCELLENCE IN GERMAN, Charles W. Fenn.

FOR EXCELLENCE IN CIVIL ENGINEERING, William A. Pratt.

CLASS OF 1876.

FOR EXCELLENCE IN MATHEMATICS OF JUNIOR YEAR, Porter D. Ford and Hiram A. Miller, equal.

FOR EXCELLENCE IN CHEMISTRY, Frederick P. Dewey and Frederick P. Miles, equal.

FOR EXCELLENCE IN MINERALOGY, Frederick P. Dewey.

CLASS OF 1877.

FOR EXCELLENCE IN ALL THE STUDIES OF FRESHMAN YEAR, Wallace B. Fenn; with honorable mention of Joseph G. Calhoun.

FOR EXCELLENCE IN GERMAN, Joseph P. Iddings and William T. Sedgwick, equal.

FOR EXCELLENCE IN MATHEMATICS, John E. Buddington and Wallace B. Fenn, equal.

FOR EXCELLENCE IN PHYSICS, Joseph G. Calhoun.

FOR EXCELLENCE IN MECHANICAL DRAWING, Joseph P. Iddings.

CLASS OF 1878.

FOR THE BEST ENTRANCE EXAMINATION, the prize divided between George W. Mason of Orange, N. J., and Ebin J. Ward, of Chicago, Ill., with honorable mention of Charles S. Churchill, of New Haven.

LAW DEPARTMENT.

JEWELL PRIZE, to the student passing the best examination at his graduation.

—Levy Maybaum, Class of 1875.

TOWNSEND PRIZE, to the student pronouncing the best oration at his graduation.—Samuel O. Prentice, B.A., Class of 1875.

Committee of Award: Hon. William M. Evarts, LL.D.,

Henry Day, Esq., B.A.,

Hon. Stanley T. Woodward, B.A.

EDWARDS PRIZE, for the best dissertation on the Powers of States in regard to Bridging Navigable Rivers.—William Foster, B.A., Class of 1876.

Committee of Award : Hon. Leonard E. Wales, B.A.,
Anthony Higgins, Esq., B.A.

CIVIL LAW PRIZE, for the best dissertation on the Influence of the *Patria Potestas* on Roman History.—Greene Kendrick, B.A., Class of 1875.

Committee of Award : Hon. Lafayette S. Foster, LL.D.,
Jeremiah Halsey, Esq.

JEWELL PRIZE, for the best dissertation from a member of the Senior class on the Influence of Custom in the Formation of Law.—Greene Kendrick, B.A., Class of 1875.

Committee of Award : Hon. Benjamin D. Silliman, LL.D.,
Cornelius Van Santvoord, Esq., M.A.

BETTS PRIZE, to the member of the Junior class receiving the highest mark at his annual examination.—Levy Mayer.

JEWELL PRIZE, for the best dissertation from a member of the Junior class, on the History of Trial by Jury.—William J. Mills, Class of 1877.

Committee of Award : Hon. David B. Booth, M.A.,
Hon. Lyman D. Brewster, M.A.

HONORS.*

Class of 1875.

Levy Maybaum, Newark, N. J. (Jewell Prize,)

Matthew N. Whitmore, B.A., New Haven.

James P. Platt, West Meriden.

George M. Sharp, Baltimore, Md.

Cyrus L. Munson, Williamsport, Penn.

Class of 1876.

Levy Mayer, Chicago, Ill. (Betts Prize,)

John H. Whiting, Ansonia.

William Foster, B.A., Honolulu, H. I.

William C. Anderson, B.A., Youngstown, Pa.

Austin A. Canavan, Chicago, Ill.

* This list comprises the names of the five in each class who received the highest marks at its annual examination.

For catalogues and other information, address THE SECRETARY OF YALE COLLEGE, NEW HAVEN, CONN.

The last edition of the Triennial Catalogue of the Graduates of the College was published in June, 1874.

Obituary notices of deceased graduates of the College are published annually.

All persons, who can supply information appropriate to the future editions of the Triennial Catalogue or Obituary Record, are urgently requested to communicate with the Secretary.

2 July		
29, 30 June	Friday, Sat.	Examination for admission to the Sheffield Scientific School.

Summer Vacation of eleven weeks

11, 12 Sept.	Tuesd., Wed.	Examination for admission.
13 Sept.	Thursday	FIRST ACADEMICAL TERM begins.
20 Dec.	Thursday	FIRST ACADEMICAL TERM ends.

The Term in the Theological Department begins on the same day with the first Academical Term, and continues eight months, until the third Thursday in May.

In the Law Department the Fall Term coincides with the first Academical Term; the Spring Term begins on the first Wednesday in February and ends at Commencement,—with a recess of one week in April.

In the Medical Department the Winter Term begins on the third Thursday in October, and continues seventeen weeks; the Spring Term begins on the first Thursday in March, and continues, with an intermission of one week in May, till Commencement.

The Terms in the Graduate Courses of the Department of Philosophy and the Arts, in the Sheffield Scientific School, and in the School of the Fine Arts, coincide with the Academical Terms.

FACULTY AND INSTRUCTORS

Rev. NOAH PORTER, D.D., LL.D.

*PRESIDENT, and Clark Professor of Moral Philosophy
and Metaphysics*

(7 TR.) 31 Hillhouse av.

Kent Professor of Law

Rev. LEONARD BACON, D.D., LL.D.

*Lecturer on Church Polity and American Church
History*

(1 E. D. H.) 247 Church st.

Chittenden Professor of Divinity, and College Pastor

ELIAS LOOMIS, LL.D.

*Munson Professor of Natural Philosophy and
Astronomy*

(236 D.) 141 Church st.

WILLIAM A. NORTON, M.A.

Professor of Civil Engineering

(34 N. S. H.) 72 Prospect st.

JAMES D. DANA, PH.D., LL.D.

*Silliman Professor of Geology and
Mineralogy*

(6 Peabody Museum) 24 Hillhouse av.

Rev. GEORGE E. DAY, D.D.

*Holmes Professor of the Hebrew Language and Literature
and Biblical Theology*

(5 E. D. H.) 125 College st.

Rev. SAMUEL HARRIS, D.D., LL.D.

Dwight Professor of Systematic Theology

(3 E. D. H.) 144 College st.

THOMAS A. THACHER, LL.D.

Professor of the Latin Language and Literature

155 Crown st.

BENJAMIN SILLIMAN, M.D.

Professor of Chemistry

34 Hillhouse av.

Rev. CHESTER S. LYMAN, M.A.

Sheffield Professor of Astronomy and Physics (39 N. S. H.) 88 Trumbull st.

Rev. JAMES M. HOPPIN, D.D.

Professor of Homiletics and the Pastoral Charge (7 E.D.H.) 47 Hillhouse av.

STEPHEN G. HUBBARD, M.D.

*Professor of Obstetrics and the Diseases of Women and
Children*

23 College st.

WILLIAM D. WHITNEY, PH.D., LL.D.

*Professor of Sanskrit and Comparative Philology, and
Instructor in Modern Languages*

(205 D.) 246 Church st.

MOSES C. WHITE, M.D.

Professor of Histology, Pathology, and Microscopy

104 York st.

HON. FRANCIS WAYLAND, M.A.

*Professor of Mercantile Law and
Evidence*

(17 Court House) 91 Whitney av.

REV. GEORGE P. FISHER, D.D.

Professor of Ecclesiastical History

(9 E. D. H.) 27 Hillhouse av.

WILLIAM P. TROWBRIDGE, M.A.

Higgin Professor of Dynamical Engineering (45 N. S. H.) 82 Prospect st.

REV. TIMOTHY DWIGHT, D.D.

Buckingham Professor of Sacred Literature (72 W. D. H.) 126 College st.

CHARLES A. LINDSLEY, M.D.

Professor of Materia Medica and Therapeutics

132 Olive st.

HUBERT A. NEWTON, LL.D.

Professor of Mathematics

(183 L.) 135 Elm st.

DAVID P. SMITH, M.D.

Professor of the Theory and Practice of Medicine

Springfield, Mass.

GEORGE J. BRUSH, M.A.

*Professor of Mineralogy, and Executive Officer of the
Sheffield Scientific School*

(3 S. H.) 14 Trumbull st.

SAMUEL W. JOHNSON, M.A.

*Professor of Theoretical and Agricultural
Chemistry*

(12 S. H.) 54 Trumbull st.

WILLIAM H. BREWER, M.A.

Norton Professor of Agriculture

(4 S. H.) 246 Orange st.

FRANCIS BACON, M.D.

Professor of the Principles and Practice of Surgery

32 High st.

LEONARD J. SANFORD, M.D.

Professor of Anatomy and Physiology

126 Crown st.

HON. WILLIAM C. ROBINSON, M.A.

*Professor of Elementary and Criminal Law and the
Law of Real Property*

(16 Exchange Building) 76 Olive st.

LEWIS R. PACKARD, PH.D.

*Hillhouse Professor of the Greek Language and
Literature*

(121 N.) 233 Church st.

JOHN F. WEIR, N.A., M.A.

Professor of Painting and Design

(9 Art School) 130 Bradley st.

JOHN E. CLARK, M.A.

Professor of Mathematics

8 Trumbull st.

CYRUS NORTHROP, LL.B.

Professor of Rhetoric and English Literature

(137 F.) 607 Chapel st.

DANIEL C. EATON, M.A.

Professor of Botany

70 Sachem st.

ARTHUR M. WHEELER, B.A.

Professor of History

207 D.

ADDISON VANNAME, M.A.

Librarian

(LIBRARY) 121 High st.

J. WILLARD GIBBS, PH.D.

Professor of Mathematical Physics

121 High st.

ARTHUR W. WRIGHT, PH.D.

Professor of Molecular Physics and Chemistry

(Lab'y.) 34 Hillhouse av.

THOMAS R. LOUNSBURY, B.A.

*Professor of English, and Librarian of the
Sheffield Scientific School*

(6 s. H.) 22 Lincoln st.

OTHNIEL C. MARSH, M.A.

*Professor of Palæontology, and Curator of the
Geological Cabinet*

(8 Peabody Museum) 9 College st.

EUGENE L. RICHARDS, B.A.

Assistant Professor of Mathematics

(86 N. M.) 196 York st.

FRANCIS A. WALKER, PH.D.

Professor of Political Economy and History

(40 N. S. H.) 68 Whitney av.

JOHN H. NIEMEYER, M.A.

Professor of Drawing

8 Art School.

FRANKLIN B. DEXTER, M.A.

Assistant Librarian, and Registrar

(LIBRARY) 240 D.

SIMEON E. BALDWIN, M.A.

*Professor of Constitutional Law and the Law of
Contracts and Wills*

(25 White's Building) 44 Wall st.

OSCAR D. ALLEN, PH.D.

*Professor of Analytical Chemistry and
Metallurgy*

(13 s. H.) 189 Temple st.

EDWARD B. COE, B.A.

Street Professor of Modern Languages

(122 N.) 83 Wall st.

ADDISON E. VERRILL, M.A.

*Professor of Zoology, and Curator of the Zoological
Cabinet*

(15 Peabody Museum) 148 College st.

FRANKLIN CARTER, M.A.

Professor of the German Language and Literature

(120 N.) 2 York sq.

WILLIAM G. SUMNER, B.A.

Professor of Political and Social Science

140 Edwards st.

JOHNSON T. PLATT, M.A.

*Professor of Pleading and Equity
Jurisprudence*

(179 Church st.) 128 Bradley st.

SIDNEY I. SMITH, PH.B.

Professor of Comparative Anatomy (14 Peabody Museum) 148 College st.

WILLIAM G. MIXTER, PH.B.

Professor of Chemistry

(8 s. H.) 25 Eld st.

HENRY P. WRIGHT, PH.D.

*Dunham Professor of the Latin Language and
Literature*

(89 N. M.) 34 Temple st.

ISBON T. BECKWITH, PH.D.

Tutor in Greek

170 F.

GENERAL STATEMENT

The departments of instruction in YALE COLLEGE are comprehended under four divisions, as follows:

The Faculty of THEOLOGY,
of MEDICINE,
of LAW,
of PHILOSOPHY AND THE ARTS.

Under the last-named Faculty are included, the COURSES FOR GRADUATE INSTRUCTION, the UNDERGRADUATE ACADEMICAL DEPARTMENT, the UNDERGRADUATE SECTION OF THE SHEFFIELD SCIENTIFIC SCHOOL, and the SCHOOL OF THE FINE ARTS—each having a distinct organization.

In the particular statements which follow, the Department of Philosophy and the Arts is first given, with its subdivisions in the order named; and afterwards the three Professional Departments.

The legal designation of the Corporation is "THE PRESIDENT AND FELLOWS OF YALE COLLEGE IN NEW HAVEN."

DEPARTMENT OF PHILOSOPHY AND THE ARTS

Instruction for Graduates and Special Students

Graduates of this and other Colleges, and other persons of liberal education (not less than eighteen years old), are received as students for longer or shorter periods, with or without reference to the attainment of a degree.

An Executive Committee, designated by the Faculty, has a general oversight of the students in this department. The Committee this year is composed of Professors Whitney, Newton, Brush, and Wheeler. They receive the names of applicants for instruction, and judge and approve the courses of study proposed; and information may be obtained from them as to conditions, terms, etc. Students may also make special arrangements with any instructor according to their mutual convenience.

Instruction is given partly by lectures, partly by recitations and by oral and written discussions, partly by directing courses of reading, and partly by work in the laboratories and with instruments.

The terms and vacations correspond with those in the Undergraduate Departments. (See Calendar, p. 4)

The fee for instruction in the Scientific School is \$150 a year; in the other sections of the Department generally \$100, or more or less, according to the course pursued and the amount of instruction received.

The Degree of DOCTOR OF PHILOSOPHY is conferred upon those who, having already taken a Bachelor's degree, implying a course of undergraduate study equivalent to that pursued in the Academical Department, engage as students in this department for not less than two years in assiduous and successful study. It is not given, upon examination, to those whose studies are pursued elsewhere. The requirements for it will in some cases exact of the student more than two years

of labor; so, especially, wherever the course of undergraduate study has been of less than four years. The candidate must pass a satisfactory final examination, and present a thesis giving evidence of high attainment in the branches of knowledge to which he has attended. A good knowledge of Latin, German, and French will be required in all cases, unless, for some exceptional reason, the candidate be excused by the Faculty. The graduating fee is ten dollars.

The courses of instruction given in the department may be grouped as follows:

I. Political Science, History, Philosophy, and English Literature

President PORTER will instruct in psychology and philosophy, in the history of philosophy, and in ethics.

Ex-President WOOLSEY will lecture on the principles of international law.

Professor BREWER will instruct in the relations of physical geography to political history.

Professor WHEELER will instruct in the history of Europe from 1760 to 1848, with a special course of lectures on the French Revolution.

Professor WALKER will instruct in public finance and the statistics of industry.

Professor SUMNER will instruct in International Law, and will lecture on Institutional Self-government, and on Finance.

Professor BEERS will instruct in the history of English literature.

II. Philology

Professor THACHER will give instruction in such Latin authors as may be agreed upon.

Mr. J. H. TRUMBULL will instruct in the American Indian languages, especially the dialects of the Algonkin family.

Professor WHITNEY will instruct in the first year in the general principles of linguistic science, and in the second year in the comparative philology of the Indo-European languages. He will also teach the Sanskrit language, in a course of study extending through both years.

Professor PACKARD will instruct in special Greek authors and in the history of Greek literature.

Mr. VAN NAME will teach the elements of the Chinese and Japanese languages.

Professor LOUNSBURY will give instruction in the Anglo-Saxon language, and in the early forms and literature of English.

Professor COE will give instruction in Old French and Provençal.

Professor CARTER will instruct in the older Germanic languages and literature, including Gothic.

Mr. A. S. WHEELER will give instruction in the Institutes of Gaius and of Justinian, in select titles of the *Corpus Juris*, and in German text books of Roman Law.

The Hebrew and other Semitic languages may be pursued under Professor DAY of the Theological Department, either in connection with his regular classes or otherwise.

III. *Mathematical and Physical Science*

For the instruction given to graduate and special students in the Sheffield Scientific School, see pages 63, 64. The courses there specified may be variously combined with those here announced, or the student may occupy himself in either section exclusively, according to his circumstances and plans.

Professor LOOMIS will teach meteorology, with especial reference to the making and reducing of meteorological observations.

Professor DANA will instruct in geology.

Professor NEWTON will instruct in the calculus, in analytical mechanics, in the lunar and planetary theories, and in the higher geometry.

Professor GIBBS will instruct in the laws of vibratory and undulatory motion, with especial reference to light and sound; in the potential function, with its application to the theories of electricity and magnetism; and in capillarity.

Professor A. W. WRIGHT will give instruction in physical manipulation, in the departments of heat, light, and electricity, with practical directions as to the management of apparatus.

Mr. E. S. DANA will give instruction in optical mineralogy and crystallography.

IV. *Fine Arts*

For the instruction given to graduate and special students in the School of the Fine Arts, see page 72.

For the conditions of the degree of Master of Arts, see page 61.

UNDERGRADUATE ACADEMICAL DEPARTMENT

CANDIDATES FOR ADMISSION to the Freshman Class are examined in the following books and subjects :

Latin Grammar—including Prosody.

Sallust—Jugurthine war ; or four books of Cæsar.

Cicero—seven Orations.

Virgil—Bucolics, Georgics, and first six books of the Æneid.

Arnold's Latin Prose Composition, to the Passive voice (first twelve chapters). [It is suggested to teachers, in addition to the use of the work named, to connect simple exercises in making Latin, either oral or written, with all the Latin studies of their pupils throughout the preparatory course.]

Greek Grammar—including Prosody.

Xenophon—Anabasis, four books.

Homer—Iliad, three books.

Greek History.

The rules for pronunciation given in Hadley's Grammar are recommended as a guide.

Higher Arithmetic—including the metric system of weights and measures.

Algebra—so much as is included in Loomis's Treatise, up to the chapter on Logarithms.

Euclid—first two books. [The first, third, and fourth books of Davies's Legendre's Elements of Geometry, or of Loomis's Elements of Geometry, may be offered instead of Euclid.]

English Grammar and Geography ; a thorough knowledge of which is required.

THE REGULAR EXAMINATION FOR ADMISSION is held at Graduates' Hall, New Haven, on the Friday, Saturday, and Monday following Commencement (June 29, 30, July 2, 1877): *attendance is required at the beginning of the examination, at 9 A. M. on Friday* ; those candidates will be detained until Monday, whose examination cannot, for any reason, be finished on

Saturday. The examination is partly oral and partly written; copies of papers recently given (covering the *written* portion of the examination) will be sent on application.

In 1877 an examination will also be held in Chicago (beginning on Friday, June 29, at 9 A. M.), at a place to be announced in the Chicago newspapers of the day previous. This examination will be wholly in writing.

A second Examination (for those who cannot attend the first) is held in New Haven at the beginning of the College year, on Tuesday and Wednesday (Sept. 11, 12, 1877): candidates for this examination must attend at Graduates' Hall at 9 A. M. on Tuesday.

Persons applying to be examined at other times must first obtain special permission from the Faculty, and pay to the Treasurer a fee of ten dollars. In general, no examinations for admission to the Freshman Class can be held before Commencement.

ADVANCED STANDING—All candidates for advanced standing, *whether from other Colleges or not*, are examined, in addition to the preparatory studies, in those already pursued (see next page) by the Class which they wish to enter. In the several languages, for the particular books studied by the Class, equivalent amounts may be offered from other books in the same language.

Bachelors of Arts or of Philosophy of any institution may join the Senior Class without examination, as candidates for the degree of Doctor of Philosophy; which degree will be conferred on such persons after three years' study.

No one can be admitted to the Senior Class after the beginning of the second term.

AGE—No one can be admitted to the Freshman Class till he has completed his fifteenth year, nor to an advanced standing without a corresponding increase of age.

TESTIMONIALS—Satisfactory testimonials of good moral character are in all cases required, before a certificate of admission is granted; and students from other Colleges must present certificates of dismissal in good standing.

BOND—Every person must give to the Treasurer, on being admitted, a bond, executed by his parent or guardian, for five hundred dollars, as security for the payment of all charges arising under the laws of the College.

Course of Instruction

THE COURSE OF INSTRUCTION occupies four years. In each year there are two terms or sessions.

The following is a scheme of the studies, or, more correctly, of equivalents which will be accepted from candidates for advanced standing:—

FRESHMAN YEAR:

FIRST TERM—*Greek*—Homer's *Odyssey*, begun. *Latin*—Livy, begun; Cicero's Second Philippic; Arnold's Latin Composition (to page 150). *Mathematics*—Loomis's Algebra; Todhunter's Euclid; Chauvenet's Geometry; Loomis's Trigonometry. *Hygiene*—Lectures.

SECOND TERM—*Greek*—Homer's *Odyssey*, continued through four books; Herodotus, continued through half of the first book; Arnold's Greek Composition. *Latin*—Livy, continued through one book; Cicero *de senectute*; Ovid, Ramsay's Selections; Roman Antiquities. *Rhetoric*—Recitations and Lectures. Compositions.

SOPHOMORE YEAR:

FIRST TERM—*Greek*—Six Orations of Demosthenes. *Latin*—Odes of Horace; Agricola of Tacitus. *Mathematics*—Loomis's Trigonometry. *Rhetoric*—Lectures on Composition. Compositions. Criticism.

SECOND TERM—*Greek*—Prometheus of Æschylus; Xenophon's *Memorabilia*, one book; Antigone of Sophocles; Plato's Apology of Socrates and Crito. *Latin*—Satires and Epistles of Horace; Satires of Juvenal; Cicero *de officiis*. *Mathematics*—Loomis's Trigonometry; Loomis's Conic Sections; Loomis's Analytical Geometry; Mechanics. *Rhetoric*—Lectures on Elocution, with practice. Declamations. Compositions.

JUNIOR YEAR:

FIRST TERM—*Physics*—Ganot's Physics. *German*—Whitney's Grammar and Reader; German Composition. *English*—Shakespeare's *Macbeth*; Craik's History of English Literature; Forensic Disputations. *Chemistry*—Barker's Chemistry; Lectures.

For optional studies (*Latin, Greek, Mathematics, French*) see page 54.

SECOND TERM—*Natural Philosophy*—Ganot's Physics. Lectures. *English*—Recitations. Forensic Disputations. *German*—Whitney's Grammar and Reader; German Composition. *Zoology*—Huxley's Physiology. Lectures. Laboratory Practice. *Astronomy*—Loomis's Astronomy, to Chapter xii. *Logic*—Jevons's Logic.

For optional studies (*Latin, Greek, Mathematics, French, Anglo-Saxon, Zoology*) see page 54.

SENIOR YEAR:

FIRST TERM—*Mental Philosophy*—Porter's Human Intellect. Lectures.

Geology—Dana's *Geology*. *Political Science*—Fawcett's *Political Economy*. Lectures. *Rhetoric*—Compositions. Criticism.

For optional studies (*Latin, Greek, French, German, Sanskrit, Mathematics, Astronomy, Mineralogy, History*) see below.

SECOND TERM—*Natural Theology and Evidences of Christianity*—Lectures. *Moral Philosophy*—Recitations. Lectures. *History of Philosophy*—Schwegler's *History*. *History*—Hallam's *Constitutional History*. Lectures. *Evolution and Cosmogony*—Lectures. *Rhetoric*—Compositions. Criticism. *Political and Social Science*—Recitations. Lectures. *International Law*—Woolsey's *International Law*. *Elements of Jurisprudence and American Constitutional Law*—Lectures.

For optional studies (*Latin, Greek, French, German, Sanskrit, Linguistics, Mathematics, Physics, Meteorology, Geology, Palaeontology, Political Science*) see below.

LECTURES

FIRST TERM:

SENIOR CLASS—*Intellectual Philosophy*—The PRESIDENT. *Political Economy*—Professor SUMNER. *German*—Professor CARTER.

JUNIOR CLASS—*Chemistry*—Professor A. W. WRIGHT. *History of English Literature*—Professor BEERS.

FRESHMAN CLASS—*Hygiene*—Professor SANFORD.

SECOND TERM:

SENIOR CLASS—*Natural Theology and Evidences of Christianity*—The PRESIDENT. *Moral Philosophy*—The PRESIDENT. *Evolution and Cosmogony*—Professor DANA. *History*—Professor WHEELER. *Political Philosophy*—Professor SUMNER. *Elements of Jurisprudence, and American Constitutional Law*—Professor BALDWIN.

JUNIOR CLASS—*Natural Philosophy*—Professor LOOMIS. *Heat, Light, and Electricity*—Professor A. W. WRIGHT. *Zoology*—Mr. J. K. THACHER.

SOPHOMORE CLASS—*Rhetoric*—Professor NORTHROP.

OPTIONAL STUDIES—The following courses of optional studies are provided for Junior and Senior years.

Every student is required to have four exercises a week in an optional study, during Junior and Senior years. Change from one optional to another is allowed at the end of Junior year, and also whenever in the course of a year a new optional is begun. Any student who can on examination show thorough acquaintance, in advance, with one or more of the required studies of Junior or Senior year, may add another optional in the place of each study thus anticipated.

I, PHILOLOGY

1. ANCIENT LANGUAGES : (a) GREEK, through Junior and Senior years, four exercises a week, with Professor Packard ; in Junior year, the *Gorgias*, *Phædo*, and *Symposium* of Plato ; in Senior year, the Republic of Plato. (b) LATIN, through Junior and Senior years, with Professor Thacher, four exercises a week ; beginning with the *Adelphi* of Terence in Junior year, and with Latin Composition in Senior year. (c) Sanskrit, through Senior year, with Professor Whitney, two double exercises a week.

2. MODERN LANGUAGES AND LITERATURE : (a) FRENCH, through Junior and Senior years, four exercises a week, with Professor Coe ; in Junior year, French Composition, Modern French Comedy, Racine ; in Senior year, French Composition, Corneille, Molière, Boileau, LaFontaine. A knowledge of the elements of the French language is required of students who choose French as an optional study in Junior year. The examination may be passed at the time of the Sophomore annual examination, or at the beginning of Junior year, and will be upon Chardenal's First French Course. (b) GERMAN, through Senior year, four exercises a week, with Professor Carter ; Schiller's *Die Piccolomini* and *Wallenstein's Tod*, Goethe's *Faust*, Lessing's *Laocoon*, German Composition. (c) ANGLO-SAXON, through the second half of the second term of Junior year, with Professor Beers, four exercises a week.

3. LINGUISTICS : Through the first half of the second term of Senior year, two exercises a week, with Professor Whitney.

II, HISTORY AND POLITICAL SCIENCE

1. HISTORY, through the first term of Senior year, with Professor Wheeler, four exercises a week ; Bancroft's History of the United States.

2. POLITICAL ECONOMY, through the second term of Senior year, with Professor Sumner, four exercises a week.

III, MATHEMATICS AND ASTRONOMY

1. MATHEMATICS, through Junior and Senior years, four exercises a week, with Professor Newton ; Loomis's Calculus, followed by Analytical Mechanics or Higher Geometry.

2. ASTRONOMY, through the first term of Senior year, four exercises a week, with Professor Loomis ; Loomis's Astronomy.

IV, MOLECULAR AND TERRESTRIAL PHYSICS

1. PHYSICS, through the second term of Senior year, four exercises a week, with Professor A. W. Wright.

2. METEOROLOGY, through the second term of Senior year, four exercises a week ; Loomis's Meteorology.

V, NATURAL SCIENCE AND GEOLOGY

1. ZOOLOGY, through the second half of the second term of Junior year, four exercises a week, with Mr. J. K. Thacher.

2. MINERALOGY AND MATHEMATICAL CRYSTALLOGRAPHY, through the first term of Senior year, with Professor Dana, four exercises a week ; Dana's Text Book.

3. GEOLOGY, through the second term of Senior year, with Professor Dana ; Dana's Manual.

4. PALÆONTOLOGY, through the first half of the second term of Senior year, with Mr. J. K. Thacher, and through the second half of the term, with Professor Marsh and Mr. Thacher ; Dana's Manual of Geology. [Geology and Palæontology make together one course, the exercises alternating each week ; those taking this course must have first taken the course in Mineralogy and Crystallography.]

EXERCISES IN DECLAMATION AND COMPOSITION—The Senior Class have exercises in English composition, and the Junior class, in forensic disputation, through the year.

The Sophomore Class during the whole year, and the Freshman Class, during the latter half of the second term, have exercises in English composition.

The Sophomore Class have regular exercises in elocution ; and once a week, during a part of the year, have an exercise in declamation before the Professor of Rhetoric and the members of the Class.

PUBLIC EXAMINATIONS are held at the close of the first term, on the studies of the term ; and, at the close of the year, on all the studies of the year. The annual examinations are conducted wholly in writing, and continue for about two weeks.

VOCAL MUSIC—Gratuitous instruction in Vocal Music is given during a part of the year (the exercises being open to members of all the Departments of the College), subject, however, to a small charge for fire and lights.

Terms and Vacations

THE PUBLIC COMMENCEMENT is held on the Thursday after the last Wednesday in June. The first term begins eleven weeks from Commencement-day and continues fourteen weeks : the second term begins on the second Thursday in January and continues until Commencement-day, with a Spring recess—usually of eight days—including Easter. (See Calendar, p. 4.) The exercises of each term begin with prayers in the Chapel on Thursday morning.

LEAVE OF ABSENCE—No student is allowed to be absent without special leave, except in the vacations.

Public Worship

PRAYERS are attended in the Battell Chapel every morning, with reading of the Scriptures and singing, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on Sunday, at which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only on presenting to the President a written request therefor from the parent or guardian.

Gymnasium

The Gymnasium is designed to provide all the students with opportunities for exercise. Those who use the bath-rooms pay a small fee for tickets.

Expenses

THE TREASURER'S BILLS are made out three times a year, viz., at the close of the first term, and at the middle and close of the second term, at which times they are payable. The bills for the first half of the second term must be paid within three weeks of the date, and the other bills within two weeks after the beginning of the succeeding term, or the student is liable to be prohibited from reciting. Drafts on Boston, New York, and Philadelphia will be received at par.

The annual charge for tuition and incidentals is \$140.

For the rent and care of a half-room in the College buildings, the average charge is thirty-five dollars per year.

OTHER CHARGES—There are additional charges at graduation, amounting to eighteen dollars. If a student occupies a room alone, the charge for rent and care is ordinarily double that stated above.

ABSENCE ON LEAVE—A student who is absent from College on account of sickness, or for any other cause, and still retains his place in his class, pays full tuition during such absence.

BOARD is obtained at prices varying from four to eight dollars a week. The average price for the summer of 1876 was about \$5.75. Board may be obtained in clubs, at a lower rate than is common in boarding houses.

ROOMS—There are at present in the College buildings above two hundred rooms occupied by students, at prices varying (according to location) from \$25 to \$140 per year, not including vacations. Students living out of College are not allowed to room in any building in which a family does not reside, except by special permission of the Faculty.

FURNITURE, BOOKS, ETC.—Students provide for themselves furniture, fuel, lights, and text-books; if books and furniture are sold when the student has no further necessity for them, the expenses incurred by their use will not be great.

NECESSARY EXPENSES—The following may be considered a near estimate of the *necessary* annual expenses, for a student occupying a half-room in College, without including apparel, traveling, and board in vacations:—

Treasurer's bill (according to location of room), from	\$160	to	\$220
Board, 37 weeks, - - - - -	"	150	to 300
Fuel, lights, and washing, - - - - -	"	35	to 65
Use of text-books and furniture, - - - - -	"	30	to 65
Total, - - - - -	\$375		\$650

COLLEGE GUARDIAN—As a precaution against extravagance, parents at a distance sometimes deposit funds with one of the Faculty; who, in that case, attends to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of expenditures, for which services he charges a commission.

Beneficiary Funds

The sum of \$11,000 and upwards, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially of those preparing for the Christian ministry. About one hundred thus have their tuition either wholly or in part remitted. Students needing such aid should inform the Senior officer of the Class to which they belong, soon after entering College. Assistance will be withdrawn from students who incur serious College censure, or who fail to maintain a reputable scholarship.

THE HARMER FOUNDATION OF SCHOLARSHIPS comprises six scholarships, each yielding one hundred dollars a year, to be given to deserving students of small means.

There are also eighteen other Scholarships, most of them yielding sixty dollars a year, which may be given to such students as shall be selected by the founders or the Faculty.

Students who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with many of the text-books used in the College course.

Fellowships and Scholarships

THE DOUGLAS FELLOWSHIP, with an income of at least six hundred dollars a year, was founded in 1873 by Mrs. Samuel Miller, of New Haven, and named in memory of her brothers, Rev. Sutherland Douglas (Y. C. 1822) and George H. Douglas (Y. C. 1828). The incumbent, who must be a recent graduate of the Academical Department, pursuing non-professional studies in New Haven, is elected annually, but may not hold the Fellowship for more than three years.

THE SOLDIERS' MEMORIAL FELLOWSHIP, with an annual income of six hundred dollars, was founded in 1875 by Mrs. Theodosia D. Wheeler, of New Haven, in honor of the alumni who fell in battle as Union soldiers, in the war of 1861-1865, and in especial remembrance of William Wheeler, of the class of 1855. The incumbent must be at the time of his election a graduate of the Academical Department of not more than three years' standing. He shall reside in New Haven, pursuing non-professional studies, and may hold the Fellowship for a period not exceeding five years.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior class who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals), and Horace; provided he remain in New Haven as a graduate, one, two, or three years.

THE CLARK SCHOLARSHIP, yielding one hundred and twenty dollars a year, is awarded to the student in each Senior Class who passes the best examination in the studies of the College course; provided he remain in New Haven one or two years immediately succeeding his graduation, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding over one hundred dollars a year, is awarded, whenever there is a vacancy, to the student in the Sophomore or Junior Class who passes the best examination in the Greek and Latin classics and mathematics. The successful candidate receives the annuity (forfeiting one-third in case of non-residence) until he would regularly take his second degree.

THE WOOLSEY SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes

the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate receives the annuity, under certain conditions, during the four years of his College course. The student who stands second at this examination receives for one year the income of the HURLBUT SCHOLARSHIP; and the student who stands third, the income for one year of the THIRD FRESHMAN SCHOLARSHIP. The income of each of these Scholarships is \$60.

THE W. W. DE FOREST SCHOLARSHIP, yielding one hundred and twenty dollars a year, is awarded to some student in each Senior Class who has attained distinction in the study of French while in College, provided he remain in New Haven the year after graduation, pursuing a further course of study in the Romance languages under the direction of the Faculty.

Premiums

THE DE FOREST PRIZE MEDAL, of the value of \$100, is awarded "to that scholar of the Senior Class who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, of twelve dollars each, are awarded in the Senior Class for the best specimens of English composition.

THE SENIOR MATHEMATICAL PRIZES (the first consisting of a gold medal of the value of ten dollars and of ten dollars in money, the second of ten dollars in money) are offered to the Senior Class for the best solutions of problems in both abstract and concrete mathematics.

CLARK PREMIUMS are offered to the Senior Class for the solution of problems in Practical Astronomy.

THE WINTHROP PRIZES (one of two hundred dollars and one of one hundred dollars) are offered to the Junior Class "for the most thorough acquaintance with the Greek and Latin poets," as shown at an examination during the latter half of the second term.

COLLEGE PREMIUMS are given in the Sophomore Class for English composition, and for declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

SCOTT PRIZES for excellence in the Modern Languages are offered to the Junior Class; these prizes are two in number, of the value of thirty dollars each, and are given in books.

BERKELEY PREMIUMS for Latin Composition are offered to the Freshman Class near the end of the year.

THE JOHN A. PORTER PRIZE, of two hundred and fifty dollars, is offered at each Commencement for the best English Essay. Any person who has been studying for a degree in any department of the University during the entire College year may compete for this prize.

Degrees

The degree of BACHELOR OF ARTS is conferred by the Corporation on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates are required to pay their dues to the Treasurer as early as the Monday before Commencement.

The degree of MASTER OF ARTS is conferred on Bachelors of Arts of this College, of two years' standing or upwards, who have given to the Academical Faculty evidence of having made satisfactory progress in liberal studies after receiving their first degree.

Such evidence may be furnished, first, by one year's systematic study (not professional) in New Haven, under the direction and instruction of the Academical Faculty, followed by an examination.

In the second place, such Bachelors of Arts of this College as may not choose to reside at the College for the prosecution of study, may, at any time not less than three years after graduation, show to the Academical Faculty, by their printed writings, or by submitting to special examinations, or by any other satisfactory evidence of a year's liberal (and non-professional) study, that they are worthy of recommendation for this degree.

Bachelors of Arts of other Colleges are admitted without examination to any of the courses of graduate instruction (pp. 49, 50); and after a course of resident study, may, on a satisfactory examination, be recommended for the Master's degree.

A suitable fee will be charged for examinations.

Candidates for this degree must give notice to the Secretary before the first of April.

SHEFFIELD SCIENTIFIC SCHOOL

THE SHEFFIELD SCIENTIFIC SCHOOL is devoted to instruction and researches in the mathematical, physical, and natural sciences, with reference to the promotion and diffusion of science, and also to the preparation of young men for such pursuits as require especial proficiency in these departments of learning.

The School, begun in 1847, and reorganized upon a more extensive scale in 1860, received in 1863, by the act of the Connecticut Legislature, the national grant for the promotion of scientific education under the Congressional enactment of July, 1862. It thus became in consequence the "College of Agriculture and the Mechanic Arts" of Connecticut.

OFFICERS AND INSTRUCTORS.—In addition to the Governing Board (mentioned on p. 37), on whom devolves the internal management of the School, the following additional instructors are employed during the current year:—

ALBERT S. WHEELER, M.A., German; FREDERIC R. HONEY, Drawing; JOSEPH J. SKINNER, C. E., Mathematics; AUGUST H. EDGREN, PH.D., French; GEORGE W. HAWES, PH.B., Mineralogy; MANSFIELD MERRIMAN, C.E., Civil Engineering; HENRY A. HAZEN, M.A., Drawing; RUSSELL H. CHITTENDEN, PH.B., Physiological Chemistry; FREDERIC N. PEASE, PH.B., Analytical Chemistry; WILLIAM H. PATTON, B.A., Zoology; HIRAM A. MILLER, PH.B., Mechanical Drawing.

Instruction is given in Elementary and Free-hand Drawing by Professor NIEMEYER, of the Yale School of the Fine Arts; in Elocution by MARK BAILEY, M.A.

The Board of State Visitors consists of the Governor, Lieutenant-Governor, three senior Senators, and the Secretary of the Board of Education.

The Board of Councilors, invited by the Corporation to advise and assist in the progress of the School, are as follows — Hon. J. E. ENGLISH, of New Haven; Hon. M. JEWELL, of Hartford; Hon. J. R. HAWLEY, of Hartford; Hon. O. F. WINCHESTER, of New Haven; JOSEPH E. SHEFFIELD, Esq., of New Haven;

Professor J. D. DANA, of New Haven; HENRY FARNAM, Esq., of New Haven; M. DWIGHT COLLIER, M.A., of St. Louis; Hon. WILLIAM E. DODGE, of New York City.

The instruction is intended for two classes of students:—

I.—Graduates of this or of other Colleges, and other persons qualified for advanced or special scientific study.

II.—Undergraduates who desire a training, chiefly mathematical and scientific, in part linguistic and literary, for higher scientific studies, or for other occupations to which such training is suited.

Instruction for Graduate and Special Students

Persons who have gone through undergraduate courses of study, here or elsewhere, may avail themselves of the facilities of the School for more special professional training in the physical sciences and their applications, gaining in one, two, or three years the degree of BACHELOR OF PHILOSOPHY, or, in two additional years of Engineering study, that of CIVIL ENGINEER or DYNAMIC ENGINEER.

Or, engaging in studies of a less exclusively practical character, they may become candidates for the degree of DOCTOR OF PHILOSOPHY, under the conditions already stated (see p. 48). The instruction in such cases will be adapted to the particular needs and capacities of each student, and may be combined with that given by the graduate instructors in other departments (see pp. 49, 50). Subjects likely to receive special attention are suggested as follows:—

Professor NORTON will instruct in applied mechanics and in spherical astronomy;

Professor LYMAN, in the use of meridional and other astronomical instruments, and in astronomical spectroscopy;

Professor TROWBRIDGE, in the principles of thermodynamics, and the artificial generation, transfer, and utilization of heat as a source of power;

Professor BRUSH, in the analysis and determination of mineral species, and in descriptive mineralogy;

Professor JOHNSON, in theoretical, analytical, and agricultural chemistry;

Professor BREWER, in agriculture and forest culture, in the use of the microscope, and in physical geography;

Professor CLARK, in definite integrals, differential equations, analytical mechanics, the theory of numerical approximations, and the method of least squares ;

Professor EATON, in structural and systematic botany, including the North American flora and the description of genera and species ;

Professor MARSH, in palæontology and comparative osteology ;

Professor WALKER, in public finance and in the statistics of industry ;

Professor ALLEN, in analytical chemistry, and in metallurgy ;

Professors VERRILL and SMITH, in zoology and geology.

The same courses of study are open, for a longer or shorter time, to graduate students who do not desire to become candidates for a degree.

The degrees of CIVIL and DYNAMIC ENGINEER are conferred on Bachelors who have taken the first degree in Engineering study, and who pursue a higher course for at least two years, sustaining a final examination, and giving evidence of their ability to design important constructions and to make the requisite drawings and calculations.

SPECIAL STUDENTS—For the benefit of those who, being fully qualified, desire, to pursue particular studies without reference to the obtaining of a degree, special or irregular students are received in most of the departments of the School ; not however, in the Select Course, nor in the Freshman Class.

It should be distinctly understood that these opportunities are not offered to persons who are incompetent to go on with regular courses, but are designed to aid those who have received a sufficient preliminary education elsewhere to increase their proficiency in special branches.

Instruction for Undergraduate Students

TERMS OF ADMISSION—Candidates must be not less than sixteen years of age, and must bring satisfactory testimonials of moral character from their former instructors or other responsible persons.

For admission to the Freshman Class the student must pass a thorough examination in the following subjects :—

English Grammar—including spelling and composition.

History of the United States.

Geography.

Latin—Six books of Cæsar's Commentaries, or their equivalent, and simple exercises in prose composition.

Arithmetic—including the Metric System of weights and measures.

Algebra—an equivalent to Loomis's Treatise, as far as the general theory of equations.

Geometry—an equivalent to the nine books of Chauvenet's Treatise.

Trigonometry—an equivalent to the Plane Trigonometry contained in the recent editions of Loomis's Geometry, or to the Plane and Analytical Trigonometry of Davies's Legendre.

Physics—Snowball and Lund's Course of Elementary Natural Philosophy (published by Macmillan & Co., N. Y. City).

In GEOMETRY, the candidate may offer the ten books of the last edition, (recently published) of Loomis's Elements, along with the Appendix, up to the section on Transversals, as an equivalent to the nine books of Chauvenet. He may also offer either of the translations of Legendre in use in this country instead of corresponding matter in Chauvenet; but, for example, if he wishes to offer Davies's Legendre, he should, in addition, at least familiarize himself with the subjects of Loci, Symmetry, and Maxima and Minima of Plane Figures, as far as treated by Chauvenet and Loomis. Whatever text book the student makes use of in his preparation, he should, as far as practicable, have suitable exercises in proving simple theorems and solving simple problems for himself. It is important, too, that he should be accustomed to the numerical application of geometric principles, and especially to the prompt recollection and use of the elementary formulæ of mensuration. He should also be exercised in applying the formulæ of Trigonometry to a variety of simple reductions and transformations, and especially to the solution of trigonometrical equations. Among other works, Todhunter's "Trigonometry for Beginners" will furnish the judicious teacher much material for this class of exercises. Readiness and accuracy in trigonometrical calculations are also of prime importance to the candidate. If the use of Logarithms is postponed in his preparation till Trigonometry is taken up (which is by no means necessary or advisable) he should then have abundant applications of them to all forms of calculation occurring in ordinary practice, as well as to those appearing in the solution of Triangles. Finally, in all of his calculations, he should study the art of neat, orderly, and readily intelligible arrangement.

In LATIN, in order to assure the attainment of the required proficiency in this study, the student should have such continued training in parsing as shall make him thoroughly familiar with declensions and conjugations, and accurate and ready in the application of the rules of syntax. As an additional guarantee of the proper mastery of these grammatical elements, the requirement has been adopted of "simple exercises in prose composition." By this is meant, merely, such a course of elementary exercises in translating, orally and in writing, from English into Latin as, in connection with the systematic parsing just mentioned, shall necessitate a familiarity with gram-

metrical forms and the leading principles of syntax, and thus render the reading of the six books of Cæsar (or their equivalent) more thorough and fruitful. Since this course of elementary exercises in translation is designed as a preparation for reading, and not as a sequel to it, it should be invariably begun at the earliest stage of the study of Latin. To avoid any misapprehension of the nature or the extent of the requirement, the following works are specifically named, among which the candidate for examination may make his own election. These are Harkness' "Introduction to Latin Composition," 112 pages; Leighton's "Latin Lessons," 91 pages; Smith's "Principia Latina," Part I.; or McClintock's "First Latin Book," 83 lessons (193 pp.). Any equivalent of these may be offered from the many useful books of a similar character. A knowledge of Prosody is not required.

The examinations for admission take place at North Sheffield Hall, on Friday and Saturday, June 29, 30; and on Tuesday and Wednesday, September 11, 12, 1877. Opportunities for private examination may, in exceptional cases, be given at other times.

In 1877 an examination will also be held in Chicago (beginning on Friday, June 29, at 9 A.M.), at a place to be announced in the Chicago newspapers of the day previous.

Candidates for advanced standing in the undergraduate classes are examined, in addition to the preparatory studies, in those already pursued by the class they wish to enter. No one can be admitted as a candidate for a degree, later than at the beginning of the Senior year.

COURSES OF INSTRUCTION, occupying three years, are arranged to suit the requirements of various classes of students. The first year's work is the same for all; during the last two years the instruction is chiefly arranged in special courses.

The special courses most distinctly marked out are the following:—

- (a.) In Chemistry;
- (b.) In Civil Engineering;
- (c.) In Dynamic (or Mechanical) Engineering;
- (d.) In Agriculture;
- (e.) In Natural History;
- (f.) In studies preparatory to Medical Studies;
- (g.) In studies preparatory to Mining and Metallurgy;
- (h.) In Select studies preparatory to other higher studies.

The arrangement of the studies is indicated in the annexed scheme.

FRESHMAN YEAR—INTRODUCTORY TO ALL THE COURSES

FIRST TERM—*German*,—Whitney's Grammar and Reader. *English*,—Hadley's Brief History of the English Language; Exercises in Composition. *Mathematics*,—Plane Analytical Geometry. *Physics*,—Atkinson's Ganot, with experimental lectures. *Chemistry*,—Eliot and Storer's Manual: Laboratory practice. *Elementary Drawing*,—Practical Lessons in the Art School.

SECOND TERM—*Language, Physics, Chemistry, and Drawing*,—As stated above. *Mathematics*,—Elements of the Theory of Numerical Approximations; Solution of Higher Numerical Equations; Methods of Interpolation; Analytical Geometry in Space; Spherical Trigonometry. *Physical Geography*,—Lectures. *Botany*,—Gray's Lessons. *Polit. Economy*,—Elementary Lectures. *Drawing*,—Orthographic Projection.

For the Junior and Senior years the students select for themselves one of the following courses:—

(a.) IN CHEMISTRY

JUNIOR YEAR

FIRST TERM—*Theoretical and Organic Chemistry*,—Lectures. *Qualitative Analysis*,—Fresenius. *Laboratory Practice. Blowpipe Analysis. German. French.*

SECOND TERM—*Laboratory Practice*,—Quantitative Analysis. *Mineralogy*,—Blowpipe Analysis and Determination of Species. Lectures. *French. German.*

SENIOR YEAR

FIRST TERM—*Laboratory Practice*,—Volumetric and Organic Analysis. *Geology*,—Dana's. *Zoology*,—Lectures and Excursions. *French.*

SECOND TERM—*Laboratory Practice*,—Mineral Analysis and Assaying. *Agricultural Chemistry*,—Recitations and Lectures (optional). *Geology*,—Dana's. *Metallurgy* (optional). *Mineralogy* (optional). *French. Zoology*,—Lectures.

(b.) IN CIVIL ENGINEERING

JUNIOR YEAR

FIRST TERM—*Mathematics*,—Differential and Integral Calculus. Descriptive Geometry. *Surveying*,—Field Operations. *Drawing*,—Binns' Orthographic Projections. *German. French.*

SECOND TERM—*Mathematics*,—Integral Calculus. Rational Mechanics. Descriptive Geometry. *Drawing*,—Projection of Shadows and Perspective. Topographical. Warped Surfaces. *Surveying*,—Topographical. *German. French.*

SENIOR YEAR

FIRST TERM—*Field Engineering*,—Laying out Curves. Location of line of Railroad, with calculations of Excavation and Embankment. Hencks' Field Book for Railroad Engineers. *Civil Engineering*,—Stone Cutting,—with graphical problems. Mahan's Civil Engineering. *Geology*,—Dana's. *Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *French*.

SECOND TERM—*Civil Engineering*,—Resistance of Materials. Bridges and Roofs. Building Materials. Stability of Arches and Walls. *Dynamics*,—Principles of Mechanism. Steam Engine. *Hydraulics*,—Hydraulics and Hydraulic Motors. *Drawing*,—Graphical Statics. *Astronomy*,—Loomis's Astronomy, with practical problems. *Mineralogy*,—continued. *Geology*,—Dynamic. *French*.

(c.) IN DYNAMIC ENGINEERING

JUNIOR YEAR

FIRST TERM—Differential and Integral Calculus. Descriptive Geometry. The use of the Level, Theodolite, and Transit. Instrumental Drawing. *German*. *French*.

SECOND TERM—Integral Calculus. Rational Mechanics. Instrumental Drawing. General Theory of Motion, and Principles of Mechanism. *German*. *French*.

SENIOR YEAR

FIRST TERM—Principles of Mechanism. Applications of the Principles of Mechanics to Machinery. Machine Construction. Blowpipe Analysis. Resistance of Materials. Construction of roof trusses, girders, and iron bridges. *Geology*. *French*.

SECOND TERM—General principles of Heat employed as a source of power. The construction of Steam Generators. Steam Engines. Hot Air Engines. Water Engines. Water Wheels. The Construction of Water Reservoirs, and Conduits. Measurement of Water Supply. Discharge of Pipes, etc. Graphical Statics. *Metallurgy*. *Geology*.

(d.) IN AGRICULTURE

JUNIOR YEAR

FIRST TERM—*Theoretical and Organic Chemistry*,—Lectures. *Experimental and Analytical Chemistry*,—in their Agricultural applications. Laboratory Practice. *Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *German*. *French*.

SECOND TERM—*Agricultural Chemistry*,—Recitations and Lectures. *Experimental Chemistry*,—Laboratory Practice. *Physical Geography*. *Horticulture*, *Kitchen Gardening*, and *Forest Culture*,—Lectures. *Mineralogy*. Lectures. *Botany*,—with Excursions. *German*. *French*.

SENIOR YEAR

FIRST TERM—*Agriculture*,—Cultivation of the Staple Crops of the Northern States. *Agricultural Zoology*,—Origin and Natural History of Domestic Animals. Insects useful and injurious to Vegetation. *Geology*,—Dana's. *French Excursions*,—Agricultural, Botanical, etc.

SECOND TERM—*Agriculture*,—Stock raising and Principles of Breeding. *Geology*,—Dana's. *Rural Economy*,—History of Agriculture and Sketches of Husbandry in Foreign Countries. Systems of Husbandry. *Human Anatomy and Physiology*,—Lectures. *French*.

(e.) IN NATURAL HISTORY

(Either Geology, Mineralogy, Zoology, or Botany may be made the principal study, some attention in each case being directed to the other three branches of Natural History.)

JUNIOR YEAR

FIRST TERM—*Chemistry*,—Qualitative Analysis. Laboratory Practice. Recitations. *Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *Botany*,—Gray's Manual; Use of the Microscope. *German*. *French*.

SECOND TERM—*Zoology*,—Laboratory Practice. Excursions (land and marine). Lectures. *Physiology*,—Huxley's. *Botany*,—Laboratory Practice; Gray's Text-Book or Brown's Manual. Excursions. *Mineralogy*,—Lectures. *Physical Geography*. *German*. *French*.

SENIOR YEAR

FIRST TERM—*Geology*,—Dana's. Excursions. *Anatomy of Vertebrates*,—Huxley's. *Zoology*,—Laboratory Practice. Lectures. Excursions. *Botany*,—Herbarium Studies. Excursions. *Linguistics*,—Whitney's Life and Growth of Language. *French*.

SECOND TERM—*Geology*,—Dana's. *Zoology*,—Laboratory Practice. Excursions. *Botany*,—Herbarium Studies. Botanical Literature. Essays in Descriptive Botany. *Meteorology*. *French*.

Besides the regular courses of recitation and lectures on structural and systematic Zoology and Botany, and on special subjects, students are taught to prepare, arrange, and identify collections, to make dissections, to pursue original investigations, and to describe genera and species in the language of science. For these purposes, large collections in Zoology and Palæontology belonging to the College are available, as are also the private botanical collections of Professor Eaton.

(f.) IN PREPARATION FOR MEDICAL STUDIES

During the Junior year, the work of this course will be chiefly under the direction of the instructors in Chemistry. Especial attention will be given to qualitative and quantitative analysis, in their physiological and medical

bearings ; and to the preparation and study of the organic proximate elements. In the Senior year, the work will be chiefly under the direction of the Professors of Comparative Anatomy, Zoology, and Botany. Attention will be paid to the principles of Biology, comparative anatomy, embryology, the laws of hereditary descent, and human parasites ; and to a general knowledge of structural and physiological Botany. The order of studies is as follows :

JUNIOR YEAR

FIRST TERM—*Chemistry*,—Qualitative Analysis,—Fresenius'. Laboratory Practice. Recitations. *Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *German. French.*

SECOND TERM—*Physiological Chemistry*,—Klein's Handbook. Laboratory Practice. Recitations. *Physiology*,—Huxley's. *Botany*,—Lectures, Practical Exercises in Phenogamous Plants, and Excursions. *Mineralogy*,—continued. *German. French.*

SENIOR YEAR

FIRST TERM—*Comparative Anatomy and Physiology*,—Laboratory Practice. *Anatomy of Vertebrates*,—Huxley's. *Botany*,—Practical Exercises, Lectures, and Excursions. *Geology*,—Dana's. *Zoology*,—Lectures and Excursions. *French.*

SECOND TERM—*Comparative Anatomy and Systematic Zoology*,—Lectures, Laboratory Practice. *Botany*,—Lectures. Laboratory Practice in Cryptogamia, etc. *Geology*,—Dana's. *French.*

(g.) IN STUDIES PREPARATORY TO MINING AND METALLURGY

Young men desiring to become Mining Engineers, can pursue the regular course in Civil or Mechanical Engineering, and at its close can spend a fourth year in the study of metallurgical chemistry, mineralogy, etc.

(h.) IN THE SELECT STUDIES PREPARATORY TO OTHER HIGHER STUDIES

JUNIOR YEAR

FIRST TERM—*Mineralogy*,—Blowpipe Analysis and Determinative Mineralogy. *Astronomy. English*,—Early English. *History*,—Freeman's Outlines. *French. German.*

SECOND TERM—*Mineralogy*,—Lectures. *Physical Geography. Botany*,—Lectures and Excursions and Laboratory Practice. *English*,—Chaucer, Shakespeare. *History*,—Freeman's Outlines, with Lectures. *Political Economy*,—Walker's Science of Wealth. *German. French.*

SENIOR YEAR

FIRST TERM—*Geology*,—Recitations and Excursions. *Botany*,—Lectures, Excursions and Laboratory Practice. *Zoology*,—Lectures and Excursions. *Linguistics*,—Whitney's Life and Growth of Language. *English*,—Shakespeare. *History*,—Constitutional History of the United States. Lectures. *Political Economy*,—Lectures. *French*.

SECOND TERM—*Geology and Zoology*,—continued. *Meteorology*. *Political Economy*,—Lectures. *English*,—Shakespeare, Milton, Dryden, Pope. *History*,—Political History of the United States. History of Europe since 1848. Lectures. *French*.

Exercises in English Composition are required during the entire course from all the students. The preparation of graduating theses is among the duties of the Senior Year.

Lectures on Military Science and Tactics are annually given.

The TERMS AND VACATIONS correspond with those of the Academical Department. (See Calendar, p. 4.)

EXPENSES—The charge for tuition is \$150 per year, payable \$55 at the beginning of the first and of the second terms, and \$40 at the beginning of the third term. The special student of Chemistry has an additional charge of \$70 per annum for chemicals, and use of apparatus. He also supplies himself at his own expense with gas, flasks, crucibles, etc., the cost of which should not exceed \$10 per term. An additional charge of \$5 is annually made to each student for the use of the College Reading Room and Gymnasium.

The FEES for graduation as BACHELOR OF PHILOSOPHY, are \$10; unless the person taking the degree is also an academical graduate, when the fee is but \$5. For CIVIL or DYNAMIC ENGINEER, \$5. For DOCTOR OF PHILOSOPHY, \$10.

Degrees

BACHELOR OF PHILOSOPHY—The degree of Bachelor of Philosophy is conferred on those who have completed one of the three-year courses in the SHEFFIELD SCIENTIFIC SCHOOL, and have passed the examination at its close.

CIVIL AND DYNAMIC ENGINEER—See page 64.

DOCTOR OF PHILOSOPHY—See page 48.

SCHOOL OF THE FINE ARTS

THE COUNCIL of this Department consists of the following *ex-officio* members:—the President of the College, the President of the National Academy of Design, the President of the New York Museum of Art, and the Director of the School, who is also the Secretary; together with four regularly appointed Councillors, Mr. HENRY FARNAM, Mr. DONALD G. MITCHELL, Mr. EDWARD E. SALISBURY, and Mr. JOHN D. WHEELER.

THE FACULTY, on whom devolves the internal management of the school, consists of the President of the College, and the Professors whose names and departments of instruction are as follows:—JOHN F. WEIR, Professor of Painting, and Director of the School; JOHN H. NIEMEYER, Professor of Drawing; FREDERIC R. HONEY, instructor in Geometry and Perspective. (The chairs of Sculpture, Architecture, and Anatomy are unfilled.)

The School has for its end the cultivation and promotion of the Arts of Design, viz: PAINTING, SCULPTURE, and ARCHITECTURE, both in their artistic and æsthetic aims, through practice and criticism. The aim is—

1st. To provide thorough technical instruction in the Arts of Painting, Sculpture, and Architecture.

2d. To furnish an acquaintance with all branches of learning relating to the History, Theory, and Practice of Art.

The Courses of Instruction provided under these heads—of Practice and Criticism—may be regarded as distinct, or correlative, embracing that practical and theoretical knowledge of art which is no less desirable for the critic than for the artist.

The course of technical instruction, covering three years, is arranged as follows:*

* No provision has yet been made for instruction in the departments of Sculpture and Architecture, but it is hoped that before long this will be provided.

First Year

DRAWING—from the flat : from the antique : from the living model.

PERSPECTIVE—descriptive geometry : shadows and linear perspective : applications and examples.

LECTURES—the elements of form : principles of proportion.

Second Year

DRAWING—technical discipline : studies from the living model.

ANATOMY—the bones and articulations of the skeleton : the muscles and movements of the body : the anatomy of external forms.

PAINTING—technical discipline : studies from casts and still-life.

Third Year

PAINTING—technical practice : studies from the living model.

COMPOSITION—studies in color and chiaroscuro : design.

LECTURES—on the history, theory, and practice of art.

In the departments of Drawing and Painting the practice of the studio is based upon the study of the human form.

The course in drawing is supplemented by lectures on Form and Proportion.

The practice in painting is supplemented by lectures on Color, Chiaroscuro, and Composition.

Drawing is continued, without interruption, through the first half of the course, or until the student evinces that proficiency which will warrant advancement. Painting is continued through the remainder of the course. Students will be encouraged to remain in the school and pursue advanced studies after the three years' course is completed.

In **PERSPECTIVE**, instruction is given in the form of lectures; but students will be required to work out the examples, or problems, and submit them for examination at the next meeting of the class. The subject has three divisions: the first is devoted to descriptive geometry and its application to projection drawing; the second to shadows and linear perspective; and the third to applications and problems. At the close of the course an examination is held, and the standing of the student determined.

In **ANATOMY**, instruction is likewise given in the form of lectures. This subject has also three divisions: the first is devoted to the bones and articulations of the skeleton; the second to the muscles and movements of the body; and the

third to the anatomy of external forms. Students are required to draw, in detail, the parts under discussion by the lecturer, and submit the same for examination, at the next meeting of the class. At the close of the course the relative standing of the pupils is determined by examination.

A COURSE OF PUBLIC EVENING LECTURES on "the Aesthetics of every-day life" will be delivered in the School, during the second term, by Mr. Donald G. Mitchell. Lectures will also be given during the first term by Mr. Parke Godwin, Mr. John La Farge, Mr. E. E. Salisbury, and Mr. Chas. Eliot Norton.

PRIZES may be competed for, both in Drawing and Painting, at the close of the courses provided in these respective departments; (in drawing, a prize of \$50 for a study from the Antique, and \$100 for an approved study from the life; in painting, corresponding prizes of equal amounts;) but the necessary qualification includes, in drawing, an approved knowledge of perspective; and in painting, a requisite acquaintance with anatomy—as provided for by the instruction given in these branches.

DIPLOMAS are only accorded to those who remain through the full course, or pass the requisite examinations. If qualified, the student may enter advanced classes at once.

The CHARGE FOR TUITION is \$36 for three months, *in advance*; and no student will be admitted for a shorter period. Art-students are admitted *free* to all the lectures delivered in the school, whether public lectures or those in regular course; to the collections at all times; and are entitled to such privileges, under the usual restrictions, as are granted to students in the other departments of the College.

The School is open to both sexes, but no student will be admitted under fifteen years of age.

The ART LIBRARY will be open at specified hours for the use of students.

The COLLECTIONS embrace the "Jarves Gallery of Italian Art," numbering one hundred and twenty paintings, dating from the 11th to the 17th centuries; the "Trumbull Gallery" of original portraits and other works, by John Trumbull, numbering fifty-four pictures; a collection of portraits and works of contemporaneous art, numbering about seventy-five pictures; together with about one hundred and fifty casts and marbles, the former from many of the best productions of

ancient art. In addition to the collections belonging to the School, a Loan Exhibition is organized annually, previous to the College Commencement, and continues open for six months. These loan exhibitions have, through their general excellence, contributed materially to the objects of the School by affording opportunity for studying the representative works of contemporaneous art. The Collections are open daily for the use of students, and to the public, during the winter, from 1 to 4 P. M.; and during the summer, when a special loan exhibition is organized, from 9 A. M. to 6 P.M. The proceeds of the exhibitions are applied to the purchase of material adapted to instruction, and to the incidental expenses of the School.

"Students' Season Tickets," at one dollar each, admitting the holders to the Exhibitions throughout the year, are furnished to students of all other departments of the College.

The Art School occupies a large and beautiful building, erected for this object by the late Augustus Russell Street, of New Haven, containing commodious galleries well adapted to the purpose of an Art Museum, and for lectures; drawing, painting, and modeling rooms, designed for the instruction of classes; also library rooms and studios.

This department of the college is open to all who desire to avail themselves of its instructions, without restriction, save as to age and general good character. It aims to embrace a wide field of usefulness in connection with the knowledge and promotion of art, and to offer every facility to the student both in the way of criticism and technical discipline.

The course of study, as at present constituted, embraces only that instruction which the school is now prepared to furnish practically and efficiently: this is subject to expansion with the growth of the means at the disposal of the Faculty.

All applications for admission to the school should be made through the Director. It is particularly desirable that these applications be made before October 1st.

THEOLOGICAL DEPARTMENT

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Lecturer on Church Polity and American Church History, a Professor of Hebrew Literature and Biblical Theology, a Professor of Systematic Theology, a Professor of Homiletics and the Pastoral Charge, a Professor of Ecclesiastical History, and a Professor of Sacred Literature.

CONDITIONS OF ADMISSION—The conditions of entrance are membership in some evangelical church, or other satisfactory evidence of Christian character, and a liberal education at some College, or such other literary acquisitions as may be considered an equivalent preparation for theological studies. Students of every Christian denomination, in case they are possessed of these qualifications, are admitted.

It is expected that every student will be promptly on the ground at the beginning of the session. Rooms are assigned in the order of application, but no room will be reserved for any applicant who neglects to appear, beyond one week after the opening of the term.

COURSE OF INSTRUCTION—The regular course occupies three years, and is arranged in the following order:—

JUNIOR YEAR:

Professor DAY will lecture on the Encyclopedia and Literature of Theology, and give instruction in Hebrew Grammar and Philology. Portions of the historical books of the Old Testament in the original will be carefully read and analyzed, and critical and exegetical dissertations presented by the class on points of special difficulty or importance.

Professor DWIGHT will give instruction in the exegetical study of the Greek New Testament. The course includes, in addition to the regular exegetical exercises, the critical investigation of the Greek text and the study of the subjects connected with the Introduction to the New Testament. Dissertations of a critical and exegetical character will, also, be prepared by the students and discussed in the presence of the class.

Professor HARRIS will lecture on Mental Philosophy with special reference to the study of Theology; also on Natural Theology, the Evidences of Christianity, and the Inspiration of the Scriptures; also, as incidental to these topics, on the various forms of Skepticism.

MIDDLE YEAR :

Professor HARRIS will lecture on Systematic Theology. This course will include a full and systematic investigation of the doctrines of Christianity, and of existing questions and controversies in respect to them. The lectures are accompanied by examinations and free discussions.

Professor FISHER will lecture on General Church History, including the following topics : an historical survey of the Old or Preparatory dispensation in its relation to Christianity ; the establishment and spread of Christianity (including Missions and Persecutions) ; Ecclesiastical Polity (including the rise and rule of the Papacy, and the Reformation) ; and the history of Christian Life and Worship.

Professor DAY will give instruction in Biblical Theology, with special reference to the progressive stages of Divine revelation, and the doctrinal results of the modern critical study of the Bible. He will also lecture on portions of the Hebrew Scriptures, especially the poetical and prophetical books.

Professor DWIGHT will continue to give instruction by lectures and recitations, in the exegetical study of the New Testament, especially the Pauline Epistles.

Dr. BACON will lecture on American Church History.

SENIOR YEAR :

Professor HOPPIN will lecture on Sacred Rhetoric and Homiletics, and also on Pastoral Theology, including the office, qualifications, pastoral duties, and special work of the ministry ; he will also take charge of the practical exercises in Preaching, and in the criticism of the style and delivery of Sermons.

Professor FISHER will lecture on the history of Christian Doctrine and on Symbolical Theology, and students will be aided in pursuing historical investigations for themselves.

Dr. BACON will give a series of lectures on Church polity, with special reference to the polity and discipline of the Congregational Churches.

Professor DWIGHT will lecture on some topics of special interest connected with the different books of the New Testament.

Professor DAY will read, with those who wish to prosecute the study of Syriac, the Peshito version of the New Testament.

Optional Studies in either Year :

Professor DAY will read, free of charge, with those students who desire to become familiar with the theological literature of Germany and have made some progress in the language, some standard work in German on Christian doctrine, with critical remarks, and references to the ablest works on special topics. The grammatical study of the language may be pursued with the classes in the Sheffield Scientific School.

Professor WHITNEY will give instruction to those who desire it in Sanskrit. Instruction in vocal music is given gratuitously to students who desire it. (See p. 56.)

The following courses of lectures in the Academical Department may be attended, free of charge, provided that they do not interfere with the regular studies of the Seminary: on *Intellectual and Moral Philosophy*, by President PORTER; on *Natural Philosophy and Astronomy*, by Professor LOOMIS; on *Evolution and Cosmogony*, by Professor DANA; on *History*, by Professor WHEELER; on *Political and Social Science*, by Professor SUMNER. Students may also be admitted to the various courses of lectures in the Sheffield Scientific School. Those who intend to become Foreign Missionaries have the privilege of attending gratuitously the lectures in the Medical Department.

EXERCISES IN PUBLIC SPEAKING—There will be an exercise for all the classes, in the presence of the Faculty, once in two weeks, in the reading of the Scriptures and hymns, and in the delivery of sermons, or parts of sermons, or addresses. Every alternate week there will be a conference, designed to cultivate the power of *extemporaneous speaking*, in which the students will be called on to present their views on some subject selected by the Faculty. Weekly debates are also held by the students, in societies of their own.

Instruction in Elocution will be given by Mr. BAILEY, the Instructor in the Academical Department.

LICENSE TO PREACH—The regular time for applying for a license is at the close of the second year's study, before which time members of the Department are not allowed to preach.

PUBLIC WORSHIP—Prayers are attended every morning in the MARQUAND Chapel, with reading of the Scriptures and singing. It is optional with the student whether to connect himself with the College Church, or with one of the City churches; but whatever may be his decision, it is hoped that he will actively engage, so far as may not be inconsistent with the prosecution of his studies, in some form of City Mission, Sabbath School, or other benevolent labor, for which constant opportunities are offered.

LIBRARIES—The Reference Library of the School, containing nearly two thousand volumes in various languages, and established through the liberality of Mr. Henry Trowbridge, of New Haven, is placed in the East Divinity Hall. It is designed to furnish the students with the standard and most recent books in every branch of theological literature and those most frequently called for in the pursuit of their studies. It is open daily for consultation, and thus takes the place, for each student, of a well selected and extensive private library.

The valuable Library of Church Music, belonging to the late Dr. Lowell Mason, has been recently given to the Department by his family. This Library, which is placed in the West

Divinity Hall, and is one of the largest of the kind in the country, will be open for the use of students.

The College Library, to which the students have access without charge, contains about 80,000 volumes, and is open five hours on every secular day for consultation and for the drawing of books.

The library of the College literary Societies, containing about 20,000 volumes in general literature, is accessible to theological students.

PHYSICAL EXERCISE—The College Gymnasium is open to the students of this Department at a small charge. The harbor of New Haven affords excellent facilities for boating, to those inclined to this mode of exercise.

ROOMS—The rooms in the two DIVINITY HALLS are provided with carpets, beds, bedding, and every necessary article of furniture. They are assigned to new students in the order of application. A few rooms have two bedrooms attached to them, but, in general, provision is made for each student to room alone. The buildings are warmed throughout by steam, and lighted by gas. Bath-rooms are placed on every floor. The buildings are thoroughly ventilated on an approved system.

EXPENSES AND PECUNIARY AID—Students have only to make pecuniary provision for about eight months of study annually. In the remaining four months of vacation, from May to September, they have the opportunity of engaging in Home Missionary or other labor, with remuneration for their services.

The expenses for the annual session are \$4 to \$5 a week for board; \$15 to \$28 for fuel and lights; and \$10 a year for care of room and other incidental expenses. There is no charge for instruction, room rent, or use of Libraries.

Students whose circumstances require it, will receive \$100 a year from the income of Scholarships and other funds belonging to the Department. Additional aid to the amount of \$100 annually is afforded by the American Education Society to its beneficiaries. In special cases additional aid towards the expense of board will be given. These means of assistance fully cover all the expenses mentioned above.

The Scholarships belonging to the Department bear respectively the names of James Hillhouse, William Leffingwell, George E. Dunham, Normand Smith, E. E. Salisbury, Thomas R. Trowbridge, Charles Atwater, Richard Borden, Samuel

Holmes, Charles Nichols, Roland Mather, Noah Porter, John DeForest, J. R. Beadle, David Root, Mary Goodman, Orin Fowler, and Edward Bull.

A Graduate Scholarship has been established in this Department, as a memorial of the late Mrs. Aurelia D. Hooker, of New Haven. It is offered for the first time to the class which entered in September, 1876, and will be assigned at graduation to that member of the class who shall be judged by the Faculty of the Department to be most worthy of it. The person to whom the scholarship shall be given will receive the annual income (\$700) for two years after graduation, and will be expected to pursue a course of theological study, either as a resident at the Seminary, or, in case he may prefer to do so, in Europe and Palestine.

After the close of the second year in May, students have frequent opportunities to receive remuneration for preaching in the neighboring churches.

In general it may be said, that sufficient aid will be provided for every young man who gives promise of usefulness in the ministry, to enable him, in connection with his own efforts, to complete a course of theological study.

COMMENCEMENT OF THE TERM, VACATION, ETC.—The session for 1876-77 began on Thursday, Sept. 14, and will continue till the third Thursday in May, when the public Anniversary is held. The annual examination of the classes, and the meeting of the Alumni, are held in the same week. The next annual term will begin on Thursday, September 13, 1877.

By thus throwing all the vacations into one, the most favorable season of the year is secured for study, while the opportunity is given, in the four months' vacation, to engage in some form of benevolent labor, in connection with the missior efforts of the churches, or in the service of one of the benevolent societies, by which the practical experience required of the pastor, as well as pecuniary compensation, may be obtained. Should any students prefer to spend the vacation in theological reading, the Professors will counsel them in the choice of books.

DEGREE—The degree of Bachelor of Divinity is conferred on all members of the Department who at the end of the Senior year pass the prescribed examination, and present an approved thesis on some topic in theology.

MEDICAL DEPARTMENT

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Chemistry and Toxicology, a Professor of Obstetrics and the Diseases of Women and Children, a Professor of Materia Medica and Therapeutics, a Professor of Histology, Pathology, and Microscopy, a Professor of the Theory and Practice of Medicine, a Professor of Surgery, a Professor of General and Special Anatomy, a Lecturer on Physiology, a Lecturer on Ophthalmology and Otology, and a Demonstrator of Anatomy.

The course of study is divided into two terms in each year, a Spring Term and a Winter Term.

In the Spring Term, instruction is given by recitations and lectures. In this Term the students are classified, so that those who are just entering on the study are taught during their *first* year only the more elementary branches; while the studies of the *second* year include the more practical branches. Provision is made for students attending a *third* year, to review the studies of the entire course, with the addition of such collateral branches and advanced courses of reading as the necessities or attainments of individual pupils may require. Two or more recitations are held daily.

The instruction in the Winter Term is conducted by means of Public Lectures, with daily examinations, illustrated by Hospital Instruction, Medical and Surgical Clinics, with abundant facilities for Anatomical Dissections.

While the studies of each of these terms are independent and so far complete in their parts that they may be pursued separately with profit, yet they are designed to be so related to each other, that together they make a full and rounded curriculum of proportional study. In no way can the student more easily and naturally acquire a clear and comprehensive knowledge of the medical sciences in their present advanced position, than by taking these courses in connection, and pursuing his studies at the College for the entire period of three years.

The Spring Term will begin March 1, 1877, and continue to the Annual Commencement, June 28. The Winter Term for 1877, being *the Sixty-fifth Annual Course of Lectures*, will begin October 4, and close January 31, 1878.

CHEMISTRY—The chemical instruction in each term is intended to supplement that given in the other. In the Winter Term, lectures, fully illustrated by experiments, are given upon General Chemistry during the first half of the term; and upon Organic and Physiological Chemistry (including the Chemistry of the urine) and Toxicology during the second half. In the Spring Term, Theoretical Chemistry is taught by recitations, and Practical Chemistry by Laboratory work. The Junior Class work in Elementary Qualitative Analysis; the Middle Class in advanced Analysis, including the examination of drugs, the urine, calculi, etc. These exercises consist of two hours' daily work. The Senior Class are taught to make original researches in Physiological Chemistry.

DISSECTING ROOMS—The spacious and well-appointed Dissecting Rooms are amply supplied with anatomical material at a reasonable charge, under the personal direction of the Demonstrator.

MICROSCOPY, HISTOLOGY, AND PATHOLOGY, are illustrated by a sufficient number of compound microscopes and a large collection of the best preparations. It is believed that no institution in this country furnishes the student greater facilities for acquiring exact knowledge in this department.

A **SURGICAL CLINIC** is held at the College at 12 M., every Wednesday, and a **MEDICAL CLINIC** at 3 P. M., every Friday. Medical and Surgical Clinics are also held at the Hospital every week during the Lecture Course. The facilities for Clinical instruction are large, and continually increasing. In connection with the Clinics, students are made thoroughly conversant with the special methods of the expert practitioner, by having exhibited to them from day to day all the recent advances attained in special manipulations, physical explorations, and the enlightened employment of remedies. All Surgical operations are performed in the presence of the students, and every endeavor is made to familiarize them with the use of all instruments and surgical appliances.

THE MUSEUM contains a large collection of natural and morbid specimens, numerous casts, plates, and models, of ele-

gant execution, and an extensive Cabinet of Materia Medica, all of which are made practically useful in illustrating the subjects taught. The Libraries of the University and the Cabinets of Mineralogy and Natural History are also open for the use of students.

COMPARATIVE ANATOMY, ZOOLOGY, AND OTHER DEPARTMENTS COLLATERAL TO MEDICAL STUDIES—Special advantages are offered to Medical Students for the pursuit of Zoology, Comparative Anatomy, Botany, and other cognate studies, under distinguished teachers, in connection with the Sheffield Scientific School.

OPHTHALMOLOGY AND OTOTOLOGY are taught by a course of practical Lectures, with Clinical Illustrations.

REQUIREMENTS FOR GRADUATION—Every candidate for a degree is required to possess, in addition to a good English education, a competent knowledge of the Latin language and of the principles of Natural Philosophy; to present to the Dean, two weeks before examination, a *Thesis*, written by himself, upon some medical subject; to present a satisfactory certificate that he is twenty-one years of age, and possesses a good moral character. He must have attended two full courses of public lectures, one at least of which must have been in this Institution. He must present a satisfactory certificate from a respectable and regular practitioner of medicine that he has attended to the study of physic and surgery for three years, including the time spent in attendance upon medical lectures.* In case he is a graduate of college his diploma is received as equivalent to a certificate of medical study for one year.

The Board of Examiners consists of the Faculty and an equal number of the Members of the Connecticut Medical Society, appointed by the President and Fellows of the same; and the President of the Society is *ex-officio* President of the Board. The examinations are conducted in writing.

Two examinations for degrees are held annually, one at the close of the Winter Term, and the other at the close of the Spring Term, on the Tuesday before Commencement.

* The Spring Term is counted as part of the time required for Medical Study; but *it does not count* as one of the courses of Public Lectures required for Graduation.

TUITION FEES, ALWAYS REQUIRED IN ADVANCE

Matriculation Fee, paid annually,	-	-	-	\$	5.00
Course of Lectures in Winter Term,	-	-	-		105.00
For the Spring Term,	-	-	-	-	60.00
Contingent Expenses of Laboratory, Spring Term,					10.00
Demonstrator's Ticket,	-	-	-	-	5.00
Graduation Fee,	-	-	-	-	25.00

In the Winter Term students may take the whole or part of the lectures, at their option; fee for each Professor's ticket, \$15.

Those who have attended two full courses of lectures in this Institution, and those who have attended one full course of Lectures in this Institution and a full course in a similar Medical College, are entitled to admission to the Lectures of any future Winter Term on the payment of Five Dollars for incidental expenses. Those who have attended two full courses in any other accredited Medical College, may receive all the tickets for the Winter Term, including Matriculation, for \$50.

LAW DEPARTMENT

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Mercantile Law and Evidence, a Professor of Elementary and Criminal Law and the Law of Real Property, a Professor of Constitutional Law, Contracts, and Wills, a Professor of Pleading and Equity Jurisprudence, and an Instructor in Public Law. Lectures are also delivered by Rev. THEODORE D. WOOLSEY, D.D., LL.D., on International Law, Rev. LEONARD BACON, D.D., LL.D., on Ecclesiastical Law, Hon. ORIGEN S. SEYMOUR, LL.D., on Judicial Procedure and Practice, Hon. LAFAYETTE S. FOSTER, LL.D., on Parliamentary Law, and the Science of Legislation, Professor WAYLAND on English Constitutional Law and History, Professor ROBINSON on Medical Jurisprudence, MARK BAILEY, M.A., on Forensic Elocution, Professor BALDWIN on Roman Law and Comparative Jurisprudence, Professor PLATT on General Jurisprudence, Professor HOPPIN on Forensic Composition, and FREDERIC H. BETTS, M.A., on Patent Law.

TERMS AND VACATIONS—There are two terms in each year: the Fall Term, beginning on the same day with the first Academical Term (Sept. 14, 1876), and continuing fourteen weeks (to Dec. 21, 1876); and the Spring Term, beginning (Feb. 1, 1877) after a vacation of six weeks, and closing at Commencement (June 28, 1877), with a recess of one week (beginning Wednesday, April 18).

COURSE OF INSTRUCTION

UNDERGRADUATE COURSE

The Undergraduate Course occupies two years, the students being divided into two classes, for each of which a special course of study is provided. The daily exercises consist of lectures and recitations from standard text books, the latter being accompanied by oral explanations. The students are frequently referred to the leading cases on the subject under

consideration, and required to be prepared for questions upon them at the next exercise: they are also encouraged to put questions freely to the instructor at all recitations. On every Wednesday a moot court is held, at which one of the professors acts as judge. The students acting as counsel, in the argument of cases, are required to draw the necessary pleadings in the common law form.

Members of either Class can attend the lectures of Professors to undergraduates in other Departments of the College, whenever it is compatible with their other engagements; and, with a few exceptions only, without charge. They can also attend one or more of the special courses of graduate instruction in the Department of Philosophy and the Arts, on payment of a moderate fee. (See page 49.)

The regular curriculum of study is as follows:

JUNIOR YEAR

FALL TERM—Recitations: Elementary Law, Prof. Robinson; Torts, Prof. Platt; International Law, Mr. Woolsey. Lectures: Nature and History of American Law, and Wills, Prof. Baldwin; Methods of Study, President Porter.

SPRING TERM—Recitations: Contracts, Prof. Baldwin; Mercantile Law, and Evidence, Prof. Wayland; Pleading, Prof. Platt; International Law, Mr. Woolsey. Lectures: English Constitutional Law, Prof. Wayland; General Jurisprudence, Prof. Platt; Forensic Elocution, Mr. Bailey; Forensic Composition, Prof. Hoppin.

SENIOR YEAR

FALL TERM—Recitations: Equity, Prof. Platt; Contracts, Prof. Baldwin; Mercantile Law, Prof. Wayland. Lectures: International Law, President Woolsey; Parliamentary Law and the Science of Legislation, Judge Foster; Comparative Jurisprudence, and Roman Law, Prof. Baldwin.

SPRING TERM—Recitations: Contracts, Prof. Baldwin; Mercantile Law, Prof. Wayland; Real Property, Prof. Robinson. Lectures: Judicial Procedure and Practice, Judge Seymour; American Constitutional Law, Prof. Baldwin; Ecclesiastical Law, Dr. Bacon; Political Economy, Prof. Wayland; Patent Law, Mr. Betts; Criminal Law, and Medical Jurisprudence, Prof. Robinson.

A course of study is also provided for those who do not intend to engage in the practice of the Law, but wish to obtain a knowledge of its principles to complete their education, or with reference to mercantile pursuits.

The principal text-books used are, in Junior year, Robinson's Notes on Elementary Law, Addison on Torts (abridged), Parsons on Contracts, Gould on Pleading, Woolsey's Introduction to the study of International Law, and Greenleaf on Evidence, vol. I.; in Senior year, Parsons on Contracts, Smith's Manual of Equity Jurisprudence, Williams on Real Property, and Woolsey's Introduction to the Study of International Law.

Students are also recommended to read during their course the following works, in connection with their regular exercises: Blackstone's Commentaries, Smith's Mercantile Law, Smith's Leading Cases, Washburn on Real Property, Kent's Commentaries, Maine's Ancient Law, Hadley's Roman Law, Stephen on Pleading, Dicey on Parties, and Cooley on Constitutional Limitations.

At the close of the Spring Term, each Class is subjected to a written examination on the studies of the preceding year.

GRADUATE COURSE

The Graduate Course will occupy two years, and will be open to graduates from any Law School, having the degree of LL.B., under the conditions specified on pp. 91, 92. The terms and vacations will be the same as those in the undergraduate course in this department. The degree of Master of Law (M.L.) will be conferred upon examination at the close of the first year, and that of Doctor of Civil Law (D.C.L.) at the end of the second year. The curriculum for the first year is particularly designed to supplement that of the undergraduate course by affording further instruction in branches there pursued; that of the second year is designed to meet the wants of those who aim at acquiring a thorough acquaintance with jurisprudence and its affiliated studies, as a means of completing their education, without confining themselves to such topics as are of the first necessity to the practicing lawyer.

The arrangement of the curriculum is as follows:

FOR CANDIDATES FOR THE DEGREE OF M.L.—Administration of Estates, English Constitutional History, and Evidence in Equity, Prof. Wayland; Admiralty Law, Medical Jurisprudence, Forensic Oratory and Rhetoric, Prof. Robinson; Practice in the U. S. Courts, Railroad Law, and American Constitutional History, Prof. Baldwin; General Jurisprudence, Corporations, and Procedure in States having a Civil Code, Prof. Platt; Roman Law, Mr. A. S. Wheeler; English History, Prof. A. M. Wheeler; International Law, Prof. Sumner.

FOR CANDIDATES FOR THE DEGREE OF D.C.L.—Ethics, President Porter; Parliamentary Law, Political Science, and Hermeneutics, Prof. Wayland; Conflict of Laws, Early History of Real Property, Forensic Oratory, and Canon Law, Prof. Robinson; Comparative Jurisprudence, Study of Modern European Legislation, Political History, and Roman Law, Prof. Baldwin; General Jurisprudence, and Principles of Legislation, Prof. Platt; Roman Law, Mr. A. S. Wheeler; Relations of Physical Geography to Political History, Prof. Brewer; Political Economy, Prof. Walker; Sociology, Prof. Sumner.

Among the principal text-books used, are Greenleaf on Evidence, Vol. III, Benedict's Admiralty, Desty's Federal Procedure, Pierce on American Rail-

road Law, Austin on Jurisprudence, Angell and Ames on Private Corporations, Dillon on Municipal Corporations, Pomeroy's Remedies and Remedial Rights, the Institutes of Gaius, and of Justinian, and the Pandects, Story on the Conflict of Laws, Lieber's Principles of Legal and Political Interpretation, Digby on the Early History of Landed Property, and Wharton on Private International Law.

There is one exercise daily for those pursuing each year of the graduate course, and the preparation for it, with the collateral course of reading which will be prescribed for each, the preparation of the graduating thesis, etc., will be such as to occupy the working time of the student throughout the year. Resident graduates, whose time is partly occupied otherwise, can take part of the studies for the Master's degree during one year, and the remainder the next year, if they choose; thus deferring their examination till the end of the second year.

A knowledge of Latin will be necessary for those pursuing the studies of the last year of the course, but will not be indispensable for candidates for the degree of M.L. Students desiring to spend their whole time upon certain of the branches indicated, to the exclusion of others, will be allowed to do so, and for such, a special course of reading and examination will be marked out, in each case.

Graduates of this or other Law Schools, who desire to pursue a course of advanced studies, of a similar character to those above indicated, under the supervision of the Faculty, without residing at New Haven, can do so by entering their names as special students in the graduate course, not candidates for a degree. To such students a course of reading will be prescribed, having reference to the previous studies and circumstances of each: moot cases, in which they are to draw the pleadings and prepare written briefs, and subjects for theses, will also be given out from time to time. They will be required to be present at New Haven at least once a year for oral examination on the works read, and will receive a proper certificate, if the examination is satisfactory.

TERMS OF ADMISSION—Applicants for admission must be at least eighteen years of age, and must produce certificates of good moral character. No student who has not taken a degree from some collegiate institution, will be admitted as a candidate for a degree, until he has passed a satisfactory examination on the following branches: English Grammar (including Composition and Orthography); the outlines of the History of England, and of the United States; the text of the Constitution of the United States.

To entitle a person to admission to advanced standing as a member of the Senior Class, he must be at least nineteen years of age; must have studied Law under a competent instructor for at least a year; must pass such an examination as is required for those entering the Senior Class in the regular

course, and also (unless a college graduate) such an examination as is required of applicants for admission to the Junior Class.

Applicants for admission to advanced standing who have received a collegiate degree, or have passed the preliminary examination in English studies specified above, may either attend the regular annual Junior examination, which commences the second week before Commencement, or pass a special examination at the opening of the Fall Term, at which it will be sufficient if they are prepared to be questioned on Kent's Commentaries, lectures first to nine inclusive, fourteen to eighteen inclusive, and twenty, twenty-one, sixty, sixty-two and sixty-eight: Parsons on Contracts, subjects of bailments, partnerships, notes and bills, agents, gifts, capacity to contract, consideration and assent, sales, warranty, hiring, suretyship, infancy, married women, interest, marriage, construction, defences, estoppels, statute of limitation, damages and liens; Blackstone's Commentaries, first three books, or Robinson's Notes on Elementary Law, Gould on Pleading, Greenleaf on Evidence, vol. I, and Woolsey's Introduction to the Study of International Law.

Special students, not candidates for a degree, will be admitted to any of the exercises of the School, as heretofore, without examination.

EXAMINATIONS—There will be preliminary examinations of candidates for admission to the Junior Class at the opening of the Fall and Spring Terms, and at no other time.

Candidates for admission to the Senior Class will be examined at the end of the Spring Term, or beginning of the Fall Term; or at the close of the Fall Term, when their prescribed period of study shall mature at that time.

Seniors will be examined for a degree only at the close of the Spring Term; or at the close of the Fall Term when their prescribed period of study shall mature at that time.

Examinations for degrees in the graduate course will be held only at the close of the Spring Term.

Every candidate for each degree, both in the undergraduate and graduate courses, must also submit a thesis on a given legal topic, which must be approved by the Faculty.

LIBRARY—The special Library of the Department, which has a permanent endowment for its support (the English Fund),*

* Established by Hon. James E. English, M.A., in 1873.

contains over eight thousand volumes, comprising a complete collection of the English, American, and Irish Reports of judicial decisions, and an extensive collection of text-books, and works on jurisprudence and political history and philosophy. The consulting room is also supplied with the leading legal periodicals. The Library is open daily, during term time, from 8 A. M. to 12.45 P. M., and from 2 to 5.45 P. M. (with the exception of Saturday afternoon); during vacations, it is not opened until 9 A. M.

The students can also draw books without charge from the general University libraries, now containing over 100,000 volumes.

PRIZES—The **TOWNSEND Prize**,* of one hundred dollars, is annually awarded to that member of the Senior class who shall write and pronounce the best oration or thesis at his graduation, at the public anniversary exercises of the Department, on the day before Commencement.

The **JEWELL Prizes**,† each of fifty dollars, are annually awarded as follows: One prize to that member of the Senior class who receives the highest marks at the final examination of his class at their graduation; one prize to that member of the Senior class who shall write the best dissertation on a given legal topic; and one prize to that member of the Junior class who shall write the best dissertation on a given legal topic.

The **BETTS Prize**,‡ of fifty dollars, is awarded to that member of the Junior class who receives the highest marks at his annual examination.

The **CIVIL LAW Prize**, of thirty dollars, is awarded for the best dissertation on a given topic connected with the Roman Law.

BUILDINGS, AND FACILITIES FOR OBSERVING PRACTICE—The School occupies an entire story of the Court House of New Haven County, having upon the same floor a lecture room accommodating two hundred students, a large library hall, a Moot Court room, an instructor's room, and other apartments furnishing every needed convenience for Law clubs and debating societies.

* Established by Hon. James M. Townsend in 1874.

† Established by Hon. Marshall Jewell, M.A., in 1871.

‡ Established by Frederic H. Betts, M.A., in 1875.

Two terms of the Supreme Court of Errors of Connecticut, one term of the United States Circuit Court, and two terms of the United States District Court, are held annually in New Haven; and the Superior Court and Court of Common Pleas, the principal *nisi prius* Courts of the State are also in session almost daily during each of the Law School terms.

DEGREES—The degree of Bachelor of Laws will be conferred by the Corporation upon the recommendation of the Faculty of the Department, based on a satisfactory examination and the submission of a satisfactory thesis, on the following persons:

1st. Attorneys at Law, who have been members of the Department for one year after their admission to the Bar.

2d. Any students who have been members of the Department for not less than four terms, and who passed satisfactorily the Junior examination at the end of their first year.

3d. Upon those who have received the degree of Bachelor or Doctor in any of the Arts or Sciences from any incorporated College or University, and have subsequently been members of this Department for not less than eighteen months, or three terms, and who passed satisfactorily an examination at the end of their first or second term, on all the studies of the Junior year.

4th. Upon students who have been admitted to advanced standing as members of the Senior Class, and have remained in that Class for not less than one year or two terms.

Six months' study in the Law School of any other College or University, in the case of College graduates, or one year's study at such a School in other cases, is deemed equivalent to attendance during the same time in this Department, in computing the time prescribed for applicants, who come under the second and third of the preceding paragraphs.

Graduates of the Department receiving this degree are admitted to the Connecticut Bar without further examination.

By the rules adopted by the Court of Appeals of New York, a year's attendance at this Law School is counted the same as a similar period spent in the office of an attorney of that Court in New York.

The degree of Master of Law (M.L.) will be conferred by the Corporation on the recommendation of the Faculty of the Department, on persons, who, after having taken the degree of Bachelor of Laws, pursue, during at least one year, such a course of advanced studies as the Faculty may direct.

Bachelors of Laws, who also have the degree of Bachelor of Arts or of Philosophy, or who, having the degree of LL.B. from this college, ranked among the first quarter of their class in scholarship, according to their average marks at their final examination for that degree, may, after having taken the degree of M.L., apply for that of Doctor of Civil Law (D.C.L.). All applicants for the latter degree must have a good knowledge of Latin, and also of either the French or German language. The course of instruction will extend over at least one year after taking the master's degree, and the Faculty will recommend no one for the degree of D.C.L., who has not attained a high standard of proficiency in the studies pursued.

Neither degree will be conferred, except upon candidates who pursue their studies at New Haven, under the direction of the Faculty, pass with credit a strict final examination, and present a satisfactory thesis.

EXPENSES—The fees are the same, for tuition and use of library, in the Undergraduate and in the Graduate courses; viz., \$45 for the Fall Term, and \$55 for the Spring Term, or \$90 for the entire annual session, to be paid to the Treasurer of the College in advance, or secured by bond satisfactory to him: where payment is not made in advance, interest will be added. Candidates for a degree who pursue their studies beyond the minimum period of attendance required before applying for examination, will be charged only half these rates for their subsequent tuition. The diploma fee is \$5, and the Court fees for admission to the Bar are \$8. A further fee of \$5 is chargeable for admission to practice in the U. S. Courts for the District of Connecticut, if this is also desired. The tuition charges for special students in the graduate course, not candidates for a degree, vary from \$25 to \$100 a year, in proportion to the amount of instruction and supervision required.

Board and lodging can be obtained at prices ranging from \$6 a week upwards.

For further particulars, inquiries may be addressed to Professor Francis Wayland, Dean of the Faculty, at New Haven, Conn.

PEABODY MUSEUM OF NATURAL HISTORY

TRUSTEES

PROFESSOR JAMES D. DANA, Ph.D., LL.D., *Chairman*
HIS EXCELLENCY CHARLES R. INGERSOLL, LL.D., *ex officio*
THE HONORABLE ROBERT C. WINTHROP, LL.D.
PROFESSOR BENJAMIN SILLIMAN, M.D.
PROFESSOR GEORGE J. BRUSH, M.A., *Treasurer*
PROFESSOR OTHNIEL C. MARSH, M.A.
GEORGE PEABODY WETMORE, M.A.

CURATORS

OTHNIEL C. MARSH, M.A., *Curator of the Geological Cabinet*
ADDISON E. VERRILL, M.A., *Curator of the Zoological Cabinet*
EDWARD S. DANA, Ph.D., *Curator of the Mineralogical Cabinet*

The gift of the Founder, GEORGE PEABODY, of London, was committed to the Board of Trustees, in October, 1866, "to found and maintain a Museum of Natural History, especially in the departments of Zoology, Geology, and Mineralogy, in connection with Yale College." Of the entire gift (\$150,000), \$100,000 was devoted by the donor to the erection, on land given for the purpose by the President and Fellows of the College, of a fire-proof building, planned with especial reference to subsequent enlargement. Of the remainder of the gift, the sum of \$20,000 is set apart as a reserve fund for the completion of the building, and the income of \$30,000 is available for the care of the Museum and the increase of its collections.

By the accumulations from investment of the original building-fund, the first wing of the Museum is now completed, at a cost of about \$140,000, or, with the cases, \$175,000.

The basement will be used for exhibiting the collection of fossil footprints from the Connecticut valley, and for work and storerooms. The first story contains the Mineral Cabinet, and rooms for instruction in Mineralogy, as well as the general lecture room. The second story is entirely devoted to Geology, and the third to Zoology. In the fourth story the large south room will be used for the collection in Archæology and Ethnology, and the remainder for storerooms.

So far as the collections are arranged, the Museum is open to students and the public every day in term-time.

LIBRARIES

THE COLLEGE LIBRARY numbers about 80,000 volumes, besides many thousand unbound pamphlets. It is designed for the use of the College officers, resident graduates, and the students of the various departments. Other persons may have the privilege of consulting the Library and drawing books, by permission of the Library Committee. The Library is open daily in term-time from 9½ A. M. to 1 P. M., and from 2½ to 5 P. M. (or, during the winter months, to 4½ P. M.)

In the same building is the LINONIAN AND BROTHERS LIBRARY, designed primarily for the use of the undergraduate students, and containing about 20,000 volumes. This library is open daily, from 1½ to 3 P.M.

The Theological, Law, Medical, and Scientific Schools have each a special Library, accessible to the students of those schools.

The Library of the AMERICAN ORIENTAL SOCIETY, numbering about 3,500 printed books and manuscripts, is kept in the College Library building.

SUMMARY

College Library (exclusive of pamphlets) about	-	80,000 vols.

JUNIOR EXHIBITION PREMIUMS—CLASS OF 1877

1st Prize, Samuel L. Eaton; 2d Prizes, Charles W. Barnes, Charles F. Chapin, James P. Davenport, Samuel A. Fisk, Edwin B. Goodell, Thomas D. Goodell, Arthur R. Kimball, Frederick B. Percy, George H. Thomas

PREMIUMS FOR DECLAMATION—CLASS OF 1878

1st Prize, George B. Edwards; 2d Prize, Frank A. Beckwith and Edward H. Seely; 3d Prize, Charles F. Carter

PREMIUMS FOR SOLUTION OF MATHEMATICAL PROBLEMS

Class of 1878—1st Prizes, John I. McDonald, Charles S. Shepard; 2d Prizes, Samuel M. Moores, Edward L. Morse

Class of 1879—1st Prize, Edward J. Judd; 2d Prize, Henry C. Crouch; 3d Prize, Howard D. Newton

BERKELEY PRIZES FOR EXCELLENCE IN LATIN COMPOSITION

Class of 1879—1st Prizes, Ernest Carter, Samuel M. Foster, Henry Hitchcock, Malcolm M. McKenzie, Charles B. Peck, Edward Southworth, George D. Watrous; 2d Prizes, John V. Farwell, Edward J. Judd, Edward M. Noyes, Frederic T. Simpson, Henry J. TenEyck, Ambrose Tighe, William C. Husted, Albert W. Shaw

SHEFFIELD SCIENTIFIC SCHOOL

Class of 1876

FOR EXCELLENCE IN ENGLISH LITERATURE, Thomas E. Sherman

FOR EXCELLENCE IN GERMAN, Max Mailhouse

FOR EXCELLENCE IN FRENCH, Frederick P. Dewey

FOR EXCELLENCE IN CIVIL ENGINEERING, Porter D. Ford

Class of 1877

FOR EXCELLENCE IN MATHEMATICS OF JUNIOR YEAR, Joseph P. Iddings, with honorable mention of John E. Buddington

FOR EXCELLENCE IN CHEMISTRY, Horace L. Wells

FOR EXCELLENCE IN MINERALOGY, Samuel L. Penfield

Class of 1878

FOR EXCELLENCE IN ALL THE STUDIES OF FRESHMAN YEAR, Levi A. Eliel,
with honorable mention of John P. Bartlett

FOR EXCELLENCE IN GERMAN, Ralph A. Harman

FOR EXCELLENCE IN MATHEMATICS, Walter L. Cowles

FOR EXCELLENCE IN PHYSICS, Charles S. Churchill

FOR EXCELLENCE IN MECHANICAL DRAWING, John L. Blackmore

Class of 1879

FOR THE BEST ENTRANCE EXAMINATION, William J. Comstock, of Toledo, O.,
from Williston Seminary, Easthampton, Mass.

LAW DEPARTMENT

JEWELL PRIZE, to the student passing the best examination at his graduation
—John Howard Whiting, Ansonia

TOWNSEND PRIZE, to the student pronouncing the best oration at his graduation—John Wesley Wescott, B.A., New Haven

Committee of Award: Hon. Alphonso Taft, LL.D., Cincinnati, Ohio

Hon. William A. Learned, M.A., Albany, N. Y.

Hon. L. G. Finlay, B.A., Memphis, Tenn.

CIVIL LAW PRIZE, for the best dissertation on the *Actio Sacramenti*—Theodore S. Woolsey, B.A., New Haven, Class of 1876

Committee of Award: Prest. M. B. Anderson, LL.D., Rochester, N. Y.

Prof. J. N. Pomeroy, LL.D., Rochester, N. Y.

JEWELL PRIZE, for the best dissertation, from a member of the Senior Class,
on State Taxation of Non-residents or their Property—Henry Bidleman Bascom Stapler, B.A., Wilmington, Del.

Committee of Award: Hon. F. H. Dewey, Worcester, Mass.

Hon. P. E. Aldrich, Worcester, Mass.

BETTS PRIZE, to the member of the Junior Class receiving the highest mark
at his annual examination—Alfred Newton Wheeler, Ph.B., Southport

JEWELL PRIZE, for the best dissertation from a member of the Junior Class
on Degrees of Negligence—Charles Palmer Sanford, New York City

Committee of Award: Hon. William C. Crump, B.A., New London, Conn.

Hon. Augustus Brandegee, B.A., New London, Conn

HONORS*

Class of 1876

John Howard Whiting, Ansonia (Jewell Prize)

Levy Mayer, Chicago, Ill.

John Beale Mills, B.A., New Haven

Francis Hubert Parker, B.A., East Haddam

Henry Bidleman Bascom Stapler, B.A., Wilmington, Del.

Class of 1877

Alfred Newton Wheeler, Ph.B., Southport (Jewell Prize)

Charles George Root, Waterbury

Hamilton Mercer Wright, B.A., New Haven

Arthur Gordon Bill, Chaplin

Timothy Davenport, B.A., Wilton

* This list comprises the names of the five in each class who received the highest marks at its annual examination.

ERRATUM—On page 53, the course of mathematical study in the Freshman year should be,
FIRST TERM—Loomis's Algebra; Todhunter's Euclid; Chauvenet's Geometry. **SECOND TERM**—Chauvenet's Geometry; Loomis's Trigonometry.

For catalogues and other information, address THE SECRETARY OF YALE COLLEGE, NEW HAVEN, CONN.

The last edition of the Triennial Catalogue of the Graduates of the College was published in 1874.

Obituary notices of deceased graduates are published annually.

All persons, who can supply information appropriate to the future editions of the Triennial Catalogue or Obituary Record, are urgently requested to communicate with the Secretary.

The present edition of the Annual Catalogue is sent to every graduate whose address is known to the Secretary ; and in future the Catalogue will be sent annually to all graduates who may express a desire to receive it, and who will furnish their addresses for the purpose.

28, 29 June } 1 July }	Fri., Sat., Mon.	Examination for admission to the Academ- ical Department.
28, 29 June	Friday, Sat.	Examination for admission to the Sheffield Scientific School.

Summer Vacation of eleven weeks.

10, 11 Sept.	Tuesd., Wedn.	Examination for admission.
12 Sept.	Thursday	FIRST ACADEMICAL TERM begins.
26 Sept.	Thursday	Fall Term, Department of Law, begins.
3 Oct.	Thursday	Winter Term, Dep't. of Medicine, begins.
19 Dec.	Thursday	FIRST TERM ends.

FACULTY AND INSTRUCTORS

Rev. NOAH PORTER, D.D., LL.D.

*PRESIDENT, and Clark Professor of Moral Philosophy
and Metaphysics*

(7 TR.) 31 Hillhouse av.

Kent Professor of Law

Rev. LEONARD BACON, D.D., LL.D.

*Lecturer on Church Polity and American Church
History*

(1 E. D. H.) 247 Church st.

ELIAS LOOMIS, LL.D.

Munson Professor of Natural Philosophy and Astronomy 141 Church st.

WILLIAM A. NORTON, M.A.

Professor of Civil Engineering

(34 N. S. H.) 72 Prospect st.

S. WELLS WILLIAMS, LL.D.

Professor of the Chinese Language and Literature

39 College st.

JAMES D. DANA, PH.D., LL.D.

*Silliman Professor of Geology and
Mineralogy*

(6 Peabody Museum) 24 Hillhouse av.

Rev. GEORGE E. DAY, D.D.

*Holmes Professor of the Hebrew Language and Literature
and Biblical Theology*

(5 E. D. H.) 125 College st.

Rev. SAMUEL HARRIS, D.D., LL.D.

Dwight Professor of Systematic Theology

(3 E. D. H.) 144 College st.

THOMAS A. THACHER, LL.D.

Professor of the Latin Language and Literature

155 Crown st.

BENJAMIN SILLIMAN, M.D.

Professor of Chemistry

34 Hillhouse av.

Rev. CHESTER S. LYMAN, M.A.

Sheffield Professor of Astronomy and Physics (39 N. S. H.) 88 Trumbull st.

Rev. JAMES M. HOPPIN, D.D.

Professor of Homiletics and the Pastoral Charge (7 E. D. H.) 114 High st.

STEPHEN G. HUBBARD, M.D.

*Professor of Obstetrics and the Diseases of Women and
Children*

23 College st.

WILLIAM D. WHITNEY, PH.D., LL.D.

*Professor of Sanskrit and Comparative Philology, and
Instructor in Modern Languages*

(205 D.) 246 Church st.

MOSES C. WHITE, M.D.

Professor of Histology and Pathology

104 York st.

HON. FRANCIS WAYLAND, M.A.

*Professor of Mercantile Law and
Evidence*

(17 Court House) 91 Whitney av.

REV. GEORGE P. FISHER, D.D.

Professor of Ecclesiastical History

(9 E. D. H.) 27 Hillhouse av.

REV. TIMOTHY DWIGHT, D.D.

Buckingham Professor of Sacred Literature (72 W. D. H.) 126 College st.

CHARLES A. LINDSLEY, M.D.

Professor of Materia Medica and Therapeutics

132 Olive st.

HUBERT A. NEWTON, LL.D.

Professor of Mathematics

(183 L.) 135 Elm st.

LUCIAN S. WILCOX, M.D.

Professor of the Theory and Practice of Medicine

Hartford

DAVID P. SMITH, M.D.

Professor of the Principles and Practice of Surgery

Springfield, Mass.

GEORGE J. BRUSH, M.A.

*Professor of Mineralogy, and Executive Officer of the
Sheffield Scientific School*

(3 S. H.) 14 Trumbull st.

SAMUEL W. JOHNSON, M.A.

*Professor of Theoretical and Agricultural
Chemistry*

(12 S. H.) 54 Trumbull st.

WILLIAM H. BREWER, M.A.

Norton Professor of Agriculture

(4 S. H.) 246 Orange st.

LEONARD J. SANFORD, M.D.

Professor of Anatomy and Physiology

126 Crown st.

HON. WILLIAM C. ROBINSON, M.A.

Professor of Elementary and Criminal Law and the

Law of Real Property (16 Exchange Building) 137 Edwards st.

LEWIS R. PACKARD, PH.D.

*Hillhouse Professor of the Greek Language and
Literature*

(121 N.) 233 Church st.

JOHN F. WEIR, N.A., M.A.

*William Leffingwell Professor of Painting and
Design*

(9 Art School) 58 Trumbull st.

JOHN E. CLARK, M.A.

Professor of Mathematics

29 Eld st.

CYRUS NORTHROP, LL.B.

Professor of Rhetoric and English Literature

(137 F.) 607 Chapel st.

DANIEL C. EATON, M.A.

Professor of Botany

(41 N. S. H.) 70 Sachem st.

ARTHUR M. WHEELER, B.A.

Professor of History

207 D.

ADDISON VANNAME, M.A.

Librarian

(LIBRARY) 121 High st.

J. WILLARD GIBBS, PH.D.

Professor of Mathematical Physics

121 High st.

ARTHUR W. WRIGHT, PH.D.

Professor of Molecular Physics and Chemistry (Lab'y.) 34 Hillhouse av.

THOMAS R. LOUNSBURY, B.A.

*Professor of English, and Librarian of the
Sheffield Scientific School*

(6 S. H.) 22 Lincoln st.

REV. WILLIAM M. BARBOUR, D.D.

*Chittenden Professor of Divinity, and
College Pastor*

(117 N.) 193 Church st.

OTHNIEL C. MARSH, M.A.

*Professor of Palæontology, and Curator of the
Geological Collection*

(8 Peabody Museum) 9 College st.

EUGENE L. RICHARDS, B.A.

Assistant Professor of Mathematics

(86 N. M.) 196 York st.

FRANCIS A. WALKER, PH.D.

Professor of Political Economy and History (40 N. S. H.) 68 Whitney av.

JOHN H. NIEMEYER, M.A.

Street Professor of Drawing

8 Art School

FRANKLIN B. DEXTER, M.A.

*Larned Professor of American History, and
Assistant Librarian*

(LIBRARY) 240 D.

SIMEON E. BALDWIN, M.A.

*Professor of Constitutional Law and the Law of
Contracts and Wills*

(25 White's Building) 44 Wall st.

OSCAR D. ALLEN, PH.D.

*Professor of Analytical Chemistry, and
Metallurgy*

(13 S. H.) 189 Temple st.

EDWARD B. COE, B.A.

Street Professor of Modern Languages

(122 N.) 83 Wall st.

ADDISON E. VERRILL, M.A.

*Professor of Zoology, and Curator of the Zoological
Collection*

(15 Peabody Museum) 146 College st.

FRANKLIN CARTER, PH.D.

Professor of the German Language and Literature

(120 N.) 2 York sq.

WILLIAM G. SUMNER, B.A.

Professor of Political and Social Science

(105 N.) 140 Edwards st.

- JOHNSON T. PLATT, M.A.
Professor of Pleading and Equity Jurisprudence 179 Church st.
- SIDNEY I. SMITH, PH.B.
Professor of Comparative Anatomy (14 Peabody Museum) 148 College st.
- WILLIAM G. MIXTER, PH.B.
Professor of Chemistry (8 S. H.) 25 Eld st.
- HENRY P. WRIGHT, PH.D.
Dunham Professor of the Latin Language and Literature (89 N. M.) 34 Temple st.
- ISBON T. BECKWITH, PH.D.
Tutor in Greek 170 F.
- JAMES K. THACHER, B.A.
Tutor in Zoology 58 White's Building
- HENRY A. BEERS, B.A.
Assistant Professor of English Literature (171 F.) 7 University pl.
- RUFUS B. RICHARDSON, B.A.
Tutor in Greek (89 N. M.) 126 Crown st.
- A. JAY DUBOIS, PH.D.
Higgin Professor of Dynamical Engineering (45 N. S. H.) 328 Howard av.
- EDWARD S. DANA, PH.D.
Tutor in Mathematics, and Curator of the Mineralogical Collection (4 Peabody Museum) 136 F.
- JOSEPH A. GRAVES, B.A.
Tutor in Latin (89 N. M.) 590 Chapel st.
- THEODORE S. WOOLSEY, LL.B.
Instructor in Public Law 250 Church st.
- FRANK B. TARBELL, B.A.
Tutor in Greek 70 N. M.
- WILLIAM BEEBE, B.A.
Tutor in Mathematics 153 F.
- JOHN P. PETERS, PH.D.
Tutor in Greek 102 N.
- ANDREW W. PHILLIPS, PH.D.
Tutor in Mathematics 6 Trumbull st.
- EDWARD D. ROBBINS, B.A.
Tutor in Latin 21 S.
- ALFRED B. THACHER, B.A.
Tutor in Latin 58 S. M.
- EDMUND ZACHER, B.A.
Tutor in German 41 S. M.
-

- HON. ORIGEN S. SEYMOUR, LL.D.
Lecturer on Judicial Procedure and Practice Litchfield
- HON. LAFAYETTE S. FOSTER, LL.D.
Lecturer on Parliamentary Law and Methods of Legislation Norwich
- HON. J. HAMMOND TRUMBULL, LL.D.
Lecturer on the Indian Languages of North America Hartford
- MARK BAILEY, M.A.
Instructor in Elocution (150 F.) 185 Temple st.
- REV. ROBERT W. DALE, D.D.
Lyman Beecher Lecturer on Preaching Birmingham, Engl.
- ALBERT S. WHEELER, M.A.
Instructor in German 27 Eld st.
- J. SUMNER SMITH, B.A.
Librarian of the Linonian and Brothers' Library (LIBRARY) 78 Trumbull st.
- JOHN A. ROBINSON, LL.B.
Librarian of the Law Department (19 Court House) 68 East Pearl st.
- WILLIAM H. CARMALT, M.D.
Lecturer on Ophthalmology and Otology 18 College st.
- GUSTAVE J. STOECKEL, Mus.D.
Instructor in Vocal Music 137 York st.
- FREDERIC H. BETTS, M.A.
Lecturer on Patent Law New York City
- S. HENRY BRONSON, M.D.
Lecturer on Physiology 142 Chapel st.
- FREDERIC R. HONEY
Instructor in Instrumental Drawing (53 N. S. H.) 14 Lincoln st.
- OSCAR HARGER, M.A.
Assistant in Palæontology (9 Peabody Museum) 14 University pl.
- CHARLES H. FARNAM, M.A.
Assistant in Archaeology 79 Sachem st.
- JOSEPH J. SKINNER, PH.D.
Instructor in Mathematics and Physics 55 N. S. H.
- JOHN P. C. FOSTER, M.D.
Instructor in Anatomy 109 College st.
- WILLIAM H. HOTCHKISS, M.D.
Demonstrator in Anatomy 137 Church st.
- GEORGE BIRD GRINNELL, B.A.
Assistant in Osteology 6 Library st.
- MANSFIELD MERRIMAN, PH.D.
Instructor in Civil Engineering and Astronomy (16 S. H.) 7 Warren pl.

A. HJALMAR EDGREN, PH.D.

Instructor in French

73 York st.

JOSEPH F. KLEIN, D.E.

Assistant in Dynamical Engineering

(45 N. S. H.) 86 Nicoll st.

GEORGE W. HAWES, PH.B.

Assistant in Mineralogy

(18 S. H.) 14 S. H.

THOMAS H. RUSSELL, M.D.

Prosector of Surgery

156 Elm st.

DUDLEY A. SARGENT, B.A.

Instructor in Gymnastics

Gymnasium

RUSSELL H. CHITTENDEN, PH.B.

Instructor in Physiological Chemistry

(13 S. H.) 95 Humphrey st.

WILLIAM H. PATTON, B.A.

Assistant in Zoology

46 N. S. H.

JOSEPH P. IDDINGS, PH.B.

Assistant in Surveying

119 W. D. H.

SAMUEL L. PENFIELD, PH.B.

Assistant in Analytical Chemistry

14 S. H.

GENERAL STATEMENT

The departments of instruction in YALE COLLEGE are comprehended under four divisions, as follows:

The Faculty of THEOLOGY,
of MEDICINE,
of LAW,
of PHILOSOPHY AND THE ARTS.

Under the last named Faculty are included, the COURSES FOR GRADUATE INSTRUCTION, the UNDERGRADUATE ACADEMICAL DEPARTMENT, the UNDERGRADUATE SECTION OF THE SHEFFIELD SCIENTIFIC SCHOOL, and the SCHOOL OF THE FINE ARTS—each having a distinct organization.

In the particular statements which follow, the Department of Philosophy and the Arts is first given, with its subdivisions in the order named; and afterwards the three Professional Departments.

The legal designation of the Corporation is "THE PRESIDENT AND FELLOWS OF YALE COLLEGE IN NEW HAVEN."

DEPARTMENT OF PHILOSOPHY AND THE ARTS

GRADUATE DEPARTMENT

Graduates of this and other Colleges, and other persons of liberal education (not less than eighteen years old), are received as students for longer or shorter periods, with or without reference to the attainment of a degree.

An Executive Committee has a general oversight of the students in this department. The Committee this year is composed of Professors WHITNEY, NEWTON, BRUSH, and WHEELER. They receive the names of applicants for instruction, and judge and approve the courses of study proposed; and information may be obtained from them as to conditions, terms, etc. Students may also make special arrangements with any instructor according to their mutual convenience.

Instruction is given partly by lectures, partly by recitations and by oral and written discussions, partly by directing courses of reading, and partly by work in the laboratories and with instruments.

The terms and vacations correspond with those in the Undergraduate Departments. (See Calendar, p. 4.)

The fee for instruction in connection with the Sheffield Scientific School is \$150 a year; in other cases generally \$100, or more or less, according to the course pursued and the amount of instruction received.

THE DEGREE OF DOCTOR OF PHILOSOPHY is conferred upon those who, after having taken a Bachelor's degree (implying a course of undergraduate study equivalent to that pursued in the Academical Department), and having studied in this department for not less than two years, shall have passed a satisfactory final examination and presented a thesis giving evidence of high attainment in the branches of knowledge pursued. It is not given, upon examination, to those whose studies are pursued elsewhere. The requirements for it will in some cases exact of the student more than two years of

labor; especially when the course of undergraduate study has been less than four years. A good knowledge of Latin, German, and French will be required in all cases, unless, for some exceptional reason, the candidate be excused by the Faculty. The graduating fee is ten dollars.

The courses of instruction given in the department may be grouped as follows:

1. Intellectual Philosophy: Ethics.

President PORTER: Psychology; Philosophy; History of Philosophy; Ethics.

2. Political Science.

Ex-President WOOLSEY: International Law.

Professor BREWER: Relations of Physical Geography to Political History.

Professor WHEELER: History of England to Henry VII.

Professor WALKER: Public Finance; Statistics of Industry.

Professor SUMNER: Politics and Finance in the History of the United States; American Constitutional Law; Sociology.

Mr. A. S. WHEELER: the Institutes of Gaius and of Justinian; select titles of the *Corpus Juris*; German text-books of Roman Law.

3. Philological Science; Literature.

Professor THACHER and Professor H. P. WRIGHT: Latin.

Dr. J. H. TRUMBULL: the American Indian Languages, especially the dialects of the Algonkin family.

Professor WHITNEY: the general principles of Linguistic Science; the Comparative Philology of the Indo-European Languages; the Sanskrit Language.

Professor PACKARD: Greek; the History of Greek Literature.

Professor WILLIAMS: the Chinese Language and Literature.

Mr. VAN NAME: the elements of the Japanese Language.

Professor LOUNSBURY: the Anglo-Saxon Language; the early forms and literature of English.

Professor COE: Old French and Provençal.

Professor CARTER: the older Germanic Languages and Literature, including Gothic.

Professor DAY: the Hebrew and other Semitic Languages.

4. Mathematics.

Professor NEWTON: Calculus; Analytical Mechanics; Lunar and Planetary Theories; Higher Geometry.

Professor CLARK: Definite Integrals; Differential Equations; Analytical Mechanics; the Theory of Numerical Approximations; the Method of Least Squares.

Professor GIBBS: the Laws of Vibratory and Undulatory Motion, with especial reference to Light and Sound; the Potential Function, with its application to the theories of Electricity and Magnetism; Capillarity.

5. Physics; Chemistry; Astronomy.

Professor LOOMIS: Meteorology, with especial reference to the making and reducing of observations.

Professor NORTON: Spherical Astronomy.

Professor LYMAN: the use of Meridional and other Astronomical Instruments.

Professor JOHNSON: Theoretical and Analytical Chemistry.

Professor A. W. WRIGHT: Physical Manipulation, in the departments of Heat, Light, and Electricity, with practical directions as to the management of apparatus.

Professor ALLEN: Analytical Chemistry.

Professor DU BOIS: Thermodynamics.

6. Geology; Natural History.

Professor DANA: Geology.

Professor BRUSH: the Analysis and Determination of Mineral species; Descriptive Mineralogy.

Professor EATON: Structural and Systematic Botany, including the North American Flora and the description of genera and species.

Professor MARSH: Palæontology; Comparative Osteology.

Professor VERRILL and Professor S. I. SMITH: Zoology.

Dr. E. S. DANA: Optical Mineralogy; Crystallography.

7. Applied Science.

Professor NORTON: Applied Mechanics.

Professor LYMAN: Astronomical Spectroscopy.

Professor JOHNSON: Agricultural Chemistry.

Professor BREWER: Agriculture; Forest Culture.

Professor ALLEN: Metallurgy; Assaying.

Professor DU BOIS: Dynamical Engineering.

8. Fine Arts.

For the instruction open to Graduates in the School of the Fine Arts, see page 73.

THE DEGREE OF MASTER OF ARTS is conferred on Bachelors of Arts of two years' standing or upwards, who have given to the Academical Faculty evidence of having made satisfactory progress in liberal studies after receiving their first degree.

Such evidence may be furnished by one year's systematic study (not professional) in New Haven, under the direction of the Academical Faculty, followed by an examination.

Such Bachelors of Arts of this College as may not choose to reside at the College for the prosecution of study, may show, at any time not less than three years after graduation, by their printed essays, or by submitting to special examinations, that they have spent a year in liberal (and non-professional) study, and are worthy of recommendation for this degree.

A committee of the Faculty is appointed (consisting, for the present year, of Professors NEWTON and WHEELER), to whom candidates for this degree must submit their proposed courses of study by the first of November in each year; and the evidence of a year's study must be submitted to the same committee by the first of the following June.

In the case of resident students, the charge for instruction will usually be \$100, with a fee of ten dollars for the degree. In the case of non-residents, the fee for examinations and the degree will usually be \$25.

THE DEGREES OF CIVIL AND DYNAMIC ENGINEER are conferred on Bachelors of Philosophy who have taken the first degree in Engineering study, and who pursue a higher course for at least two years, sustaining a final examination, and giving evidence of their ability to design important constructions and make the requisite drawings and calculations. The fee for graduation is \$5.

UNDERGRADUATE ACADEMICAL DEPARTMENT

CANDIDATES FOR ADMISSION to the Freshman Class are examined in the following books and subjects:

Latin Grammar.

Sallust—Jugurthine war; or four books of Cæsar.

Cicero—seven Orations.

Virgil—Bucolics, Georgics, and first six books of the *Æneid*, including Prosody.

Arnold's Latin Prose Composition, to the Passive voice (first twelve chapters). It is suggested to teachers, in addition to the use of the work named, to connect simple exercises in making Latin, either oral or written, with all the Latin studies of their pupils throughout the preparatory course.

Greek Grammar—with translation of English into Greek.

Xenophon—Anabasis, four books.

Homer—Iliad, three books, with Prosody.

Greek History.

The rules for pronunciation given in Hadley's Grammar are recommended as a guide. For Greek History, Dr. William Smith's or Fyffe's text-book, and for Greek Composition, Jones's Exercises or White's Lessons are suggested.

Higher Arithmetic—including the metric system of weights and measures.

Algebra—so much as is included in Loomis's Treatise, up to the chapter on Logarithms.

Euclid—first two books. [The first, third, and fourth books of Davies's Legendre's Elements of Geometry, or of Loomis's Elements of Geometry, may be offered instead of Euclid.] In Geometry, the candidate must be prepared on the principles of construction, as he will be required to draw the figures for the demonstration of propositions.

English Grammar and Geography; a thorough knowledge of which is required.

THE REGULAR EXAMINATION FOR ADMISSION is held at Graduates' Hall, New Haven, on the Friday, Saturday, and Monday following Commencement (June 28, 29, July 1, 1878): *attendance is required at the beginning of the examination, at 9 A. M. on Friday*; those candidates will be detained until Monday, whose examination cannot, for any reason, be finished on Saturday. The examination is partly oral and partly written; copies of papers recently given (covering only the *written* portion of the examination) will be sent on application.

In 1878 an examination for admission to the Freshman Class will also be held in Chicago (beginning on Friday, June 28, at 9 A. M.), at a place to be announced in the Chicago newspapers of the day previous. This examination will be wholly in writing. Candidates who propose to be present are requested to send their names to the Secretary before June 15.

A second examination (for those who cannot attend the first) is held in New Haven at the beginning of the College year, on Tuesday and Wednesday (Sept. 10, 11, 1878): candidates for this examination must attend at Graduates' Hall at 9 A. M. on Tuesday.

Persons applying to be examined at other times must first obtain special permission from the Faculty, and pay to the Treasurer a fee of ten dollars. In general, no examinations for admission to the Freshman Class can be held before Commencement, or during vacation.

ADVANCED STANDING—All candidates for advanced standing, *whether from other Colleges or not*, are examined, in addition to the preparatory studies, in those already pursued (see next page) by the Class which they wish to enter. In the several languages, for the particular books studied by the Class, equivalent amounts may be offered from other books in the same language.

Bachelors of Arts or of Philosophy of any institution may join the Senior Class without examination, as candidates for the degree of Doctor of Philosophy after three years' study. (See p. 48.)

No one can be admitted to the Senior Class after the beginning of the second term.

AGE—No one can be admitted to the Freshman Class till he has completed his fifteenth year, nor to an advanced standing without a corresponding increase of age.

TESTIMONIALS—Satisfactory testimonials of good moral character (preferably from the last principal instructor) are in all cases required, before a certificate of admission is granted; and students from other Colleges must present certificates of dismissal in good standing.

BOND—Every person must give to the Treasurer, on being admitted, a bond, executed by his parent or guardian, for five hundred dollars, as security for the payment of all charges arising under the laws of the College.

COURSE OF INSTRUCTION.

THE COURSE OF INSTRUCTION occupies four years. In each year there are two terms or sessions.

The following is a scheme of the studies, or, more correctly, of equivalents which will be accepted from candidates for advanced standing:—

FRESHMAN YEAR:

FIRST TERM—*Greek*—Homer's *Odyssey*, begun. *Latin*—Livy, begun; Cicero's Second Philippic; Arnold's Latin Composition (to page 150). *Mathematics*—Loomis's Algebra; Todhunter's Euclid; Chauvenet's Geometry. *Hygiene*—Lectures.

SECOND TERM—*Greek*—Homer's *Odyssey*, continued through four books; Herodotus, continued through half of the first book; Arnold's Greek Composition. *Latin*—Livy, continued through one book; Cicero *de senectute*; Ovid, Ramsay's Selections; Roman Antiquities. *Mathematics*—Chauvenet's Geometry; Loomis's Trigonometry. *Rhetoric*—Recitations and Lectures. Compositions.

SOPHOMORE YEAR:

FIRST TERM—*Greek*—Six Orations of Demosthenes. *Latin*—Odes Horace; Agricola of Tacitus. *Mathematics*—Loomis's Trigonometry. *Rhetoric*—Lectures on Composition. Compositions. Criticism.

SECOND TERM—*Greek*—Prometheus of Æschylus; Xenophon's *Memorabilia*, one book; Antigone of Sophocles; Plato's Apology of Socrates and Crito. *Latin*—Satires and Epistles of Horace; Satires of Juvenal; Cicero *de officiis*. *Mathematics*—Loomis's Trigonometry; Loomis's Conic Sections; Loomis's Analytical Geometry; Mechanics. *Rhetoric*—Lectures on Elocution, with practice. Declamations. Compositions.

JUNIOR YEAR:

FIRST TERM—*Physics*—Ganot's Physics. *German*—Whitney's Grammar and Reader; German Composition. *English*—Shakespeare; Forensic Disputations. *Chemistry*—Barker's Chemistry; Lectures.

For optional studies (*Latin, Greek, Mathematics, French*) see next page.

SECOND TERM—*Natural Philosophy*—Ganot's Physics. Lectures. *English*—Chaucer, Recitations. Forensic Disputations. *German*—Whitney's Grammar and Reader; German Composition. *Zoology*—Huxley's Physiology. Lectures. Laboratory Practice. *Astronomy*—Loomis's Astronomy, to Chapter x. *Logic*—Jevons's Logic.

For optional studies (*Latin, Greek, Mathematics, French, Anglo-Saxon, Zoology, Botany*) see next page.

SENIOR YEAR :

FIRST TERM—*Mental Philosophy*—Porter's Human Intellect. Lectures. *Geology*—Dana's Geology. *Political Science*—Fawcett's Political Economy. Lectures. *Rhetoric*—Compositions. Criticism.

For optional studies (*Latin, Greek, French, German, Sanskrit, English, Mathematics, Astronomy, Mineralogy, European History*) see below.

SECOND TERM—*Natural Theology and Evidences of Christianity*—Lectures. *Moral Philosophy*—Recitations. Lectures. *History of Philosophy*—Schwegler's History. *History*—Hallam's Constitutional History. Lectures. *Evolution and Cosmogony*—Lectures. *Rhetoric*—Compositions. Criticism. *Political and Social Science*—Recitations. Lectures. *International Law*—Woolsey's International Law. *Elements of Jurisprudence and American Constitutional Law*—Lectures.

For optional studies (*Philosophy, Latin, Greek, French, German, Sanskrit, English, Linguistics, Mathematics, Physics, Meteorology, Geology, Palaeontology, American History, Political Science*) see below.

OPTIONAL STUDIES—Every student is required to have four exercises a week in an optional study, during Junior and Senior years. Change from one optional to another is allowed at the end of Junior year, and also to a new optional whenever one is begun. Any student who can on examination show thorough acquaintance, in advance, with one or more of the required studies of Junior or Senior year, may choose instead a second optional. The following courses of optional studies are provided.

I. PHILOLOGY.

1. **ANCIENT LANGUAGES**: (a) **GREEK**, through Junior and Senior years, four exercises a week, with Professor Packard; the *Seven against Thebes* and the *Oresteia* of Æschylus. (b) **LATIN**, through Junior and Senior years, with Professor Thacher, four exercises a week. (c) **SANSKRIT**, through Senior year, with Professor Whitney, two double exercises a week.

2. **MODERN LANGUAGES AND LITERATURE**: (a) **FRENCH**, through Junior and Senior years, four exercises a week, with Professor Coe; in Junior year, French Composition, Modern French Authors; in Senior year, French Composition, Corneille, Racine, Molière, Boileau, LaFontaine. A knowledge of the elements of the French language is required of students who choose French as an optional study in Junior year. The examination may be passed at the time of the Sophomore annual examination, or at the beginning of Junior year, and will be upon Chardenal's First French Course. (b) **GERMAN**, through Senior year, four exercises a week, with Professor Carter; Schiller's *Die Piccolomini*, Goethe's *Iphigenie*, selections from Goethe's Prose, Lessing's *Laocoon*, German Composition. (c) **ANGLO-SAXON**, through the second term of Junior year, with Professor Beers, four exercises a week;

Sweet's Anglo-Saxon Reader. (a) ENGLISH LITERATURE, through Senior year, with Professor Beers ; for the first term, four exercises a week ; for the second term, two exercises a week ; Mätzner's Alt-Englische Sprachproben ; Skeat's Specimens of English Literature ; Lectures.

3. LINGUISTICS: Through the first half of the second term of Senior year, two exercises a week, with Professor Whitney.

II, INTELLECTUAL PHILOSOPHY.

With President Porter, through the second term of Senior year, two exercises a week.

III, HISTORY AND POLITICAL SCIENCE.

1. EUROPEAN HISTORY, through the first term of Senior year, with Professor Wheeler, four exercises a week ; Hallam's Middle Ages.

2. AMERICAN HISTORY, through the second term of Senior year, with Professor Dexter, two exercises a week ; Bancroft's History of the United States.

3. POLITICAL ECONOMY, through the second term of Senior year, with Professor Sumner, two exercises a week.

IV, MATHEMATICS AND ASTRONOMY.

1. MATHEMATICS, through Junior and Senior years, four exercises a week, with Professor Newton ; Loomis's Calculus, followed by Analytical Mechanics or Higher Geometry.

2. ASTRONOMY, through the first term of Senior year, four exercises a week, with Professor Loomis ; Loomis's Astronomy.

V, MOLECULAR AND TERRESTRIAL PHYSICS.

1. PHYSICS, through the second term of Senior year, two exercises a week, with Professor A. W. Wright.

2. METEOROLOGY, through the second term of Senior year, four exercises a week ; Loomis's Meteorology.

VI, NATURAL SCIENCE AND GEOLOGY.

1. ZOOLOGY, through the second half of the second term of Junior year, four exercises a week, with Mr. J. K. Thacher.

2. MINERALOGY AND MATHEMATICAL CRYSTALLOGRAPHY, through the first term of Senior year, with Professor Dana, four exercises a week ; Dana's Text-Book.

3. GEOLOGY, through the first half of the second term of Senior year, with Professor Dana, four exercises a week ; Dana's Manual.

4. PALÆONTOLOGY, through the second half of the second term of Senior year, with Mr. J. K. Thacher ; Dana's Manual of Geology. [Geology and Palæontology make together one course ; those taking this course must have first taken the course in Mineralogy and Crystallography.]

5. BOTANY, through the second half of second term of Junior year, with Professor Eaton, four exercises a week.

EXERCISES IN DECLAMATION AND COMPOSITION—The Senior Class have exercises in English composition, and the Junior Class, in forensic disputation, through the year.

The Sophomore Class during the whole year, and the Freshman Class, during the latter half of the second term, have exercises in English composition.

The Sophomore Class have regular exercises in elocution ; and once a week, during a part of the year, have an exercise in declamation before the Professor of Rhetoric and the members of the Class.

PUBLIC EXAMINATIONS are held at the close of the first and at the middle of the second term, on the studies of the term and half-term ; and, at the close of the year, on all the studies of the year. The annual examinations are conducted wholly in writing, and continue for about two weeks.

VOCAL MUSIC—Gratuitous instruction in Vocal Music is given during a part of the year (the exercises being open to members of all the Departments of the College), subject, however, to a small charge for fire and lights.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the Thursday after the last Wednesday in June. The first term begins eleven weeks from Commencement-day and continues fourteen weeks : the second term begins on the second Thursday in January and continues until Commencement-day, with a Spring recess—usually of eight days—including Easter. (See Calendar, p. 4.) The exercises of each term begin with prayers in the Chapel on Thursday morning.

LEAVE OF ABSENCE—No student is allowed to be absent without special leave, except in the vacations.

PUBLIC WORSHIP.

PRAYERS are attended in the Battell Chapel every morning, with reading of the Scriptures and singing, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on Sundays, at which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only on presenting to the President a written request therefor from the parent or guardian.

GYMNASIUM.

THE GYMNASIUM is designed to provide all the students with opportunities for exercise. Those who use the bath-rooms pay a small fee for tickets.

EXPENSES.

THE TREASURER'S BILLS are made out three times a year, viz., at the close of the first term, and at the middle and close of the second term, at which times they are payable. The bills must be paid within two weeks after the beginning of the succeeding term or half-term, or the student is liable to be prohibited from reciting. Drafts on Boston, New York, and Philadelphia will be received at par.

The annual charge for tuition and incidentals is \$140.

For the rent and care of a half-room in the College buildings, the average charge is thirty-five dollars per year.

OTHER CHARGES—There are additional charges at graduation, amounting to eighteen dollars. If a student occupies a room alone, the charge for rent and care is ordinarily double that stated above.

ABSENCE ON LEAVE—A student who is absent from College on account of sickness, or for any other cause, and still retains his place in his class, pays full tuition during such absence.

BOARD is obtained at prices varying from four to eight dollars a week. The average price for the summer of 1876 was about \$5.25. Board may be obtained in clubs, at a lower rate than is common in boarding houses.

ROOMS—There are at present in the College buildings above two hundred rooms occupied by students, at prices varying (according to location) from \$25 to \$140 per year, not including vacations. Students living out of College are not allowed to room in any building in which a family does not reside, except by special permission of the Faculty.

FURNITURE, BOOKS, ETC.—Students provide for themselves furniture, fuel, lights, and text-books; if books and furniture are sold when the student has no further necessity for them, the expenses incurred by their use will not be great.

NECESSARY EXPENSES—The following may be considered a near estimate of the *necessary* annual expenses, for a student occupying a half-room in College, without including apparel, traveling, and board in vacations:—

Treasurer's bill (according to location of room),	from \$160 to \$220	
Board, 37 weeks,	- - - - -	" 150 to 300
Fuel, lights, and washing,	- - - - -	" 35 to 65
Use of text-books and furniture,	- - - - -	" 30 to 65
Total,	- - - - -	\$375 \$650

COLLEGE GUARDIAN—As a precaution against extravagance, parents at a distance sometimes deposit funds with one of the Faculty; who, in that case, attends to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of expenditures, for which services he charges a commission.

BENEFICIARY FUNDS.

The sum of \$12,000 and upwards, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially of those preparing for the Christian ministry. About one hundred thus have their tuition either wholly or in part remitted. Students needing such aid should apply to the President, soon after entering College. Assistance will be withdrawn from students who incur serious College censure, or who fail to maintain a reputable scholarship.

THE HARMER FOUNDATION OF SCHOLARSHIPS comprises six scholarships, each yielding one hundred dollars a year, to be given to deserving students of small means.

There are also eighteen other Scholarships, most of them yielding sixty dollars a year, which may be given to such students as shall be selected by the founders or the Faculty.

Students who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with many of the text-books used in the College course.

FELLOWSHIPS AND SCHOLARSHIPS.

THE DOUGLAS FELLOWSHIP, with an income of at least six hundred dollars a year, was founded in 1873 by Mrs. Samuel Miller, of New Haven, and named in memory of her brothers, Rev. Sutherland Douglas (Y. C. 1822) and George H. Douglas (Y. C. 1828). The incumbent, who must be a recent graduate of the Academical Department, pursuing non-professional studies in New Haven, is elected annually, but may not hold the Fellowship for more than three years.

THE SOLDIERS' MEMORIAL FELLOWSHIP, with an annual income of six hundred dollars, was founded in 1875 by Mrs. Theodosia D. Wheeler, of New Haven, in honor of the alumni who fell in battle as Union soldiers, in the war of 1861-1865, and in especial remembrance of William Wheeler, of the class

of 1855. The incumbent must be at the time of his election a graduate of the Academical Department, of not more than three years' standing. He shall reside in New Haven, pursuing non-professional studies, and may hold the Fellowship for a period not exceeding five years.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior class who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals), and Horace; provided he remain in New Haven as a graduate, one, two, or three years.

THE CLARK SCHOLARSHIP, yielding one hundred and twenty dollars a year, is awarded in each Senior Class to the applicant who has passed the best examinations in the studies of the College course; provided he remain in New Haven one or two years immediately succeeding his graduation, pursuing a course of study (not professional) under the direction of the Faculty.

THE LARNED SCHOLARSHIP, yielding three hundred dollars a year, and tenable for three years, is awarded in each Senior Class. The incumbent must reside in New Haven, pursuing a course of advanced study subject to the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding over one hundred dollars a year, is awarded, whenever there is a vacancy, to the student in the Sophomore or Junior Class who passes the best examination in the Greek and Latin classics and mathematics. The successful candidate receives the annuity (forfeiting one-third in case of non-residence) until the end of the third year after graduation.

THE WOOLSEY SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate receives the annuity, under certain conditions, during the four years of his College course. The student who stands second at this examination receives for one year the income of the HURLBUT SCHOLARSHIP; and the student who stands third, the income for one year of the THIRD FRESHMAN SCHOLARSHIP. The income of each of these Scholarships is sixty dollars.

THE W. W. DEFOREST SCHOLARSHIP, yielding one hundred and twenty dollars a year, is awarded to a student in each Senior Class who has attained distinction in the study of French while in College, provided he remain in New Haven the year after graduation, pursuing a further course of study in the Romance languages under the direction of the Faculty.

PREMIUMS.

THE DE FOREST PRIZE MEDAL, of the value of \$100, is awarded "to that scholar of the Senior Class who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, of twelve dollars each, are awarded in the Senior Class for the best specimens of English Composition.

THE SENIOR MATHEMATICAL PRIZES (the first consisting of a gold medal of the value of ten dollars and of ten dollars in money, the second of ten dollars in money) are offered to the Senior class for the best solutions of problems in both abstract and concrete mathematics.

COLLEGE PREMIUMS are offered to the Senior Class for the solution of problems in Practical Astronomy.

THE WINTHROP PRIZES (one of two hundred dollars and one of one hundred dollars) are offered to the Junior Class "for the most thorough acquaintance with the Greek and Latin poets," as shown at an examination during the latter half of the second term.

COLLEGE PREMIUMS are given in the Sophomore Class for English composition, and for declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

THE SCOTT PRIZE for excellence in German is offered to the Senior Class, and in French to the Junior Class; these prizes are of the value of thirty dollars each, and are given in books.

BERKELEY PREMIUMS for Latin Composition are offered to the Freshman Class near the end of the year.

THE JOHN A. PORTER PRIZE, of two hundred and fifty dollars, is offered at each Commencement for the best English Essay. Any person who has been studying for a degree in any department of the University during the entire College year may compete for this prize.

DEGREES.

The degree of **BACHELOR OF ARTS** is conferred by the Corporation on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates are required to pay their dues to the Treasurer as early as the Monday before Commencement.

For the degrees of **Master of Arts** and **Doctor of Philosophy**, see pages 48, 50.

SHEFFIELD SCIENTIFIC SCHOOL

THE SHEFFIELD SCIENTIFIC SCHOOL is devoted to instruction and researches in the mathematical, physical, and natural sciences, with reference to the promotion and diffusion of science, and also to the preparation of young men for such pursuits as require especial proficiency in these departments of learning.

The School, begun in 1847, and reorganized upon a more extensive scale in 1860, received in 1863, by the act of the Connecticut Legislature, the national grant for the promotion of scientific education under the Congressional enactment of July, 1862. It thus became in consequence the "College of Agriculture and the Mechanic Arts" of Connecticut.

OFFICERS AND INSTRUCTORS—Upon the Governing Board, consisting of the professors permanently attached to the School, devolves its internal management. In addition to these, and the instructors employed during the current year (mentioned on p. 39), instruction is given in Elementary and Free-hand Drawing by Professor Niemeyer, of the Yale School of the Fine Arts.

The Board of State Visitors consists of the Governor, Lieutenant-Governor, three senior Senators, and the Secretary of the Board of Education.

The Board of Councilors, invited by the Corporation to advise and assist in the progress of the School, are as follows: Hon. J. E. ENGLISH, of New Haven; Hon. M. JEWELL, of Hartford; Hon. J. R. HAWLEY, of Hartford; Hon. O. F. WINCHESTER, of New Haven; JOSEPH E. SHEFFIELD, Esq., of New Haven; Professor J. D. DANA, of New Haven; HENRY FARNAM, Esq., of New Haven; M. DWIGHT COLLIER, M.A., of St. Louis; Hon. WILLIAM E. DODGE, of New York City.

The instruction is intended for two classes of students:—

I.—Graduates of this or of other Colleges, and other persons qualified for advanced or special scientific study.

II.—Undergraduates who desire a training, chiefly mathematical and scientific, in part linguistic and literary, for higher scientific studies, or for other occupations to which such training is suited.

INSTRUCTION FOR GRADUATE AND SPECIAL STUDENTS

Persons who have gone through undergraduate courses of study, here or elsewhere, may avail themselves of the facilities of the School for more special professional training in the physical sciences and their applications, gaining in one, two or three years the degree of BACHELOR OF PHILOSOPHY, or, in two additional years of Engineering study, that of CIVIL ENGINEER or DYNAMIC ENGINEER.

Or, engaging in studies of a less exclusively practical character, they may become candidates for the degree of DOCTOR OF PHILOSOPHY, under the conditions already stated (see p. 48). The instruction in such cases will be adapted to the particular needs and capacities of each student, and may be combined with that given by the graduate instructors in other departments. The list of graduate studies pursued, either wholly in the Scientific School, or conjointly with other departments, will be found on pp. 48-50.

SPECIAL STUDENTS—For the benefit of those who, being fully qualified, desire, to pursue particular studies without reference to the obtaining of a degree, special or irregular students are received in most of the departments of the School; not however, in the Select Course, nor in the Freshman Class.

It should be distinctly understood that these opportunities are not offered to persons who are incompetent to go on with regular courses, but are designed to aid those who have received a sufficient preliminary education elsewhere to increase their proficiency in special branches.

INSTRUCTION FOR UNDERGRADUATE STUDENTS

TERMS OF ADMISSION—Candidates must be not less than fifteen years of age, and must bring satisfactory testimonials of moral character from their former instructors or other responsible persons.

For admission to the Freshman Class the student must pass a thorough examination in the following subjects:

English Grammar—including spelling and composition.

History of the United States.

Geography.

Latin—Six books of Cæsar's Commentaries, or their equivalent, and simple exercises in prose composition.

Arithmetic—including the Metric System of weights and measures.

Algebra—So much as is contained in Loomis's Treatise, up to the general theory of equations.

Geometry—Plane, solid, and spherical; including fundamental notions of symmetry, and examples of Loci and of Maxima and Minima of Plane Figures:—an equivalent to the nine books of Chauvenet's Treatise, or to the ten books of Loomis's Elements and the Appendix, up to the section on Transversals.

Trigonometry—including the analytical theory of the trigonometrical functions, and the usual formulæ; the construction and use of trigonometrical tables; and the solution of plane triangles;—so much, for example, as is contained in Wheeler's Plane Trigonometry, Boston, 1877.

In *English*, Whitney's Essentials of English Grammar (Ginn and Heath, Boston) is recommended for the examination of 1878; in the examination of 1879 it will be required.

In his preparation in GEOMETRY the candidate should, as far as practicable, have suitable exercises in proving simple theorems and solving simple problems for himself. It is important, too, that he should be accustomed to the numerical application of geometric principles, and especially to the prompt recollection and use of the elementary formulæ of mensuration. In TRIGONOMETRY he should be exercised in applying the usual formulæ to a variety of simple reductions and transformations, including the solution of trigonometrical equations. Among other works, Todhunter's "Trigonometry for Beginners" will furnish the judicious teacher much material for this class of exercises. Readiness and accuracy in trigonometrical calculations are also of prime importance to the candidate. If the use of Logarithms is postponed in his preparation till Trigonometry is taken up (which is by no means necessary or advisable), he should then have abundant applications of them to all forms of calculation occurring in ordinary practice, as well as to those appearing in the solution of triangles. Finally, in all of his calculations, he should study the art of neat, orderly, and readily intelligible arrangement.

In LATIN, in order to assure the attainment of the required proficiency, the student should have such continued training in parsing as shall make him thoroughly familiar with declensions and conjugations, and accurate and ready in the application of the rules of syntax. As an additional guarantee of the proper mastery of these grammatical elements, the requirement has been adopted of "simple exercises in prose composition." By this is meant, merely, such a course of elementary exercises in translation, orally and in writing, from English into Latin as, in connection with the systematic parsing just mentioned, shall necessitate a familiarity with grammatical forms and the leading principles of syntax, and thus render the reading of the six books of Cæsar (or their equivalent) more thorough and fruitful. Since this course of elementary exercises in translation is designed as a preparation for reading, and not as a sequel to it, it should be invariably begun at the earliest stage of the study of Latin. To avoid any misapprehension of the nature or the extent of the requirement, the following works are specifically named, among which the candidate for examination may make his own selection. These are Harkness' "Introduction to Latin Com-

position," 112 pages ; Leighton's "Latin Lessons," 91 pages ; Smith's "Principia Latina," Part I.; or McClintock's "First Latin Book," 83 lessons (193 pp.). Any equivalent of these may be offered from the many useful books of a similar character. A knowledge of Prosody is not required.

The requirement in Physics, previously existing, is discontinued for the present, the text-book recommended having been withdrawn by the publishers.

The examinations for admission take place at North Sheffield Hall, on Friday and Saturday, June 28, 29; and on Tuesday and Wednesday, September 10, 11, 1878. Opportunities for private examination may, in exceptional cases, be given at other times.

In 1878 an examination will also be held in Chicago (beginning on Friday, June 28, at 9 A. M.), at a place to be announced in the Chicago newspapers of the day previous.

Candidates for advanced standing in the undergraduate classes are examined, in addition to the preparatory studies, in those already pursued by the class they wish to enter. No one can be admitted as a candidate for a degree, later than at the beginning of the Senior year.

THE COURSES OF INSTRUCTION, occupying three years, are arranged to suit the requirements of various classes of students. The first year's work is the same for all; during the last two years the instruction is chiefly arranged in special courses.

The special courses most distinctly marked out are the following:—

- (a.) In Chemistry ;
- (b.) In Civil Engineering ;
- (c.) In Dynamic (or Mechanical) Engineering ;
- (d.) In Agriculture ;
- (e.) In Natural History ;
- (f.) In Biology preparatory to Medical Studies ;
- (g.) In studies preparatory to Mining and Metallurgy ;
- (h.) In Select studies preparatory to other higher studies.

The arrangement of the studies is indicated in the annexed scheme.

FRESHMAN YEAR—INTRODUCTORY TO ALL THE COURSES.

FIRST TERM—*German*—Whitney's Grammar and Reader. *English*—Hadley's Brief History of the English Language; Exercises in Composition. *Mathematics*—Plane Analytical Geometry. *Physics*—Atkinson's Ganot, with experimental lectures. *Chemistry*—Eliot and Storer's Manual: Laboratory practice. *Elementary Drawing*—Practical Lessons in the Art School.

SECOND TERM—*Language, Physics, Chemistry, and Drawing*—as stated above. *Mathematics*—Elements of the Theory of Numerical Approximations; Solution of Higher Numerical Equations; Methods of Interpolation; Analytical Geometry in Space; Spherical Trigonometry. *Physical Geography*—Lectures. *Botany*—Gray's Lessons, with Lectures. *Political Economy*—Elementary Lectures. *Drawing*—Orthographic Projection.

For the Junior and Senior years the students select for themselves one of the following courses:—

(a.) IN CHEMISTRY.

JUNIOR YEAR:

FIRST TERM—*Theoretical and Organic Chemistry*—Lectures. *Qualitative Analysis*—Fresenius. *Laboratory Practice*. *Blowpipe Analysis*. *German*. *French*.

SECOND TERM—*Laboratory Practice*—Quantitative Analysis. *Mineralogy*—Blowpipe Analysis and Determination of Species. Lectures. *French*. *German*.

SENIOR YEAR:

FIRST TERM—*Laboratory Practice*—Volumetric and Organic Analysis. *Geology*—Dana's. *Zoology*—Lectures and Excursions. *French*.

SECOND TERM—*Laboratory Practice*—Mineral Analysis and Assaying. *Agricultural Chemistry*—Recitations and Lectures (optional). *Geology*—Dana's Manual. *Metallurgy* (optional). *Mineralogy* (optional). *French*. *Zoology*—Lectures.

(b.) IN CIVIL ENGINEERING.

JUNIOR YEAR:

FIRST TERM—*Mathematics*—Differential and Integral Calculus. Descriptive Geometry. *Surveying*—Field Operations. *Drawing*—Blinn's Orthographic Projections. *German*. *French*.

SECOND TERM—*Mathematics*—Integral Calculus. Rational Mechanics. Descriptive Geometry. *Drawing*—Projection of Shadows and Perspective. Topographical. Warped Surfaces. *Surveying*—Topographical. *German*. *French*.

SENIOR YEAR:

FIRST TERM—*Field Engineering*—Laying out Curves. Location of line of Railroad, with calculations of Excavation and Embankment. Hencks' Field Book for Railroad Engineers. *Civil Engineering*—Stone Cutting—with graphical problems. Mahan's Civil Engineering. *Geology*—Dana's. *Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *French*.

SECOND TERM—*Civil Engineering*—Resistance of Materials. Bridges and Roofs. Building Materials. Stability of Arches and Walls. *Dynamics*—Principles of Mechanism. Steam Engine. *Hydraulics*—Hydraulics and Hydraulic Motors. *Drawing*—Graphical Statics. *Astronomy*—Loomis's Astronomy, with practical problems. *Mineralogy*—continued. *Geology*—Dynamic. *French*.

(c.) IN DYNAMIC ENGINEERING.

JUNIOR YEAR:

FIRST TERM—Differential and Integral Calculus. Descriptive Geometry. The use of the Level, Theodolite, and Transit. Instrumental Drawing. *German*. *French*.

SECOND TERM—Integral Calculus. Rational Mechanics. Instrumental Drawing. General Theory of Motion, and Principles of Mechanism. *German*. *French*.

SENIOR YEAR:

FIRST TERM—Principles of Mechanism. Applications of the Principles of Mechanics to Machinery. Machine Construction. Blowpipe Analysis. Resistance of Materials. Construction of roof trusses, girders, and iron bridges. Machine Drawing. *Geology*. *French*.

SECOND TERM—General principles of Heat employed as a source of power. The construction of Steam Generators. Steam Engines. Hot Air Engines. Water Engines. Water Wheels. The Construction of Water Reservoirs, and Conduits. Measurement of Water Supply. Discharge of Pipes, etc. Graphical Statics. Machine Designing. *Metallurgy*. *Geology*.

(d.) IN AGRICULTURE.

JUNIOR YEAR:

FIRST TERM—*Theoretical and Organic Chemistry*—Lectures. *Qualitative Analysis*—Fresenius. *Laboratory Practice*. *Blowpipe Analysis*. *German*. *French*.

SECOND TERM—*Laboratory Practice*—Quantitative Analysis. *Mineralogy*—Blowpipe Analysis and Determination of Species. *Physical Geography*—Lectures. *Botany*—Lectures. *French*. *German*.

SENIOR YEAR:

FIRST TERM—*Agriculture*—Cultivation of the Staple Crops of the Northern States. Tree Planting and Forestry. *Agricultural Chemistry*—Johnson's. *Physiology*—Huxley's. *Geology*—Dana's. *Zoology*. *English*. *French*.

SECOND TERM—*Agriculture*—Laws of Heredity and Principles of Breeding. Lectures. *Geology*—Dana's. *Rural Economy*—History of Agriculture and Sketches of Husbandry in Foreign Countries. Systems of Husbandry. *Agricultural Chemistry*—Johnson's. *Geology*—Dana's. *Zoology*. *Botany*. *Microscopy*. *English*. *French*.

(e.) IN NATURAL HISTORY.

(Either Geology, Mineralogy, Zoology, or Botany, may be made the principal study, some attention in each case being directed to the other three branches of Natural History.)

JUNIOR YEAR:

FIRST TERM—*Chemistry*—Qualitative Analysis. Laboratory Practice. Recitations. *Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *Botany*—Gray's Manual; Use of the Microscope. *German*. *French*.

SECOND TERM—*Zoology*—Laboratory Practice. Excursions (land and marine). *Botany*—Laboratory Practice. Thomé's Text-book. Excursions. *Mineralogy*—continued. *Physical Geography*. *German*. *French*.

SENIOR YEAR:

FIRST TERM—*Geology*—Dana's. Excursions. *Zoology*—Laboratory Practice. Lectures. Excursions. *Botany*—Herbarium Studies. Excursions. *Physiology*—Huxley. *Linguistics*—Whitney's Life and Growth of Language. *French*.

SECOND TERM—*Geology*—Dana's. *Anatomy of Vertebrates*—Huxley's. *Zoology*—Laboratory Practice. Lectures. *Botany*—Herbarium Studies, especially in the Cryptogamous Orders. Botanical Literature. Essays in Descriptive Botany. *Meteorology*. *French*.

Besides the regular courses of recitation and lectures on structural and systematic Zoology and Botany, and on special subjects, students are taught to prepare, arrange, and identify collections, to make dissections, to pursue original investigations, and to describe genera and species in the language of science. For these purposes, large collections in Zoology and Palæontology belonging to the College are available, as are also the private botanical collections of Professor Eaton.

(f.) IN BIOLOGY—PREPARATORY TO MEDICAL STUDIES.

During the Junior year, the work of this course is chiefly under the direction of the instructors in Chemistry. Especial attention is given to qualitative and quantitative analysis, in their physiological and medical bearings; and

to the preparation and study of the organic proximate elements. In Toxicology the organic and mineral poisons are carefully studied. The special studies of the Senior year are wholly biological, particular attention being paid to the elements of comparative anatomy, histology, and physiology, to structural and physiological botany, and to systematic zoology. Instruction is also given in embryology, the laws of heredity, and human parasites. The order of studies is as follows:

JUNIOR YEAR:

FIRST TERM—*Chemistry*—Qualitative Analysis—Fresenius'. Laboratory Practice. Recitations. *Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *German. French.*

SECOND TERM—*Physiological Chemistry*—Klein's Handbook. *Toxicology*—Fresenius'. Laboratory practice. Recitations. Lectures. *Botany*—Lectures, Practical Exercises in Phenogamous Plants, and Excursions. *Mineralogy*—continued. *German. French.*

SENIOR YEAR:

FIRST TERM—*Comparative Anatomy and Histology*—Laboratory Practice. *Physiology*—Huxley's, with Practical Exercises. *Botany*—Practical Exercises, Lectures, and Excursions. *Geology*—Dana's Manual. *Zoology*—Lectures and Excursions. *French.*

SECOND TERM—*Comparative Anatomy and Histology*—Laboratory Practice and Recitations. *Botany*—Lectures. Laboratory Practice in Cryptogamia, etc. *Geology*—Dana's Manual. *Zoology*—Lectures. *Laws of Heredity and Principles of Breeding*—Lectures. *French.*

(g.) IN STUDIES PREPARATORY TO MINING AND METALLURGY.

Young men desiring to become Mining Engineers, can pursue the regular course in Civil or Mechanical Engineering, and at its close can spend a fourth year in the study of metallurgical chemistry, mineralogy, etc.

(h.) IN THE SELECT STUDIES PREPARATORY TO OTHER HIGHER STUDIES.

JUNIOR YEAR:

FIRST TERM—*Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *Astronomy. English*—Early English. *History*—Freeman's Outlines. *French. German.*

SECOND TERM—*Mineralogy*—Lectures. *Physical Geography*—Guyot. Lectures. *Botany*—Lectures and Excursions and Laboratory Practice. *English*—Chaucer, Shakespeare. *History*—Freeman's Outlines, with Lectures. *Political Economy*—Rogers's Manual. *German. French.*

SENIOR YEAR:

FIRST TERM—*Geology*—Recitations and Excursions. *Zoology*—Lectures and Excursions. *Linguistics*—Whitney's Life and Growth of Language. *English*—Shakespeare. *History*—Constitutional History of the United States. Lectures. *Political Economy*—Lectures. *French*.

SECOND TERM—*Geology and Zoology*—continued. *Meteorology*. Lectures. *Political Economy*—Lectures. *English*—Shakespeare, Milton, Dryden, Pope. *History*—Political History of the United States. History of Europe since 1848. Lectures. *French*.

Exercises in English Composition are required during the entire course from all the students. The preparation of graduating theses is among the duties of the Senior Year.

Lectures on Military Science and Tactics are annually given.

THE TERMS AND VACATIONS correspond with those of the Academical Department. (See Calendar, p. 4.)

EXPENSES—The charge for tuition is \$150 per year, payable \$55 at the beginning of the first and of the second terms, and \$40 at the middle of the second term. The special student of Chemistry has an additional charge of \$70 per annum for chemicals, and use of apparatus. He also supplies himself at his own expense with gas, flasks, crucibles, etc., the cost of which should not exceed \$10 per term. An additional charge of \$5 is annually made to each student for the use of the College Reading Room and Gymnasium.

THE FEES for graduation as BACHELOR OF PHILOSOPHY, are \$10; unless the person taking the degree is also an academical graduate when the fee is but \$5. For CIVIL or DYNAMIC ENGINEER, \$5. For DOCTOR OF PHILOSOPHY, \$10.

DEGREES.

BACHELOR OF PHILOSOPHY—The degree of Bachelor of Philosophy is conferred on those who have completed one of the three-year courses in the SHEFFIELD SCIENTIFIC SCHOOL, and have passed the examination at its close.

CIVIL AND DYNAMIC ENGINEER—See page 51.

DOCTOR OF PHILOSOPHY—See page 48.

SCHOOL OF THE FINE ARTS

THE COUNCIL of this Department consists of the following *ex-officio* members:—the President of the College, the President of the National Academy of Design, the President of the New York Museum of Art, and the Director of the School, who is also the Secretary; together with four regularly appointed Councilors, Mr. HENRY FARNAM, Mr. DONALD G. MITCHELL, Mr. EDWARD E. SALISBURY, and Mr. JOHN D. WHEELER.

THE FACULTY, on whom devolves the internal management of the School, consists of the President of the College, and the Professors whose names and departments of instruction are as follows:—JOHN F. WEIR, Professor of Painting, and Director of the School; JOHN H. NIEMEYER, Professor of Drawing. FREDERIC R. HONEY, instructor in Geometry and Perspective; JOHN P. C. FOSTER, M.D., instructor in Anatomy. (The chairs of Sculpture and Architecture are unfilled.)

The School has for its end the cultivation and promotion of the Arts of Design, viz.; PAINTING, SCULPTURE, and ARCHITECTURE, both in their artistic and æsthetic aims, through practice and criticism. The aim is—

1st. To provide thorough technical instruction in the Arts of Painting, Sculpture, and Architecture.

2d. To furnish an acquaintance with all branches of learning relating to the History, Theory, and Practice of Art.

The courses of instruction provided under these heads—of Practice and Criticism—may be regarded as distinct, or correlative, embracing that practical and theoretical knowledge of art which is no less desirable for the critic than for the artist.

The course of technical instruction, covering three years, is arranged as follows:*

* No provision has yet been made for instruction in the departments of Sculpture and Architecture, but it is hoped that before long this will be provided.

First Year.

DRAWING—from the flat: from the antique: from the living model.

PERSPECTIVE—descriptive geometry: shadows and linear perspective: applications and examples.

LECTURES—the elements of form: principles of proportion.

Second Year.

DRAWING—technical discipline: studies from the living model.

ANATOMY—the bones and articulations of the skeleton: the muscles and movements of the body: the anatomy of external forms.

PAINTING—technical discipline: studies from casts and still-life.

Third Year.

PAINTING—technical practice: studies from the living model.

COMPOSITION—studies in color and chiaroscuro: design.

LECTURES—on the history, theory, and practice of art.

In the departments of Drawing and Painting the practice of the studio is based upon the study of the human form.

The course in drawing is supplemented by lectures on Form and Proportion.

The practice in painting is supplemented by lectures on Color, Chiaroscuro, and Composition.

Drawing is continued, without interruption, through the first half of the course, or until the student evinces that proficiency which will warrant advancement. Painting is continued through the remainder of the course. Students will be encouraged to remain in the School and pursue advanced studies after the three years' course is completed.

In **PERSPECTIVE**, instruction is given in the form of lectures; students will be required to work out the examples, or problems, and submit them for examination at the next meeting of the class. The subject has three divisions: the first is devoted to descriptive geometry and its application to projection drawing; the second to shadows and linear perspective; and the third to applications and problems. At the close of the course an examination is held, and the standing of the student determined.

In **ANATOMY**, instruction is likewise given in the form of lectures. This subject has also three divisions: the first is devoted to the bones and articulations of the skeleton; the second to the muscles and movements of the body; and the

third to the anatomy of external forms. Students are required to draw, in detail, the parts under discussion by the lecturer, and submit the same for examination, at the next meeting of the class. At the close of the course the relative standing of the pupils is determined by examination.

A COURSE OF PUBLIC EVENING LECTURES will be delivered in the School, during the second term.

PRIZES may be competed for, both in Drawing and Painting, at the close of the course provided in these respective departments: (in drawing, a prize of \$50 for a study from the Antique, and \$100 for an approved study from the life; in painting, corresponding prizes of equal amounts;) but the necessary qualification includes, in drawing, an approved knowledge of perspective; and in painting, a requisite acquaintance with anatomy—as provided for by the instruction given in these branches.

DIPLOMAS are only accorded to those who remain through the full course, or pass the requisite examinations. If qualified, the student may enter advanced classes at once.

The CHARGE FOR TUITION is \$36 for three months, *in advance*; and no student will be admitted for a shorter period. Art-students are admitted *free* to all the lectures delivered in the school, whether public lectures or those in regular course; to the collections at all times; and are entitled to such privileges, under the usual restrictions, as are granted to students in the other departments of the College.

The School is open to both sexes but no student will be admitted under fifteen years of age.

The ART LIBRARY will be opened at specified hours for the use of students.

The COLLECTIONS embrace the "Jarves Gallery of Italian Art," numbering one hundred and twenty paintings, dating from the 11th to the 17th centuries; the "Trumbull Gallery" of original portraits and other works, by John Trumbull, numbering fifty-four pictures; a collection of portraits and works of contemporaneous art, numbering about seventy-five pictures; together with about one hundred and fifty casts and marbles, the former from many of the best productions of ancient art. The Collections are open daily for the use of students, and to the public, during the winter, from 1 to 4 P. M.; and during the summer, when a special loan exhibition is

organized, from 9 A. M. to 6 P. M. The proceeds of the exhibitions are applied to the purchase of material adapted to instruction, and to the incidental expenses of the School.

"Students' Season Tickets," at one dollar each, admitting the holders to the Exhibitions throughout the year, are furnished to students of all other departments of the College.

The Art School occupies a large and beautiful building, erected for this object by the late Augustus Russell Street, of New Haven, containing commodious galleries well adapted to the purpose of an Art Museum, and for lectures; drawing, painting, and modeling rooms, designed for the instruction of classes; also library rooms and studios.

This department of the College is open to all who desire to avail themselves of its instructions, without restrictions, save as to age and general good character. Its aim is to embrace a wide field of usefulness in connection with the knowledge and promotion of art, and to offer every facility to the student both in the way of criticism and technical discipline.

The course of study, as at present constituted, embraces only that instruction which the school is now prepared to furnish practically and efficiently: this is subject to expansion with the growth of the means at the disposal of the Faculty.

All applications for admission to the school should be made through the Director. It is particularly desirable that these applications be made before October 1st.

DEPARTMENT OF THEOLOGY

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Lecturer on Church Polity and American Church History, a Professor of Hebrew Literature and Biblical Theology, a Professor of Systematic Theology, a Professor of Homiletics and the Pastoral Charge, a Professor of Ecclesiastical History, and a Professor of Sacred Literature.

THE CONDITIONS OF ADMISSION are membership in some evangelical church, or other satisfactory evidence of Christian character, and a liberal education at some College, or such other literary acquisitions as may be considered an equivalent preparation for theological studies. Students of every Christian denomination, in case they are possessed of these qualifications, are admitted.

It is expected that every student will be promptly on the ground at the beginning of the session. Rooms are assigned in the order of application, but no room will be reserved for any applicant who neglects to appear, beyond one week after the opening of the term.

COURSE OF INSTRUCTION—The regular course occupies three years, and is arranged in the following order:—

JUNIOR YEAR:

Professor DAY will lecture on the Encyclopedia and Literature of Theology, and give instruction in Hebrew Grammar and Philology. Portions of the historical books of the Old Testament in the original will be carefully read and analyzed, and critical and exegetical dissertations presented by the class on points of special difficulty or importance.

Professor DWIGHT will give instruction in the exegetical study of the Greek New Testament. The course includes, in addition to the regular exegetical exercises, the critical investigation of the Greek text and the study of the subjects connected with the Introduction to the New Testament. Dissertations of a critical and exegetical character will, also, be prepared by the students and discussed in the presence of the class.

Professor HARRIS will lecture on Mental Philosophy with special reference to the study of Theology; also on Natural Theology, the Evidences of Christianity, and the Inspiration of the Scriptures; also, as incidental to these topics, on the various forms of Skepticism.

MIDDLE YEAR :

Professor HARRIS will lecture on Systematic Theology. This course will include a full and systematic investigation of the doctrines of Christianity, and of existing questions and controversies in respect to them. The lectures are accompanied by examinations and free discussions.

Professor FISHER will lecture on General Church History, including the following topics: an historical survey of the Old or Preparatory dispensation in its relation to Christianity; the establishment and spread of Christianity (including Missions and persecutions); Ecclesiastical Polity (including the rise and rule of the Papacy, and the Reformation); and the History of Christian Life and Worship.

Professor DAY will give instruction in Biblical Theology, with special reference to the progressive stages of Divine revelation, and the doctrinal results of the modern critical study of the Bible. He will also lecture on portions of the Hebrew Scriptures, especially the poetical and prophetical books.

Professor DWIGHT will continue to give instruction by lectures and recitations, in the exegetical study of the New Testament, especially the Pauline Epistles.

Dr. BACON will lecture on American Church History.

SENIOR YEAR :

Professor HOPPIN will lecture on Sacred Rhetoric and Homiletics, and also on Pastoral Theology, including the office, qualifications, pastoral duties, and special work of the ministry; he will also take charge of the practical exercises in Preaching, and in the criticism of the style and delivery of Sermons.

Professor FISHER will lecture upon the history of Christian Doctrine and on Symbolical Theology, and students will be aided in pursuing historical investigations for themselves.

Dr. BACON will give a series of lectures on Church polity, with special reference to the polity and discipline of the Congregational Churches.

Professor DWIGHT will lecture on some topics of special interest connected with the different books of the New Testament.

Professor DAY will read, with those who wish to prosecute the study of Syriac, the Peshito version of the New Testament.

Optional Studies in either Year :

Professor DAY will read, free of charge, with those students who desire to become familiar with the theological literature of Germany and have made some progress in the language, some standard work in German on Christian doctrine, with critical remarks, and references to the ablest works on special topics. The grammatical study of the language may be pursued with the classes in the Sheffield Scientific School.

Professor WHITNEY will give instruction to those who desire it in Sanskrit.

Instruction in vocal music is given gratuitously to students who desire it. (See p. 57.)

The following courses of lectures in the Academical Department may be attended, free of charge, provided that they do not interfere with the regular studies of the Seminary: on *Intellectual and Moral Philosophy*, by President PORTER; on *Natural Philosophy*, by Professor LOOMIS; on *Evolution and Cosmogony*, by Professor DANA; on *History*, by Professor WHEELER; on *Political and Social Science*, by Professor SUMNER. Students may also be admitted to the various courses of lectures in the Sheffield Scientific School. Those who intend to become Foreign Missionaries have the privilege of attending gratuitously the lectures in the Medical Department.

EXERCISES IN PUBLIC SPEAKING—There will be an exercise for all the classes, in the presence of the Faculty, once in two weeks, in the reading of the Scriptures and hymns, and in the delivery of sermons, or parts of sermons, or addresses. Every alternate week there will be a conference, designed to cultivate the power of *extemporaneous speaking*, in which the students will be called on to present their views on some subject selected by the Faculty. Weekly debates are also held by the students, in societies of their own.

Instruction in Elocution will be given by Mr. BAILEY, the Instructor in the Academical Department.

LICENSE TO PREACH—The regular time for applying for a license is at the close of the second year's study, before which time members of the Department are not allowed to preach.

PUBLIC WORSHIP—Prayers are attended every morning in the MARQUAND Chapel, with reading of the Scriptures and singing. It is optional with the student whether to connect himself with the College Church, or with one of the City Churches; but whatever may be his decision it is hoped that he will actively engage, so far as may not be inconsistent with the prosecution of his studies, in some form of City Mission, Sabbath School, or other benevolent labor, for which constant opportunities are offered.

LIBRARIES—The Reference Library of the School, containing nearly two thousand volumes in various languages, and established through the liberality of Mr. Henry Trowbridge, of New Haven, is placed in the East Divinity Hall. It is designed to furnish the students with the standard and most recent books in every branch of theological literature and those most frequently called for in the pursuit of their studies. It is open daily for consultation, and thus takes the place, for each student, of a well selected and extensive private library.

The valuable Library of Church Music, belonging to the late Dr. Lowell Mason, has been recently given to the Department by his family. This Library, which is placed in the West Divinity Hall, and is one of the largest of the kind in the country, will be open for the use of students.

The College Library, to which the students have access without charge, contains over 80,000 volumes, and is open five hours on every secular day for consultation and for the drawing of books.

The library of the College literary societies, containing over 20,000 volumes in general literature, is accessible to theological students.

PHYSICAL EXERCISE—The College Gymnasium is open to the students of this department at a small charge. The harbor of New Haven affords excellent facilities for boating, to those inclined to this mode of exercise.

THE ROOMS in the two **DIVINITY HALLS** are provided with carpets, beds, and every necessary article of furniture (except bedding). They are assigned to new students in the order of application. A few rooms have two bedrooms attached to them, but, in general, provision is made for each student to room alone. The buildings are warmed throughout by steam, and lighted by gas. Bath-rooms are placed on every floor. The buildings are thoroughly ventilated on an approved system.

EXPENSES AND PECUNIARY AID—Students have only to make pecuniary provision for about eight months of study annually. In the remaining four months of vacation, from May to September, they have the opportunity of engaging in Home Missionary or other labor, with remuneration for their services.

The expenses for the annual session are \$3.25 to \$4 a week for board; \$25 to \$35 for fuel and lights; and \$10 a year for care of room and other incidental expenses. There is no charge for instruction, room rent, or use of Libraries.

Students whose circumstances require it, will receive \$100 a year from the income of Scholarships and other funds belonging to the Department. Additional aid, generally to the amount of \$100 annually, but sometimes less, is afforded by the American Education Society to its beneficiaries. In special cases additional aid toward the expenses of board will be given. These means of assistance fully cover all the expenses mentioned above.

The Scholarships belonging to the Department bear respectively the names of James Hillhouse, William Leffingwell, George E. Dunham, Normand Smith, E. E. Salisbury, Thomas R. Trowbridge, Charles Atwater, Richard Borden, Samuel Holmes, Charles Nichols, Roland Mather, Noah Porter, John

DeForest, J. R. Beadle, David Root, Mary Goodman, Orin Fowler, and Edward Bull.

A Graduate Scholarship has been established in this Department, as a memorial of the late Mrs. Aurelia D. Hooker, of New Haven. It was offered for the first time to the class which entered in September, 1876, and will be assigned at graduation to that member of the class who shall be judged by the Faculty of the Department to be most worthy of it. It will be offered the second time to the class entering in 1878. The person to whom the scholarship shall be given will receive the annual income (\$700) for two years after graduation, and will be expected to pursue a course of theological study, either as a resident at the Seminary, or, in case he may prefer to do so, in Europe and Palestine.

After the close of the second year in May, students have frequent opportunities to receive remuneration for preaching in the neighboring churches.

In general it may be said, that sufficient aid will be provided for every young man who gives promise of usefulness in the ministry, to enable him, in connection with his own efforts, to complete a course of theological study.

COMMENCEMENT OF THE TERM, VACATION, ETC.—The session for 1877-78 began on Thursday, Sept. 13, and will continue till the third Thursday in May, when the public Anniversary is held. The annual examination of the classes, and the meeting of the Alumni, are held in the same week. The next annual term will begin on Thursday, September 12, 1878.

By thus throwing all the vacations into one, the most favorable season of the year is secured for study, while the opportunity is given, in the four months' vacation, to engage in some form of benevolent labor, in connection with the mission efforts of the churches, or in the service of one of the benevolent societies, by which the practical experience required of the pastor, as well as pecuniary compensation, may be obtained. Should any students prefer to spend the vacation in theological reading, the Professors will counsel them in the choice of books.

THE DEGREE of Bachelor of Divinity is conferred on all members of the Department who at the end of the Senior year pass the prescribed examination, and present an approved thesis on some topic in theology.

DEPARTMENT OF MEDICINE

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Chemistry and Toxicology, a Professor of Obstetrics and the Diseases of Women and Children, a Professor of Materia Medica and Therapeutics, a Professor of Histology and Pathology, a Professor of the Theory and Practice of Medicine, a Professor of Surgery, a Professor of General and Special Anatomy, a Lecturer on Physiology, a Lecturer on Ophthalmology and Otology, a Lecturer on Insanity, and a Demonstrator of Anatomy.

The course of study is divided into two terms in each year, a Spring Term and a Winter Term.

In the Spring Term, instruction is given by recitations and lectures. In this Term the students are classified, so that those who are just entering on the study are taught during their *first* year only the more elementary branches; while the studies of the *second* year include the more practical branches. Provision is made for students attending a *third* year, to review the studies of the entire course, with the addition of such collateral branches and advanced courses of reading as the necessities or attainments of individual pupils may require. Two or more recitations are held daily.

The instruction in the Winter Term is conducted by means of Public Lectures, with daily examinations, illustrated by Hospital Instruction and Medical and Surgical Clinics, with abundant facilities for Anatomical Dissections.

While the studies of each of these terms are independent and so far complete in their parts that they may be pursued separately with profit, yet they are designed to be so related to each other, that together they make a full and rounded curriculum of proportional study. In no way can the student more easily and naturally acquire a clear and comprehensive knowledge of the medical sciences in their present advanced position, than by taking these courses in connection, and pursuing his studies at the College for the entire period of three years.

The Spring Term will begin February 14, 1878, and continue till the Annual Commencement, June 27. The Winter Term for 1878-79, being *the Sixty-sixth Annual Course of Lectures*, will begin October 3, and close January 30, 1879.

CHEMISTRY—The chemical instruction in each term is intended to supplement that given in the other. In the Winter Term, lectures, fully illustrated by experiments, are given upon General Chemistry during the first half of the term; and upon Organic and Physiological Chemistry (including the Chemistry of the urine) and Toxicology during the second half. In the Spring Term, Theoretical Chemistry is taught by recitations, and Practical Chemistry by Laboratory work. The Junior Class work in Elementary Qualitative Analysis; the Middle Class in advanced Analysis, including the examination of drugs, the urine, calculi, etc. These exercises consist of three hours' daily work. The Senior Class are taught to make original researches in Physiological Chemistry.

NORMAL AND PATHOLOGICAL HISTOLOGY is illustrated by a sufficient number of compound microscopes and a large collection of the best preparations.

CLINICS—The lectures on "Surgery" and on the "Theory and Practice of Medicine" are amply illustrated at the Clinics which are held almost daily. The Surgical and Medical Clinics and the Clinics for Eye Diseases, which are held on their respective days at the College, are still further supplemented by the facilities afforded by the New Haven Dispensary and the Clinics which are held once or twice every week at the State Hospital. In connection with the Clinics, students are made thoroughly conversant with the special methods of the expert practitioner, by having exhibited to them from day to day all the recent advances attained in special manipulations, physical explorations, and the enlightened employment of remedies. All Surgical operations are performed in the presence of the students, and every endeavor is made to familiarize them with the use of all instruments and surgical appliances.

OPHTHALMOLOGY AND OTOTOLOGY are taught by a course of practical Lectures, with Clinical Illustrations.

DISSECTING ROOMS—The spacious and well-appointed Dissecting Rooms are amply supplied with anatomical material at a reasonable charge, under the personal direction of the Demonstrator.

THE MUSEUM contains a large collection of natural and morbid specimens, numerous casts, plates, and models, of elegant execution, and an extensive Cabinet of Materia Medica, all of which are made practically useful in illustrating the subjects taught. The University Libraries and Collections in Natural History are also open for the use of students.

COMPARATIVE ANATOMY, ZOOLOGY, AND OTHER DEPARTMENTS COLLATERAL TO MEDICAL STUDIES—Special advantages are offered to Medical Students for the pursuit of Zoology, Comparative Anatomy, Botany, and other cognate studies, in connection with the Sheffield Scientific School.

REQUIREMENTS FOR GRADUATION—Every candidate for a degree is required to possess, in addition to a good English education, a competent knowledge of the Latin language and of the principles of Natural Philosophy; to present to the Dean, two weeks before examination, a *Thesis*, written by himself, upon some medical subject; to present a satisfactory certificate that he is twenty-one years of age, and possesses a good moral character. He must have attended two full courses of public lectures, one at least of which must have been in this Institution. He must present a satisfactory certificate from a respectable and regular practitioner of medicine that he has attended to the study of physic and surgery for three years, including the time spent in attendance upon medical lectures.* In case he is a graduate of college his diploma is received as equivalent to a certificate of medical study for one year.

The Board of Examiners consists of the Faculty and an equal number of the Members of the Connecticut Medical Society, appointed by the President and Fellows of the same; and the President of the Society is *ex-officio* President of the Board.

Separate written examinations are required in each of the following branches :—

- | | |
|-----------------------------|-------------------------------------|
| 1. Chemistry. | 6. Therapeutics. |
| 2. Anatomy. | 7. Theory and Practice of Medicine. |
| 3. Physiology. | 8. Obstetrics. |
| 4. Materia Medica. | 9. Surgery. |
| 5. Histology and Pathology. | |

* The Spring Term is counted as part of the time required for Medical Study, but *does not count* as one of the courses of Public Lectures required for Graduation.

Students who have attended two full courses of lectures on Chemistry, Anatomy, Physiology, and Materia Medica, may be examined on those subjects, at the close of any regular term; and if giving satisfactory evidence of proficiency in them, their examination shall be considered as final on those subjects, and at the end of their course they will be examined only on the other branches.

Two examinations for degrees are held annually, one at the close of the Winter Term, and the other at the close of the Spring Term, ending on the Tuesday before Commencement.

TUITION FEES, ALWAYS REQUIRED IN ADVANCE.

Matriculation Fee, paid annually,	-	-	-	-	\$	5.00
Course of Lectures in Winter Term,	-	-	-	-		105.00
For the Spring Term,	-	-	-	-		60.00
Contingent Expenses of Laboratory, Spring Term,						10.00
Demonstrator's Ticket,	-	-	-	-	-	5.00
Graduation Fee,	-	-	-	-	-	25.00

In the Winter Term students may take the whole or part of the lectures, at their option; fee for each Professor's ticket, \$15.

Those who have attended two full courses of lectures in this Institution, and those who have attended one full course of Lectures in this Institution and a full course in a similar Medical College, are entitled to admission to the Lectures of any future Winter Term on the payment of Five Dollars for incidental expenses. Those who have attended two full courses in any other accredited Medical College, may receive all the tickets for the Winter Term, including Matriculation, for \$50.

DEPARTMENT OF LAW

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Mercantile Law and Evidence, a Professor of Elementary and Criminal Law and the Law of Real Property, a Professor of Constitutional Law, Contracts, and Wills, a Professor of Pleading and Equity Jurisprudence, and an Instructor in Public Law. Lectures are also delivered by Rev. LEONARD BACON, D.D., LL.D., on Ecclesiastical Law, Hon. ORIGEN S. SEYMOUR, LL.D., on Judicial Procedure and Practice, Hon. LAFAYETTE S. FOSTER, LL.D., on Parliamentary Law, and Methods of Legislation, Professor WAYLAND on English Constitutional Law and History, Professor ROBINSON on Medical Jurisprudence, MARK BAILEY, M.A., on Forensic Elocution, Professor BALDWIN on Roman Law and Comparative Jurisprudence, Professor PLATT on General Jurisprudence, and FREDERICK H. BETTS, M.A., on Patent Law.

TERMS AND VACATIONS—There are three terms in each year: the Fall Term, beginning on the last Thursday of September and continuing to the Thursday before Christmas: the Winter Term, beginning in January, after a vacation of three weeks, and closing the last Thursday of March; and the Spring Term, beginning on the second Thursday of April and continuing until Commencement. (See Calendar, p. 4.)

COURSE OF INSTRUCTION

UNDERGRADUATE COURSE

The Undergraduate Course occupies two years, the students being divided into two classes, for each of which a special course of study is provided. The daily exercises consist of lectures and recitations from standard text-books, the latter being accompanied by oral explanations. The students are frequently referred to the leading cases on the subject under consideration, and are required to be prepared for questions upon them at the next exercise: they are also encouraged to put questions freely to the instructor at all recitations. Moot Courts are held weekly, at which one of the professors acts as judge. The students acting as counsel, in the argument of cases, are required to draw the necessary pleadings in the common law form.

Members of either Class can attend the lectures of Professors to undergraduates in other Departments of the College, whenever it is compatible with their other engagements; and, with a few exceptions only, without charge. They can also attend one or more of the special courses of graduate instruction in the Department of Philosophy and the Arts, on payment of a moderate fee. (See page 49.)

The regular curriculum of study is as follows:

JUNIOR YEAR.

FALL TERM—Recitations: Elementary Law, Prof. Robinson; Torts, Prof. Platt; International Law, Mr. Woolsey. Lectures: Nature and History of American Law, and Wills, Prof. Baldwin; Origin of Law, and Nature of Legal Authority, Prof. Robinson.

WINTER AND SPRING TERM—Recitations: Contracts, Prof. Baldwin; Mercantile Law, and Evidence, Prof. Wayland; Pleading, Prof. Platt; International Law, Mr. Woolsey. Lectures: English Constitutional Law, Prof. Wayland; General Jurisprudence, Prof. Platt; Forensic Elocution, Mr. Bailey; Oratory and Rhetoric, Prof. Robinson.

SENIOR YEAR.

FALL TERM—Recitations: Equity, Prof. Platt; Contracts, Prof. Robinson; Mercantile Law, Prof. Wayland. Lectures: International Law, Mr. Woolsey; Parliamentary Law and the Methods of Legislation, Judge Foster; Comparative Jurisprudence, and Roman Law, Prof. Baldwin.

WINTER AND SPRING TERM—Recitations: Contracts, Prof. Baldwin; Mercantile Law, Prof. Wayland; Real Property, Prof. Robinson. Lectures: Judicial Procedure and Practice, Judge Seymour; American Constitutional Law, Prof. Baldwin; Ecclesiastical Law, Dr. Bacon; Patent Law, Mr. Betts; Criminal Law, and Medical Jurisprudence, Prof. Robinson.

A course of study is also provided for those who do not intend to engage in the practice of the Law, but wish to obtain a knowledge of its principles to complete their education, or with reference to mercantile pursuits.

The principal text-books used are, in Junior year, Robinson's Notes on Elementary Law, Addison on Torts (abridged), Parsons on Contracts, Stephen on Pleading, Woolsey's Introduction to the Study of International Law, and Greenleaf on Evidence, vol. I.; in Senior year, Parsons on Contracts, Story on Equity Jurisprudence, and Washburn on Real Property.

Students are also recommended to read during their course the following works, in connection with their regular exercises: Blackstone's Commentaries, Kent's Commentaries, Smith's Leading Cases, Maine's Ancient Law, Hadley's Roman Law, and Cooley on Constitutional Limitations.

At the close of the Spring Term, each Class is subjected to a written examination on the studies of the preceding year.

GRADUATE COURSE

The Graduate Course occupies two years, and is open to graduates from any Law School, having the degree of LL.B.; under the conditions specified on pp. 90, 91. The terms and vacations are the same as those in the undergraduate course in this department. The degree of Master of Law (M.L.) will be conferred upon examination at the close of the first year, and that of Doctor of Civil Law (D.C.L.) at the end of the second year. The curriculum for the first year is particularly designed to supplement that of the undergraduate course by affording further instruction in the branches there pursued; that of the second year is designed to meet the wants of those who aim at acquiring a thorough acquaintance with jurisprudence and its affiliated studies, as a means of completing their education, without confining themselves to such topics as are of the first necessity to the practicing lawyer.

The arrangement of the curriculum is as follows :

FOR CANDIDATES FOR THE DEGREE OF M.L.—Administration of Estates, Prof. Wayland; English Constitutional History, Prof. Wayland and Prof. Wheeler; Maritime and Admiralty Law, and Patents, Prof. Robinson; Practice in the U. S. Courts, Railroad Law, and American Constitutional History, Prof. Baldwin; General Jurisprudence, Corporations, and Procedure in States having a Civil Code, Prof. Platt; Roman Law, Mr. A. S. Wheeler; International Law, Prof. Sumner.

FOR CANDIDATES FOR THE DEGREE OF D.C.L.—Ethics, President Porter; Parliamentary Law, and Hermeneutics, Prof. Wayland; Early History of Real Property, Patent Cases, and Canon Law, Prof. Robinson; Conflict of Laws, Comparative Jurisprudence, Political History, and Roman Law, Prof. Baldwin; General Jurisprudence, and Principles of Legislation, Prof. Platt; Roman Law, Mr. A. S. Wheeler; Relations of Physical Geography to Political History, Prof. Brewer; Political Economy, Prof. Walker; Sociology, Prof. Sumner.

Among the principal text-books used, are Parsons on Maritime Law, Curtis on Patents, Desty's Federal Procedure, Pierce on American Railroad Law, Austin on Jurisprudence, Angell and Ames on Private Corporations, Dillon on Municipal Corporations, Pomeroy's Remedies and Remedial Rights, the Commentaries of Gaius, and Institutes of Justinian, and selected titles of the Pandects, Story on the Conflict of Laws, Lieber's Principles of Legal and Political Interpretation, Digby on the Early History of Landed Property, and Wharton on Private International Law.

There is one exercise daily for those pursuing each year of the graduate course, and the preparation for it, with the collateral course of reading which will be prescribed for each, the preparation of the graduating thesis, etc., will be such as to occupy the working time of the student through the year.

A knowledge of Latin will be necessary for those pursuing the studies of the last year of the course, but will not be indispensable for candidates for the degree of M.L. Students desiring to spend their whole time upon certain of the branches indicated, to the exclusion of others, will be allowed to do so, and for such, a special course of reading and examination will be marked out, in each case.

TERMS OF ADMISSION TO UNDERGRADUATE COURSE—Applicants for admission to the Junior Class must be at least eighteen years of age, and must produce certificates of good moral character. No student who has not taken a degree from some collegiate institution, will be admitted as a candidate for a degree, until he has passed a satisfactory examination on the outlines of the History of England, and of the United States, and the text of the Constitution of the United States. This will be conducted in writing, and the style of composition and orthography in the answers, as written, must be such as to evince a competent knowledge of English Grammar.

To entitle a person to admission to advanced standing as a member of the Senior Class, he must be at least nineteen years of age; must, if a college graduate, have studied law under a competent instructor for at least one year, or, at the law school of some college or university, for at least six months; must, if not a college graduate, have studied law under a competent instructor for at least two years, or at a law school for at least one year; and, if not an attorney at law, must pass such an examination as is required for those entering the Senior Class in the regular course, and also (unless a college graduate) such an examination as is required of applicants for admission to the Junior Class.

Applicants for admission to advanced standing who have received a collegiate degree, or have passed the preliminary examination in English studies specified above, may either attend the regular annual Junior examination, which commences the second week before Commencement, or pass a special examination, beginning on the first Saturday of the Fall Term, or on the last Thursday of February, at which it will be sufficient if they are prepared to be questioned on Kent's Commentaries, lectures first to nine inclusive, fourteen to eighteen inclusive, and twenty, twenty-one, sixty, sixty-two, and sixty-eight: Parsons on Contracts, subjects of bailments, partnerships, notes and bills, agents, executors and guardians,

corporations and artificial persons, gifts, capacity to contract, consideration and assent, sales, warranty, hiring, suretyship, telegraphs, infancy, married women, interest, marriage, construction, defences, estoppels, statute of limitation, damages and liens; Blackstone's Commentaries, Robinson's Notes on Elementary Law, Stephen on Pleading, Greenleaf on Evidence, vol. I, Woolsey's Introduction to the Study of International Law, and Addison on Torts (abridged edition).

Special students, not candidates for a degree, will be admitted to any of the exercises of the School, as heretofore, without examination.

EXAMINATIONS—There will be preliminary examinations of candidates for admission to the Junior Class at the opening of the Fall Term, and at no other time.

Candidates for admission to the Senior Class will be examined, as above, at the end of the Spring Term, or beginning of the Fall Term; or on the last Thursday of February.

Seniors will be examined for a degree only at the close of the Spring Term; or on the last Thursday of February, when their prescribed period of study shall mature at that time.

Examinations for degrees in the graduate course will be held only at the close of the Spring Term.

Every candidate for each degree, both in the undergraduate and graduate courses, must also submit a thesis on a given legal topic, which must be approved by the Faculty.

LIBRARY—The special Library of the Department, which has a permanent endowment for its support (the English Fund),* contains over eight thousand volumes, comprising a complete collection of the English, American, and Irish Reports of judicial decisions, and an extensive collection of text-books, and works on jurisprudence and political history and philosophy. The consulting room is also supplied with the leading legal periodicals. The Library is open daily, during term time, from 8 A. M. to 12:45 P. M., and from 2 to 5:45 P. M. (with the exception of Saturday afternoon); during vacations it is not opened until 9 A. M.

The students can also draw books without charge from the general University libraries, now containing over 100,000 volumes.

* Established by Hon. James E. English, M.A., in 1873.

PRIZES—The TOWNSEND Prize,* of one hundred dollars, is annually awarded to that member of the Senior Class who shall write and pronounce the best oration or thesis at his graduation, at the public anniversary exercises of the Department, on the day before Commencement.

The JEWELL Prizes,† are annually awarded as follows: a prize of one hundred dollars to that member of the Senior class who receives the highest marks at the final examination of his class at their graduation; and a prize of fifty dollars to that member of the Junior class who shall write the best dissertation on a given legal topic.

The BETTS Prize,‡ of fifty dollars, is awarded to that member of the Junior class who receives the highest marks at his annual examination.

The CIVIL LAW Prize, of thirty dollars, is awarded for the best dissertation by a member of the Senior Class on a given topic connected with the Roman Law.

BUILDINGS, AND FACILITIES FOR OBSERVING PRACTICE—The School occupies an entire story of the Court House of New Haven County, having upon the same floor a lecture room accommodating two hundred students, a large library hall, a Moot Court room, an instructors' room, and other apartments furnishing every needed convenience for Law clubs and debating societies.

Two terms of the Supreme Court of Errors of Connecticut, one term of the United States Circuit Court, and two terms of the United States District Court, are held annually in New Haven; and the Superior Court and Court of Common Pleas, the principal *nisi prius* Courts of the State, are also in session almost daily, during each of the Law School terms.

DEGREES—In the Undergraduate course the degree of Bachelor of Laws will be conferred by the Corporation, upon the recommendation of the Faculty of the Department, based on a satisfactory examination and the submission of a satisfactory thesis, on the following persons:

1st. Attorneys at Law, who have been members of the Department for one year after their admission to the Bar.

* Established by Hon. James M. Townsend in 1874.

† Established by Hon. Marshall Jewell, M.A., in 1871.

‡ Established by Frederic H. Betts, M.A., in 1875.

2d. Any students who have been members of the Department for not less than two years, and who passed satisfactorily the Junior Examination at the end of their first year.

3d. Students who have received the degree of Bachelor or Doctor in any of the Arts or Sciences from any incorporated College or University, and have subsequently been members of this Department for not less than eighteen months, and who passed satisfactorily an examination at the end of their first six or twelve months, on all the studies of the Junior year.

4th. Upon students who have been admitted to advanced standing as members of the Senior Class, and have remained in that Class for not less than one year.

Graduates of the Department receiving this degree are admitted to the Connecticut Bar without further examination.

In the Graduate Course the degree of Master of Law (M.L.) will be conferred by the Corporation on the recommendation of the Faculty of the Department, on persons, who, after having taken the degree of Bachelor of Laws, pursue, during at least one year, such a course of advanced studies as the Faculty may direct.

Bachelors of Laws, who also have the degree of Bachelor of Arts or of Philosophy, or who, having the degree of LL.B. from this college, ranked among the first quarter of their class in scholarship, according to their average marks at their final examination for that degree, may, after having taken the degree of M.L., apply for that of Doctor of Civil Law (D.C.L.). All applicants for the latter degree must have a good knowledge of Latin, and also of either the French or German language. The course of instruction will extend over one year after taking the master's degree, and the Faculty will recommend no one for the degree of D.C.L., who has not attained a high standard of proficiency in the studies pursued.

Neither degree will be conferred, except upon candidates who pursue their studies at New Haven, under the direction of the Faculty, pass with credit a strict final examination, and present a satisfactory thesis.

EXPENSES—The fees are the same, for tuition and use of library, in the Undergraduate and in the Graduate courses, viz.: \$40 for the Fall Term, \$30 for the Winter Term, and \$30 for the Spring Term, or \$90 for the entire annual session, to

be paid to the Treasurer of the College in advance, or secured by bond satisfactory to him: where payment is not made in advance, interest will be added. Candidates for a degree who pursue their studies beyond the minimum period of attendance required before applying for examination, will be charged only half these rates for their subsequent tuition. The diploma fee is \$5, and the Court fees for admission to the Bar are \$8. A further fee of \$5 is chargeable for admission to practice in the U. S. Courts for the District of Connecticut, if this is also desired. The tuition charges for special students, not candidates for a degree, vary in proportion to the amount of instruction and supervision required, but will never exceed those made in the regular course.

Board and lodging can be obtained at prices ranging from \$5 a week upwards.

For further particulars, inquiries may be addressed to Professor Francis Wayland, Dean of the Faculty, at New Haven, Conn.

PEABODY MUSEUM OF NATURAL HISTORY

TRUSTEES.

PROFESSOR JAMES D. DANA, Ph.D., LL.D., *Chairman.*
HIS EXCELLENCY RICHARD D. HUBBARD, LL.D., *ex-officio.*
THE HONORABLE ROBERT C. WINTHROP, LL.D.
PROFESSOR BENJAMIN SILLIMAN, M.D.
PROFESSOR GEORGE J. BRUSH, M.A., *Treasurer.*
PROFESSOR OTHNIEL C. MARSH, M.A.
GEORGE PEABODY WETMORE, M.A.

CURATORS.

OTHNIEL C. MARSH, M.A., *Curator of the Geological Collection.*
ADDISON E. VERRILL, M.A., *Curator of the Zoological Collection.*
EDWARD S. DANA, Ph.D., *Curator of the Mineralogical Collection.*

The gift of the Founder, GEORGE PEABODY, of London, was committed to the Board of Trustees, in October, 1866, "to found and maintain a Museum of Natural History, especially in the departments of Zoology, Geology, and Mineralogy, in connection with Yale College." Of the entire gift (\$150,000), \$100,000 was devoted by the donor to the erection, on land given for the purpose by the President and Fellows of the College, of a fire-proof building, planned with special reference to subsequent enlargement. Of the remainder of the gift, the sum of \$20,000 is set apart as a reserve fund for the completion of the building, and the income of \$30,000 is available for the care of the Museum and the increase of its collections.

By the accumulations from investment of the original building-fund, the first wing of the Museum is now completed, at a cost of about \$140,000, or, with the cases, \$175,000.

The basement will be used for exhibiting the collection of fossil footprints from the Connecticut valley, and for work and storerooms. The first story contains the Mineral Collection, and rooms for instruction in Mineralogy, as well as the general lecture room. The second story is entirely devoted to Geology, and the third to Zoology. In the fourth story the large south room is used for the collection in Archæology and Ethnology, and the remainder for storerooms.

So far as the collections are arranged, the Museum is open to students and the public every day in term-time.

LIBRARIES

THE COLLEGE LIBRARY numbers about 83,000 volumes, besides many thousand unbound pamphlets. It is designed for the use of the College officers, resident graduates, and the students of the various departments. Other persons may have the privilege of consulting the Library and drawing books, by permission of the Library Committee. The Library is open daily in term-time from 9½ A. M. to 1 P. M., and from 2½ to 5 P. M. (or, during the winter months, to 4½ P. M.)

In the same building is the LINONIAN AND BROTHERS LIBRARY, designed primarily for the use of the undergraduate students, and containing about 20,000 volumes. This library is open daily, from 1½ to 2½ P. M.; on Wednesdays and Saturdays from 10 A. M. to 12 M., and from 1½ to 4 P. M.

The Theological, Law, Medical and Scientific Schools have each a special Library, accessible to the students of those schools.

The Library of the AMERICAN ORIENTAL SOCIETY, numbering about 3,500 printed books and manuscripts, is kept in the College Library building.

COLLEGE PREMIUMS IN ENGLISH COMPOSITION

Class of 1877—1st Rank, John B. Atwater, John K. Beach, Charles C. Camp, Edwin B. Gager, Thomas D. Goodell, J. Gilpin Pyle, John S. Thacher, William H. Upton, Alexander M. Wilcox ; 2d Rank, Samuel L. Eaton, Edwin B. Goodell, John E. Keeler, William H. Kelsey, Arthur R. Kimball, Webster Merrifield, Frank H. Platt

Class of 1879—1st Term

<i>1st Prizes</i>	<i>2d Prizes</i>	<i>3d Prizes</i>
Lucien F. Burpee	Amos L. Hatheway	Louis S. DeForest
George F. Foster	George W. Kirchwey	Henry Hitchcock
Louis J. Swinburne	Malcolm M. McKenzie	Charles L. Merriam
Ambrose Tighe	Ivan M. Marty	William C. Merritt

Class of 1879—2d Term

<i>1st Prizes</i>	<i>2d Prizes</i>	<i>3d Prizes</i>
Lucien F. Burpee	George F. Foster	Henry H. Donaldson
Amos L. Hatheway	Frank Jones	Edward S. Fowler
Louis J. Swinburne	Charles Miller	George W. Kirchwey
Ambrose Tighe	Louis D. Syle	Frederick S. Smith

JUNIOR EXHIBITION PREMIUMS—CLASS OF 1878

1st Prize, Frank A. Beckwith ; 2d Prizes, Harlan P. Beach, Harry C. Coe, George L. Curtis, Roger S. B. Foster, Louis Hood, William K. James, Edward H. Seely, William H. Taft, Edward B. Whitney

PREMIUMS FOR DECLAMATION—CLASS OF 1879

1st Prize, Bruce S. Keator and William N. Parker ; 2d Prize, William W. Bailey ; 3d Prize, Henry S. Green

PREMIUMS FOR SOLUTION OF MATHEMATICAL PROBLEMS

Class of 1879—1st Prizes, Harry Lyne, Henry J. Ten Eyck ; 2d Prize, Henry C. Crouch ; 3d Prize, Chun Lung

Class of 1880—1st Prize, Frank W. Hopkins ; 2d Prize, William M. Hall and Dickinson W. Richards ; 3d Prize, Frank Goodrich and Arthur E. Walradt

BERKELEY PREMIUMS FOR LATIN COMPOSITION

Class of 1880—1st Prizes, John A. Amundson, William M. Hall, Edward P. Noyes, William H. Sherman, George D. White, Lawrence Wilkinson ; 2d Prizes, William B. Hill, Frank W. Hopkins, Edward C. Spencer, Harry W. Taft, Arthur E. Walradt, William C. Wheeler

SHEFFIELD SCIENTIFIC SCHOOL

Class of 1877

FOR EXCELLENCE IN GEOLOGY AND ZOOLOGY, the Belknap prize awarded to Henry L. Taylor, New York City.

FOR EXCELLENCE IN ENGLISH LITERATURE, the prize divided between Joseph G. Calhoun, Hartford, and Horace C. Howard, Townshend, Vt.

FOR EXCELLENCE IN GERMAN, the prize awarded to Henry L. Taylor, New York City.

FOR EXCELLENCE IN FRENCH, the prize awarded to Henry L. Taylor, New York City.

For catalogues and other information, address THE SECRETARY OF YALE COLLEGE, NEW HAVEN, CONN.

The last edition of the Triennial Catalogue of the Graduates was published in June, 1877.

Obituary notices of deceased graduates are published annually.

All persons, who can supply information appropriate to the future editions of the Triennial Catalogue or Obituary Record, are urgently requested to communicate with the Secretary.

The present edition of the Annual Catalogue is sent to every graduate whose address is known to the Secretary; and in future the Catalogue will be sent annually to all graduates who may express a desire to receive it, and who will furnish their addresses for the purpose.

JOHN F. WEIR, N.A., M.A.

*William Leffingwell Professor of Painting and
Design*

(9 Art School) 58 Trumbull st.

JOHN E. CLARK, M.A.

Professor of Mathematics

29 Eld st.

CYRUS NORTHROP, LL.B.

Professor of Rhetoric and English Literature

(137 F.) 607 Chapel st.

DANIEL C. EATON, M.A.

Professor of Botany

(41 N. S. H.) 70 Sachem st.

ARTHUR M. WHEELER, B.A.

Professor of History

207 D.

ADDISON VANNAME, M.A.

Librarian

(LIBRARY) 121 High st.

J. WILLARD GIBBS, PH.D.

Professor of Mathematical Physics

121 High st.

ARTHUR W. WRIGHT, PH.D.

Professor of Molecular Physics and Chemistry (Lab'y.) 34 Hillhouse av.

THOMAS R. LOUNSBURY, B.A.

*Professor of English, and Librarian of the
Sheffield Scientific School*

(6 s. H.) 22 Lincoln st.

Rev. WILLIAM M. BARBOUR, D.D.

Chittenden Professor of Divinity, and College Pastor (117 N.) 44 High st.

OTHNIEL C. MARSH, M.A.

Professor of Palæontology, and Curator of the

Geological Collection (8 Peabody Museum) New Haven Hotel

EUGENE L. RICHARDS, B.A.

Assistant Professor of Mathematics

(86 N. M.) 196 York st.

FRANCIS A. WALKER, PH.D.

Professor of Political Economy and History (40 N. S. H.) 68 Whitney av.

JOHN H. NIEMEYER, M.A.

Street Professor of Drawing

8 Art School

FRANKLIN B. DEXTER, M.A.

*Larned Professor of American History, and
Assistant Librarian*

(LIBRARY) 240 D.

SIMEON E. BALDWIN, M.A.

*Professor of Constitutional Law and the Law of
Contracts and Wills*

(25 White's Building) 44 Wall st.

OSCAR D. ALLEN, PH.D.

Professor of Analytical Chemistry and Metallurgy (13 S. H.) 189 Temple st.

EDWARD B. COE, B.A.

Street Professor of Modern Languages

(122 N.) 83 Wall st.

ADDISON E. VERRILL, M.A.

*Professor of Zoology, and Curator of the Zoological
Collection*

(15 Peabody Museum) 148 College st.

FRANKLIN CARTER, PH.D.

Professor of the German Language and Literature

(120 N.) 2 York sq.

WILLIAM G. SUMNER, B.A.

Professor of Political and Social Science

(105 N.) 140 Edwards st.

JOHNSON T. PLATT, M.A.

*Professor of Pleading and Equity
Jurisprudence*

(179 Church st.) 128 Bradley st.

SIDNEY I. SMITH, PH.B.

Professor of Comparative Anatomy (14 Peabody Museum) 148 College st.

WILLIAM G. MIXTER, PH.B.

Professor of Chemistry (8 S. H.) 8 Trumbull st.

HENRY P. WRIGHT, PH.D.

Dunham Professor of the Latin Language and Literature (89 N. M.) 191 Church st.

ISBON T. BECKWITH, PH.D.

Tutor in Greek 170 F.

JAMES K. THACHER, B.A.

Tutor in Zoology (2 TR.) 77 Wall st.

HENRY A. BEERS, B.A.

Assistant Professor of English Literature (171 F.) 25 Vernon st.

BERNADOTTE PERRIN, PH.D.

Tutor in Greek 58 S. M.

A. JAY DUBOIS, PH.D.

Higgin Professor of Dynamical Engineering (45 N. S. H.) 328 Howard av.

EDWARD S. DANA, PH.D.

Tutor in Physics, and Curator of the Mineralogical Collection (4 Peabody Museum) 136 F.

THEODORE S. WOOLSEY, LL.B.

Professor of International Law 56 Hillhouse av.

FRANK B. TARBELL, B.A.

Tutor in Greek 70 N. M.

WILLIAM BEEBE, B.A.

Tutor in Mathematics 153 F.

JOHN P. PETERS, PH.D.

Tutor in Greek 102 N.

ANDREW W. PHILLIPS, PH.D.

Tutor in Mathematics 6 Trumbull st.

EDWARD D. ROBBINS, B.A.

Tutor in Latin 21 S.

ALFRED B. THACHER, B.A.

Tutor in Latin 5 S.

EDMUND ZACHER, LL.B.

Tutor in German 41 S. M.

HON. ORIGEN S. SEYMOUR, LL.D.

Lecturer on Judicial Procedure and Practice Litchfield

HON. LAFAYETTE S. FOSTER, LL.D.

Lecturer on Parliamentary Law and Methods of Legislation Norwich

Rev. MATTHEW SIMPSON, D.D.

GENERAL STATEMENT

The departments of instruction in YALE COLLEGE are comprehended under four divisions, as follows:—

The Faculty of THEOLOGY,
of MEDICINE,
of LAW,
of PHILOSOPHY AND THE ARTS.

Under the last named Faculty are included, the COURSES FOR GRADUATE INSTRUCTION, the UNDERGRADUATE ACADEMICAL DEPARTMENT, the UNDERGRADUATE SECTION OF THE SHEFFIELD SCIENTIFIC SCHOOL, and the SCHOOL OF THE FINE ARTS—each having a distinct organization.

In the particular statements which follow, the Department of Philosophy and the Arts is first given, with its subdivisions in the order named; and afterwards the three Professional Departments.

The legal designation of the Corporation is "THE PRESIDENT AND FELLOWS OF YALE COLLEGE IN NEW HAVEN."

DEPARTMENT OF PHILOSOPHY AND THE ARTS ,

GRADUATE INSTRUCTION

Graduates of this and other Colleges, and other persons of liberal education (not less than eighteen years old), are received as students for longer or shorter periods, with or without reference to the attainment of a degree.

An Executive Committee has a general oversight of the students in this department. The Committee this year is composed of Professors WHITNEY, NEWTON, BRUSH, and WHEELER. They receive the names of applicants for instruction, and judge and approve the course of study proposed; and information may be obtained from them as to conditions, terms, etc. Students may also make special arrangements with any instructor according to their mutual convenience.

Instruction is given partly by lectures, partly by recitations and by oral and written discussions, partly by directing courses of reading, and partly by work in the laboratories and with instruments.

The terms and vacations correspond with those in the Undergraduate Departments. (See Calendar, p. 4.)

The fee for instruction in connection with the Sheffield Scientific School is one hundred and fifty dollars a year; in other cases generally one hundred dollars, or more or less, according to the course pursued and the amount of instruction received.

THE DEGREE OF DOCTOR OF PHILOSOPHY is conferred upon those who, after having taken a Bachelor's degree (implying a course of undergraduate study equivalent to that pursued in the Academical Department), and having studied in this department for not less than two years, shall have passed a satisfactory final examination and presented a thesis giving evidence of high attainment in the branches of knowledge pursued. It is not given, upon examination, to those whose studies are pursued elsewhere. The requirements for it will

in some cases exact of the student more than two years of labor; especially when the course of undergraduate study has been less than four years. A good knowledge of Latin, German, and French will be required in all cases, unless, for some exceptional reason, the candidate be excused by the Faculty. The graduating fee is ten dollars.

The courses of instruction given in the department may be grouped as follows:

1. Intellectual Philosophy ; Ethics.

President PORTER: Psychology ; Philosophy ; History of Philosophy ; Ethics.

2. Political Science and History.

Professor WHEELER: History of England to Henry VII.

Professor BREWER: Relations of Physical Geography to Political History.

Professor WALKER: Public Finance ; Statistics of Industry.

Professor SUMNER: Politics and Finance in the History of the United States ; Political Science ; Finance.

Professor ROBINSON: History of Real Property ; Canon Law ; Parliamentary Law.

Professor DEXTER: American History.

Professor BALDWIN: Conflict of Law ; Comparative Jurisprudence.

Professor PLATT: General Jurisprudence.

Professor WOOLSEY: International Law.

Mr. A. S. WHEELER: the Institutes of Gaius and Justinian ; select titles of the *Corpus Juris* ; German text-books of Roman Law.

3. Philological Science ; Literature.

Professor THACHER and Professor H. P. WRIGHT: Latin.

Dr. J. H. TRUMBULL: the American Indian Languages, especially the dialects of the Algonkin family.

Professor WHITNEY: the general principles of Linguistic Science ; the Comparative Philology of the Indo-European Languages ; the Sanskrit Language.

Professor PACKARD: Aristotle ; History of Greek Literature.

Professor WILLIAMS: the Chinese Language and Literature.

Mr. VAN NAME: the elements of the Japanese Language.

Professor LOUNSBURY and Professor BEERS: the Anglo-Saxon Language ; the early forms and literature of English.

Professor COE: Old French and Provençal.

Professor CARTER: the older Germanic Languages and Literature, including Gothic.

Professor DAY: the Hebrew and other Semitic Languages.

4. Mathematics.

Professor NEWTON: Calculus; Analytical Mechanics; Lunar and Planetary Theories; Higher Geometry.

Professor CLARK: Definite Integrals; Differential Equations; Analytical Mechanics; the Theory of Numerical Approximations; the Method of Least Squares.

Professor GIBBS: the Laws of Vibratory and Undulatory Motion, with especial reference to Light and Sound; the Potential Function, with its application to the theories of Electricity and Magnetism; Capillarity.

5. Physics; Chemistry; Astronomy.

Professor LOOMIS: Meteorology, with especial reference to the making and reducing of observations.

Professor NORTON: Spherical Astronomy.

Professor LYMAN: the use of Meridional and other Astronomical Instruments.

Professor JOHNSON: Theoretical and Analytical Chemistry.

Professor A. W. WRIGHT: Physical Manipulation in the departments of Heat, Light, and Electricity, with practical directions as to the management of apparatus.

Professor ALLEN: Analytical Chemistry.

Professor DuBOIS: Thermodynamics.

6. Geology; Natural History.

Professor DANA: Geology.

Professor BRUSH: the Analysis and Determination of Mineral species; Descriptive Mineralogy.

Professor EATON: Structural and Systematic Botany, including the North American Flora and the description of genera and species.

Professor MARSH: Palæontology; Comparative Osteology.

Professor VERRILL and Professor S. I. SMITH: Zoology.

Dr. E. S. DANA: Optical Mineralogy; Crystallography.

7. Applied Science.

Professor NORTON: Applied Mechanics.

Professor LYMAN: Astronomical Spectroscopy.

Professor JOHNSON: Agricultural Chemistry.

Professor BREWER: Agriculture; Forest Culture.

Professor ALLEN: Metallurgy; Assaying.

Professor DuBOIS: Dynamical Engineering.

8. Fine Arts.

For the instruction open to Graduates in the School of the Fine Arts, see page 72.

THE DEGREE OF MASTER OF ARTS is conferred on Bachelors of Arts of two years' standing or upwards, who have given to the Academical Faculty evidence of having made satisfactory progress in liberal studies after receiving their first degree.

Such evidence may be furnished by one year's systematic study (not professional) in New Haven, under the direction of the Academical Faculty, followed by an examination.

Such Bachelors of Arts of this College as may not choose to reside at the College for the prosecution of study, may show, at any time not less than three years after graduation, by their printed essays, or by submitting to special examinations, that they have spent a year in liberal (and non-professional) study, and are worthy of recommendation for this degree.

A committee of the Faculty is appointed (consisting, for the present year, of Professors NEWTON and WHEELER), to whom candidates for this degree must submit their proposed courses of study by the first of November in each year; and the evidence of a year's study must be submitted to the same committee by the first of the following June.

In the case of resident students, the charge for instruction will usually be one hundred dollars, with a fee of ten dollars for the degree. In the case of non-residents, the fee for examinations and the degree will usually be twenty-five dollars.

THE DEGREES OF CIVIL AND DYNAMIC ENGINEER are conferred on Bachelors of Philosophy who have taken the first degree in Engineering study, and who pursue a higher course for at least two years, sustaining a final examination, and giving evidence of their ability to design important constructions, and make the requisite drawings and calculations. The fee for graduation is five dollars.

UNDERGRADUATE ACADEMICAL DEPARTMENT

ALL CANDIDATES FOR ADMISSION to the Freshman Class are examined in the following books and subjects :

Latin Grammar.

Sallust—Jugurthine war ; or four books of Cæsar.

Cicero—seven Orations.

Virgil—Bucolics, Georgics, and first six books of the Æneid, including Prosody.

Arnold's Latin Prose Composition, to the Passive voice (first twelve chapters). It is suggested to teachers, in addition to the use of the work named, to connect simple exercises in making Latin, either oral or written, with all the Latin studies of their pupils throughout the preparatory course.

Greek Grammar—with translation of English into Greek.

Xenophon—Anabasis, four books.

Homer—Iliad, three books, with Prosody.

Greek History.

The rules for pronunciation given in Hadley's Grammar are recommended as a guide. For Greek History, Dr. William Smith's or Fyffe's text-book, and for Greek Composition, Jones's Exercises or White's Lessons, are suggested.

Higher Arithmetic—including the metric system of weights and measures.

Algebra—so much as is included in Loomis's Treatise, up to the chapter on Logarithms.

Euclid—first two books. [The first, third, and fourth books of Davies's Legendre's Elements of Geometry, or of Loomis's Elements of Geometry, may be offered instead of Euclid.] In Geometry, the candidate must be prepared on the principles of construction, as he will be required to draw the figures for the demonstration of propositions.

English Grammar and Geography ; a thorough knowledge of which is required.

THE REGULAR EXAMINATION FOR ADMISSION to College is held at Graduates' Hall, New Haven, on the Friday, Saturday, and Monday following Commencement (June 27, 28, 30, 1879): *attendance is required at the beginning of the examination, at 9 A. M., on Friday* ; those candidates will be detained until Monday, whose examination cannot, for any reason, be finished on Saturday. The examination is partly oral and partly written ; copies of papers recently given (covering only the *written* portion of the examination) will be sent on application.

In 1879 examinations for admission to the Freshman Class (but not to higher classes) will also be held in Chicago and in Cincinnati (beginning on Friday, June 27, at 9 A. M.) at a place to be announced in the local newspapers of the day previous. These examinations will be wholly in writing. Candidates who propose to be present are requested to send their names to the Secretary before June 15. A fee of five dollars will be charged for admission to these examinations.

A second examination (for those who cannot attend the first) is held in New Haven at the beginning of the College year, on Tuesday and Wednesday (Sept. 9, 10, 1879): candidates for this examination must be present at Graduates' Hall at 9 A. M. on Tuesday.

Persons applying to be examined at other times must first obtain special permission from the Faculty, and pay to the Treasurer a fee of ten dollars. In general, no examinations for admission to the Freshman Class can be held before Commencement, or during vacation.

ADVANCED STANDING—All candidates for advanced standing, *whether from other Colleges or not*, are examined, in addition to the preparatory studies, in those already pursued (see next page) by the Class which they wish to enter. In the several languages, for the particular books studied by the Class, equivalent amounts may be offered from other books in the same language.

Bachelors of Arts or of Philosophy of any institution may join the Senior Class without examination, as candidates for the degree of Doctor of Philosophy after three years' study. (See p. 47.)

No one can be admitted to the Senior Class after the beginning of the second term.

AGE—No one can be admitted to the Freshman Class till he has completed his fifteenth year, nor to an advanced standing without a corresponding increase of age.

TESTIMONIALS — Satisfactory testimonials of good moral character (preferably from the last principal instructor) are in all cases required, before a certificate of admission is granted; and students from other Colleges must present certificates of dismissal in good standing.

BOND—Every person must give to the Treasurer, on being admitted, a bond, executed by his parent or guardian, for five

hundred dollars, as security for the payment of all charges arising under the laws of the college. A blank form for this purpose will be furnished at the time of admission.

COURSE OF INSTRUCTION.

THE COURSE OF INSTRUCTION occupies four years. In each year there are two terms.

The following is a scheme of the studies, or, more correctly, of equivalents which will be accepted from candidates, for advanced standing:—

FRESHMAN YEAR:

FIRST TERM—*Greek*—Homer's *Odyssey*, begun. *Latin*—Livy, begun; Cicero's Second Philippic; Arnold's *Latin Composition* (to page 150). *Mathematics*—Loomis's *Algebra*; Todhunter's *Euclid*; Chauvenet's *Geometry*. *Hygiene*—Lectures.

SECOND TERM—*Greek*—Homer's *Odyssey*, continued through four books; Herodotus, continued through half of the first book; Arnold's *Greek Composition*. *Latin*—Livy, continued through one book; Cicero *de senectute*; Ovid, Ramsay's *Selections*; Roman *Antiquities*. *Mathematics*—Chauvenet's *Geometry*; Richards's *Plane Trigonometry*. *Rhetoric*—Recitations and Lectures. Compositions.

SOPHOMORE YEAR:

FIRST TERM—*Greek*—Six Orations of Demosthenes. *Latin*—Odes of Horace; Agricola of Tacitus. *Mathematics*—Richards's *Plane Trigonometry*. *Rhetoric*—Lectures on Composition. Compositions.

SECOND TERM—*Greek*—Prometheus of Æschylus; Xenophon's *Memorabilia*, one book; Antigone of Sophocles; Plato's *Apology of Socrates* and *Crito*. *Latin*—Satires and Epistles of Horace; Satires of Juvenal; Cicero *de officiis*. *Mathematics*—Spherical Trigonometry; Loomis's *Conic Sections*; Loomis's *Analytical Geometry*; Mechanics. *Rhetoric*—Lectures on Elocution, with practice. Declamations. Compositions.

JUNIOR YEAR:

FIRST TERM—*Physics*—Ganot's *Physics*. *German*—Whitney's *Grammar and Reader*; German Composition. *English*—Shakespeare, Spenser; Forensic Disputations. *Chemistry*—Barker's *Chemistry*; Lectures.

For optional studies (*Latin, Greek, Mathematics, French, English*) see below.

SECOND TERM—*Natural Philosophy*—Ganot's Physics. Lectures. *English*—Chaucer, Recitations. Forensic Disputations. *German*—Whitney's Grammar and Reader; German Composition. *Zoology*—Huxley's Physiology. Laboratory Practice. *Astronomy*—Loomis's Astronomy, to Chapter x. *Logic*—Jevons's Logic.

For optional studies (*Latin, Greek, Mathematics, French, English, Anglo-Saxon, Zoology, Botany*) see below.

SENIOR YEAR.

FIRST TERM—*Mental Philosophy*—Porter's Human Intellect. Lectures. *Geology*—Dana's Geology. *Political Science*—Fawcett's Political Economy. Lectures. *Rhetoric*—Compositions.

For optional studies (*Latin, Greek, French, German, Sanskrit, Mathematics, Astronomy, Mineralogy, European History*) see below.

SECOND TERM—*Natural Theology and Evidences of Christianity*—Lectures. *Moral Philosophy*—Recitations. Lectures. *History of Philosophy*—Schwegler's History. *History*—Hallam's Constitutional History. Lectures. *Evolution and Cosmogony*—Lectures. *Rhetoric*—Compositions. *Political and Social Science*—Recitations. Lectures. *International Law*—Woolsey's International Law. *Elements of Jurisprudence and American Constitutional Law*—Lectures.

For optional studies (*Philosophy, Latin, Greek, French, German, Sanskrit, Linguistics, Mathematics, Physics, Meteorology, Geology, Palæontology, American History, Political Science*) see below.

OPTIONAL STUDIES—Every student is required to have four exercises a week in an optional study, during Junior and Senior years. Change from one optional to another is allowed at the end of Junior year, and also to a new optional whenever one is begun. In cases where an optional is withdrawn before the end of the year, any of the other optionals may be chosen in its place, provided the instructor is upon examination satisfied of the student's fitness to enter the class. Any student who can on examination show thorough acquaintance, in advance, with one or more of the required studies of Junior or Senior year, may choose instead a second optional. The following courses of optional studies are provided.

I. PHILOLOGY.

I. ANCIENT LANGUAGES: (a) GREEK, through Junior and Senior years, four exercises a week, with Professor Packard; the Republic of Plato. (b)

LATIN, through Junior and Senior years, with Professor Thacher, four exercises a week. (c) SANSKRIT, through Senior year, with Professor Whitney, two double exercises a week.

2. MODERN LANGUAGES AND LITERATURE: (a) FRENCH, through Junior and Senior years, four exercises a week, with Professor Coe; in Junior year, French Composition, Modern French Authors; in Senior year, French Composition, Corneille, Racine, Molière, Boileau, LaFontaine. A knowledge of the elements of the French language is required of students who choose French as an optional study in Junior year. The examination may be passed at the time of the Sophomore annual examination, or at the beginning of Junior year, and will be upon Chardenal's First French Course. (b) GERMAN, through Senior year, four exercises a week, with Professor Carter; Schiller's *Die Piccolomini*, Goethe's *Iphigenie*, selections from Goethe's Prose, Lessing's *Nathan der Weise*, German Composition. (c) ANGLO-SAXON, through the second term of Junior year, with Professor Beers, four exercises a week; Sweet's Anglo-Saxon Reader. (d) ENGLISH LITERATURE, through Junior year, with Professor Beers, four exercises a week; Mätzner's *Alt-Englische Sprachproben*; Skeat's *Specimens of English Literature*; Lectures.

3. LINGUISTICS: Through the first half of the second term of Senior year, two exercises a week, with Professor Whitney.

II. INTELLECTUAL PHILOSOPHY.

With President Porter, through the second term of Senior year, two exercises a week.

III. HISTORY AND POLITICAL SCIENCE.

1. EUROPEAN HISTORY, through the first term of Senior Year, with Professor Wheeler, four exercises a week; Hallam's *Middle Ages*.

2. AMERICAN HISTORY, through the second term of Senior year, with Professor Dexter, two exercises a week; Bancroft's *History of the United States*.

3. POLITICAL ECONOMY, through the second term of Senior year, with Professor Sumner, two exercises a week.

IV. MATHEMATICS AND ASTRONOMY.

1. MATHEMATICS, through Junior and Senior years, four exercises a week, with Professor Newton; Loomis's *Calculus*, followed by *Analytical Mechanics* or *Higher Geometry*.

2. ASTRONOMY, through the first term of Senior year, four exercises a week, with Professor Loomis; Loomis's *Astronomy*.

V. MOLECULAR AND TERRESTRIAL PHYSICS.

1. PHYSICS, through the second term of Senior year, two exercises a week, with Professor A. W. Wright.

2. METEOROLOGY, through the second term of Senior year, four exercises a week: Loomis's *Meteorology*.

IV. NATURAL SCIENCE AND GEOLOGY.

1. ZOOLOGY, through the second half of the second term of Junior year, four exercises a week, with Mr. J. K. Thacher.

2. MINERALOGY AND MATHEMATICAL CRYSTALLOGRAPHY, through the first term of Senior year, with Professor Dana, four exercises a week ; Dana's Text-Book.

3. GEOLOGY, through the first half of the second term of Senior year, with Professor Dana, four exercises a week ; Dana's Manual.

4. PALÆONTOLOGY, through the second half of the second term of Senior year, with Mr. J. K. Thacher ; Dana's Manual of Geology. [Geology and Palæontology make together one course ; those taking this course must have first taken the course in Mineralogy and Crystallography.]

5. BOTANY, through the second half of the second term of Junior year, with Professor Eaton, four exercises a week.

EXERCISES IN DECLAMATION AND COMPOSITION—The Senior Class have exercises in English composition, and the Junior Class, in forensic disputation, through the year. The Sophomore Class during the whole year, and the Freshman Class, during the latter half of the second term, have exercises in English composition.

The Sophomore Class have regular exercises in elocution ; and once a week, during a part of the year, have an exercise in declamation before the Professor of Rhetoric and the members of the Class.

PUBLIC EXAMINATIONS are held at the close of the first and at the middle of the second term, on the studies of the term and half-term ; and, at the close of the year, on all the studies of the year. The annual examinations are conducted wholly in writing, and continue for about two weeks.

VOCAL MUSIC—Gratuitous instruction in Vocal Music is given during a part of the year (the exercises being open to members of all the Departments of the College), subject, however, to a small charge for fire and lights.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the Thursday after the last Wednesday in June. The first term begins eleven weeks from Commencement-day and continues fourteen weeks ; the second term begins on the second Thursday in January and continues until Commencement-day, with a spring recess—usually of eight days—including Easter. (See Calendar, p. 4.) The exercises of each term begin with prayers in the Chapel on Thursday morning.

LEAVE OF ABSENCE—No student is allowed to be absent without special leave, except in the vacations.

PUBLIC WORSHIP.

PRAYERS are attended in the Battell Chapel every morning, with reading of the Scriptures and singing, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on Sundays, at which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only on presenting to the President a written request therefor from the parent or guardian.

GYMNASIUM.

THE GYMNASIUM is designed to provide all the students with opportunities for exercise. Those who use the bath-rooms pay a small fee for tickets.

EXPENSES.

THE TREASURER'S BILLS are made out three times a year, viz., at the close of the first term, at the middle and at the close of the second term, at which times they are payable. The bills must be paid within two weeks after the beginning of the succeeding term or half-term, or the student is liable to be prohibited from reciting. Drafts on Boston, New York, and Philadelphia will be received at par.

The annual charge for tuition and incidentals is \$140.

For the rent and care of a half-room in the College buildings, the average charge is thirty-five dollars per year.

OTHER CHARGES—There are additional charges at graduation, amounting to eighteen dollars. If a student occupies a room alone, the charge for rent and care is ordinarily double that stated above.

ABSENCE ON LEAVE—A student who is absent from College on account of sickness, or for any other cause, and still retains his place in his class, pays full tuition during such absence.

BOARD is obtained at prices varying from three dollars and a half to seven dollars a week. The average price is about five dollars.

ROOMS—There are in the College buildings above two hundred rooms occupied by students, at prices varying (according to location) from \$25 to \$140 per year, not including vacations.

Students living out of College are not allowed to room in any building in which a family does not reside, except by special permission of the Faculty.

FURNITURE, BOOKS, ETC.—Students provide for themselves furniture, fuel, lights, and text-books; if books and furniture are sold when the student has no further necessity for them, the expenses incurred by their use will not be great.

NECESSARY EXPENSES—The following may be considered a near estimate of the *necessary* annual expenses, for a student occupying a half-room in College, without including apparel, traveling, and board in vacations:—

Treasurer's bill (according to location of room), from	\$160	to	\$220
Board, 37 weeks, - - - - -	"	130	to 260
Fuel, lights, and washing, - - - - -	"	30	to 60
Use of text-books and furniture, - - - - -	"	30	to 60
Total, - - - - -	\$350		\$600

COLLEGE GUARDIAN—As a precaution against extravagance, parents at a distance sometimes deposit funds with one of the Faculty; who, in that case, attends to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of expenditures, for which services he charges a commission.

BENEFICIARY AID.

The sum of \$12,000 and upwards, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially of those preparing for the Christian ministry. About one hundred thus have their tuition either wholly or in part remitted. Students needing such aid should apply to the President before November 1st in each College year. Assistance will be withdrawn from students who incur serious College censure, or who fail to maintain a reputable scholarship.

THE HARMER FOUNDATION OF SCHOLARSHIPS comprises six scholarships, each yielding one hundred dollars a year, to be given to deserving students of small means.

There are also eighteen other Scholarships, most of them yielding sixty dollars a year, which may be given to such students as shall be selected by the founders or the Faculty.

Students who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with many of the text-books used in the College course.

FELLOWSHIPS AND SCHOLARSHIPS.

THE DOUGLAS FELLOWSHIP, with an income of at least six hundred dollars a year, was founded in 1873 by Mrs. Samuel Miller, of New Haven, and named in memory of her brothers, Rev. Sutherland Douglas (Y. C. 1822) and George H. Douglas (Y. C. 1828). The incumbent, who must be a recent graduate of the Academical Department, pursuing non-professional studies in New Haven, is elected annually, but may not hold the fellowship for more than three years.

THE SOLDIERS' MEMORIAL FELLOWSHIP, with an annual income of six hundred dollars, was founded in 1875 by Mrs. Theodosia D. Wheeler, of New Haven, in honor of the alumni who fell in battle as Union soldiers, in the war of 1861-1865, and in especial remembrance of William Wheeler, of the class of 1855. The incumbent must be at the time of his election a graduate of the Academical Department, of not more than three years' standing. He shall reside in New Haven, pursuing non-professional studies, and may hold the Fellowship for a period not exceeding five years.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior class who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals), and Horace; provided he remain in New Haven as a graduate, one, two or three years.

THE CLARK SCHOLARSHIP, yielding one hundred and twenty dollars a year, is awarded in each Senior Class to the applicant who has passed the best examinations in the studies of the College course; provided he remain in New Haven one or two years immediately after graduation, pursuing a course of study (not professional) under the direction of the Faculty.

THE LARNED SCHOLARSHIP, yielding three hundred dollars a year, and tenable for three years, is awarded in each Senior Class. The incumbent must reside in New Haven, pursuing a course of advanced study subject to the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding about one hundred and fourteen dollars a year, is awarded, whenever there is a vacancy, to the student in the Sophomore or Junior Class who passes the best examination in the classics and mathematics. The successful candidate receives the annuity (forfeiting one-third in case of non-residence) until the end of the third year after graduation.

THE WOOLSEY SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate receives the annuity, under certain conditions, during the four years of his College course. The student who stands second at this examination receives for one year the income of the HURLBUT SCHOLARSHIP; and the student who stands third, the income for one year of the THIRD FRESHMAN SCHOLARSHIP. The income of each of these Scholarships is sixty dollars.

THE W. W. DEFOREST SCHOLARSHIP, yielding one hundred and twenty dollars, is awarded to a student in each Senior Class who has attained distinction in the study of French while in College, provided he remain in New Haven the year after graduation, pursuing a further course of study in the Romance languages under the direction of the Faculty.

PREMIUMS.

THE DEFOREST PRIZE MEDAL, of the value of \$100, is awarded "to that scholar of the Senior Class who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, of twelve dollars each, are awarded in the Senior Class for the best specimens of English Composition.

THE SENIOR MATHEMATICAL PRIZES (the first consisting of a gold medal of the value of ten dollars and of ten dollars in money, the second of ten dollars in money) are offered to the Senior class for the best solutions of problems in both abstract and concrete mathematics.

COLLEGE PREMIUMS are offered to the Senior Class for the solution of problems in Practical Astronomy.

THE WINTHROP PRIZES (one of two hundred dollars and one of one hundred dollars) are offered to the Junior Class "for

the most thorough acquaintance with the Greek and Latin poets," as shown at an examination during the latter half of the second term.

COLLEGE PREMIUMS are given in the Sophomore Class for English composition, and for declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

THE SCOTT PRIZE for excellence in German is offered to the Senior Class, and the SCOTT PRIZE for excellence in French to the Junior Class; these prizes are of the value of thirty dollars each, and are given in books.

BERKELEY PREMIUMS for Latin Composition are offered to the Freshman Class near the end of the year.

THE JOHN A. PORTER PRIZE, of two hundred and fifty dollars, is offered at each Commencement for the best English Essay. Any person who has been studying for a degree in any department of the University during the entire College year may compete for this prize.

DEGREES.

The degree of BACHELOR OF ARTS is conferred by the Corporation on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates are required to pay their dues to the Treasurer as early as the Monday before Commencement.

For the degrees of Master of Arts and Doctor of Philosophy, see pages 47, 50.

SHEFFIELD SCIENTIFIC SCHOOL

THE SHEFFIELD SCIENTIFIC SCHOOL is devoted to instruction and researches in the mathematical, physical, and natural sciences, with reference to the promotion and diffusion of science, and also to the preparation of young men for such pursuits as require special proficiency in these departments of learning.

The School, begun in 1847, and reorganized upon a more extensive scale in 1860, received in 1863, by the act of the Connecticut Legislature, the national grant for the promotion of scientific education under the Congressional enactment of July, 1862. It thus became in consequence the "College of Agriculture and the Mechanic Arts" of Connecticut.

OFFICERS AND INSTRUCTORS—Upon the Governing Board, consisting of the professors permanently attached to the School, devolves its internal management and the greater part of the instruction. In addition to these, and the instructors employed during the current year (mentioned on p. 38), instruction is given in Elementary and Free-hand Drawing by Professor Niemeyer, of the School of the Fine Arts.

The Board of State Visitors consists of the Governor, Lieutenant-Governor, three senior Senators, and the Secretary of the Board of Education.

The Board of Councilors, invited by the Corporation to advise and assist in the progress of the School, are as follows: Hon. J. E. ENGLISH, of New Haven; Hon. M. JEWELL, of Hartford; Hon. J. R. HAWLEY, of Hartford; Hon. O. F. WINCHESTER, of New Haven; JOSEPH E. SHEFFIELD, Esq., of New Haven; Professor J. D. DANA, of New Haven; HENRY FARNAM, Esq., of New Haven; M. DWIGHT COLLIER, M.A., of St. Louis; Hon. WILLIAM E. DODGE, of New York City.

The instruction is intended for two classes of students:—

I.—Graduates of this or other Colleges, and other persons qualified for advanced or special study.

II.—Undergraduates who desire a training, chiefly mathematical and scientific, in part linguistic and literary, for higher scientific studies, or for other occupations to which such training is suited.

INSTRUCTION FOR GRADUATE AND SPECIAL STUDENTS

Persons who have gone through undergraduate courses of study, here or elsewhere, may avail themselves of the facilities of the School for more special professional training in the physical sciences and their applications, gaining in one, two or three years the degree of BACHELOR OF PHILOSOPHY, or, in two additional years of Engineering study, that of CIVIL ENGINEER or DYNAMIC ENGINEER.

Or, engaging in studies of a less exclusively practical character, they may become candidates for the degree of DOCTOR OF PHILOSOPHY, under the conditions already stated (see p. 47). The instruction in such cases will be adapted to the particular needs and capacities of each student, and may be combined with that given by the graduate instructors in other departments. The list of graduate studies pursued, either wholly in the Scientific School, or conjointly with other departments, will be found on pp. 49-50.

SPECIAL STUDENTS—For the benefit of those who, being fully qualified, desire to pursue particular studies without reference to the obtaining of a degree, special or irregular students are received in most of the departments of the School; not however, in the Select Course, nor in the Freshman Class.

It should be distinctly understood that these opportunities are not offered to persons who are incompetent to go on with regular courses, but are designed to aid those who have received a sufficient preliminary education elsewhere to increase their proficiency in special branches.

INSTRUCTION FOR UNDERGRADUATE STUDENTS.

TERMS OF ADMISSION—Candidates must be not less than fifteen years of age, and must bring satisfactory testimonials of moral character from their former instructors or other responsible persons.

For admission to the Freshman Class the student must pass a thorough examination in the following subjects:

English—including grammar, spelling and composition. In grammar, Whitney's Essentials of English Grammar, or an equivalent.

History of the United States.

Geography.

Latin—six books of Cæsar's Commentaries, or their equivalent, and simple exercises in prose composition.

Arithmetic—including the metric system of weights and measures.

Algebra—So much as is contained in Loomis's Treatise, up to the general theory of equations.

Geometry—Plane, solid and spherical; including fundamental notions of symmetry, and examples of loci and of maxima and minima of plane figures:—an equivalent of the nine books of Chauvenet's Treatise, or to the ten books of Loomis's Elements and the Appendix, up to the section on Transversals.

Trigonometry—including the analytical theory of the trigonometrical functions, and the usual formulæ; the construction and use of trigonometrical tables; and the solution of plane triangles;—so much, for example, as is contained in Wheeler's Plane Trigonometry (Boston, 1877), or Richards's Plane Trigonometry (New York, 1878).

Candidates will be allowed the option of passing on the above-named subjects in two successive years. In such a case they must present themselves for examination at the June examination of the first year in the following subjects or parts of subjects: *History of the United States, Geography, Arithmetic, Plane Geometry, and Algebra to Quadratic Equations.*

In order to have this preliminary examination counted, candidates must pass satisfactorily on *all* the subjects; and notice must be given of the intention to divide the examination to Professor G. J. Brush, Executive officer of the School, on or before June 15.

In his preparation in GEOMETRY the candidate should, as far as practicable, have suitable exercises in proving simple theorems and solving simple problems for himself. It is important, too, that he should be accustomed to the numerical application of geometric principles, and especially to the prompt recollection and use of the elementary formulæ of mensuration. In TRIGONOMETRY he should be exercised in applying the usual formulæ to a variety of simple reductions and transformations, including the solution of trigonometrical equations. Readiness and accuracy in trigonometrical calculations are also of prime importance to the candidate. If the use of logarithms is postponed in his preparation till Trigonometry is taken up (which is by no means necessary or advisable), he should then have abundant applications of them to all forms of calculation occurring in ordinary practice, as well as to those appearing in the solution of triangles. Finally, in all of his calculations, he should study the art of neat, orderly, and readily intelligible arrangement.

In LATIN, in order to secure the attainment of the required proficiency, the student should have such continued training in parsing as shall make him thoroughly familiar with declensions and conjugations, and accurate

and ready in the application of the rules of syntax. As an additional guarantee of the proper mastery of these grammatical elements, the requirement has been adopted of "simple exercises in prose composition." By this is meant, merely, such a course of elementary exercises in translation, orally and in writing, from English into Latin as, in connection with the systematic parsing just mentioned, shall necessitate a familiarity with grammatical forms and the leading principles of syntax, and thus render the reading of the six books of Cæsar (or their equivalent) more thorough and fruitful. Since this course of elementary exercises in translation is designed as a preparation for reading, and not as a sequel to it, it should be invariably begun at the earliest stage of the study of Latin. To avoid any misapprehension of the nature of the extent of the requirement, the following works are specifically named, among which the candidate for examination may make his own selection. These are Harkness' "Introduction to Latin Composition," 112 pages; Leighton's "Latin Lessons," 91 pages; Smith's "Principia Latina," Part I.; or McClintock's "First Latin Book," 83 lessons (193 pp.). Any equivalent of these may be offered from the many useful books of a similar character. A knowledge of Prosody is not required.

The examinations for admission take place at North Sheffield Hall, on Friday and Saturday, June 27, 28, and on Tuesday and Wednesday, September 9, 10, 1879. Opportunities for private examinations may, in exceptional cases, be given at other times.

In 1879 examinations will also be held in Chicago and in Cincinnati (beginning on Friday, June 27, at 9 A. M.), at a place to be announced in the local newspapers of the day previous.

Candidates for advanced standing in the undergraduate classes are examined, in addition to the preparatory studies, in those already pursued by the class they wish to enter. No one can be admitted as a candidate for a degree, later than at the beginning of the Senior year.

THE COURSES OF INSTRUCTION, occupying three years, are arranged to suit the requirements of various classes of students. The first year's work is the same for all; for the last two years the instruction is chiefly arranged in special courses. The special courses most distinctly marked out are the following:—

- | | |
|-------------------------------------------------------------|----------------------------|
| (a.) In Chemistry; | (b.) In Civil Engineering; |
| (c.) In Dynamical (or Mechanical) Engineering; | |
| (d.) In Agriculture; | (e.) In Natural History; |
| (f.) In Biology preparatory to Medical Studies; | |
| (g.) In studies preparatory to Mining and Metallurgy; | |
| (h.) In Select studies preparatory to other higher studies. | |

The arrangement of the studies is indicated in the annexed scheme.

FRESHMAN YEAR—INTRODUCTORY TO ALL THE COURSES.

FIRST TERM — *German* — Whitney's Grammar and Reader. *English* — Hadley's Brief History of the English Language; Exercises in Composition. *Mathematics*—Analytical Geometry. *Physics*—Atkinson's Ganot, with experimental lectures. *Chemistry*—Recitations and Laboratory practice. *Elementary Drawing*—Practical Lessons in the Art School.

SECOND TERM — *Language, Physics, and Chemistry* — as stated above. *Mathematics*—Spherical Trigonometry (Wheeler's); Elements of Mechanics. *Physical Geography*—Lectures. *Botany*—Gray's Lessons, with Lectures. *Political Economy*—Elementary Lectures. *Drawing*—Elementary Projection Drawing; Isometric Drawing; Descriptive Geometry commenced.

For the Junior and Senior years the students select for themselves one of the following courses:—

(a.) IN CHEMISTRY.

JUNIOR YEAR:

FIRST TERM—*Theoretical and Organic Chemistry*—Lectures. *Qualitative Analysis*—Fresenius. *Laboratory Practice*. *Blowpipe Analysis*. *German*. *French*.

SECOND TERM—*Laboratory Practice*—Quantitative Analysis. *Mineralogy*—Blowpipe Analysis and Determination of Species. Lectures. *French*. *German*.

SENIOR YEAR:

FIRST TERM—*Laboratory Practice*—Volumetric and Organic Analysis. *Geology*—Dana's. *Zoology*—Lectures and Excursions. *French*.

SECOND TERM — *Laboratory Practice*—Mineral Analysis and Assaying. *Agricultural Chemistry* — Recitations and Lectures (optional). *Geology*—Dana's Manual. *Metallurgy* (optional). *Mineralogy* (optional). *French*.

(b.) IN CIVIL ENGINEERING.

JUNIOR YEAR:

FIRST TERM — *Mathematics* — Elements of the Theory of Functions; Numerical Equations; Differential Calculus. *Surveying*—Field Operations. *Drawing*—Descriptive Geometry, continued, including Warped Surfaces. *German*. *French*.

SECOND TERM—*Mathematics*—Integral Calculus. Rational Mechanics. *Drawing*—Shadows, Perspective, and Gearing. Topographical. *Surveying*—Topographical. *German*. *French*.

SENIOR YEAR :

FIRST TERM—*Field Engineering*—Laying out Curves. Location of line of Railroad, with calculations of Excavation and Embankment. Hencks' Field Book for Railroad Engineers. *Civil Engineering*—Resistance of Materials. Bridges and Roofs commenced. Stone Cutting—with graphical problems. *Geology*—Dana's. *Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *French*.

SECOND TERM—*Civil Engineering*—Bridges and Roofs. Building Materials. Stability of Arches and Walls. Mahan's Civil Engineering. *Dynamics*—Principles of Mechanism. Steam Engine. *Hydraulics*—Hydraulics and Hydraulic Motors. *Drawing*—Graphical Statics. *Astronomy*—Loomis's Astronomy, with practical problems. *Mineralogy*—continued. *Geology*—Dynamic. *French*.

(c.) IN DYNAMIC ENGINEERING.

JUNIOR YEAR :

FIRST TERM—*Mathematics*—Elements of the Theory of Functions ; Numerical Equations ; Differential Calculus. *Surveying*—Field Operations. *Drawing*—Descriptive Geometry, continued, including Warped Surfaces. *German*. *French*.

SECOND TERM—*Mathematics*—Integral Calculus. Rational Mechanics. *Drawing*—Shadows, Perspective, and Gearing. General Theory of Motion, and Principles of Mechanism. *German*. *French*.

SENIOR YEAR :

FIRST TERM—Principles of Mechanism. Applications of the Principles of Mechanism to Machinery. Machine Construction. Blowpipe Analysis. Resistance of Materials. Construction of roof trusses, girders, and iron bridges. Machine Drawing. *Geology*. *French*.

SECOND TERM—General principles of Heat employed as a source of power. The construction of Steam Generators. Steam Engines. Hot Air Engines. Water Engines. Water Wheels. The Construction of Water Reservoirs, and Conduits. Measurement of Water Supply. Discharge of Pipes, etc. Graphical Statics. Machine Designing. *Metallurgy*.

(d.) IN AGRICULTURE.

JUNIOR YEAR :

FIRST TERM—*Theoretical and Organic Chemistry*—Lectures. *Qualitative Analysis*—Fresenius. *Laboratory Practice*. *Blowpipe Analysis*. *German*. *French*.

SECOND TERM—*Laboratory Practice*—Quantitative Analysis. *Mineralogy*.—Blowpipe Analysis and Determination of Species. *Physical Geography*—Lectures. *Botany*—Lectures. *French*. *German*.

SENIOR YEAR :

FIRST TERM—Agriculture—Cultivation of the Staple Crops of the Northern States. Tree Planting and Forestry. *Agricultural Chemistry*—Johnson's. *Physiology*—Huxley's. *Geology*—Dana's. *Zoology*. *English*. *French*.

SECOND TERM—Agriculture—Laws of Heredity and Principles of Breeding. Lectures. *Geology*—Dana's. *Rural Economy*—History of Agriculture und Sketches of Husbandry in Foreign Countries. Systems of Husbandry. *Agricultural Chemistry*—Johnson's. *Geology*—Dana's. *Zoology*. *Botany*. *Microscopy*. *English*. *French*.

(e.) IN NATURAL HISTORY.

(Either Geology, Mineralogy, Zoology, or Botany, may be made the principal study, some attention in each case being directed to the other three branches of Natural History.

JUNIOR YEAR :

FIRST TERM—Chemistry—Qualitative Analysis. Laboratory Practice. Recitations. *Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *Botany*—Gray's Manual ; Use of the Microscope. *German*. *French*.

SECOND TERM—Zoology—Laboratory Practice. Excursions (land and marine). *Botany*—Laboratory Practice. Thomé's Text-book. Excursions. *Mineralogy*—continued. *Physical Geography*. *German*. *French*.

SENIOR YEAR :

FIRST TERM—Geology—Dana's. Excursions. *Zoology*—Laboratory Practice. Lectures. Excursions. *Botany*—Herbarium Studies. Excursions. *Physiology*—Huxley's. *French*.

SECOND TERM—Geology—Dana's. *Anatomy of Vertebrates*—Huxley's. *Zoology*—Laboratory Practice. Lectures. *Botany*—Herbarium Studies, especially in the Cryptogamous Orders. Botanical Literature. Essays in Descriptive Botany. *Meteorology*. *French*.

Besides the regular courses of recitations and lectures on structural and systematic Zoology and Botany, and on special subjects, students are taught to prepare, arrange, and identify collections, to make dissections, to pursue original investigations, and to describe genera and species in the language of science. For these purposes, large collections in Zoology and Palæontology belonging to the College are available, as are also the private botanical collections of Professor Eaton.

(f.) IN BIOLOGY—PREPARATORY TO MEDICAL STUDIES.

During the Junior year, the work of this course is chiefly under the direction of the instructors in Chemistry. Especial attention is given to qualitative and quantitative analysis, in their physiological and medical bearings ; and to the preparation and study of the organic proximate elements. In Toxicology the organic and mineral poisons are carefully studied. The special studies of the Senior year are wholly biological, particular attention being

paid to the elements of comparative anatomy, histology, and physiology, to structural and physiological botany, and to systematic zoology. Instruction is also given in embryology, the laws of heredity, and human parasites. The order of studies is as follows:

JUNIOR YEAR:

FIRST TERM—*Chemistry*—Qualitative Analysis—Fresenius'. Laboratory Practice. Recitations. *Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *German. French.*

SECOND TERM—*Physiological Chemistry*—Klein's Handbook. *Toxicology*—Fresenius'. Laboratory Practice. Recitations. Lectures. *Botany*—Lectures, Practical Exercises in Phenogamous Plants, and Excursions. *Mineralogy*—continued. *German. French.*

SENIOR YEAR:

FIRST TERM—*Comparative Anatomy and Histology*—Laboratory Practice. *Physiology*—Huxley's, with Practical Exercises. *Botany*—Practical Exercises, Lectures and Excursions. *Geology*—Dana's Manual. *Zoology*—Lectures and Excursions. *French.*

SECOND TERM—*Comparative Anatomy and Histology*—Laboratory Practice and Recitations. *Botany*—Lectures. Laboratory Practice in Cryptogamia, etc. *Geology*—Dana's Manual. *Zoology*—Lectures. *Laws of Heredity and Principles of Breeding*—Lectures. *French.*

(g.) IN STUDIES PREPARATORY TO MINING AND METALLURGY.

Young men desiring to become Mining Engineers, can pursue the regular course in Civil or Mechanical Engineering, and at its close can spend a fourth year in the study of metallurgical chemistry, mineralogy, etc.

(h.) IN THE SELECT STUDIES PREPARATORY TO OTHER HIGHER STUDIES.

JUNIOR YEAR:

FIRST TERM—*Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *Astronomy. English*—Early English. *History*—Freeman's Outlines. *French. German.*

SECOND TERM—*Mineralogy*—Lectures. *Physical Geography*—Guyot. Lectures. *Botany*—Lectures and Excursions and Laboratory Practice. *English*—Chaucer, Bacon, Shakespeare. *History*—Freeman's Outlines, with Lectures. *Political Economy*—Rogers's Manual. *German. French.*

SENIOR CLASS:

FIRST TERM—*Geology*—Recitations and Excursions. *Zoology*—Lectures and Excursions. *Linguistics*—Whitney's Life and Growth of Language. *English*—Shakespeare. *History*—Constitutional History of the United States. Lectures. *Political Economy*—Lectures. *French.*

SECOND TERM—*Geology*—continued. *Meteorology*—Lectures. *Political Economy*—Lectures. *English*—Shakespeare, Milton, Dryden, Pope, and later authors. *History*—Political History of U. S. History of Europe from 1848. Lectures. *French*.

Exercises in English Composition are required during the entire course from all the students. The preparation of graduating theses is among the duties of the Senior Year.

Lectures on Military Science and Tactics are annually given.

THE TERMS AND VACATIONS correspond with those of the Academical Department. (See Calendar, p. 4.)

EXPENSES—The charge for tuition is \$150 per year, payable, \$55 at the beginning of the first and of the second term, and \$40 at the middle of the second term. The special student of Chemistry has an additional charge of \$70 per annum for chemicals and use of apparatus. He also supplies himself with gas, flasks, crucibles, etc., the cost of which should not exceed \$10 per term. A fee of \$5 is charged members of the Freshman Class for chemicals and materials used in their laboratory practice, and the same fee is required from all who take practical exercises in Blow-pipe Analysis and Determinative Mineralogy. A fee of \$5 a term is also charged to students in the Zoological Laboratory, for materials and use of instruments. An additional charge of \$5 is annually made to each student for the use of the College Reading Room and Gymnasium.

THE FEES for graduation as BACHELOR OF PHILOSOPHY, are \$10; unless the person taking the degree is also an academical graduate, when the fee is but \$5.

DEGREES.

THE DEGREE OF BACHELOR OF PHILOSOPHY is conferred on those who have completed one of the three-year courses, and have passed the examination at its close.

CIVIL AND DYNAMIC ENGINEER—See page 50.

DOCTOR OF PHILOSOPHY—See page 47.

SCHOOL OF THE FINE ARTS

THE COUNCIL of this Department consists of the following *ex-officio* members:—the President of the College, the President of the National Academy of Design, the President of the New York Museum of Art, and the Director of the School, who is also the Secretary; together with four regularly appointed Councilors, Mr. HENRY FARNAM, Mr. DONALD G. MITCHELL, Mr. EDWARD E. SALISBURY, and Mr. JOHN D. WHEELER.

THE FACULTY, on whom devolves the internal management of the School, consists of the President of the College, and the Professors whose names and departments of instruction are as follows:—JOHN F. WEIR, Professor of Painting, and Director of the School; JOHN H. NIEMEYER, Professor of Drawing. Other instructors are, FREDERIC R. HONEY, in Geometry and Perspective; JOHN P. C. FOSTER, M.D., in Anatomy. (The chairs of Sculpture and Architecture are unfilled.)

The School has for its end the cultivation and promotion of the Arts of Design, viz.; PAINTING, SCULPTURE, and ARCHITECTURE, both in their artistic and æsthetic aims, through practice and criticism. The aim is—

1st. To provide thorough technical instruction in the Arts of Painting, Sculpture, and Architecture.

2d. To furnish an acquaintance with all branches of learning relating to the History, Theory, and Practice of Art.

The courses of instruction provided under these heads—of Practice and Criticism—may be regarded as distinct, or correlative, embracing that practical and theoretical knowledge of art which is no less desirable for the critic than for the artist.

The course of technical instruction, covering three years, is arranged as follows:*

* No provision has yet been made for instruction in the departments of Sculpture and Architecture, but it is hoped that before long this will be provided.

First Year

DRAWING—from the flat: from the antique: from the living model.

PERSPECTIVE—descriptive Geometry: shadows and linear perspective: applications and examples.

LECTURES—the elements of form: principles of proportion.

Second Year

DRAWING—technical discipline: studies from the living model.

ANATOMY—the bones and articulations of the skeleton: the muscles and movements of the body: the anatomy of external forms.

PAINTING—technical discipline: studies from casts and still-life.

Third Year

PAINTING—technical practice: studies from the living model.

COMPOSITION—studies in color and chiaroscuro: design.

LECTURES—on the history, theory, and practice of art.

In the departments of Drawing and Painting the practice of the studio is based upon the study of the human form.

The course in drawing is supplemented by lectures on Form and Proportion.

The practice in painting is supplemented by lectures on Color, Chiaroscuro, and Composition.

Drawing is continued, without interruption, through the first half of the course, or until the student evinces that proficiency which will warrant advancement. Painting is continued through the remainder of the course. Students will be encouraged to remain in the School and pursue advanced studies after the three years' course is completed.

In **PERSPECTIVE**, instruction is given in the form of lectures; students will be required to work out the examples, or problems, and submit them for examination at the next meeting of the class. The subject has three divisions: the first is devoted to descriptive geometry and its application to projection drawing; the second to shadows and linear perspective; and the third to applications and problems. At the close of the course an examination is held, and the standing of the student determined.

In **ANATOMY**, instruction is likewise given in the form of lectures. This subject has also three divisions: the first is devoted to the bones and articulations of the skeleton; the second to the muscles and movements of the body; and the

•

third to the anatomy of external forms. Students are required to draw, in detail, the parts under discussion by the lecturer, and submit the same for examination, at the next meeting of the class. At the close of the course the relative standing of the pupils is determined by examination.

A COURSE OF PUBLIC EVENING LECTURES will be delivered in the School, during the second term.

PRIZES may be competed for, both in Drawing and Painting, at the close of the course provided in these respective departments: (in drawing, a prize of twenty-five dollars for a study from the Antique, and fifty dollars for an approved study from the life; in painting, corresponding prizes of equal amounts;) but the necessary qualification includes, in drawing, an approved knowledge of perspective; and in painting, a requisite acquaintance with anatomy—as provided for by the instruction given in these branches.

DIPLOMAS are only accorded to those who remain through the full course, or pass the requisite examinations. If qualified, the student may enter advanced classes at once.

The CHARGE FOR TUITION is thirty-six dollars for three months, *in advance*; and no student will be admitted for a shorter period. Undergraduate students, in any department of the University, are charged one-half the usual rate of tuition. Art-students are admitted *free* to all the lectures delivered in the School, whether public lectures or those in regular course; to the collections at all times; and are entitled to such privileges, under the usual restrictions, as are granted to students in the other departments of the College.

SPECIAL STUDENTS.—Pupils wishing to enter the School for a short term (of not less than three months), and desiring special instruction, may enter the following classes:—Elementary; Antique; Portrait (crayon, oil, or water-colors); Sketching and Etching; Composition (embracing still-life and costume); Life (drawing or painting); Anatomy; and Perspective.

THE LECTURE COURSE, embracing Anatomy, Perspective, History, Theory, and Practice of Art, may be attended by undergraduates, and others, not pupils of the School, at a charge of one-half the usual rate of tuition.

The School is open to both sexes but no student will be admitted under fifteen years of age.

The ART LIBRARY will be opened at specified hours for the use of students.

The COLLECTIONS embrace the "Jarves Gallery of Italian Art," numbering one hundred and twenty paintings, dating from the 11th to the 17th centuries; the "Trumbull Gallery" of original portraits and other works, by John Trumbull, numbering fifty-four pictures; a collection of portraits and works of contemporaneous art, numbering about one hundred pictures; together with about one hundred and fifty casts and marbles, the former from many of the best productions of ancient art. The Collections are open daily for the use of students, and to the public, during the winter, from 1 to 4 P. M.; and during the summer, when a special loan exhibition is organized, from 9 A. M. to 6 P. M. The proceeds of the exhibitions are applied to the purchase of material adapted to instruction, and to the incidental expenses of the School.

"Students' Season Tickets," at one dollar each, admitting the holders to the Exhibitions throughout the year, are furnished to students of all other departments of the College.

The Art School occupies a large and beautiful building, (erected for this object by the late Augustus Russell Street, of New Haven), containing commodious galleries well adapted to the purpose of an Art Museum, and for lectures; drawing, painting, and modeling rooms, designed for the instruction of classes; also library rooms and studios.

This department of the College is open to all who desire to avail themselves of its instructions, without restrictions, save as to age and general good character. Its aim is to embrace a wide field of usefulness in connection with the knowledge and promotion of art, and to offer every facility to the student both in the way of criticism and technical discipline.

The course of study, as at present constituted, embraces only that instruction which the School is now prepared to furnish practically and efficiently: this is subject to expansion with the growth of the means at the disposal of the Faculty.

All applications for admission to the school should be made through the Director. It is particularly desirable that these applications be made before October 1st.

DEPARTMENT OF THEOLOGY

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Lecturer on Church Polity and American Church History, a Professor of Hebrew Literature and Biblical Theology, a Professor of Systematic Theology, a Professor of Homiletics and the Pastoral Charge, a Professor of Ecclesiastical History, and a Professor of Sacred Literature.

THE CONDITIONS OF ADMISSION are membership in some evangelical church, or other satisfactory evidence of Christian character, and a liberal education at some College, or such other literary acquisitions as may be considered an equivalent preparation for theological studies. Students of every Christian denomination, in case they are possessed of these qualifications, are admitted.

It is expected that every student will be promptly on the ground at the beginning of the session. Rooms are assigned in the order of application, but no room will be reserved for any applicant who neglects to appear, beyond one week after the opening of the term.

THE REGULAR COURSE OF INSTRUCTION occupies three years, and is arranged in the following order :

JUNIOR YEAR :

Professor DAY will lecture on the Encyclopedia and Literature of Theology, and give instruction in Hebrew Grammar and Philology. Portions of the historical books of the Old Testament in the original will be carefully read and analyzed, and critical and exegetical dissertations presented by the class on points of special difficulty or importance.

Professor DWIGHT will give instruction in the exegetical study of the Greek New Testament. The course includes, in addition to the regular exegetical exercises, the critical investigation of the Greek text and the study of the subjects connected with the Introduction to the New Testament. Dissertations of a critical and exegetical character will, also, be prepared by the students and discussed in the presence of the class.

Professor HARRIS will lecture on Mental Philosophy with special reference to the study of Theology ; also on Natural Theology, the Evidences of Christianity, and the Inspiration of the Scriptures ; also, as incidental to these topics, on the various forms of Skepticism.

•

MIDDLE YEAR :

Professor HARRIS will lecture on Systematic Theology. This course will include a full and systematic investigation of the doctrines of Christianity, and of existing questions and controversies in respect to them. The lectures are accompanied by examinations and free discussions.

Professor FISHER will lecture on General Church History, including the following topics: an historical survey of the Old or Preparatory dispensation in its relation to Christianity; the establishment and spread of Christianity (including Missions and persecutions); Ecclesiastical Polity (including the rise and rule of the Papacy, and the Reformation); and the History of Christian Life and Worship.

Professor DAY will give instruction in Biblical Theology, with special reference to the progressive stages of Divine revelation, and the doctrinal results of the modern critical study of the Bible. He will also lecture on portions of the Hebrew Scriptures, especially the poetical and prophetic books.

Professor DWIGHT will continue to give instruction by lectures and recitations, in the exegetical study of the New Testament, especially the Pauline Epistles.

Dr. BACON will lecture on American Church History.

SENIOR YEAR :

Professor HOPPIN will lecture on Sacred Rhetoric and Homiletics, and also on Pastoral Theology, including the office, qualifications, pastoral duties, and special work of the ministry; he will also take charge of the practical exercises in Preaching, and in the criticism of the style and delivery of Sermons.

Professor FISHER will lecture upon the history of Christian Doctrine and on Symbolical Theology, and students will be aided in pursuing historical investigations for themselves.

Dr. BACON will give a series of lectures on Church polity, with special reference to the polity and discipline of the Congregational Churches.

Professor DWIGHT will lecture on some topics of special interest connected with the different books of the New Testament.

Professor DAY will read, with those who wish to prosecute the study of Syriac, the Peshito version of the New Testament.

Optional Studies in either Year :

Professor DAY will read, free of charge, with those students who desire to become familiar with the theological literature of Germany and have made some progress in the language, some standard work in German on Christian doctrine, with critical remarks, and references to the ablest works on special topics. The grammatical study of the language may be pursued with the classes in the Sheffield Scientific School.

Professor WHITNEY will give instruction to those who desire it in Sanskrit.

Instruction in vocal music is given gratuitously to students who desire it. (See p. 56.)

The following courses of lectures in the Academical Department may be attended, free of charge, provided that they do not interfere with the regular studies of the Seminary: on *Intellectual and Moral Philosophy*, by President PORTER; on *Natural Philosophy*, by Professor LOOMIS; on *Evolution and Cosmogony*, by Professor DANA; on *History*, by Professor WHEELER; on *Political and Social Science*, by Professor SUMNER. Students may also be admitted to the various courses of lectures in the Sheffield Scientific School. Those who intend to become Foreign Missionaries have the privilege of attending gratuitously the lectures in the Medical Department.

EXERCISES IN PUBLIC SPEAKING—There will be an exercise for all the classes, in the presence of the Faculty, once in two weeks, in the reading of the Scriptures and hymns, and in the delivery of sermons, or parts of sermons, or addresses. Every alternate week there will be a conference, designed to cultivate the power of *extemporaneous speaking*, in which the students will be called on to present their views on some subject selected by the Faculty. Weekly debates are also held by the students, in societies of their own.

Instruction in Elocution will be given by Mr. BAILEY, the Instructor in the Academical Department.

LICENSE TO PREACH—The regular time for applying for a license is at the close of the second year's study, before which time members of the Department are not allowed to preach.

PUBLIC WORSHIP—Prayers are attended every morning in the MARQUAND Chapel, with reading of the Scriptures and singing. It is optional with the student whether to connect himself with the College Church, or with one of the City Churches; but whatever may be his decision it is hoped that he will actively engage, so far as may not be inconsistent with the prosecution of his studies, in some form of City Mission, Sabbath School, or other benevolent labor, for which constant opportunities are offered.

LIBRARIES—The Reference Library of the School, containing nearly two thousand volumes in various languages, and established through the liberality of Mr. Henry Trowbridge, of New Haven, is placed in the East Divinity Hall. It is designed to furnish the students with the standard and most recent books in every branch of theological literature and those most frequently called for in the pursuit of their studies. It is open daily for consultation, and thus takes the place, for each student, of a well selected and extensive private library.

The valuable Library of Church Music, belonging to the late Dr. Lowell Mason, has been recently given to the Department by his family. This Library, which is placed in the West Divinity Hall, and is one of the largest of the kind in the country, will be open for the use of students.

The College Library, to which the students have access without charge, contains nearly 90,000 volumes, and is open five hours on every secular day for consultation and for the drawing of books.

The library of the College literary societies, containing over 20,000 volumes in general literature, is accessible to theological students.

PHYSICAL EXERCISE—The College Gymnasium is open to the students of this department at a small charge. The harbor of New Haven affords excellent facilities for boating, to those inclined to this mode of exercise.

THE ROOMS in the two **DIVINITY HALLS** are provided with carpets, beds, and every necessary article of furniture (except bedding). They are assigned to new students in the order of application. A few rooms have two bedrooms attached to them, but, in general, provision is made for each student to room alone. The buildings are warmed throughout by steam, and lighted by gas. Bath-rooms are placed on every floor. The buildings are thoroughly ventilated on an approved system.

EXPENSES AND PECUNIARY AID—Students have only to make pecuniary provision for about eight months of study annually. In the remaining four months of vacation, from May to September, they have the opportunity of engaging in Home Missionary or other labor, with remuneration for their services.

The expenses for the annual session are \$3.25 to \$4 a week for board; \$25 to \$35 for fuel and lights; and \$10 a year for care of room and other incidental expenses. There is no charge for instruction, room rent, or use of Libraries.

Students whose circumstances require it, will receive \$100 a year from the income of Scholarships and other funds belonging to the Department. Additional aid, generally to the amount of \$100 annually, but sometimes less, is afforded by the American Education Society to its beneficiaries. In special cases additional aid toward the expenses of board will be given. These means of assistance fully cover the expenses mentioned above.

The Scholarships belonging to the Department bear respectively the names of James Hillhouse, William Leffingwell, George E. Dunham, Normand Smith, E. E. Salisbury, Thomas R. Trowbridge, Charles Atwater, Richard Borden, Samuel Holmes, Charles Nichols, Roland Mather, Noah Porter, John

DeForest, J. R. Beadle, David Root, Mary Goodman, Orin Fowler, and Edward Bull.

A Graduate Scholarship has been established in this Department, as a memorial of the late Mrs. Aurelia D. Hooker, of New Haven. It was offered for the first time to the class which entered in September, 1876, and will be assigned at graduation to that member of the class who shall be judged by the Faculty of the Department to be most worthy of it. It is offered the second time to the class entering in 1878. The person to whom the scholarship shall be given will receive the annual income (\$700) for two years after graduation, and will be expected to pursue a course of theological study, either as a resident at the Seminary, or in case he may prefer to do so, in Europe and Palestine.

After the close of the second year in May, students have frequent opportunities to receive remuneration for preaching in the neighboring churches.

In general it may be said, that sufficient aid will be provided for every young man who gives promise of usefulness in the ministry, to enable him, in connection with his own efforts, to complete a course of theological study.

COMMENCEMENT OF THE TERM, VACATION, ETC.—The session for 1878-79 began on Thursday, Sept. 12, and will continue till the third Thursday in May, when the public Anniversary is held. The annual examination of the classes, and the meeting of the Alumni, are held in the same week. The next annual term will begin on Thursday, September 11, 1879.

By thus throwing all the vacations into one, the most favorable season of the year is secured for study, while the opportunity is given, in the four months' vacation, to engage in some form of benevolent labor, in connection with the mission efforts of the churches, or in the service of one of the benevolent societies, by which the practical experience required of the pastor, as well as pecuniary compensation, may be obtained. Should any students prefer to spend the vacation in theological reading, the Professors will counsel them in the choice of books.

THE DEGREE of Bachelor of Divinity is conferred on all members of the Department who at the end of the Senior year pass the prescribed examination, and present an approved thesis on some topic in theology.

DEPARTMENT OF MEDICINE

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Chemistry and Toxicology, a Professor of Obstetrics and the Diseases of Women and Children, a Professor of Materia Medica and Therapeutics, a Professor of Histology and Pathology, a Professor of the Theory and Practice of Medicine, a Professor of Surgery, and a Professor of General and Special Anatomy; also, a Lecturer on Physiology, a Lecturer on Ophthalmology and Otology, a Lecturer on Insanity, and a Demonstrator of Anatomy.

The course of study is divided into two terms in each year, a Spring Term and a Winter Term.

In the Spring Term, instruction is given by recitations and lectures. In this Term the students are classified, so that those who are just entering on the study are taught during their *first* year only the more elementary branches; while the studies of the *second* year include the more practical branches. Provision is made for students attending a *third* year, to review the studies of the entire course, with the addition of such collateral branches and advanced courses of reading as the necessities or attainments of individual pupils may require. Two or more recitations are held daily.

The instruction in the Winter Term is conducted by means of Public Lectures, with daily examinations, illustrated by Hospital Instruction and Medical and Surgical Clinics, with abundant facilities for Anatomical Dissections.

While the studies of each of these terms are independent and so far complete in their parts that they may be pursued separately with profit, yet they are designed to be so related to each other, that together they make a full and rounded curriculum of proportional study. In no way can the student more easily and naturally acquire a clear and comprehensive knowledge of the medical sciences in their present advanced position, than by taking these courses in connection, and pursuing his studies at the College for the entire period of three years.

The Spring Term will begin February 13, 1879, and continue till the Annual Commencement, June 23. The Winter Term for 1879-80, will be *the Sixty-seventh Annual Course of Lectures*.

CHEMISTRY—The chemical instruction in each term is intended to supplement that given in the other. In the Winter Term, lectures, fully illustrated by experiments, are given upon General Chemistry during the first half of the term; and upon Organic and Physiological Chemistry (including the Chemistry of the urine) and Toxicology during the second half. In the Spring Term, Theoretical Chemistry is taught by recitations, and Practical Chemistry by Laboratory work. The Junior Class work in Elementary Qualitative Analysis; the Middle Class in advanced Analysis, including the examination of drugs, the urine, calculi, etc. These exercises consist of three hours' daily work. The Senior Class are taught to make original researches in Physiological Chemistry.

NORMAL AND PATHOLOGICAL HISTOLOGY is illustrated by a sufficient number of compound microscopes and a large collection of the best preparations.

CLINICS—The lectures on Surgery and on the Theory and Practice of Medicine are amply illustrated at the Clinics which are held almost daily. Lectures on Diseases of Women are also made more practically instructive by a weekly Clinic at the College. The Surgical and Medical Clinics and the Clinics for Eye Diseases, which are held on their respective days at the College, are still further supplemented by the facilities afforded by the New Haven Dispensary and the Clinics which are held once or twice every week at the State Hospital. In connection with the Clinics, students are made thoroughly conversant with the special methods of the expert practitioner, by having exhibited to them from day to day all the recent advances attained in special manipulations, physical explorations, and the enlightened employment of remedies. All Surgical operations are performed in the presence of the students, and every endeavor is made to familiarize them with the use of all instruments and surgical appliances.

OPHTHALMOLOGY AND OTOTOLOGY are taught by a course of practical Lectures, with Clinical Illustrations.

DISSECTING ROOMS—The spacious and well-appointed Dissecting Rooms are amply supplied with anatomical material at a reasonable charge, under the personal direction of the Demonstrator.

THE MUSEUM contains a large collection of natural and morbid specimens, numerous casts, plates, and models, of elegant execution, and an extensive Cabinet of Materia Medica, all of which are made practically useful in illustrating the subjects taught. The University Libraries and Collections in Natural History are also open for the use of students.

COMPARATIVE ANATOMY, ZOOLOGY, AND OTHER DEPARTMENTS COLLATERAL TO MEDICAL STUDIES—Special advantages are offered to Medical Students for the pursuit of Zoology, Comparative Anatomy, Botany, and other cognate studies, in connection with the Sheffield Scientific School.

REQUIREMENTS FOR GRADUATION—Every candidate for a degree is required to possess, in addition to a good English education, a competent knowledge of the Latin language and of the principles of Natural Philosophy;* to present to the Dean, two weeks before examination, a *Thesis*, written by himself, upon some medical subject; to present a satisfactory certificate that he is twenty-one years of age, and possesses a good moral character. He must have attended two full courses of public lectures, one at least of which must have been in this Institution. He must present a satisfactory certificate from a respectable and regular practitioner of medicine that he has attended to the study of physic and surgery for three years, including the time spent in attendance on medical lectures.† In case he is a graduate of college his diploma is received as equivalent to a certificate of medical study for one year.

The Board of Examiners consists of the Faculty and an equal number of the Members of the Connecticut Medical Society, appointed by the President and Fellows of the same; and the President of the Society is *ex-officio* President of the Board.

Separate written examinations are required in each of the following branches:—

* All students who are not graduates of colleges will be examined in English branches, including Algebra to quadratic equations, and Balfour Stewart's Elementary Physics or its equivalent, and also in the Latin Grammar and Reader. It is optional with students to pass this examination before entering college, or at any time before presenting themselves for examination in their medical studies.

† The Spring Term is counted as part of the time required for Medical Study, but *does not count* as one of the courses of Public Lectures required for Graduation.

- | | |
|-----------------------------|---------------------------|
| 1. Chemistry. | 6. Therapeutics. |
| 2. Anatomy. | 7. Theory and Practice of |
| 3. Physiology. | Medicine. |
| 4. Materia Medica. | 8. Obstetrics. |
| 5. Histology and Pathology. | 9. Surgery. |

Students who have attended two full courses of lectures on Chemistry, Anatomy, Physiology, and Materia Medica, may be examined on those subjects, at the close of any regular term; and if giving satisfactory evidence of proficiency in them, their examination will be considered as final on those subjects, and at the end of their course they will be examined only on the other branches.

Two examinations for degrees are held annually: one at the close of the Winter Term, and the other at the close of the Spring Term, ending on the Tuesday before Commencement.

TUITION FEES, ALWAYS REQUIRED IN ADVANCE.

Matriculation Fee, paid annually,	- - - - \$	5.00
Course of Lectures in Winter Term,	- - - -	105.00
For the Spring Term, - - - -	- - - -	60.00
Contingent Expenses of Laboratory, Spring Term,		10.00
Demonstrator's Ticket, - - - -	- - - -	5.00
Graduation Fee, - - - -	- - - -	25.00

In the Winter Term students may take the whole or part of the lectures, at their option; fee for each Professor's ticket, fifteen dollars.

Those who have attended two full courses of lectures in this Institution, and those who have attended one full course of lectures in this Institution and a full course in a similar Medical College, are entitled to admission to the Lectures of any future Winter Term on the payment of five dollars for incidental expenses. Those who have attended two full courses in any other accredited Medical College, may receive all the tickets for the Winter Term, including Matriculation for fifty dollars.

DEPARTMENT OF LAW

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Mercantile Law and Evidence, a Professor of Elementary and Criminal Law and the Law of Real Property, a Professor of Constitutional Law, Contracts, and Wills, a Professor of Pleading and Equity Jurisprudence, and a Professor of International Law. Lectures are also delivered by Rev. LEONARD BACON, D.D., LL.D., on Ecclesiastical Law, Hon. ORIGEN S. SEYMOUR, LL.D., on Judicial Procedure and Practice, Hon. LAFAYETTE S. FOSTER, LL.D., on Parliamentary Law, and Methods of Legislation, Professor WAYLAND on English Constitutional Law and History, Professor ROBINSON on Forensic Oratory and the Origin of Law, MARK BAILEY, M.A., on Forensic Elocution, Professor BALDWIN on Roman Law and the Administration of Estates, Professor PLATT on General Jurisprudence, and FREDERIC H. BETTS, M.A., on Patent Law.

TERMS AND VACATIONS—There are three terms in each year: the Fall term, beginning on the last Thursday of September and continuing to the Thursday before Christmas: the Winter Term, beginning in January, after a vacation of three weeks, and closing the last Thursday of March; and the Spring Term, beginning on the second Thursday of April and continuing until Commencement. (See Calendar, p. 4.)

COURSE OF INSTRUCTION

UNDERGRADUATE COURSE

The Undergraduate Course occupies two years, the students being divided into two classes, for each of which a special course of study is provided. The daily exercises consist of lectures and recitations from standard text-books, the latter being accompanied by oral explanations. The students are frequently referred to the leading cases on the subject under consideration, and are required to be prepared for questions upon them at the next exercise: they are also encouraged to put questions freely to the instructor at all recitations. Moot Courts are regularly held, at which one of the professors acts

as judge. The students acting as counsel, in the argument of cases, are required to draw the necessary pleadings in the common law form.

Members of either Class can attend the lectures of Professors to undergraduates in other Departments of the College, whenever it is compatible with their other engagements; and, with a few exceptions only, without charge. They can also attend one or more of the special courses of graduate instruction in the Department of Philosophy and the Arts, on payment of a moderate fee. (See page 48.)

The regular curriculum of study is as follows :

JUNIOR YEAR:

FALL TERM—Recitations: Elementary Law, Prof. Robinson; Contracts, Prof. Baldwin; Torts, Prof. Platt; International Law, Prof. Woolsey. Lectures: Nature and History of American Law, and Wills, Prof. Baldwin.

WINTER TERM—Recitations: Contracts, Prof. Baldwin; Mercantile Law, and Evidence, Prof. Wayland; Torts, and Pleading, Prof. Platt; International Law, Prof. Woolsey. Lectures: Wills, Prof. Baldwin; Forensic Oratory, Prof. Robinson.

SPRING TERM—Recitations: Contracts, Prof. Baldwin; Mercantile Law, and Evidence, Prof. Wayland; Pleading, Prof. Platt. Lectures: English Constitutional Law, Prof. Wayland; Origin of Law, Prof. Robinson; Forensic Elocution, Mr. Bailey.

SENIOR YEAR:

FALL TERM—Recitations: Equity, Prof. Platt; Contracts, Prof. Baldwin; Mercantile Law, Prof. Wayland. Lectures: International Law, Prof. Woolsey; American Constitutional Law, Prof. Baldwin.

WINTER TERM—Recitations: Contracts, Prof. Baldwin; Mercantile Law, Prof. Wayland; Equity, Prof. Platt. Real Property, Prof. Robinson; Lectures: American Constitutional Law, Prof. Baldwin.

SPRING TERM—Recitations: Contracts, Prof. Baldwin; Real Property, and Criminal Law, Prof. Robinson. Lectures: Roman Law, Comparative Jurisprudence, and Practice, Prof. Baldwin.

Any one or more of these studies may be pursued by those who do not intend to engage in the practice of the Law, but wish to obtain a knowledge of its principles to complete their education, or with reference to mercantile pursuits.

The principal text-books used are, in Junior year, Robinson's Notes on Elementary Law, Addison on Torts, Parsons on Contracts, Stephen on Pleading, Woolsey's Introduction to the Study of International Law, and Greenleaf on Evidence, vol. I; in Senior year, Parsons on Contracts, Story on Equity Jurisprudence, and Washburn on Real Property.

Students are also recommended to read during their course the following works, in connection with their regular exercises: Blackstone's Commen-

taries, Kent's Commentaries, Smith's Leading Cases, Maine's Ancient Law, Hadley's Roman Law, and Cooley on Constitutional Limitations.

At the close of the Spring Term, each Class is subjected to a written examination on the studies of the preceding year.

GRADUATE COURSE

The Graduate Course occupies two years, and is open to graduates from any Law School, having the degree of LL.B., under the conditions specified on p. 90. The vacations are the same as those in the undergraduate course in this department. The degree of Master of Law (M.L.) will be conferred upon examination at the close of the first year, and that of Doctor of Civil Law (D.C.L.) at the end of the second year. The curriculum for the first year is particularly designed to supplement that of the undergraduate course by affording further instruction in the branches there pursued; that of the second year is designed to meet the wants of those who aim at acquiring a thorough acquaintance with jurisprudence and its affiliated studies, as a means of completing their education, without confining themselves to such topics as are of the first necessity to the practicing lawyer.

The arrangement of the curriculum is as follows:

FOR CANDIDATES FOR THE DEGREE OF M.L.—English Constitutional History, Prof. A. M. Wheeler; Admiralty Law and Patents, Prof. Robinson; Practice in the U. S. Courts, Rail Road Law, and American Constitutional History, Prof. Baldwin; Corporations and Procedure in States having a Civil Code, Prof. Platt; International Law, Prof. Woolsey.

FOR CANDIDATES FOR THE DEGREE OF D.C.L.—Parliamentary Law, History of the Law of Real Property, and Canon Law, Prof. Robinson; Comparative Jurisprudence, and Conflict of Laws, Prof. Baldwin; General Jurisprudence, Prof. Platt; Roman Law, Mr. A. S. Wheeler; Relations of Physical Geography to Political History, Prof. Brewer; Political Economy, Prof. Walker; Political Science, Prof. Sumner.

Among the principal text-books used, are Parsons on Maritime Law, Curtis on Patents, Desty's Federal Procedure, Pierce on American Railroad Law, Austin on Jurisprudence, Angell and Ames on Private Corporations, Dillon on Municipal Corporations, Pomeroy's Remedies and Remedial Rights, the Commentaries of Gaius, Institutes of Justinian, selected titles of the Pandects, Story on the Conflict of Laws, Cushing's Parliamentary Law, Digby on the Early History of Landed Property, and Wharton on Private International Law.

There will be regular exercises for those pursuing each year of the graduate course, the preparation for which with the collateral course of reading which will be prescribed for each, the composition of the graduation thesis,

etc., will be such as to occupy the working time of the student through the year.

A knowledge of Latin will be necessary for those pursuing the studies of the last year of the course, but will not be indispensable for candidates for the degree of M.L.

TERMS OF ADMISSION TO UNDERGRADUATE COURSE—Applicants for admission to the Junior Class must be at least eighteen years of age, and must produce certificates of good moral character. No student who has not taken a degree from some collegiate institution, will be admitted as a candidate for a degree, until he has passed a satisfactory examination on the outlines of the History of England, and of the United States, and the text of the Constitution of the United States. This will be conducted in writing, and the style of the composition and orthography in the answers, as written, must be such as to evince a competent knowledge of English Grammar.

To entitle a person to admission to advanced standing as a member of the Senior Class, he must be at least nineteen years of age; must, if a college graduate, have studied law under a competent instructor for at least one year, or at the law school of some college or university for at least six months; must, if not a college graduate, have studied law under a competent instructor for at least two years, or at a law school for at least one year; and if not an attorney at law, must pass such an examination as is required for those entering the Senior Class in the regular course, and also (unless a college graduate) such an examination as is required of applicants for admission to the Junior Class.

Applicants for admission to advanced standing who have received a collegiate degree, or have passed the preliminary examination in English studies specified above, may either attend the regular annual Junior examination, which commences the second week before Commencement, or pass a special examination, beginning on the first Saturday of the Fall Term, or on the last Thursday of February, at which it will be sufficient if they are prepared to be questioned on Kent's Commentaries, lectures first to nine inclusive, fourteen to eighteen inclusive, and twenty, twenty-one, sixty, sixty-two, and sixty-eight: Parsons on Contracts, subjects of bailments, partnerships, notes and bills, agents, executors and guardians, corporations and artificial persons, gifts, capacity to contract,

consideration and assent, sales, warranty, hiring, suretyship, telegraphs, infancy, married women, interest, marriage, construction, defences, estoppels, statute of limitation, damages, and liens; Blackstone's Commentaries, Robinson's Notes on Elementary Law, Stephen on Pleading, Greenleaf on Evidence, vol. I, Woolsey's Introduction to the study of International Law, and Addison on Torts.

Special students, not candidates for a degree, will be admitted to any of the exercises of the School, as heretofore, without examination.

EXAMINATIONS—There will be preliminary examinations of candidates for admission to the Junior Class at the opening of the Fall Term, and at no other time.

Candidates for admission to the Senior Class will be examined, as above, at the end of the Spring Term, or beginning of the Fall Term; or on the last Wednesday of February.

Seniors will be examined for a degree only at the close of the Spring Term; or on the last Wednesday of February, when their prescribed period of study shall mature at that time.

Examinations for degrees in the graduate course will be held only at the close of the Spring Term.

Every candidate for each degree, both in the undergraduate and graduate courses, must also submit a thesis on a given legal topic, which must be approved by the Faculty.

LIBRARY—The special Library of the Department, which has a permanent endowment for its support (the English Fund),* contains over eight thousand volumes, comprising a complete collection of the English, American, and Irish Reports of judicial decisions, and an extensive collection of text-books, and works on jurisprudence and political history and philosophy. The consulting room is also supplied with the leading legal periodicals. The Library is open daily, during term time, from 8 A. M. to 12:45 P. M., and from 2 to 5:45 P. M. (with the exception of Saturday afternoon); during vacations it is not opened until 9 A. M.

The students can also draw books without charge from the general University libraries, now containing over 100,000 volumes.

* Established by Hon. James E. English, M.A., in 1873.

PRIZES are annually awarded as follows: The TOWNSEND Prize,* of one hundred dollars, is annually awarded to that member of the Senior Class who shall write and pronounce the best oration or thesis at his graduation, at the public anniversary exercises of the Department, on the day before Commencement;

The JEWELL Prize,† of fifty dollars to that member of the Senior class who receives the highest marks at the final examination of his class at their graduation;

The BETTS Prize,‡ of fifty dollars, to that member of the Junior class who receives the highest marks at his annual examination;

BUILDINGS, AND FACILITIES FOR OBSERVING PRACTICE—The School occupies an entire story of the Court House of New Haven County, having upon the same floor a lecture room accommodating two hundred students, a large library hall, a Moot Court room, an instructors' room, and other apartments furnishing every needed convenience for Law clubs and debating societies.

Two terms of the Supreme Court of Errors of Connecticut, one term of the United States Circuit Court, and two terms of the United States District Court, are held annually in New Haven; and the Superior Court and Court of Common Pleas, the principal *nisi prius* Courts of the State, are also in session almost daily, during each of the Law School terms.

DEGREES—In the Undergraduate course the degree of Bachelor of Laws will be conferred by the Corporation, upon the recommendation of the Faculty of the Department, based on a satisfactory examination and the submission of a satisfactory thesis, on the following persons:

1st. Attorneys at Law, who have been members of the Department for one year after their admission to the Bar.

2d. Any students who have been members of the Department for not less than two years, and who passed satisfactorily the Junior Examination at the end of their first year.

3d. Students who have received the degree of Bachelor or Doctor in any of the Arts or Sciences from any incorporated

* Established by Hon. James M. Townsend in 1874.

† Established by Hon. Marshall Jewell, M.A., in 1871.

‡ Established by Frederic H. Betts, M.A., in 1875.

College or University, and have subsequently been members of this Department for not less than eighteen months, and who passed satisfactorily an examination at the end of their first six or twelve months, on all the studies of the Junior year.

4th. Upon students who have been admitted to advanced standing as members of the Senior Class, and have remained in that Class for not less than one year.

Graduates of the Department receiving this degree are admitted to the Connecticut Bar without further examination.

In the Graduate Course the degree of Master of Law (M.L.) will be conferred by the Corporation on the recommendation of the Faculty of the Department, on persons, who, after having taken the degree of Bachelor of Laws, pursue, during at least one year, such a course of advanced studies as the Faculty may direct.

Bachelors of Laws, who also have the degree of Bachelor of Arts or of Philosophy, or who, having the degree of LL.B. from this College, ranked among the first quarter of their class in scholarship, according to their average marks at their final examination for that degree, may, after having taken the degree of M.L., apply for that of Doctor of Civil Law (D.C.L.). All applicants for the latter degree must have a good knowledge of Latin, and also of either the French or German language. The course of instruction will extend over one year after taking the master's degree, and the Faculty will recommend no one for the degree of D.C.L., who has not attained a high standard of proficiency in the studies pursued.

Neither degree will be conferred, except upon candidates who pursue their studies at New Haven, under the direction of the Faculty, pass with credit a strict final examination, and present a satisfactory thesis.

EXPENSES—The fees for tuition and use of the Library in the Undergraduate course are \$45 for the Fall Term, \$35 for the Winter Term, and \$35 for the Spring Term, or \$100 for the entire session, and in the Graduate course, \$125 for each year, to be paid to the Treasurer of the College in advance, or secured by bond satisfactory to him; where payment is not made in advance, interest will be added. Candidates for a degree who pursue their studies beyond the minimum period of attendance required before applying for examination, will be charged only half these rates for their subsequent tuition.

The diploma fee is \$5, and the Court fees for admission to the Bar are \$8. A further fee of \$5 is chargeable for admission to practice in the U. S. Courts for the District of Connecticut, if this is also desired. The tuition charges for special students, not candidates for a degree, vary in proportion to the amount of instruction and supervision required, but will never exceed those made in the regular course.

Board and lodging can be obtained at prices ranging from \$5 a week upwards.

For further particulars, inquiries may be addressed to Professor Francis Wayland, Dean of the Faculty, at New Haven, Conn.

PEABODY MUSEUM OF NATURAL HISTORY

TRUSTEES

PROFESSOR JAMES D. DANA, Ph.D., LL.D., *Chairman*
HIS EXCELLENCY RICHARD D. HUBBARD, LL.D., *ex-officio*
THE HONORABLE ROBERT C. WINTHROP, LL.D.
PROFESSOR BENJAMIN SILLIMAN, M.D.
PROFESSOR GEORGE J. BRUSH, M.A., *Treasurer*
PROFESSOR OTHNIEL C. MARSH, M.A.
GEORGE PEABODY WETMORE, M.A.

CURATORS

• OTHNIEL C. MARSH, M.A., *Curator of the Geological Collection*
ADDISON E. VERRILL, M.A., *Curator of the Zoological Collection*
EDWARD S. DANA, Ph.D., *Curator of the Mineralogical Collection*

The gift of the Founder, GEORGE PEABODY, of London, was committed to the Board of Trustees, in October, 1866, "to found and maintain a Museum of Natural History, especially in the departments of Zoology, Geology, and Mineralogy, in connection with Yale College." Of the entire gift (\$150,000), \$100,000 was devoted by the donor to the erection, on land given for the purpose by the President and Fellows of the College, of a fire-proof building, planned with special reference to subsequent enlargement. Of the remainder of the gift, the sum of \$20,000 is set apart as a reserve fund for the completion of the building, and the income of \$30,000 is available for the care of the Museum and the increase of its collections.

By the accumulations from investment of the original building-fund, the first wing of the Museum is now completed, at a cost of about \$140,000, or, with cases, \$175,000.

The basement will be used for exhibiting the collection of fossil footprints from the Connecticut valley, and for work and storerooms. The first story contains the Mineralogical Collection, and rooms for instruction in Mineralogy, as well as the general lecture room. The second story is entirely devoted to Geology, and the third to Zoology. The fourth is used for the collection in Archæology and Ethnology, and for storerooms.

So far as the collections are arranged, the Museum is open to students and the public every day in term-time.

LIBRARIES

THE COLLEGE LIBRARY numbers about 88,000 volumes, besides many thousand unbound pamphlets. It is designed for the use of the College officers, resident graduates, and the students of the various departments. Other persons may have the privilege of consulting the Library and drawing books, by permission of the Library Committee. The Library is open daily in term-time from 9½ A. M. to 1 P. M., and from 2½ to 5 P. M. (or, during the winter months, to 4½ P. M.)

In the same building is the LINONIAN AND BROTHERS LIBRARY, designed primarily for the use of the undergraduate students, and containing over 20,000 volumes. This library is open daily, from 1½ to 2½ P. M.; on Wednesdays and Saturdays from 10 A. M. to 12 M. and from 1½ to 4 P. M.

The Departments of Theology, of Medicine, and of Law, the Sheffield Scientific School, and the School of the Fine Arts, have each a special Library, accessible to the students of those schools.

The Library of the AMERICAN ORIENTAL SOCIETY, numbering about 3,500 printed books and manuscripts, is kept in the College Library building.

TOWNSEND Premiums for English Composition—Class of 1878—John P.
Clarke, Harry C. Coe, William L. Dickson, George B. Edwards,
Roger S. B. Foster

PREMIUM for solution of Astronomical Problems—Class of 1878—1st Prize,
William E. Waters

WINTHROP Prizes—Class of 1879—1st Prize, Edgar B. Nichols; 2d Prize,
John G. C. Sonn

SCOTT Prize in German—Class of 1878—Alfred L. Ripley

SCOTT Prize in French—Class of 1879—Louis L. Stanton

JUNIOR EXHIBITION PREMIUMS—CLASS OF 1879

1st Prize, George W. Kirchwey ; 2d Prizes, Lucien F. Burpee, Chun Lung, James W. Eaton, George F. Foster, Samuel M. Foster, Henry S. Green, Louis DuP. Syle, Henry J. TenEyck, Ambrose Tighe

PREMIUMS FOR ENGLISH COMPOSITION—CLASS OF 1880

1st Term : 1st Prizes, John A. Amundson, Alfred B. Nichols, Sidney C. Partridge, Doremus Scudder ; 2d Prizes, Nathaniel Gordon, William M. Hall, Frank W. Hopkins, Edward P. Noyes ; 3d Prizes, Wilton N. Eddy, William C. Husted, Frederick S. Morrison, Charles A. Wight

2d Term : 1st Prizes, John A. Amundson, Alfred B. Nichols, Sidney C. Partridge, Doremus Scudder ; 2d Prizes, William M. Hall, Frank W. Hopkins, William C. Husted, Edward P. Noyes ; 3d Prizes, Wilton N. Eddy, Thomas R. Morrow, Harry W. Taft, Stephen Trumbull

PREMIUMS FOR DECLAMATION—CLASS OF 1880

1st Prize, William D. Murray ; 2d Prize, William D. Barnes and John F. Woodhull ; 3d Prize, Doremus Scudder

PREMIUMS FOR SOLUTION OF MATHEMATICAL PROBLEMS

Class of 1880—1st Prize, William M. Hall ; 2d Prize, Frank W. Hopkins ; 3d Prizes, William H. Sherman, Wilson C. Wheeler

Class of 1881—1st Prize, Frank B. Lucas ; 2d Prizes, Otis H. Briggs, Arthur E. White

BERKELEY PREMIUMS FOR LATIN COMPOSITION—CLASS OF 1881

1st Prizes, Edwin E. Aiken, Benjamin W. Bacon, Philip G. Bartlett, Russell A. Bigelow, Walter R. Bridgman, Arthur E. White ; 2d Prizes, Arthur E. Bostwick, Sherman Evarts, Nathaniel C. Fisher, Arthur G. Stedman, Sherman L. Whipple, Charles O. Whitmore

SHEFFIELD SCIENTIFIC SCHOOL

Class of 1878

FOR EXCELLENCE IN GERMAN, John P. Bartlett, New Britain

FOR EXCELLENCE IN FRENCH, Edward H. Smith, Brooklyn, N. Y.

FOR EXCELLENCE IN CIVIL ENGINEERING, Walter L. Cowles, Wallingford

Class of 1879

FOR EXCELLENCE IN THE MATHEMATICS OF JUNIOR YEAR, George A. Saunders, Newport, R. I., with honorable mention of Charles A. Wilcox, Painesville, O.

FOR EXCELLENCE IN CHEMISTRY, William J. Comstock, Toledo, O., with honorable mention of John Jewett, Brooklyn, N. Y.

FOR EXCELLENCE IN MINERALOGY, Frederick I. Allen, Auburn, N. Y.

Class of 1880

FOR EXCELLENCE IN ALL THE STUDIES OF FRESHMAN YEAR, Dwight Porter, Hartford

FOR EXCELLENCE IN GERMAN, Ernest T. Liefeld, New Haven

FOR EXCELLENCE IN MATHEMATICS, Dwight Porter, Hartford

FOR EXCELLENCE IN PHYSICS, Dwight Porter, Hartford

FOR EXCELLENCE IN MECHANICAL DRAWING, George Robert Ferguson, New Haven

Class of 1881

FOR THE BEST ENTRANCE EXAMINATION, Ethan Allen Andrews, Tarrytown, N. Y.

 DEPARTMENT OF LAW

JEWELL PRIZE (\$100), to the student passing the best examination at his graduation — William F. Booth, B.A. Emory and Henry College, New Orleans, La.

CIVIL LAW PRIZE (\$30), for the best dissertation on "Obligations ex Delicto," Haydn C. Kelly, B.A. Rutgers College, New Brunswick, N. J., class of 1878

NOTE.—Arrangements have been made, in the **SCHOOL OF THE FINE ARTS**, by which after Jan. 1, 1879, a course of instruction in Architecture will be provided. For details apply to the Director of the School.

The last edition of the Triennial Catalogue of the Graduates was published in 1877. Obituary notices of deceased graduates are published annually.

All persons, who can supply information appropriate to the future editions of the Triennial Catalogue or Obituary Record, are urgently requested to communicate with the Secretary.

The Annual Catalogue will be sent regularly to all graduates who may express a desire to receive it, and who will furnish their addresses for the purpose.

For Catalogues and other information, address

MOSES C. WHITE, M.D.

Professor of Histology and Pathology

104 York st.

HON. FRANCIS WAYLAND, LL.D.

*Professor of Mercantile Law and
Evidence*

(17 Court House) 91 Whitney av.

REV. GEORGE P. FISHER, D.D.

Titus Street Professor of Ecclesiastical History

(9 E.) 27 Hillhouse av.

REV. TIMOTHY DWIGHT, D.D.

Buckingham Professor of Sacred Literature

126 College st.

CHARLES A. LINDSLEY, M.D.

Professor of Materia Medica and Therapeutics

15 Elm st.

HUBERT A. NEWTON, LL.D.

Professor of Mathematics

135 Elm st.

LUCIAN S. WILCOX, M.D.

Professor of the Theory and Practice of Medicine

Hartford

DAVID P. SMITH, M.D.

Professor of the Principles and Practice of Surgery

Springfield, Mass.

GEORGE J. BRUSH, M.A.

*Professor of Mineralogy, and Executive Officer of the
Sheffield Scientific School*

(3 S. H.) 14 Trumbull st.

SAMUEL W. JOHNSON, M.A.

*Professor of Theoretical and Agricultural
Chemistry*

(12 S. H.) 54 Trumbull st.

WILLIAM H. BREWER, M.A.

Norton Professor of Agriculture

(4 S. H.) 246 Orange st.

LEONARD J. SANFORD, M.D.

Professor of Anatomy

126 Crown st.

HON. WILLIAM C. ROBINSON, LL.D.

*Professor of Elementary and Criminal Law and the
Law of Real Property*

(16 Exchange Building) 137 Edwards st.

LEWIS R. PACKARD, PH.D.

*Hillhouse Professor of the Greek Language
and Literature*

(121 N.) 83 Wall st.

JOHN F. WEIR, N.A., M.A.

*William Leffingwell Professor of Painting and
Design*

(9 Art School) 58 Trumbull st.

- JOHN E. CLARK, M.A.
Professor of Mathematics 29 Eld st.
- CYRUS NORTHROP, LL.B.
Professor of Rhetoric and English Literature (137 F.) 607 Chapel st.
- DANIEL C. EATON, M.A.
Professor of Botany (41 N. S. H.) 70 Sachem st.
- ARTHUR M. WHEELER, B.A.
Professor of History (207 D.) 86 Trumbull st.
- ADDISON VANNAME, M.A.
Librarian (LIBRARY) 121 High st.
- J. WILLARD GIBBS, PH.D.
Professor of Mathematical Physics 121 High st.
- ARTHUR W. WRIGHT, PH.D.
Professor of Molecular Physics and Chemistry (Lab'y.) 34 Hillhouse av.
- THOMAS R. LOUNSBURY, B.A.
*Professor of English, and Librarian of the
 Sheffield Scientific School* (6 S. H.) 22 Lincoln st.
- REV. WILLIAM M. BARBOUR, D.D.
Chittenden Professor of Divinity, and College Pastor (117 N.) 44 High st.
- OTHNIEL C. MARSH, M.A.
*Professor of Palæontology, and Curator of the
 Geological Collection* (8 Peabody Museum) New Haven Hotel
- EUGENE L. RICHARDS, B.A.
Assistant Professor of Mathematics (86 N. M.) 196 York st.
- FRANCIS A. WALKER, PH.D.
Professor of Political Economy and History 68 Whitney av.
- JOHN H. NIEMEYER, M.A.
Street Professor of Drawing 8 Art School
- FRANKLIN B. DEXTER, M.A.

S. HARTWELL CHAPMAN, M.D., *Lecturer on Diseases of the Throat*
MATTHEW D. MANN, M.D., *Clinical Lecturer on Gynecology*
WILLIAM H. HOTCHKISS, M.D., *Demonstrator in Anatomy*

SENIOR CLASS

Jeremiah Francis Cales, A.B. } Wesleyan University }	<i>Middletown</i>	Middletown
Loren True Day	<i>Waterbury</i>	231 Crown st.
Henry Doutteil	<i>New Haven</i>	103 Court st.
Charles Hubbard Howland	<i>New Haven</i>	206 Exchange st.
Harman Jarvis Kelsey	<i>West Haven</i>	West Haven
Charles Edward McGowan, A.B. } St. John's College }	<i>New Haven</i>	187 Hamilton st.
Edward Kilbourn Roberts, PH.B.	<i>New Haven</i>	8 Brown st.
William Spencer Russell	<i>Wallingford</i>	74 High st.
Leonidas Curtin Vinal	<i>New Haven</i>	383 Orchard st.
Samuel Wendell Williston, M.A. } Kansas State Agric. College }	<i>Manhattan, Kan.</i>	162 Olive st.

MIDDLE CLASS

Henry William Allan	<i>New Haven</i>	79 York st.
William Henry Brinley	<i>New Haven</i>	27 Davenport av.
George Marland Bush	<i>New Haven</i>	132 Bradley st.
Charles Warren Dana	<i>New Haven</i>	16 Leonard st.
Julius Sanford Silliman	<i>Bridgeport</i>	Bridgeport
James Ebenezer Stetson	<i>New Haven</i>	34 Prospect st.
Caryl Fenelon Seely White	<i>New Haven</i>	104 York st.

MIDDLE CLASS, 7

JUNIOR CLASS

Enoch George Best	<i>Holyoke, Mass.</i>	34 Salem st.
Louis Shepard DeForest, B.A.	<i>New Haven</i>	19 Compton st.
Lucius Parmenas Deming, Jr.	<i>East Haven</i>	East Haven
William Whitney Hawkes, B.A.	<i>New Haven</i>	65 Martin st.
Walter Lonsdale Lea	<i>Virginia</i>	489 Chapel st.
James Joseph Lenahan	<i>New Haven</i>	127 Martin st.
Walter Remington Nichols	<i>Branford</i>	Branford
Charles Edwin Park	<i>New Haven</i>	129 Olive st.
John Baptiste Poyer	<i>New Britain</i>	217 Grand st.
Dwight Alfonso Richardson	<i>Ansonia</i>	Ansonia
Herbert Eugene Smith, PH.B.	<i>Hartford</i>	187 Temple st.
Edward Southworth, B.A.	<i>West Springfield, Mass.</i>	38 High st.
Robert Armstrong Welch	<i>Philadelphia, Pa.</i>	109 Elm st.

JUNIOR CLASS, 13

SPECIAL STUDENTS

John Pomeroy Bartlett, PH.B.	<i>New Britain</i>	16 N. S. H.
John Michael Holzinger, B.A. } Olivet College	<i>Charles City, Iowa</i>	8 E.

DEPARTMENT OF LAW

FACULTY

REV. NOAH PORTER, DD., LL.D., PRESIDENT
 HON. FRANCIS WAYLAND, LL.D., *Dean*
 HON. WILLIAM C. ROBINSON, LL.D.

GENERAL STATEMENT

The departments of Instruction in YALE COLLEGE are comprehended under four divisions, as follows:—

The Faculty of THEOLOGY;
of MEDICINE;
of LAW;
of PHILOSOPHY AND THE ARTS.

Under the last named Faculty are included, the COURSES FOR GRADUATE INSTRUCTION, the UNDERGRADUATE ACADEMICAL DEPARTMENT, the UNDERGRADUATE SECTION OF THE SHEFFIELD SCIENTIFIC SCHOOL, and the SCHOOL OF THE FINE ARTS,—each having a distinct organization.

In the particular statements which follow, the Department of Philosophy and the Arts is first given, with its subdivisions in the order named; and afterwards the three Professional Departments.

The legal designation of the Corporation is "THE PRESIDENT AND FELLOWS OF YALE COLLEGE IN NEW HAVEN."

DEPARTMENT OF PHILOSOPHY AND THE ARTS

GRADUATE INSTRUCTION

Graduates of this and other Colleges, and other persons of liberal education (not less than eighteen years old), are received as students for longer or shorter periods, with or without reference to the attainment of a degree.

An Executive Committee has a general oversight of the students in this department. The Committee this year is composed of Professors WHITNEY, NEWTON, BRUSH, and WHEELER. They receive the names of applicants for instruction, and judge and approve the courses of study proposed; and information may be obtained from them as to conditions, terms, etc. Students may also make special arrangements with any instructor according to their mutual convenience.

Instruction is given partly by lectures, partly by recitations and by oral and written discussions, partly by directing courses of reading, and partly by work in the laboratories and with instruments.

The terms and vacations correspond with those in the Undergraduate Departments. (See Calendar, p. 4.)

The fee for instruction is generally one hundred dollars, or more or less, according to the course pursued and the amount of instruction received.

THE DEGREE OF DOCTOR OF PHILOSOPHY is conferred upon those who, after having taken a Bachelor's degree (implying a course of undergraduate study equivalent to that pursued in the Academical Department), and having studied in this department for not less than two years, shall have passed a satisfactory final examination and presented a thesis giving evidence of high attainment in the branches of knowledge pursued. It is not given, upon examination, to those whose studies are pursued elsewhere. The requirements for it will

in some cases exact of the student more than two years of labor; especially when the course of undergraduate study has been less than four years. A good knowledge of Latin, German, and French, will be required in all cases, unless, for some exceptional reason, the candidate be excused by the Faculty. The graduating fee is ten dollars.

The courses of instruction given in the department may be grouped as follows:

1. Intellectual Philosophy; Ethics

President PORTER: Psychology; Philosophy; History of Philosophy; Ethics.

2. Political Science and History

Professor WHEELER: History of Europe, 1815-70.

Professor BREWER: Relations of Physical Geography to Political History.

Professor WALKER: Public Finance; Statistics of Industry.

Professor SUMNER: Politics and Finance in the History of the United States; Sociology; Political Economy.

Professor ROBINSON: History of Real Property; Canon Law; Parliamentary Law.

Professor DEXTER: American History.

Professor BALDWIN: Conflict of Laws; Comparative Jurisprudence.

Professor PLATT: General Jurisprudence.

Professor WOOLSEY: International Law.

Mr. A. S. WHEELER: the Institutes of Gaius and Justinian; select titles of the *Corpus Juris*; German text-books of Roman Law.

3. Philological Science; Literature

Professor THACHER and Professor H. P. WRIGHT: selected Latin authors; History of Roman Literature; Latin Composition.

Dr. J. H. TRUMBULL: the American Indian Languages, especially the dialects of the Algonkin family.

Professor WHITNEY: the general principles of Linguistic Science; the Comparative Philology of the Indo-European Languages; the Sanskrit Language.

Professor PACKARD and Professor F. D. ALLEN: critical reading of Greek authors; History of Greek Literature; Greek Historical Grammar and Dialectology, with study of inscriptions; Greek Mythology.

Professor WILLIAMS: the Chinese Language and Literature.

Mr. VAN NAME: the elements of the Japanese Language.

Professor LOUNSBURY and Professor BEERS: the Anglo-Saxon Language; the early forms and literature of English.

Professor CARTER : the older Germanic Languages and Literature, including Gothic.

Professor KNAPP : Spanish ; Italian ; Old French and Provençal ; the Russian Language.

Professor DAY : the Hebrew and other Semitic Languages.

4. *Mathematics*

Professor NEWTON : Calculus ; Analytical Mechanics ; Lunar and Planetary Theories ; Higher Geometry.

Professor CLARK : Definite Integrals ; Differential Equations ; Analytical Mechanics ; the Theory of Numerical Approximations ; the Method of Least Squares.

Professor GIBBS : the Laws of Vibratory and Undulatory Motion, with especial reference to Light and Sound ; the Potential Function, with its application to the theories of Electricity and Magnetism ; Capillarity.

5. *Physics ; Chemistry ; Astronomy*

Professor LOOMIS : Meteorology, with especial reference to the making and reducing of observations.

Professor NORTON : Spherical Astronomy.

Professor LYMAN : the use of Meridional and other Astronomical Instruments.

Professor JOHNSON : Theoretical and Analytical Chemistry.

Professor A. W. WRIGHT : Physical Manipulation in the departments of Heat, Light, and Electricity, with practical directions as to the management of apparatus.

Professor O. D. ALLEN : Analytical Chemistry.

Professor DuBOIS : Thermodynamics.

6. *Geology ; Natural History*

Professor J. D. DANA : Geology.

Professor BRUSH : the Analysis and Determination of Mineral species ; Descriptive Mineralogy.

Professor EATON : Structural and Systematic Botany, including the North American Flora and the description of genera and species.

Professor MARSH : Palæontology ; Comparative Osteology.

Professor VERRILL and Professor S. I. SMITH : Zoology.

Professor E. S. DANA : Optical Mineralogy ; Crystallography.

7. *Applied Science*

Professor NORTON : Applied Mechanics.

Professor LYMAN : Astronomical Spectroscopy.

Professor JOHNSON : Agricultural Chemistry.

Professor BREWER : Agriculture ; Forest Culture.

Professor O. D. ALLEN : Metallurgy ; Assaying.

Professor DuBOIS : Dynamical Engineering.

8. *Fine Arts*

For the instruction open to Graduates in the School of the Fine Arts, see page 72.

THE DEGREE OF MASTER OF ARTS is conferred on Bachelors of Arts of two years' standing or upwards, who have given to the Academical Faculty evidence of having made satisfactory progress in liberal studies after receiving their first degree.

Such evidence may be furnished by one year's systematic study (not professional) in New Haven, under the direction of the Academical Faculty, followed by an examination.

Such Bachelors of Arts of this College as may not choose to reside at the college for the prosecution of study, may show, at any time not less than three years after graduation, by their printed essays, or by submitting to special examinations, that they have spent a year in liberal (and non-professional) study, and are worthy of recommendation for this degree.

A committee of the Faculty is appointed (consisting, for the present year, of Professors NEWTON and WHEELER), to whom candidates for this degree must submit their proposed courses of study by the first of November in each year; and the evidence of a year's study must be submitted to the same committee by the first of the following June.

In the case of resident students, the charge for instruction will usually be one hundred dollars, with a fee of ten dollars for the degree. In the case of non-residents, the fee for examinations and the degree will usually be twenty-five dollars.

THE DEGREES OF CIVIL AND DYNAMIC ENGINEER are conferred on Bachelors of Philosophy who have taken the first degree in Engineering study, and who pursue a higher course for at least two years, sustaining a final examination, and giving evidence of their ability to design important constructions, and make the requisite drawings and calculations. The fee for graduation is five dollars.

UNDERGRADUATE ACADEMICAL DEPARTMENT

ALL CANDIDATES FOR ADMISSION to the Freshman Class are examined in the following books and subjects:

Latin Grammar.

Sallust—Jugurthine war; or four books of Cæsar.

Cicero—seven Orations.

Vergil—Bucolics, Georgics, and first six books of the *Æneid*, including Prosody.

Arnold's Latin Prose Composition, to the Passive voice (first twelve chapters). It is suggested to teachers, in addition to the use of the work named, to connect simple exercises in making Latin, either oral or written, with all the Latin studies of their pupils throughout the preparatory course.

After 1880 there will be also an examination in Roman History; Leighton's History of Rome is suggested, as indicating the amount required.

Greek Grammar—with translation of English into Greek.

Xenophon—Anabasis, four books.

Homer—Iliad, three books, with Prosody.

Greek History.

The rules for pronunciation given in Hadley's Grammar are recommended as a guide. For Greek History, Dr. William Smith's or Fyffe's text-book, and for Greek Composition, Jones's Exercises or White's Lessons, are suggested.

Higher Arithmetic—including the metric system of weights and measures.

Algebra—so much as is included in Loomis's Treatise, up to the chapter on Logarithms.

Euclid—first two books. [The *first five* books of Davies's Legendre's Elements of Geometry, or of Loomis's Elements of Geometry, or the first two books of Chauvenet's Geometry, may be offered instead of Euclid.] In Geometry, the candidate must be prepared to draw the figures for the demonstration of propositions.

English Grammar and Geography; a thorough knowledge of which is required.

THE REGULAR EXAMINATION FOR ADMISSION to College is held at Graduates' Hall, New Haven, on the Friday and Saturday following Commencement (July 2, 3, 1880); *attendance is*

required at the beginning of the examination, at 9 A. M., on Friday. The examination is wholly in writing; copies of papers recently given will be sent by the Secretary on application.

In 1880 examinations for admission to the Freshman Class (but not to higher classes) will also be held in Chicago and in Cincinnati (beginning on Friday, July 2, at 9 A. M.) at a place to be announced in the local newspapers of the day previous. Candidates who propose to be present are requested to send their names to the Secretary before June 15. A fee of five dollars will be charged for admission to these examinations.

A second examination (for those who cannot attend the first) is held in New Haven at the beginning of the College year, on Tuesday and Wednesday (Sept. 14, 15, 1880); candidates for this examination must be present at Graduates' Hall at 9 A. M. on Tuesday.

Persons applying to be examined at other times must first obtain special permission from the Faculty, and pay to the Treasurer a fee of ten dollars. In general, no examinations for admission to the next Freshman Class can be held before Commencement, or during vacation.

ADVANCED STANDING—All candidates for advanced standing, *whether from other Colleges or not*, are examined, in addition to the preparatory studies, in those studies already pursued (see next page) by the class which they wish to enter. In the several languages, for the particular books studied by the Class, equivalent amounts from other books may be offered.

Bachelors of Arts or of Philosophy of any institution may join the Senior Class (without examination and without becoming candidates for the Bachelor's degree), as candidates for the degree of Doctor of Philosophy after three years' study. (See p. 47.)

No one can be admitted to the Senior Class after the beginning of the second term.

AGE—No one can be admitted to the Freshman Class till he has completed his fifteenth year, nor to an advanced standing without a corresponding increase of age.

TESTIMONIALS—Satisfactory testimonials of good moral character (preferably from the last principal instructor) are in all cases required, before a certificate of admission is granted; and students from other Colleges must present certificates of dismissal in good standing.

BOND—Every person must give to the Treasurer, on being admitted, a bond, executed by his parent or guardian, for five hundred dollars, as security for the payment of charges arising under the laws of the college. A blank form for this purpose will be furnished at the time of admission.

COURSE OF INSTRUCTION

THE COURSE OF INSTRUCTION occupies four years. In each year there are two terms.

The following is a scheme of the studies, or, more correctly, of equivalents which will be accepted from candidates for advanced standing:—

FRESHMAN YEAR:

FIRST TERM—*Greek*—Homer's *Odyssey*, begun. *Latin*—Livy, begun; Cicero's Second Philippic; Arnold's Latin Composition (to page 150). *Mathematics*—Loomis's Algebra; Todhunter's Euclid, first four books; Chauvenet's Geometry. *Hygiene*—Lectures.

SECOND TERM—*Greek*—Homer's *Odyssey*, continued through five books; Herodotus, continued through half of the first book; Boise's Exercises in Greek Syntax (to page 85). *Latin*—Livy, continued through one book; Cicero *de senectute*; Ovid, Ramsay's Selections; Roman Antiquities. *Mathematics*—Chauvenet's Geometry; Richards's Plane Trigonometry, first six chapters. *Rhetoric*—Recitations and Lectures. Compositions.

SOPHOMORE YEAR:

FIRST TERM—*Greek*—Six Orations of Demosthenes. *Latin*—Odes of Horace; Agricola and Germania of Tacitus. *Mathematics*—Richards's Plane and Spherical Trigonometry. *Rhetoric*—Lectures on Composition. Compositions.

SECOND TERM—*Greek*—Prometheus of Æschylus; Xenophon's *Memorabilia*, one book; Antigone of Sophocles; Plato's Apology of Socrates and Crito. *Latin*—Satires and Epistles of Horace; Satires of Juvenal; Cicero *de officiis*. *Mathematics*—Richards's Spherical Trigonometry; Loomis's Analytical Geometry; Mensuration, Navigation, and Surveying; Mechanics. *Rhetoric*—Lectures on Elocution, with practice. Declamations. Compositions.

JUNIOR YEAR:

FIRST TERM—*Physics*—Ganot's Physics. *German*—Whitney's Grammar and Reader; German Composition. *English*—Chaucer, Milton; Forensic Disputations. *Chemistry*—Barker's Chemistry; Lectures.

For optional studies (*Latin, Greek, Mathematics, French, Spanish, Italian, English*) see below.

SECOND TERM—*Natural Philosophy*—Ganot's Physics. Lectures. *Rhetoric*—Forensic Disputations. *German*—Whitney's Grammar and Reader; German Composition. *Astronomy*—Loomis's Astronomy. *Logic*—Jevons's Logic.

For optional studies (*Latin, Greek, Mathematics, French, Spanish, Italian, English, Anglo-Saxon, Zoology, Botany, Fine Arts*) see below.

SENIOR YEAR:

FIRST TERM—*Mental Philosophy*—Porter's Human Intellect. Lectures. *Geology*—Dana's Geology. *Political Science*—Fawcett's Political Economy. Lectures. *Rhetoric*—Compositions.

For optional studies (*Latin, Greek, French, German, Spanish, Italian, Sanskrit, Mathematics, Astronomy, Mineralogy, European History, Fine Arts*) see below.

SECOND TERM—*Natural Theology and Evidences of Christianity*—Lectures. *Moral Philosophy*—Recitations. Lectures. *History of Philosophy*—Schwegler's History. *History*—Hallam's Constitutional History. Lectures. *Evolution and Cosmogony*—Lectures. *Rhetoric*—Compositions. *Political and Social Science*—Recitations. Lectures. *International Law*—Woolsey's International Law. *Elements of Jurisprudence and American Constitutional Law*—Lectures.

For optional studies (*Philosophy, Latin, Greek, French, German, Spanish, Italian, Sanskrit, Linguistics, Mathematics, Physics, Meteorology, Geology, Palæontology, American History, Political Science, Fine Arts*) see below.

OPTIONAL STUDIES—Every student is required to have four exercises a week in an optional study, during Junior and Senior years. Change from one optional to another is allowed at the end of Junior year, and also to a new optional whenever one is begun. In cases where an optional is withdrawn before the end of the year, any of the other optionals may be chosen in its place, provided the instructor is upon examination satisfied of the student's fitness to enter the class. Any student who can on examination show thorough acquaintance, in advance, with one or more of the required studies of Junior or Senior year, may choose instead a second optional. The following courses of optional studies are provided.

I. PHILOLOGY

I. ANCIENT LANGUAGES: (a) GREEK, through Junior and Senior years, four exercises a week, with Professor Packard. (b) LATIN, through Junior and

Senior years, with Professor Thacher, four exercises a week. (c) LATIN and GREEK, two exercises a week in each, through Junior and Senior years, with Professors Thacher and Packard. (d) SANSKRIT, through Senior year, with Professor Whitney, two double exercises a week.

2. MODERN LANGUAGES AND LITERATURE: (a) FRENCH, through Junior and Senior years, four exercises a week, with Professor Knapp; in Junior year, French Composition, authors of the XIXth century; in Senior year, French Composition, authors of the XVIIth and XVIIIth centuries, the French language being the only medium of instruction. A thorough knowledge of the elements of the French Language is required of students who choose French as an optional study in Junior year. The examination may be passed at the time of the Sophomore annual examination, or at the beginning of Junior year, and will be upon Keetels's Elementary French Grammar, or an equivalent. (b) SPANISH, through Junior and Senior years, four exercises a week, with Professor Knapp; Grammar and Exercises, readings in Cervantes, Lope de Vega, and Calderon, and cotemporary literature. (c) ITALIAN, through Junior and Senior years, with Mr. Speranza, four exercises a week; a special fee, \$30 a year, will be charged. (d) GERMAN, through Senior year, four exercises a week, with Professor Carter; Schiller's Die Piccolomini, Goethe's Iphigenie, selections from Goethe's Prose, Lessing's Nathan der Weise, German Composition. (e) ANGLO-SAXON, through the second term of Junior year, with Professor Beers, four exercises a week; Sweet's Anglo-Saxon Reader. (f) ENGLISH LITERATURE, through Junior year, with Professors Northrop and Beers, four exercises a week; Shakspeare, Spenser, and other authors; History of the Language and Literature.

3. LINGUISTICS: Through the first half of the second term of Senior year, two exercises a week, with Professor Whitney.

II. INTELLECTUAL PHILOSOPHY

With President Porter, through the second term of Senior year, two exercises a week.

III. HISTORY AND POLITICAL SCIENCE

1. EUROPEAN HISTORY, through the first term of Senior Year, with Professor Wheeler, four exercises a week; Hallam's Middle Ages.

2. AMERICAN HISTORY, through the second term of Senior year, with Professor Dexter, two exercises a week; Eliot's History of the United States; Frothingham's Rise of the Republic.

3. POLITICAL ECONOMY, through the second term of Senior year, with Professor Sumner, two exercises a week.

IV. MATHEMATICS AND ASTRONOMY

1. MATHEMATICS, through Junior and Senior years, four exercises a week, with Professor Newton; Loomis's Calculus, followed by Analytical Mechanics or Higher Geometry.

2. ASTRONOMY, through the first term of Senior year, four exercises a week, with Professor Loomis; Loomis's Astronomy.

V. MOLECULAR AND TERRESTRIAL PHYSICS

1. PHYSICS, through the second term of Senior year, two exercises a week, with Professor A. W. Wright.
2. METEOROLOGY, through the second term of Senior year, with Professor Loomis, four exercises a week; Loomis's Meteorology.

VI. NATURAL SCIENCE AND GEOLOGY

1. ZOOLOGY, through the second half of the second term of Junior year, four exercises a week, with Dr. J. K. Thacher.
2. MINERALOGY AND MATHEMATICAL CRYSTALLOGRAPHY, through the first term of Senior year, with Professor E. S. Dana, four exercises a week; Dana's Text-Book.
3. GEOLOGY, through the first half of the second term of Senior year, with Professor J. D. Dana, four exercises a week; Dana's Manual.
4. BOTANY, through the second half of the second term of Junior year, with Professor Eaton, four exercises a week.

VII. FINE ARTS

Four exercises a week, through the second term of Junior year, and through Senior year, in the School of the Fine Arts; the usual fees (\$18 for three months) are payable.

EXERCISES IN DECLAMATION AND COMPOSITION—The Senior Class have exercises in English composition, and the Junior Class in forensic disputation, through the year. The Sophomore Class during the whole year, and the Freshman Class during the latter half of the second term, have exercises in English composition.

The Sophomore Class have regular exercises in elocution; and once a week, during a part of the year, have an exercise in declamation before the Professor of Rhetoric and the members of the Class.

PUBLIC EXAMINATIONS are held at the close of the first and at the middle of the second term, on the studies of the term and half-term; and, at the close of the year, on all the studies of the year. The annual examinations are conducted wholly in writing, and continue for about two weeks.

VOCAL MUSIC—Gratuitous instruction in Vocal Music is given during a part of the year (the exercises being open to members of all the Departments of the College) subject, however, to a small charge for fire and lights.

TERMS AND VACATIONS

THE PUBLIC COMMENCEMENT is held on the Thursday after the last Wednesday in June. The first term begins eleven weeks from Commencement-day and continues fourteen weeks; the second term begins on the second Thursday in January and

continues until Commencement-day, with a spring recess—usually of eight days—including Easter. (See Calendar, p. 4.) The exercises of each term begin with prayers in the Chapel on Thursday morning.

LEAVE OF ABSENCE—No student is allowed to be absent without special leave, except in the vacations

PUBLIC WORSHIP

PRAYERS are attended in the Battell Chapel every morning, with reading of the Scriptures and singing, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on Sundays, at which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only on presenting to the President a written request therefor from the parent or guardian.

GYMNASIUM

THE GYMNASIUM is designed to provide all the students with opportunities for exercise. Those who use the bath-rooms pay a small fee for tickets.

EXPENSES

THE TREASURER'S BILLS are made out three times a year, viz., at the close of the first term, at the middle and at the close of the second term, at which times they are payable. The bills must be paid within two weeks after the beginning of the succeeding term or half-term, or the student is liable to be prohibited from reciting. Drafts on Boston, New York, and Philadelphia will be received at par.

The annual charge for tuition and incidentals is \$140.

For the rent and care of a half-room in the College buildings, the average charge is thirty-five dollars per year.

OTHER CHARGES—There are additional charges at graduation, amounting to eighteen dollars. If a student occupies a room alone, the charge for rent and care is ordinarily double that stated above.

ABSENCE ON LEAVE—A student who is absent from College on account of sickness, or for any other cause, and still retains his place in his class, pays full tuition during such absence.

BOARD is obtained at prices varying from three dollars and a half to six dollars a week. The average price is about four dollars and a half.

ROOMS—There are in the College buildings above two hundred rooms occupied by students, at prices varying (according to location) from \$25 to \$140 per year, not including vacations. Students living out of College are not allowed to room in any building in which a family does not reside, except by special permission of the Faculty.

FURNITURE, BOOKS, ETC.—Students provide for themselves furniture, fuel, lights, and text-books; if books and furniture are sold when the student has no further necessity for them, the expenses incurred by their use will not be great.

NECESSARY EXPENSES—The following may be considered a near estimate of the *necessary* annual expenses, for a student occupying a half-room in College, without including apparel, traveling, and board in vacations:—

Treasurer's bill (according to location of room), from	\$160	to	\$220
Board, 37 weeks, - - - - -	"	130	to 220
Fuel, lights, and washing, - - - - -	"	30	to 60
Use of text-books and furniture, - - - - -	"	30	to 60
Total, - - - - -	\$350		\$560

COLLEGE GUARDIAN—As a precaution against extravagance, parents at a distance sometimes deposit funds with one of the Faculty; who, in that case, attends to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of expenditures, for which services he charges a commission.

BENEFICIARY AID

The sum of \$12,000 and upwards, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially of those preparing for the Christian ministry. About one hundred thus have their tuition either wholly or in part remitted. Students needing such aid should apply to the President before November 1st in each College year. Assistance will be withdrawn from students who incur serious College censure, or who fail to maintain a reputable scholarship.

THE HARMER FOUNDATION OF SCHOLARSHIPS comprises six scholarships, each yielding one hundred dollars a year, to be given to deserving students of small means.

There are also eighteen other Scholarships, most of them yielding sixty dollars a year, which may be given to such students as shall be selected by the founders or the Faculty.

Students who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with many of the text-books used in the College course.

FELLOWSHIPS AND SCHOLARSHIPS

THE DOUGLAS FELLOWSHIP, with an income of about six hundred dollars a year, was founded in 1873 by Mrs. Samuel Miller, of New Haven, and named in memory of her brothers, Rev. Sutherland Douglas (Y. C. 1822) and George H. Douglas (Y. C. 1828). The incumbent, who must be a recent graduate of the Academical Department, pursuing non-professional studies in New Haven, is elected annually, but may not hold the fellowship for more than three years.

THE SOLDIERS' MEMORIAL FELLOWSHIP, with an annual income of six hundred dollars, was founded in 1875 by Mrs. Theodosia D. Wheeler, of New Haven, in honor of the alumni who fell in battle as Union soldiers, in the war of 1861-1865, and in especial remembrance of William Wheeler, of the class of 1855. The incumbent must be at the time of his election a graduate of the Academical Department, of not more than three years' standing. He shall reside in New Haven, pursuing non-professional studies, and may hold the Fellowship for a period not exceeding five years.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior class who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals), and Horace; provided he remain in New Haven as a graduate, one, two, or three years.

THE CLARK SCHOLARSHIP, yielding one hundred and twenty dollars a year, is awarded in each Senior Class to the applicant who has passed the best annual examinations in the studies of the course; provided he remain in New Haven one or two

years immediately after graduation, pursuing a course of study (not professional) under the direction of the Faculty.

THE LARNED SCHOLARSHIP, yielding three hundred dollars a year, and tenable for three years, is awarded in each Senior Class. The incumbent must reside in New Haven, pursuing a course of advanced study subject to the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding about one hundred and fourteen dollars a year, is awarded, whenever there is a vacancy, to the student in the Sophomore or Junior Class who passes the best examination in the classics and mathematics. The successful candidate receives the annuity (forfeiting one-third in case of non-residence) until the end of the third year after graduation.

THE WOOLSEY SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate receives the annuity, under certain conditions, during the four years of his College course. The student who stands second at this examination receives for one year the income of the HURLBUT SCHOLARSHIP; and the student who stands third, the income for one year of the THIRD FRESHMAN SCHOLARSHIP. The income of each of these Scholarships is sixty dollars.

THE W. W. DEFOREST SCHOLARSHIP, yielding one hundred and twenty dollars, is awarded to a student in each Senior class who has attained distinction in the study of French while in College, provided he remain in New Haven the year after graduation, pursuing a further course of study in the Romance languages under the direction of the Faculty.

PREMIUMS

THE DEFOREST PRIZE MEDAL, of the value of \$100, is awarded "to that scholar of the Senior Class who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, of twelve dollars each, are awarded in the Senior Class for the best specimens of English Composition.

THE SENIOR MATHEMATICAL PRIZES (the first consisting of a gold medal of the value of ten dollars and of ten dollars in

money, the second of ten dollars in money) are offered to the Senior Class for the best solutions of problems in both abstract and concrete mathematics.

COLLEGE PREMIUMS are offered to the Senior Class for the solution of problems in Practical Astronomy.

THE WINTHROP PRIZES (one of two hundred dollars and one of one hundred dollars) are offered to the Junior Class "for the most thorough acquaintance with the Greek and Latin poets," as shown at an examination during the latter half of the second term.

COLLEGE PREMIUMS are given in the Sophomore Class for English composition, and for declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

THE SCOTT PRIZE for excellence in German is offered to the Senior Class, and the SCOTT PRIZE for excellence in French to the Junior Class; these prizes are of the value of thirty dollars each, and are given in books.

BERKELEY PREMIUMS for Latin Compositions are offered to the Freshman Class near the end of the year.

THE JOHN A. PORTER PRIZE, of two hundred and fifty dollars, is offered at each Commencement for the best English Essay. Any person who has been studying for a degree in any department of the University during the entire College year may compete for this prize.

DEGREES

The degree of BACHELORS OF ARTS is conferred by the Corporation on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates are required to pay their dues to the Treasurer as early as the Monday before Commencement. For the degrees of Master of Arts and Doctor of Philosophy, see pages 47, 50.

SHEFFIELD SCIENTIFIC SCHOOL

THE SHEFFIELD SCIENTIFIC SCHOOL is devoted to instruction and researches in the mathematical, physical, and natural sciences, with reference to the promotion and diffusion of science, and also to the preparation of young men for such pursuits as require special proficiency in these departments of learning.

The School, begun in 1847, and reorganized upon a more extensive scale in 1860, received in 1863, by the act of the Connecticut Legislature, the national grant for the promotion of scientific education under the Congressional enactment of July, 1862. It thus became in consequence the "College of Agriculture and the Mechanic Arts" of Connecticut.

OFFICERS AND INSTRUCTORS—Upon the Governing Board, consisting of the professors permanently attached to the School, devolves its internal management and the greater part of the instruction. In addition to these, and the instructors employed during the current year (mentioned on p. 38), instruction is given in Elementary and Free-hand Drawing by Professor Niemeyer, of the School of the Fine Arts.

The Board of State Visitors consists of the Governor, Lieutenant Governor, three Senior Senators, and the Secretary of the Board of Education.

The Board of Councilors, invited by the Corporation to advise and assist in the progress of the School, are as follows: Hon. J. E. ENGLISH, of New Haven; Hon. M. JEWELL, of Hartford; Hon. J. R. HAWLEY, of Hartford; Hon. O. F. WINCHESTER, of New Haven; JOSEPH E. SHEFFIELD, Esq., of New Haven; Professor J. D. DANA, of New Haven; HENRY FARNAM, Esq., of New Haven; M. DWIGHT COLLIER, Esq., of St. Louis; Hon. WILLIAM E. DODGE, of New York City.

The instruction is intended for two classes of students:—

I.—Graduates of this or other Colleges, and other persons qualified for advanced or special study.

II.—Undergraduates who desire a training, chiefly mathematical and scientific, in part linguistic and literary, for higher scientific studies, or for other occupations to which such training is suited.

INSTRUCTION FOR GRADUATE AND SPECIAL STUDENTS

Persons who have gone through undergraduate courses of study, here or elsewhere, may avail themselves of the facilities of the School for more special professional training in the physical sciences and their applications, gaining in one, two or three years the degree of BACHELOR OF PHILOSOPHY, or, in two additional years of Engineering study, that of CIVIL ENGINEER or DYNAMIC ENGINEER.

Or, engaging in studies of a less exclusively practical character, they may become candidates for the degree of DOCTOR OF PHILOSOPHY, under the conditions already stated (see p. 47). The instruction in such cases will be adapted to the particular needs and capacities of each student, and may be combined with that given by the instructors in other departments. The list of graduate studies pursued, either wholly in the Scientific School, or conjointly with other departments, will be found on pp. 48-50.

SPECIAL STUDENTS—For the benefit of those who, being fully qualified, desire to pursue particular studies without reference to obtaining a degree, special or irregular students are received in most of the departments of the School; not, however, in the Select Course, nor in the Freshman Class.

It should be distinctly understood that these opportunities are not offered to persons who are incompetent to go on with regular courses, but are designed to aid those who have received a sufficient preliminary education elsewhere to increase their proficiency in special branches.

INSTRUCTION FOR UNDERGRADUATE STUDENTS

TERMS OF ADMISSION—Candidates must be not less than fifteen years of age, and must bring satisfactory testimonials of moral character from their former instructors or other responsible persons.

For admission to the Freshman Class the student must pass a thorough examination in the following subjects:

English—including grammar, spelling, and composition. In grammar, Whitney's *Essentials of English Grammar*, or an equivalent.

History of the United States.

Geography.

Latin—six books of Cæsar's Commentaries, or their equivalent, and simple exercises in prose composition.

Arithmetic—including the metric system of weights and measures.

Algebra—so much as is contained in Loomis's Treatise, up to the general theory of equations.

Geometry—Plane, solid, and spherical; including fundamental notions of symmetry, and examples of loci and of maxima and minima of plane figures:—an equivalent to the nine books of Chauvenet's Treatise, or to the ten books of Loomis's Elements and the Appendix, up to the section on Transversals.

Trigonometry—including the analytical theory of the trigonometrical functions, and the usual formulæ; the construction and use of trigonometrical tables; and the solution of plane triangles;—so much, for example, as is contained in Wheeler's Plane Trigonometry (Boston, 1877), or Richards's Plane Trigonometry (New York, 1878).

While no entrance examination is held in the *History of England*, candidates for admission are urgently advised to make themselves as familiar as possible with that subject; as a knowledge of it is essential to the most successful prosecution of some of the studies of the course.

Candidates will be allowed the option of passing on the above-named subjects in two successive years. In such a case they must present themselves for examination at the June examination of the first year in the following subjects or parts of subjects: *History of the United States, Geography, Arithmetic, Plane Geometry, and Algebra to Quadratic Equations.*

In order to have this preliminary examination counted, candidates must pass satisfactorily on *all* the subjects; and notice must be given of the intention to divide the examination to Professor G. J. Brush, Executive Officer of the School, on or before June 15.

In his preparation in GEOMETRY the candidate should, as far as practicable, have suitable exercises in proving simple theorems and solving simple problems for himself. It is important, too, that he should be accustomed to the numerical application of geometric principles, and especially to the prompt recollection and use of the elementary formulæ of mensuration. In TRIGONOMETRY he should be exercised in applying the usual formulæ to a variety of simple reductions and transformations, including the solution of trigonometrical equations. Readiness and accuracy in trigonometrical calculations are also of prime importance to the candidate. If the use of logarithms is postponed in his preparation till Trigonometry is taken up (which is by no means necessary or advisable), he should then have abundant applications of them to all forms of calculation occurring in ordinary practice, as well as to those appearing in the solution of triangles. Finally, in all of his calculations, he should study the art of neat, orderly, and readily intelligible arrangement.

IN LATIN, in order to secure the attainment of the required proficiency, the student should have such continued training in parsing as shall make him thoroughly familiar with declensions and conjugations, and accurate and ready in the application of the rules of syntax. As an additional guarantee of the proper mastery of these grammatical elements, the requirement has been adopted of "simple exercises in prose composition." By this is meant merely, such a course of elementary exercises in translation, orally and in writing, from English into Latin as, in connection with the systematic parsing just mentioned, shall necessitate a familiarity with grammatical forms and the leading principles of syntax, and thus render the reading of the six books of Cæsar (or their equivalent) more thorough and fruitful. Since this course of elementary exercises in translation is designed as a preparation for reading, and not as a sequel to it, it should be invariably begun at the earliest stage of the study of Latin. To avoid any misapprehension of the nature of the extent of the requirement, the following works are specifically named, among which the candidate for examination may make his own selection. These are Harkness's "Introduction to Latin Composition," 112 pages; Leighton's "Latin Lessons," 91 pages; Smith's "Principia Latina," Part I.; McClintock's "First Latin Book," 83 lessons (193 pp.). Any equivalent of these may be offered from the many useful books of a similar character. A knowledge of Prosody is not required.

The examinations for admission take place at North Sheffield Hall, on Friday and Saturday, July 2, 3, and on Tuesday and Wednesday, September 14, 15, 1880. Opportunities for private examinations may, in exceptional cases, be given at other times.

In 1880 examinations (for the Freshman Class only) will also be held in Chicago and in Cincinnati (beginning on Friday, July 2, at 9 A. M.), at a place to be announced in the local newspapers of the day previous. Candidates who propose to be present are requested to send their names to Professor G. J. Brush, Executive Officer of the School, before June 15. A fee of five dollars will be charged for admission to these examinations.

Candidates for advanced standing in the undergraduate classes are examined, in addition to the preparatory studies, in those already pursued by the class they wish to enter. No one can be admitted as a candidate for a degree, later than at the beginning of the Senior year.

THE COURSES OF INSTRUCTION, occupying three years, are arranged to suit the requirements of various classes of students. The first year's work is the same for all; for the last two years the instruction is chiefly arranged in special courses.

The special courses most distinctly marked out are the following:—

- (a.) In Chemistry ;
- (b.) In Civil Engineering ;
- (c.) In Dynamical (or Mechanical) Engineering ;
- (d.) In Agriculture ;
- (e.) In Natural History ;
- (f.) In Biology preparatory to Medical Studies ;
- (g.) In studies preparatory to Mining and Metallurgy ;
- (h.) In Select studies preparatory to other higher studies.

The arrangement of the studies is indicated in the annexed scheme.

FRESHMAN YEAR—INTRODUCTORY TO ALL THE COURSES

FIRST TERM—*German*—Whitney's Grammar and Reader. *English*—Lounsbury's History of the English Language ; Exercises in Composition. *Mathematics*—Analytical Geometry. *Physics*—Atkinson's Ganot, with experimental lectures. *Chemistry*—Recitations and Laboratory practice. *Elementary Drawing*—Practical Lessons in the Art School.

SECOND TERM — *Language, Physics, and Chemistry*—as stated above. *Mathematics*—Spherical Trigonometry (Wheeler's) : Elements of Mechanics. *Physical Geography*—Lectures. *Botany*—Gray's Lessons, with Lectures. *Political Economy*—Elementary Lectures. *Drawing*—Elementary Projection Drawing ; Isometric Drawing ; Descriptive Geometry begun.

For the Junior and Senior years the students select for themselves one of the following courses:—

(a.) IN CHEMISTRY

JUNIOR YEAR :

FIRST TERM—*Theoretical Chemistry*—Lectures and Recitations. *Qualitative Analysis*—Fresenius's. *Laboratory Practice*. *Blowpipe Analysis*. *German*. *French*.

SECOND TERM—*Laboratory Practice*—Quantitative Analysis. *Mineralogy*—Blowpipe Analysis and Determination of Species. Lectures. *French*. *German*.

SENIOR YEAR :

FIRST TERM—*Organic Chemistry*—Lectures and Recitations. *Agricultural Chemistry*—Recitations (optional). *Laboratory Practice*—Volumetric and Organic Analysis. *Geology*—Dana's. *Zoology*—Lectures and Excursions. *French*.

SECOND TERM—*Laboratory Practice*—Mineral Analysis and Assaying. *Geology*—Dana's Manual. *Metallurgy* (optional). *Mineralogy* (optional). *French*.

(b.) IN CIVIL ENGINEERING

JUNIOR YEAR :

FIRST TERM—*Mathematics*—Elements of the Theory of Functions ; Numerical Equations ; Differential Calculus. *Surveying*—Field Operations. *Drawing*—Descriptive Geometry, continued, including Warped Surfaces. *German. French.*

SECOND TERM—*Mathematics*—Integral Calculus. Rational Mechanics. *Drawing*—Shadows, Perspective, and Gearing. Topographical. *Surveying*—Topographical. *German. French.*

SENIOR YEAR :

FIRST TERM—*Field Engineering*—Laying out Curves. Location of line of Railroad, with calculations of Excavation and Embankment. Hencks's Field Book for Railroad Engineers. *Civil Engineering*—Resistance of Materials. Bridges and Roofs, begun. Stone Cutting, with graphical problems. *Geology*—Dana's. *Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *French.*

SECOND TERM—*Civil Engineering*—Bridges and Roofs. Building Materials. Stability of Arches and Walls. Mahan's Civil Engineering. *Dynamics*—Principles of Mechanism. Steam Engine. *Hydraulics*—Hydraulics and Hydraulic Motors. *Drawing*—Graphical Statics. *Astronomy*—Loomis's Astronomy, with practical problems. *Mineralogy*—continued. *Geology*—Dynamic. *French.*

(c.) IN DYNAMIC ENGINEERING

JUNIOR YEAR :

FIRST TERM—*Mathematics*—Elements of the Theory of Functions ; Numerical Equations ; Differential Calculus. *Surveying*—Field Practice. *Drawing*—Descriptive Geometry, continued, including Warped Surfaces. *German. French.*

SECOND TERM—*Mathematics*—Integral Calculus. Rational Mechanics. *Kinematics*—General Theory of Motion and Principles of Mechanism ; Elementary Combinations of pure Mechanism ; Pulleys and Belts ; Gearing and forms of teeth for wheels ; Parallel Motions. *German. French.*

SENIOR YEAR :

FIRST TERM—*Statics*—Application of the Principles of Statics to Rigid Bodies ; Elasticity and Strength of Materials ; Forms of Uniform Strength ; Stability of Structures ; Construction of Roof Trusses, Girders, and Iron Bridges. *Machine Drawing*—Bolts and Nuts ; Riveting ; Journals, Axles, Shafts, Couplings, Pillow Blocks ; Shaft-hangers, Pulleys ; Connecting Rods and Cranks ; Cross-heads ; Pipe Connections ; Valves ; Steam Cylinders, Stuffing Boxes, Glands, etc. Shop Visits. Blowpipe Analysis. *French.*

SECOND TERM—*Hydrostatics and Hydrodynamics*—Equilibrium and Pressure of fluids ; Hydrometers, Manometers, Gauges, etc. ; Water Pressure Engines and Water Wheels ; Construction of Water Reservoirs and Conduits ; Measurement of Water Supply ; Discharge of Pipes. *Thermodynamics*—General principles of Heat employed as a source of Power ; Theory of the Steam Engine ; Hot Air Engines ; Gas Engines. *Machine Designing*—Proportioning of Machine Parts, continued. Designing of Hoisting Engines ; Shearing and Pumping Engines ; Complete working drawings for a high speed Steam Engine. Shop Visits and Reports. *Metallurgy*.

(d.) IN AGRICULTURE

JUNIOR YEAR :

FIRST TERM—*Theoretical Chemistry*—Lectures and Recitations. *Qualitative Analysis*—Fresenius's. *Laboratory Practice*. *Blowpipe Analysis*. *German*. *French*.

SECOND TERM—*Organic Chemistry*—Lectures and Recitations. *Laboratory Practice*—Quantitative Analysis. *Mineralogy*—Blowpipe Analysis and Determination of Species. *Physical Geography*—Lectures. *Physiology*—Huxley's. *Botany*—Lectures. *French*. *German*.

SENIOR YEAR :

FIRST TERM—*Agriculture*—Cultivation of the Staple Crops of the Northern States. Tree Planting and Forestry. *Agricultural Chemistry*—Johnson's. *Geology*—Dana's. *Zoology*. *English*. *French*.

SECOND TERM—*Agriculture*—Laws of Heredity and Principles of Breeding. Lectures. *Geology*—Dana's. *Rural Economy*—History of Agriculture and Sketches of Husbandry in Foreign Countries. Systems of Husbandry. *Agricultural Chemistry*—Johnson's. *Geology*—Dana's. *Zoology*. *Botany*. *Microscopy*. *English*. *French*.

(e.) IN NATURAL HISTORY

(Either Geology, Mineralogy, Zoology, or Botany, may be made the principal study, some attention in each case being directed to the other three branches of Natural History.)

JUNIOR YEAR :

FIRST TERM—*Chemistry*—Qualitative Analysis. Laboratory Practice. Recitations. *Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *Botany*—Gray's Manual ; Laboratory Practice. *German*. *French*.

SECOND TERM—*Zoology*—Laboratory Practice. Recitations. Excursions (land and marine). *Botany*—Laboratory Practice. Excursions. *Physiology*—Huxley's. *Mineralogy*—continued. *Physical Geography*. *German*. *French*.

SENIOR YEAR :

FIRST TERM—*Geology*—Dana's. Excursions. *Zoology*—Laboratory Practice. Lectures. Recitations. Excursions. *Botany*—Herbarium Studies. Gray's Text-book. Excursions. *French*.

SECOND TERM—*Geology*—Dana's. *Anatomy of Vertebrates*—Huxley's. *Zoology*—Laboratory Practice. Recitations. Lectures. *Botany*—Herbarium Studies, especially in the Cryptogamous Orders. Botanical Literature. Essays in Descriptive Botany. *Meteorology*. *French*.

Besides the regular courses of recitations and lectures on structural and systematic Zoology and Botany, and on special subjects, students are taught to prepare, arrange, and identify collections, to make dissections, to pursue original investigations, and to describe genera and species in the language of science. For these purposes, large collections in Zoology and Palæontology belonging to the College are available, as are also the private botanical collections of Professor Eaton.

(f.) IN BIOLOGY—PREPARATORY TO MEDICAL STUDIES

JUNIOR YEAR :

FIRST TERM—*Theoretical Chemistry*—Lectures and Recitations. *Qualitative Analysis*—Fresenius's. Laboratory Practice. Recitations. *Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *German*. *French*.

SECOND TERM—*Physiology*—Huxley's, with Practical Exercises. *Toxicology*—Fresenius's. Laboratory Practice. Recitations and Lectures. *Physiological Chemistry*—Sanderson's Handbook. Recitations and Laboratory Work. *Mineralogy*—continued. *Botany*—Lectures, Practical Exercises in Phenogamous Plants, and Excursions. *German*. *French*.

SENIOR YEAR :

FIRST TERM—*Physiological Chemistry*—continued. *Organic Chemistry*—Lectures and Recitations. *Zoology*—Lectures. *Botany*—Practical Exercises. Lectures and Excursions. *Geology*—Dana's Manual. *French*.

SECOND TERM—*Comparative Anatomy and Histology*—Laboratory Practice and Recitations. *Geology*—Dana's Manual. *Zoology*—Lectures. *Laws of Heredity and Breeding*—Lectures. *French*.

(g.) IN STUDIES PREPARATORY TO MINING AND METALLURGY

Young men desiring to become Mining Engineers, can pursue the regular course in Civil or Mechanical Engineering, and at its close can spend a fourth year in the study of metallurgical chemistry, mineralogy, etc.

(h.) IN THE SELECT STUDIES PREPARATORY TO OTHER
HIGHER STUDIES

JUNIOR YEAR :

FIRST TERM—*Mineralogy*—Blowpipe Analysis and Determinative Mineralogy. *Astronomy*. *English*—Early English. *History*—Freeman's Outlines. *French*. *German*.

SECOND TERM—*Mineralogy*—Lectures. *Physical Geography*—Guyot. Lectures. *Botany*—Lectures; Excursions; Laboratory Practice. *English*—Chaucer, Bacon, Shakspeare. *History*—Freeman's Outlines, with Lectures. *Political Economy*—Rogers's Manual. *German*. *French*.

SENIOR YEAR :

FIRST TERM—*Geology*—Recitations and Excursions. *Zoology*—Lectures and Excursions. *Linguistics*—Whitney's Life and Growth of Language. *English*—Shakspeare. *History*—Constitutional History of the United States. Lectures. *Political Economy*—Lectures. *French*.

SECOND TERM—*Geology*—continued. *Meteorology*—Lectures. *Political Economy*—Lectures. *English*—Shakspeare, Milton, Dryden, Pope, and later authors. *History*—Political History of U. S. History of Europe from 1848. Lectures. *French*.

Exercises in English Composition are required during the entire course from all the students. The preparation of graduating theses is among the duties of the Senior Year.

Lectures on Military Science and Tactics are annually given by General Abbott, and other officers of the Engineer Corps of the United States Army.

THE TERMS AND VACATIONS correspond with those of the Academical Department. (See Calendar, p. 4.)

EXPENSES—The charge for tuition for undergraduate students is \$150 per year, payable, \$55 at the beginning of the first and second term, and \$40 at the middle of the second term. The special student of Chemistry has an additional charge of \$70 per annum for chemicals and use of apparatus. He also supplies himself with gas, flasks, crucibles, etc., the cost of which should not exceed \$10 per term. A fee of \$5 is charged members of the Freshman Class for chemicals and materials used in their laboratory practice, and the same fee

is required from all (except Chemical students) who take practical exercises in Blowpipe Analysis and Determinative Mineralogy. A fee of \$5 a term is also charged to students in the Zoological Laboratory, for materials and use of instruments. An additional charge of \$5 is annually made to each student for the use of the College Reading Room and Gymnasium.

For graduate students the charge for tuition will be \$100 per year.

THE FEES for graduation as BACHELOR OF PHILOSOPHY, are \$10; unless the person taking the degree is also a graduate of the Academical department, when the fee is but \$5.

DEGREES .

THE DEGREE OF BACHELOR OF PHILOSOPHY is conferred on those who have completed one of the three-year courses, and have passed the examination at its close.

CIVIL AND DYNAMIC ENGINEER—See page 50.

DOCTOR OF PHILOSOPHY—See page 47.

SCHOOL OF THE FINE ARTS

THE COUNCIL of this Department consists of the following *ex-officio* members :—the President of the College, the President of the National Academy of Design, the President of the New York Museum of Art, and the Director of the School, who is also the Secretary; together with four members by election, Mr. HENRY FARNAM, Mr. DONALD G. MITCHELL, Mr. EDWARD E. SALISBURY, and Mr. JOHN D. WHEELER.

THE FACULTY, on whom devolves the internal management of the School, consists of the President of the College, and the Professors whose names and departments of instruction are as follows :—JOHN F. WEIR, Professor of Painting, and Director of the School; JAMES M. HOPPIN, Professor of the History of Art; JOHN H. NIEMEYER, Professor of Drawing. Other instructors are, FREDERICK R. HONEY, in Geometry and Perspective; JOHN P. C. FOSTER, M.D., in Anatomy; HARRISON W. LINDSLEY, in Architecture; CHARLES R. LOOMIS, Assistant in Drawing.

The School has for its end the cultivation and promotion of the Arts of Design, viz.: PAINTING, SCULPTURE, and ARCHITECTURE, both in their artistic and æsthetic aims, through practice and criticism. The aim is—

1st. To provide thorough technical instruction in the Arts of Painting, Sculpture, and Architecture.

2d. To furnish an acquaintance with all branches of learning relating to the History, Theory, and Practice of Art.

The courses of instruction provided under these heads—of Practice and Criticism—may be regarded as distinct, or correlative, embracing that practical and theoretical knowledge of art which is no less desirable for the critic than for the artist.

THE COURSE OF INSTRUCTION, covering three years, is arranged as follows :

I. DEPARTMENT OF DRAWING AND PAINTING

First Year :

DRAWING—from the flat : from the antique : from the living model.

PERSPECTIVE—projection drawing : linear perspective.

ANATOMY—the skeleton : articulations : muscular system.

LECTURES—the elements of form : principles and means of art.

Second Year :

DRAWING—technical practice : studies from the living model.

PERSPECTIVE—shadows and reflections : applications and examples.

ANATOMY—the anatomy of external forms : proportions : equipoise and motion.

PAINTING—technical discipline : studies from casts and still-life.

LECTURES—on color, chiaroscuro, and composition.

Third Year :

PAINTING—technical practice : studies from the living model.

COMPOSITION—studies in color and chiaroscuro : design.

LECTURES—on the history, theory, and practice of art.

In the departments of Drawing and Painting the practice of the studio is based upon the study of the human form.

The practice in drawing is supplemented by lectures on Form and Proportion, and that in painting by lectures on Color, Chiaroscuro, and Composition.

Drawing is continued, without interruption, through the first half of the course, or until the student evinces that proficiency which will warrant advancement. Painting is continued through the remainder of the course. Students will be encouraged to remain in the School and pursue advanced studies after the three years' course is completed.

In PERSPECTIVE, instruction is given in the form of lectures; students will be required to work out the examples, or problems, and submit them for examination at the next meeting of the class. The subject has two divisions: the first is devoted to projection drawing and linear perspective; the second to shadows and reflections, with applications and problems. At the close of the course an examination is held, and the standing of the student determined.

In ANATOMY, instruction is likewise given in the form of lectures. This subject has also two divisions: the first is devoted to the bones and articulations of the skeleton, and

the muscular system; the second to the anatomy of external forms, proportions, equipoise, and motion. Students are required to draw, in detail, the parts under discussion by the lecturer, and submit the same, for examination, at the next meeting of the class. At the close of the course the relative standing of the pupils is determined by examination.

SPECIAL STUDENTS—Pupils wishing to enter the School for a short term (of not less than three months), and desiring special instruction, may enter the following classes:—Elementary; Antique; Portrait (crayon, oil, or water-colors); Sketching and Etching; Composition (embracing still-life and costume); Life (drawing or painting); Anatomy; and Perspective.

II. DEPARTMENT OF SCULPTURE

First Division:

MODELING—from casts of heads, and fragments of antique statues.

ANATOMY—skeleton: articulations: muscular system.

LECTURES—on form: principles of proportion.

Second Division:

MODELING—from the living model.

ANATOMY—external forms: equipoise and motion.

LECTURES—history of Greek Sculpture.

III. DEPARTMENT OF ARCHITECTURE

First Division:

DRAWING—from the flat: from casts of Architectural ornaments: India-ink and water-color drawing.

MATHEMATICS*—plane descriptive geometry: isometric projection: linear perspective.

ARCHITECTURE—the five orders: studies of classical details: projects—doors, windows, porticoes, etc.

* Students having the requisite knowledge of mathematical subjects may omit them, but will be required to pass examinations in the subjects specified above.

Second Division :

DRAWING—Casts of architectural ornament: water colors.

MATHEMATICS—descriptive geometry, including warped surfaces and stone-cutting: resistance of materials.

ARCHITECTURE—history of architecture: the various styles: studies of details in various styles: projects—dwelling-houses, stores, public-buildings, etc.

PROJECTS will be given out once a month (or once in two months), and the finished drawings will be placed on exhibition for comparison at the end of the year. Examinations will be held, and, at the close of the course, a programme will be given for a final project and thesis.

COURSES OF LECTURES are provided in each department of instruction, in addition to the technical discipline. A course of public evening lectures is also given, during the winter, to which the students are admitted free. These lectures, on the History and Philosophy of Art, and kindred subjects, are illustrated with photographs, thrown upon a screen by the calcium light. The attendance of the students on all the lectures, with the exception of the public lectures, is obligatory.

EXHIBITIONS of the work of students are held in February and May. The last will be public, and from the comparison thus afforded, the standing of the students will be in part obtained.

PRIZES may be competed for, both in Drawing and Painting, at the close of the course; the necessary qualification includes, in drawing, an approved knowledge of perspective; and in painting, a requisite acquaintance with anatomy—as provided for by the instruction given in these branches.

DIPLOMAS are only accorded to those who remain through the full course, or pass the requisite examinations. If qualified, the student may enter advanced classes at once.

The CHARGE FOR TUITION is \$36.00 for three months, *in advance*; and no student will be admitted for a shorter period. Undergraduate students, in any department of the College, are charged one-half the usual rate of tuition. Art students are admitted *free to* all the lectures delivered in the school,

whether public lectures or those in regular course; to the collections at all times; and are entitled to such privileges, under the usual restrictions, as are granted to students in the other departments of the College.

The School is open to both sexes, but no student will be admitted under fifteen years of age.

The ART LIBRARY is open at specified hours for the use of students.

The COLLECTIONS embrace the "Jarves Gallery of Italian Art," numbering one hundred and twenty paintings, dating from the 11th to the 17th centuries; the "Trumbull Gallery" of original portraits and other works, by John Trumbull, numbering fifty-four pictures; a collection of portraits and works of contemporaneous art, numbering about one hundred pictures; together with about one hundred and fifty casts and marbles, the former from many of the best productions of ancient art. The Collections are open daily for the use of students, and to the public, during the winter, from 1 to 5 P. M.; and during the summer, from 9 A. M. to 6 P. M. The proceeds of the exhibitions are applied to the purchase of material adapted to instruction, and to the incidental expenses of the School.

"Students' Season Tickets," at fifty cents each, admitting the holders to the Exhibitions throughout the year, are furnished to students of all other departments of the College.

This department is open to all who desire to avail themselves of its instructions, without restriction, save as to age and general good character. It aims to embrace a wide field of usefulness in connection with the knowledge and promotion of art, and to offer every facility to the student, both in the way of criticism and technical discipline.

The term begins October 1st and ends on the 31st of May.

All applications for admission to the School should be made through the Director. It is particularly desirable that these applications be made before October 1st.

DEPARTMENT OF THEOLOGY

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Lecturer on Church Polity and American Church History, a Professor of Hebrew Literature and Biblical Theology, a Professor of Systematic Theology, a Professor of Homiletics and the Pastoral Charge, a Professor of Ecclesiastical History, and a Professor of Sacred Literature.

THE CONDITIONS OF ADMISSION are membership in some evangelical church, or other satisfactory evidence of Christian character, and a liberal education at some College, or, in exceptional cases, an equivalent preparation for theological studies. Students of every Christian denomination, in case they are possessed of these qualifications, are admitted.

It is expected that every student will be promptly on the ground at the beginning of the session. Rooms are assigned in the order of application, but no room will be reserved for any applicant who neglects to appear, beyond one week after the opening of the term.

THE REGULAR COURSE OF INSTRUCTION occupies three years, and is arranged in the following order :

JUNIOR YEAR :

Professor DAY will lecture on the Encyclopedia and Literature of Theology, and give instruction in Hebrew Grammar and Philology. Portions of the historical books of the Old Testament in the original will be carefully read and analyzed, and critical and exegetical dissertations presented by the class on points of special difficulty or importance.

Professor DWIGHT will give instruction in the exegetical study of the Greek New Testament. The course includes, in addition to the regular exegetical exercises, the critical investigation of the Greek text and the study of the subjects connected with the Introduction to the New Testament. Dissertations of a critical and exegetical character will, also, be prepared by the students and discussed in the presence of the class.

Professor HARRIS will lecture on Mental Philosophy with special reference to the study of Theology ; also on Natural Theology, the Evidences of Christianity, and the Inspiration of the Scriptures ; also, as incidental to these topics, on the various forms of Skepticism.

MIDDLE YEAR :

Professor HARRIS will lecture on Systematic Theology. This course will include a full and systematic investigation of the doctrines of Christianity, and of existing questions and controversies in respect to them. The lectures are accompanied by examinations and free discussions.

Professor FISHER will lecture on General Church History, including the following topics: an historical survey of the Old or Preparatory dispensation in its relation to Christianity; the establishment and spread of Christianity (including Missions and persecutions); Ecclesiastical Polity (including the rise and rule of the Papacy, and the Reformation); and the History of Christian Life and Worship.

Professor DAY will give instruction in Biblical Theology, with special reference to the progressive stages of Divine revelation, and the doctrinal results of the modern critical study of the Bible. He will also lecture on portions of the Hebrew Scriptures, especially the poetical and prophetical books.

Professor DWIGHT will continue to give instruction by lectures and recitations, in the exegetical study of the New Testament, especially the Pauline Epistles.

Dr. BACON will give a series of lectures on Church Polity, with special reference to the polity and discipline of the Congregational Churches.

SENIOR YEAR :

Professor BARBOUR will lecture on Sacred Rhetoric and Homiletics, and also on Pastoral Theology, including the office, qualifications, pastoral duties, and special work of the ministry; he will also take charge of the practical exercises in Preaching, and in the criticism of the style and delivery of Sermons.

Professor FISHER will lecture upon the history of Christian Doctrine and on Symbolical Theology, and students will be aided in pursuing historical investigations for themselves.

Dr. BACON will lecture on American Church History.

Professor DWIGHT will lecture on some topics of special interest connected with the different books of the New Testament.

Professor DAY will read, with those who wish to prosecute the study of Syriac, the Peshito version of the New Testament.

Optional Studies in either Year :

Professor DAY will read, free of charge, with those students who desire to become familiar with the theological literature of Germany and have made some progress in the language, some standard work in German on Christian doctrine, with critical remarks, and references to the ablest works on special topics. The grammatical study of the language may be pursued with the classes in the Sheffield Scientific School.

Professor Whitney will give instruction to those who desire it in Sanskrit.

Instruction in vocal music is given gratuitously to students who desire it. (See p. 56.)

The following courses of lectures in the Academical Department may be attended, free of charge, provided that they do not interfere with the regular studies of the Seminary: on *Intellectual and Moral Philosophy*, by President PORTER; on *Natural Philosophy*, by Professor LOOMIS; on *Evolution and Cosmogony*, by Professor DANA; on *History*, by Professor WHEELER; on *Political and Social Science*, by Professor SUMNER. Students may also be admitted to the various courses of lectures in the Sheffield Scientific School. Those who intend to become Foreign Missionaries have the privilege of attending gratuitously the lectures in the Medical Department.

EXERCISES IN PUBLIC SPEAKING—There will be an exercise for all the classes, in the presence of the Faculty, once in two weeks, in the reading of the Scriptures and hymns, and in the delivery of sermons, or parts of sermons, or addresses. Every alternate week there will be a conference, designed to cultivate the power of *extemporaneous speaking*, in which the students will be called on to present their views on some subject selected by the Faculty. Weekly debates are also held by the students, in societies of their own.

Instruction in Elocution will be given by Mr. BAILEY, the Instructor in the Academical Department.

LICENSE to PREACH—The regular time for applying for a license is at the close of the second year's study, before which time members of the Department are not allowed to preach.

PUBLIC WORSHIP—Prayers are attended every morning in the MARQUAND Chapel, with reading of the Scriptures and singing. It is optional with the student whether to connect himself with the College Church, or with one of the City Churches; but whatever may be his decision it is hoped that he will actively engage, so far as may not be inconsistent with the prosecution of his studies, in some form of City Mission, Sabbath School, or other benevolent labor, for which constant opportunities are offered.

LIBRARIES—The Reference Library of the School, containing nearly two thousand volumes in various languages, and established through the liberality of Mr. Henry Trowbridge, of New Haven, is placed in the East Divinity Hall. It is designed to furnish the students with the standard and most recent books in every branch of theological literature and those most frequently called for in the pursuit of their studies. It is open daily for consultation, and thus takes the place, for each student, of a well selected private library.

The valuable Library of Church Music, belonging to the late Dr. Lowell Mason, has been recently given to the Department by his family. This Library, which is placed in the West Divinity Hall, and is one of the largest of the kind in the country, will be open for the use of students.

The College Library, to which the students have access without charge, contains over 90,000 volumes, and is open five hours on every secular day for consultation and for the drawing of books.

The library of the College literary societies, containing over 20,000 volumes in general literature, is accessible to theological students.

PHYSICAL EXERCISE—The College Gymnasium is open to the students of this department at a small charge. The harbor of New Haven affords excellent facilities for boating, to those inclined to this mode of exercise.

THE ROOMS in the two **DIVINITY HALLS** are provided with carpets, beds, and every necessary article of furniture (except bedding). They are assigned to new students in the order of application. A few rooms have two bedrooms, attached to them, but, in general, provision is made for each student to room alone. The buildings are warmed throughout by steam, and lighted by gas. Bath-rooms are placed on every floor. The buildings are thoroughly ventilated on an approved system.

EXPENSES AND PECUNIARY AID—Students have only to make pecuniary provision for about eight months of study annually. In the remaining four months of vacation, from May to September, they have the opportunity of engaging in Home Missionary or other labor, with remuneration for their services.

The expenses for the annual session are \$2.75 to \$4 a week for board; \$25 to \$30 for fuel and lights; and \$10 a year for care of room and other incidental expenses. There is no charge for instruction, room rent, or use of Libraries.

Students whose circumstances require it, will receive \$100 a year from the income of Scholarships and other funds belonging to the Department. Additional aid, generally to the amount of \$100 annually, but sometimes less, is afforded by the American Education Society to its beneficiaries. In special cases additional aid toward the expenses of board will be given. These means of assistance fully cover the expenses mentioned above.

The Scholarships belonging to the Department bear respectively the names of James Hillhouse, William Leffingwell, George E. Dunham, Normand Smith, E. E. Salisbury, Thomas R. Trowbridge, Charles Atwater, Richard Borden, Samuel Holmes, Charles Nichols, Roland Mather, Noah Porter, John

DeForest, J. R. Beadle, David Root, Mary Goodman, Orin Fowler, and Edward Bull.

A Graduate Scholarship has been established in this Department, as a memorial of the late Mrs. Aurelia D. Hooker, of New Haven. It will be offered for the third time to the class entering in 1880, and will be assigned at graduation to that member of the class who shall be judged by the Faculty to have made such proficiency in his theological studies as best to qualify him for the advantages afforded by this foundation for the further prosecution of the same. The person to whom the scholarship is given will receive the annual income (\$700) for two years after graduation, and will be expected to pursue a course of theological study, either as a resident at the Seminary, or in case he may prefer to do so, in Europe and Palestine.

After the close of the second year in May, students have frequent opportunities to receive remuneration for preaching in the neighboring churches.

In general it may be said, that sufficient aid will be provided for every young man who gives promise of usefulness in the ministry, to enable him, in connection with his own efforts, to complete a course of theological study.

COMMENCEMENT OF THE TERM, VACATION, ETC.—The session for 1879-80 began on Thursday, Sept. 11, and will continue till the third Thursday in May, when the public Anniversary is held. The annual examination of the classes, and the meeting of the Alumni, are held in the same week. The next annual term will begin on Thursday, September 16, 1880.

By thus throwing all the vacations into one, the most favorable season of the year is secured for study, while the opportunity is given, in the four months' vacation, to engage in some form of benevolent labor, in connection with the mission efforts of the churches, or in the service of one of the benevolent societies, by which the practical experience required of the pastor, as well as pecuniary compensation, may be obtained. Should any students prefer to spend the vacation in theological reading, the Professors will counsel them in the choice of books.

THE DEGREE of Bachelor of Divinity is conferred on all members of the Department who at the end of the Senior year pass the prescribed examination, and present an approved thesis on some *topic* in theology.

DEPARTMENT OF MEDICINE

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Chemistry and Toxicology, a Professor of Obstetrics and the Diseases of Women and Children, a Professor of Materia Medica and Therapeutics, a Professor of Histology and Pathology, a Professor of the Principles and Practice of Surgery, a Professor of Clinical Surgery, a Professor of Anatomy, a Professor of Physiology, a Professor of Ophthalmology and Otology, a Lecturer on Insanity, a Lecturer on Diseases of the Nervous System, a Lecturer on Diseases of the Throat, a Clinical Lecturer on Gynecology, and a Demonstrator of Anatomy.

The system of instruction in this department is arranged in a GRADED COURSE, extending over three full years.

The College year extends from the first Thursday in October to the last day in June, with a vacation of two weeks in the latter part of February.

The first term for the present year begins on Thursday, October 2d, and closes on Wednesday, February 11, 1880.

The second term begins on Thursday, February 26, and closes with Commencement, July 1st, 1880.

Both these terms taken together, constitute a continuous system of instruction with separate courses of study and lectures for the three classes, into which students are divided according to their attainments.

In both terms instruction is given by lectures and recitations, so arranged and combined with practical work in the Anatomical, Chemical, Physiological, and Pathological Laboratories as may best promote the advancement of students to a thorough knowledge of Medical Science.

REQUISITES FOR ADMISSION—All candidates for admission, excepting those who have passed an examination for admission to Yale College or some similar Institution, must present a degree in Letters or Science from a recognized college or scientific school, or pass an examination in the following subjects:

1. MATHEMATICS: Algebra, to Quadratics; Euclid, 2 books; Metric System of Weights and Measures.

2. LATIN: Translation of easy prose, or of Virgil's *Æneid*.

3. PHYSICS: Balfour Stewart's *Elementary Physics*, or any equivalent work.

These examinations will be conducted in writing. Grammar, spelling, and construction will be considered in judging of the papers. Graduates in medicine will not be required to pass this examination for admission.

Examinations in Preliminary Studies will be held at the Medical College, at 9 A. M., on the Wednesday before the first Thursday in October.

DIVISION OF STUDIES—The first year the studies are: General Chemistry,* Qualitative Analysis; Anatomy, Dissections; Histology; Physiology; Materia Medica and Therapeutics.

The second year the studies are: Histology and Pathology; Medical Chemistry and Toxicology; Anatomy, Dissections; Physiology and Embryology; Materia Medica; Therapeutics; Theory and Practice of Medicine; Obstetrics; Surgery.

The third year the studies are: Practical Histology and Pathology; Theory and Practice of Medicine; Physical Diagnosis; Clinical Medicine; Surgery; Clinical Surgery; Obstetrics; Diseases of Women and Children; Clinical Gynecology; Ophthalmology and Otology; Medical Jurisprudence; Insanity; Nervous Diseases; Diseases of the Throat.

It will be seen that the elementary branches are pursued the first year, and that they are reviewed and completed the second year. The practical branches are pursued the second year, and reviewed, continued, extended, and completed the third year.

Students who have studied elsewhere, either in any recognized Medical School, or under private preceptors of good standing, may enter an advanced class, upon passing the examinations required of those of equal grade.

CHEMISTRY—The instruction in Chemistry is given by lectures and recitations in the first term, and by laboratory work and recitations in the second term. The lectures are fully

* Students who have passed in the Undergraduate Department of Yale College, or at the Sheffield Scientific School, an examination in General Chemistry, including qualitative analysis, will be exempt from this branch, and may pursue the study of Medical Chemistry during the first year.

illustrated by experiments. Medical Chemistry, Toxicology, and Qualitative Analysis are taught at the desk and by recitations, with occasional didactic lectures. Students of the first and second years only, attend to laboratory work, but the lectures on Chemistry are open to all—being obligatory only upon the first and second year's students.

Students of the third year and special students prepared to undertake original researches in chemistry, are encouraged to do so, and are supplied with the means of investigation.

ANATOMY—The spacious and well-appointed dissecting rooms are amply supplied with anatomical material, under the personal direction of the Demonstrator, and are open to students from November until April. The Demonstrator's ticket covers all charges for anatomical material.

PHYSIOLOGY—At the last Commencement the Corporation of Yale College filled the vacancy in the Chair of Physiology by the appointment of JAMES K. THACHER, M.D., who will give instruction in a new and spacious Laboratory, supplied with apparatus for practical work.

HISTOLOGY AND PATHOLOGY—The lectures in this course are illustrated by the daily use of an ample supply of compound achromatic microscopes, on which two sets of preparations are exhibited at every lecture. In this manner the principal microscopic structures, both natural and morbid, including urinary deposits, are seen by the students.

Advanced students are instructed in the practical use of the microscope, in the preparation and examination of natural and morbid tissues.

In addition to the lectures, pathology is also taught by a course of recitations from a text-book.

Pathological Anatomy is illustrated by a large collection of specimens and drawings, with which the Museum is supplied, and supplemented by fresh pathological specimens. Students are also expected to attend all the Autopsies made at the Morgue of the State Hospital. This large and convenient Morgue was constructed with special reference to render autopsies available for the instruction of students.

OBSTETRICS AND DISEASES OF WOMEN AND CHILDREN are taught by lectures and recitations, with demonstrations of the usual surgical operations in midwifery. A gynecological clinic is held at the College every week.

MEDICAL JURISPRUDENCE — Several of the Professors will give lectures on Medical Jurisprudence as it is related to their respective departments of instruction.

OPHTHALMOLOGY AND OTOTOLOGY are taught throughout the year by a course of practical lectures. A weekly Clinic for diseases of the Eye and Ear affords rare facilities for advanced students to acquire knowledge of this class of diseases, and also the application of the various instruments employed in their diagnosis and treatment.

There are also special courses of instruction on Mental Disease, on Diseases of the Nervous System, and on Diseases of the Throat.

THE STATE HOSPITAL, containing over a hundred beds, constantly affords, in its spacious wards, ample material for the illustration of disease, and furnishes frequent opportunities for the performance of all the minor and capital surgical operations.

CLINICS are held at the College on five days in every week, in General Surgery, General Medicine, Diseases of the Eye and Ear, Diseases of Women, and Diseases of the Throat. These are further supplemented by the facilities afforded by the New Haven Dispensary and the Clinics which are held once or twice every week at the State Hospital. In connection with the Clinics, students are made thoroughly conversant with the special methods of the expert practitioner, by having exhibited to them from day to day all the recent advances attained in physical explorations, special manipulations, and the enlightened employment of remedies. All kinds of surgical operations are performed in the presence of the students, and every endeavor is made to familiarize them with the use of all instruments and surgical appliances. Students in the Middle and Senior classes receive free tickets to the Dispensary and are instructed in the diagnosis and treatment of special diseases.

MUSEUMS AND LIBRARIES—The **MUSEUM** contains a large collection of natural and morbid specimens, numerous casts, plates and models of elegant execution, and an extensive Cabinet of *Materia Medica*, all of which are made practically useful in illustrating the subjects taught. The Libraries of the University and the ample Cabinets of Mineralogy, Geology, Palæontology, Osteology and Zoology, are also open for the instruction of students.

COMPARATIVE ANATOMY, ZOOLOGY, AND OTHER DEPARTMENTS COLLATERAL TO MEDICAL STUDIES—Special advantages are offered to Medical students for the pursuit of Zoology, Comparative Anatomy, Botany, and other cognate studies, under distinguished teachers, in connection with the Sheffield Scientific School.

REQUIREMENTS FOR A DEGREE—Every candidate must be twenty-one years of age, and of good moral character; must have spent at least one continuous year at this School, and have passed the required examinations in all the studies of the three years course.

No theses are required for graduation; but theses or monographs embodying results of original research, and of marked excellence, will be honorably mentioned, and may be commended for publication in the transactions of the Connecticut Medical Society or elsewhere.

EXAMINATIONS—The Board of Examiners consists of the Faculty, and an equal number of the members of the Connecticut Medical Society appointed by the President and Fellows of the same. The President of the Society is *ex-officio* President of the Board.

Examinations, chiefly in writing, will be held at the end of each year to determine the standing of students with reference to their advancement to the studies of the succeeding year.

Final examinations in the elementary branches will be held at the end of the second year of study, and in the practical branches of medicine at the close of the third year.

Candidates for final examination must notify the Dean in writing of their intention, not less than one month prior to the time when the examination is to be held.

No student can receive his degree, until he has passed a satisfactory examination in all the subjects named in the annual announcements of the year of his connection with the College.

FEES AND EXPENSES

Matriculation Fee (annually),	\$5.00
Tuition Fee, for one year,	200.00
Incidentals of Laboratory,	10.00
Demonstrator's Ticket, including material,	10.00
Graduation Fee,	30.00

If the annual tuition fee is paid in two payments, \$120 must be paid for the first term of attendance, and \$80 for the second. Students who have attended and paid for two full years, will be entitled to attend the third year for \$100; if in two payments, \$60 for the first term and \$40 for the second.

BOND—Students who do not pay in advance are required to give a bond to the Treasurer of Yale College for three hundred dollars, executed by two satisfactory bondsmen: a blank for this bond will be furnished on application to the Dean of the Faculty. Those who deposit such bond will receive term bills shortly before the end of each term, to be paid on or before the beginning of the next succeeding term, and students who deposit bonds must notify the Dean of their intention to withdraw from the College and must pay all arrearages before they can receive back their bonds from the Treasurer. No degree can be conferred until all term bills are discharged.

DEPARTMENT OF LAW

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Mercantile Law and Evidence, a Professor of Elementary and Criminal Law and the Law of Real Property, a Professor of Constitutional Law, Contracts, and Wills, a Professor of the Law of Torts and Equity Jurisprudence, and a Professor of International Law. Lectures are also delivered by Rev. LEONARD BACON, D.D., LL.D., on Ecclesiastical Law, Hon. ORIGEN S. SEYMOUR, LL.D., on Judicial Procedure and Practice, Hon. LAFAYETTE S. FOSTER, LL.D., on Parliamentary Law and Methods of Legislation, Professor WAYLAND on English Constitutional Law and History, Professor ROBINSON on Forensic Oratory, the Origin of Law, and the Administration of Estates, MARK BAILEY, M.A., on Forensic Elocution, Professor BALDWIN on Roman Law, Professor PLATT on General Jurisprudence, and FREDERIC H. BETTS, M.A., on Patent Law.

TERMS AND VACATIONS—There are three terms in each year: the Fall Term, beginning on the last Thursday of September and continuing to the Thursday before Christmas; the Winter Term, beginning in January, after a vacation of three weeks, and closing the last Thursday of March; and the Spring Term, beginning on the second Thursday of April and continuing until Commencement. (See Calendar, p. 4.)

COURSE OF INSTRUCTION

UNDERGRADUATE COURSE

The Undergraduate Course occupies two years, the students being divided into two classes, for each of which a special course of study is provided. The daily exercises consist of lectures and recitations from standard text-books, the latter being accompanied by oral explanations. The students are frequently referred to the leading cases on the subject under consideration, and are required to be prepared for questions upon them at the next exercise; they are also encouraged to put questions freely to the instructor at all recitations. Moot

Courts are regularly held, at which one of the professors acts as judge. The students acting as counsel, in the argument of cases, are required to draw the necessary pleadings, according to the common law or equity forms, as the case may be.

Members of either Class can attend the lectures of Professors to undergraduates in other Departments of the College, whenever it is compatible with their other engagements; and, with a few exceptions only, without charge. They can also attend one or more of the special courses of graduate instruction in the Department of Philosophy and the Arts, or the lectures on Medical Jurisprudence, Anatomy, Insanity, etc., in the Department of Medicine, on payment of a moderate fee.

The regular course of study is as follows:

JUNIOR YEAR:

FALL TERM—Recitations: Elementary Law, Prof. Robinson; Contracts, Prof. Baldwin; Pleading, Prof. Robinson; International Law, Prof. Woolsey. Lectures: Nature and History of American Law, and Wills, Prof. Baldwin.

WINTER TERM—Recitations: Contracts, Professors Robinson and Baldwin; Evidence, Prof. Wayland; Torts, Prof. Platt. Lectures: Wills, Prof. Baldwin; Forensic Oratory, Prof. Robinson.

SPRING TERM—Recitations: Contracts, Professors Robinson and Baldwin; Pleading, Prof. Platt; Mercantile Law, and Evidence, Prof. Wayland; Real Property, Prof. Robinson. Lectures: English Constitutional Law, Prof. Wayland; Origin of Law, Prof. Robinson; Forensic Elocution, Mr. Bailey.

SENIOR YEAR:

FALL TERM—Recitations: Real Property, Prof. Robinson; Equity, Prof. Platt; Contracts, Prof. Baldwin. Lectures: International Law, Prof. Woolsey; American Constitutional Law, Prof. Baldwin.

WINTER TERM—Recitations: Contracts, Prof. Baldwin; Private Corporations, Prof. Robinson; Equity, Prof. Platt; Real Property, Prof. Robinson. Lectures: American Constitutional Law, Prof. Baldwin; Judicial Procedure, Judge Seymour.

SPRING TERM—Recitations: Corporations, Criminal Law, and Estates, Prof. Robinson. Lectures: Parliamentary Law, and Methods of Legislation, Judge Foster; Roman Law, and Practice, Prof. Baldwin; Patents, Mr. Betts; Ecclesiastical Law, Dr. Bacon.

Any one or more of these studies may be pursued by those who do not intend to engage in the practice of the Law, but wish to obtain a knowledge of its principles to complete their education, or with reference to mercantile pursuits.

The principal text-books used are, in Junior year, Robinson's Notes on Elementary Law, Blackstone's Commentaries, Cooley on Torts, Parsons on Contracts, Stephen on Pleading, Woolsey's Introduction to the Study of International Law, Greenleaf on Evidence, vol. i, and Washburn on Real Property; in Senior year, Parsons on Contracts, Story on Equity Jurisprudence, Angell and Ames on Private Corporations, and Washburn on Real Property.

Students are also recommended to read during their course the following works, in connection with their regular exercises: Kent's Commentaries, Smith's Leading Cases, Hadley's Roman Law, and Cooley on Constitutional Limitations.

At the close of the Spring Term, each Class is subjected to a written examination on the studies of the preceding year.

TERMS OF ADMISSION—Applicants for admission to the Junior Class must be at least eighteen years of age, and must produce certificates of good moral character. No student who has not taken a degree from some collegiate institution, will be admitted as a candidate for a degree, until he has passed a satisfactory examination on the outlines of the History of England, and of the United States, and the text of the Constitution of the United States. This will be conducted in writing, and the style of the composition and orthography in the answers, as written, must be such as to evince a competent knowledge of English Grammar.

To entitle a person to admission to advanced standing as a member of the Senior Class, he must be at least nineteen years of age; must, if a college graduate, have studied law under a competent instructor for at least one year, or at the law school of some college or university for at least six months; must, if not a college graduate, have studied law under a competent instructor for at least two years, or at a law school for at least one year; and must pass such examination as is required for those entering the Senior Class in the regular course, and also (unless a college graduate) such an examination as is required of applicants for admission to the Junior Class. Attorneys at law of any State are entitled to admission to the Senior Class, without examination, on the exhibition of their certificates of admission to the bar.

While time spent at another law school will be reckoned, to the extent above mentioned, as equivalent to an equal length of time in this school, on the part of those applying for admission to advanced standing, it will be

observed that the same examination is required in such cases as in all others.

Applicants for admission to advanced standing who have received a collegiate degree, or have passed the preliminary examination in English studies specified above, may either attend the regular annual Junior examination, which begins the second week before Commencement, or pass a special examination beginning on the first Saturday of the Fall Term, or on the last Thursday of February, at which it will be sufficient if they are prepared to be questioned on Kent's Commentaries, lectures 1 to 9 inclusive, 14 to 18 inclusive, and 20, 21, 60, 62, and 68; Parsons on Contracts, excepting only from vol. i, pages 9 to 40 and 217 to 233, and from vol. ii, pages 1 to 32 and 258 to 614; Blackstone's Commentaries, Robinson's Notes on Elementary Law, Stephen on Pleading (except book 4), Greenleaf on Evidence, vol. i, Woolsey's Introduction to the Study of International Law, and Cooley on Torts.

Special students, not candidates for a degree, will be admitted to any of the exercises of the School, without examination.

GRADUATE COURSE

The Graduate Course occupies two years, and is open to graduates from any Law School, having the degree of LL.B., under the conditions specified on p. 94. The vacations are the same as those in the Undergraduate Course in this department. The degree of Master of Law (M.L.) will be conferred upon examination at the close of the first year, and that of Doctor of Civil Law (D.C.L.) at the end of the second year. The curriculum for the first year is particularly designed to supplement that of the Undergraduate Course by affording further instruction in the branches there pursued; that of the second year is designed to meet the wants of those who aim at acquiring a thorough acquaintance with jurisprudence and its affiliated studies, as a means of completing their education, without confining themselves to such topics as are of the first necessity to the practicing lawyer.

The arrangement of the course is as follows :

FIRST YEAR :

Admiralty Law, and Patents, Prof. Robinson ; Practice in the U. S. Courts, Railroad Law, and American Constitutional History, Prof. Baldwin ; Municipal Corporations, and Practice in States having a Code of Civil Procedure, Prof. Platt ; Political History and Science, Prof. Sumner, or English Constitutional History, Prof. A. M. Wheeler ; International Law, Prof. Woolsey.

SECOND YEAR :

Parliamentary Law, History of the Law of Real Property, and Canon Law, Prof. Robinson ; Comparative Jurisprudence, and Conflict of Laws, Prof. Baldwin ; General Jurisprudence, Prof. Platt ; Roman Law, Mr. A. S. Wheeler ; Relations of Physical Geography to Political History, Prof. Brewer ; Political and Social Science, Prof. Sumner, or Political Economy, Prof. Walker.

Among the principal text-books used are Parsons on Shipping and Admiralty, Curtis on Patents, Desty's Federal Procedure, Pierce on American Railroad Law, Austin on Jurisprudence, Dillon on Municipal Corporations, Pomeroy's Remedies and Remedial Rights, the Commentaries of Gaius, Institutes of Justinian, selected titles of the Pandects, the Code Napoleon, Cushing's Parliamentary Law, and Wharton on Private International Law.

There will be regular exercises for those pursuing each year of the graduate course, the preparation for which, with the collateral course of reading which will be prescribed for each, the composition of the graduating thesis, etc., will be such as to occupy the working time of the students through the year.

A knowledge of Latin will be necessary for those pursuing the studies of the last year of the course, but will not be indispensable for candidates for the degree of M.L.

EXAMINATIONS—There will be preliminary examinations of candidates for admission to the Junior Class at the opening of the Fall Term, and at no other time.

Candidates for admission to the Senior Class will be examined as above, at the end of the Spring Term, or beginning of the Fall Term.

Seniors will be examined for a degree, only at the close of the Spring Term ; or on the last Thursday of February, when their prescribed period of study shall mature at that time.

Examinations for degrees in the Graduate Course will be held at the close of the Spring Term.

Every candidate for each degree, both in the Undergraduate and Graduate Courses, must also submit a written thesis on a given legal topic, which must be approved by the Faculty.

LIBRARY—The special Library of the Department, which has a permanent endowment for its support (the English Fund),* contains over eight thousand volumes, comprising a complete collection of the English, American, and Irish Reports of Judicial decisions, and an extensive collection of text-books, and works on jurisprudence and political history and philosophy. The consulting room is also supplied with the leading legal periodicals. The Library is open daily, during the term time, from 8 A. M. to 12:45 P. M., and from 2 to 5:45 P. M. (with the exception of Saturday afternoon). During vacation it is not opened until 9 A. M.

The students can also draw books without charge from the general University libraries, containing over 100,000 volumes.

PRIZES are annually awarded as follows:

The **TOWNSEND PRIZE**,† of one hundred dollars, to that member of the Senior Class who shall write and pronounce the best oration or thesis at his graduation, at the public anniversary exercises of the Department, on the day before Commencement.

The **JEWELL PRIZE**,‡ of fifty dollars, to that member of the Senior Class who receives the highest marks at the final examination of his class, at their graduation.

The **BETTS PRIZE**,§ of fifty dollars, to that member of the Junior class who receives the highest marks at his annual examination.

BUILDING, AND FACILITIES FOR OBSERVING PRACTICE—The School occupies an entire story of the Court House of New Haven County, having upon the same floor a lecture room accommodating two hundred students, a large library hall, a Moot Court room, an instructors' room, and other apartments furnishing every needed convenience for Law clubs and debating societies.

Two terms of the Supreme Court of Errors of Connecticut

* Established by Hon. James E. English, M.A., in 1873.

† Established by Hon. James M. Townsend, in 1874.

‡ Established by Hon. Marshall Jewell, M.A., in 1871.

§ Established by Frederic H. Betts, M.A., in 1875.

one term of the United States Circuit Court, and two terms of the United States District Court, are held annually in New Haven; and the Superior Court and Court of Common Pleas, the principal *nisi prius* Courts of the State, are also in session almost daily, during each of the Law School terms.

GYMNASIUM—The College gymnasium is open to members of the Law Department on payment of moderate fees.

DEGREES—In the Undergraduate Course the degree of Bachelor of Laws will be conferred by the Corporation, upon the recommendation of the Faculty of the Department, based on a satisfactory examination and the submission of a satisfactory thesis, on the following persons:

1st. Attorneys at Law, who have been members of the Department for one year after their admission to the Bar.

2d. Any students who have been members of the Department for not less than two years, and who passed satisfactorily the Junior Examination at the end of their first year.

3d. Students who have received the degree of Bachelor or Doctor in any of the Arts or Sciences from any incorporated College or University, and have subsequently been members of this Department for not less than eighteen months, and who passed satisfactorily an examination at the end of their first six or twelve months, on all the studies of the Junior year.

4th. Students who have been admitted to advanced standing as members of the Senior Class, and have remained in that Class for not less than one year.

The examination for the degree is conducted under the supervision of an examining committee, appointed by the Superior Court, and the successful candidates, if twenty-one years of age, are thereupon admitted to the Connecticut Bar.

In the Graduate Course the degree of Master of Law (M.L.) will be conferred by the Corporation, on the recommendation of the Faculty of the Department, on persons, who, after having taken the degree of Bachelor of Laws, at this or any other Law School, pursue, during at least one year, such a course of advanced studies as the Faculty may direct.

Bachelors of Laws, who also have the degree of Bachelor of Arts or of Philosophy, or who, having the degree of LL.B. from this College, ranked among the first quarter of their class in scholarship, according to their average marks at their

final examination for that degree, may, after having taken the degree of M.L., apply for that of Doctor of Civil Law (D.C.L.). All applicants for the latter degree must have a good knowledge of Latin, and also of either the French or German language. The course of instruction extends over one year after taking the master's degree, and the Faculty will recommend no one for the degree of D.C.L., who has not attained a high standard of proficiency in the studies pursued.

Neither degree will be conferred, except upon candidates who pursue their studies at New Haven under the direction of the Faculty, pass with credit a strict final examination, and present a satisfactory thesis.

EXPENSES—The fees for tuition and use of the Library in the Undergraduate Course are \$45 for the Fall Term, \$35 for the Winter Term, and \$35 for the Spring Term, or \$100 for the entire year, and in the Graduate Course, \$50 for the Fall Term, \$40 for the Winter Term, and \$40 for the Spring Term, or \$125 for each year; to be paid to the Treasurer of the College in advance, or secured by a bond satisfactory to him. Where payment is not made in advance, interest will be added. Candidates for a degree who pursue their studies beyond the minimum period of attendance required, before applying for examination, will be charged only half these rates for their subsequent tuition. The diploma fee is \$5, and the Court fees for admission to the Bar are \$8. A further fee of \$5 is chargeable for admission to practice in the United States Courts for the District of Connecticut, if this is also desired. The tuition charges for special students, not candidates for a degree, vary in proportion to the amount of instruction and supervision required, but will never exceed those made in the regular course.

Board and lodgings can be obtained at prices ranging from \$5 a week upwards.

For further particulars, inquiries may be addressed to Professor Francis Wayland, Dean of the Faculty.

PEABODY MUSEUM OF NATURAL HISTORY

TRUSTEES

PROFESSOR JAMES D. DANA, PH.D., LL.D., *Chairman*
HIS EXCELLENCY CHARLES B. ANDREWS, LL.D., *ex-officio*
THE HONORABLE ROBERT C. WINTHROP, LL.D.
PROFESSOR BENJAMIN SILLIMAN, M.D.
PROFESSOR GEORGE J. BRUSH, M.A., *Treasurer*
PROFESSOR OTHNIEL C. MARSH, M.A.
GEORGE PEABODY WETMORE, M.A.

CURATORS

OTHNIEL C. MARSH, M.A., *Curator of the Geological Collection*
ADDISON E. VERRILL, M.A., *Curator of the Zoological Collection*
EDWARD S. DANA, PH.D., *Curator of the Mineralogical Collection*

The gift of the Founder, GEORGE PEABODY, of London, was committed to the Board of Trustees, in 1866, "to found and maintain a Museum of Natural History, especially in the departments of Zoology, Geology, and Mineralogy in connection with Yale College." Of the entire gift (\$150,000), \$100,000 was devoted by the donor to the erection, on land given for the purpose by the President and Fellows of the College, of a fire-proof building, planned with special reference to subsequent enlargement. Of the remainder of the gift, the sum of \$20,000 is set apart as a reserve fund for the completion of the building, and the income of \$30,000 is available for the care of the Museum and the increase of its collections.

By the accumulations from investment of the original building-fund, the first wing of the Museum is now completed, at a cost of about \$140,000, or, with cases, \$175,000.

The basement will be used for exhibiting the collection of fossil footprints from the Connecticut valley, and for work and storerooms. The first story contains the Mineralogical Collection, and rooms for instruction in Mineralogy, as well as the general lecture room. The second story is entirely devoted to Geology, and the third to Zoology. The fourth is used for the collection in Archæology and Ethnology, and for storerooms.

So far as the collections are arranged, the Museum is open to students and the public every day in term-time.

LIBRARIES

THE COLLEGE LIBRARY numbers about 93,000 volumes, besides many thousand unbound pamphlets. It is designed for the use of the College officers, resident graduates, and the students of the various departments. Other persons may have the privilege of consulting the Library and drawing books, by permission of the Library Committee. The Library is open daily in term-time from 9½ A. M. to 1 P. M., and from 2½ to 5 P. M. (or, during the winter months, to 4½ P. M.)

In the same building is the LINONIAN AND BROTHERS LIBRARY, designed primarily for the use of the undergraduate students, and containing over 20,000 volumes. This Library is open daily, from 1½ to 2½ P. M.; on Wednesdays and Saturdays from 10 A. M. to 12 M. and from 1½ to 4 P. M.

The departments of Theology, of Medicine, and of Law, the Sheffield Scientific School, and the School of the Fine Arts, have each a special Library, accessible to the students of those schools respectively.

The Library of the AMERICAN ORIENTAL SOCIETY, numbering about 3,500 printed books and manuscripts, is kept in the College Library building.

SUMMARY
